TABLE OF CONTENTS

TABLE OF CONTENTS	1
CHAPTER 1: SECTION 1	9
INTRODUCTION AND AUDIT RISK LETTER	9
1.1 Audit Risk Letter	10
1.2 FY03-04 Closing and FY04-05 Opening Highlights	12
1.3 Agency Planning Guidelines For FY03-04 Closing And FY04-05 Opening Activities	14
1.3 Agency Planning Checklist FY03-04 Closing/FY04-05 Opening	16
CHAPTER 1: SECTION 2	23
OPENING AND CLOSING CALENDAR	23
2.1 Events Calendar	23
2.2 Fiscal Procedures Manual Calendar	32
CHAPTER 1: SECTION 3	33
GENERAL OPENING AND CLOSING ISSUES	33
3.1 COFRS Reports	33
3.2 Transaction Dating Data Elements	33
3.3 Assignment of Transaction ID Numbers	33
3.4 Properly Recording Fiscal Year Revenue	34
3.5 Specifying Vendor and Subrecipient Relationships in Contracts	34
3.5.1 Pass-through Entity Notification	35
3.6 VEND Table	36
3.7 Program Codes	36
3.8 Presence Budgetary Control	36
3.9 COFRS Hours of Operation	36
3.10 Cash Adjustments on Journal Adjustment Transactions (JA's)	36
3.11 Loans and Advances	36
3.12 Dating of Warrants	36
3.13 Ledgers Rolled after FY03-04 Final Close	37
3.14 Pre-Audit Sensitive Account Codes	37
3.15 Point-in-Time Reports	37
3.16 COFRS Fiscal Year Document Closing Table	38
CHAPTER 1: SECTION 4	39
ENCUMBRANCE ISSUES	39
4.1 New Year PO's and RQ's (Appropriation Booked)	39
4.2 New Year PO's and RQ's (Appropriation Not Booked)	40
4.3 Instructions for Encumbering FY04-05 Contracts Prior to July 1	40
4.4 Modification and Rollover of FY03-04 Purchase Requisitions and Purchase Orders	41

CHAPTER 2: SECTION 1	45
FY04-05 COFRS TABLE INITIALIZATION	45
1.1 Changes to Centrally Defined Tables.....	45
1.2 Recurring Entries	45
1.3 List of COFRS Tables Initialized for FY04-05	46
CHAPTER 2: SECTION 2	49
FY04-05 BUDGET	49
2.1 COFRS Budgetary Hierarchy Edits	49
2.2 Appropriation Type Codes	50
2.3 Spending Authority Indicators	51
2.4 Long Bill Recording - Overview	51
2.4.1 Long Bill Recording - FY04-05 APP2 Tables	51
2.4.2 Long Bill Recording - Shell Document.....	52
2.4.3 Long Bill Recording - Completing and Approving the Shell Document	53
2.4.4 Long Bill Recording - Policy Matters and Other Issues.....	53
2.5 Federal Funds Appropriated as Cash Exempt in Legislative Appropriations	54
2.6 Expense Budgets	54
2.7 Special Bill Recording	56
2.8 Nonappropriated Spending Authority	56
2.8.1 Carryforward of Federal Funds	56
2.8.2 Carryforward of Custodial Funds.....	57
2.9 Account Coding for Revenues Collected by the Department of Revenue for Other State Agencies	57
2.10 Overexpenditures Need to Be Restricted	58
2.11 Use of the COFRS TA Transaction.....	58
2.12 \$0 AP Documents	58
CHAPTER 2: SECTION 3	59
REVENUE SOURCE NOTE ANNOTATIONS PROCEDURES	59
3.1 Recording Annotations as Part of Budget Booking	59
3.2 Diagnostic Reports	60
CHAPTER 2: SECTION 4	61
REQUESTS FOR INTERIM SPENDING AUTHORITY AUTHORIZED BY CRS 24-75-111	61
4.1 Background	61
4.2 Process For Submitting Requests	61
4.2.1 Non Capital Construction Requests	61
4.2.2 Capital Construction Requests	62
4.3 Follow-up and Final Resolution.....	62
CHAPTER 3: SECTION 1	63
YEAR END APPROPRIATION TRANSFERS AND OVEREXPENDITURES	63
1.1 Statutory Authority for Appropriation Transfers and Overexpenditures.....	63

1.2	How to Request an Appropriation Transfer	64
1.3	How to Request an Overexpenditure Authorization	64
1.4	Deficit Fund Balances	65
1.5	Methodology Used to Determine Overexpenditures	67
CHAPTER 3: SECTION 2	73
	REQUESTING ROLLFORWARD OF APPROPRIATION AUTHORITY FROM FY03-04 TO FY04-05	73
2.1	Rollforward of Appropriated General and Cash Funds	73
2.2	Procedures for Appropriated General and Cash Fund Rollforward Requests	73
2.3	Rollforwards Related to Multiple-Year Contracts	76
2.4	Rollforwards Funded by Another State Agency	77
CHAPTER 3: SECTION 3	79
	CLOSING ACCOUNTING ISSUES	79
3.1	Preparing Accounting Estimates	80
3.1.1	Estimation of Accrued Expenditures	80
3.1.2	Estimation of Accrued Revenues	80
3.1.3	Continuous Improvement of Estimation Process	80
3.2	Accounts Payable Accruals	80
3.3	Accounts Receivable Accruals	81
3.4	Receivable Categories	82
3.5	Accounts Receivable Allowance and Write-Off	84
3.6	Reconciliation of Past Due Accounts Receivable Assigned to Central Collection Service	85
3.7	Exemptions from Timely Submission of Accounts to Central Collection Service (CCS)	85
3.8	Credit Cards	85
3.9	Augmenting Revenue	86
3.10	Biweekly Payroll	86
3.11	Furniture and Equipment Inventory	86
3.12	Cash Deposits with the State Treasurer	87
3.13	Compensated Absences Accrual	88
3.14	Prepaid Expenses and Consumable Inventories	89
3.15	Internal Control and Certification of Accounting and Reporting Systems	92
3.16	Year End Fund Balance Sweep Entries for Funds 100 and 461	92
3.17	Interfund and Intrafund Transfers	92
3.18	Clearing Abnormal Balances and Clearing Accounts	96
3.19	Use of Account Type Codes 23 and 24	97
3.20	COFRS Extracts	97
3.21	State Controller's Office Diagnostic Reports and INFOPAC	99
3.22	Changes to the COFRS Chart of Accounts	101
3.23	Reissuing Expired Warrants and Clearing the Expired Warrants Liability Account	101

3.24 Cancellation of Warrants Issued in FY03-04 and Canceled in FY04-05	102
3.25 Capital Lease Accounting in Governmental Funds	102
3.26 Closing a Fund	103
3.27 Pay Date Shift	103
CHAPTER 3: SECTION 4	107
FINANCIAL STATEMENTS	107
4.1 Higher Education Financial Statements	107
4.2 Non-Higher Education Agencies Financial Statements	107
4.3 Suggested PERA Pension Footnote Language.....	108
4.4 Financial Statement Line Item Account Groupings	110
4.5 Discretely Presented Component Units Required by GASB 39.....	125
CHAPTER 3: SECTION 5	127
SUPPLEMENTAL INFORMATION FOR STATEWIDE REPORTING	127
5.1 Agency Exhibit Listing	128
5.2 Exhibit A1 - Notification of Changes in the TABOR Base Fiscal Year Spending	130
5.3 Exhibit A2 - Notification of Changes in the TABOR District or Enterprise Status	132

CHAPTER 1: SECTION 1

INTRODUCTION AND AUDIT RISK LETTER

TO: Controllers and Chief Fiscal Officers of State Departments and
 Higher Education Institutions and Boards

FROM: Arthur L. Barnhart 
 State Controller

DATE: March 2004

SUBJECT: FY03-04 Closing/FY04-05 Opening Procedures

The “Highlights” section following this letter summarizes changes and improvements for this fiscal year. I would encourage each agency to make full use of the “Agency Planning Guidelines and Checklist” to ensure each of the tasks appropriate to your agency are specifically assigned. I have also included for your reference a copy of this year’s risk letter from the Office of the State Auditor. Success in this increasingly complex process can only be assured when each of us assumes personal responsibility for our portion of the open/close process. Each of you should be proud of the successful closings/openings in prior years. I look forward to a successful closing/opening for this year.

I sincerely appreciate everyone’s suggestions and efforts to improve this process every year. Your input is essential to continue improving the open/close process. I encourage everyone to use the Financial Data Warehouse throughout the year and at year end as an added tool for monitoring the accounting functions within your departments.

These procedures are available on our website at <http://www.colorado.gov/dpa/dfp/sco>. In addition to the procedures, many other items that were formerly available in this manual are now on our website where updated versions may be maintained to more easily reflect changes.

Best wishes for a successful close. I know with the budget and staffing constraints, closing will put a lot of pressure on your existing staff. Thank you for your continued cooperation and support; this year more than ever, I sincerely appreciate it.

1.1 Audit Risk Letter

STATE OF COLORADO

OFFICE OF THE STATE AUDITOR
(303) 869-2800
FAX (303) 869-3060

JOANNE HILL, CPA
State Auditor

Legislative Services Building
200 East 14th Avenue
Denver, Colorado 80203-2211

To: Agency Controllers

From: Joanne Hill, CPA

Topic: Preliminary Risk Areas for Fiscal Year June 30, 2004 Audit

Date: February 2004

At the request of the State Controller's Office, we are advising agencies of some preliminary risk areas for the Fiscal Year 2004 Statewide Single Audit. As always, we will be following up on prior year findings, performing normal audit tests as defined by generally accepted auditing standards, reviewing compliance with selected statutes, and addressing other agency-specific key financial items.

The risk areas identified for Fiscal Year 2004 include, but are not limited to, the following:

- **Internal Controls** - Ensuring that adequate internal controls are in place over the processing of and accounting for financial activity lessens the chance for potential misstatement or fraud. We have identified internal control environment issues in the prior year and will continue our review of agency internal control systems to determine any potential issues.
- **Timely Completion of Exhibits and Financial Statements** - The timely issuance of the State's financial statements begins with each agency completing its year-end closing activities within the time frame established by the State Controller's Office. During our previous audit, we noted several agencies that did not meet due dates. As a result, the agencies that submitted exhibits and financial statements after the established deadlines, significantly delayed the completion and audit of the State's financial statements.
- **Audit Adjustments and Post Closing Adjustments** - Adjustments not identified and submitted to the State Controller's Office in a timely manner increase the risk of misstatement and delay the completion of the State's financial statements. The number of audit and other post-closing adjustments has increased significantly over the past few years, with a substantial number being submitted after the deadlines established by the State Controller's Office. Although we noted improvement in the communication between agencies and the State Controller's Office with regard to adjustments arising from our audit, we will continue to emphasize the importance of identifying and submitting adjustments in a timely manner.
- **Year-end cutoff procedures** - As in prior years, we will review cutoff issues due to the importance in the budgetary process. In particular we will perform testing on the adjusting entries made by agencies. Adhering to year-end cutoff procedures help ensure that transactions are recorded in the proper fiscal year and decreases audit adjustments.

- **Federal awards** - It is essential for those agencies receiving federal funds to comply with the requirements in OMB Circular A-133. We continue to note problems during the audits including insufficient subrecipient monitoring, incorrect eligibility determinations, unallowable costs being charged to federal programs, and timeliness of cash draws. We will review agencies' use of documenting these types of transactions to ensure that adequate documentation is maintained.
- **Capital Assets** - The safeguarding and tracking of capital assets is essential to recording them properly. We continue to note problems in this area including insufficient documentation for the deletion of assets, and depreciation calculated incorrectly. Problems in this area increase the risk for the misappropriation of the State's capital assets. As in prior years, we will continue to work with agencies in reviewing their capital asset compliance.
- **Analytical Review** - The use of analytical reviews can aid in identifying potential problems or concerns. Our office regularly uses such techniques to identify fluctuations in revenue and expenditures. We will review agencies' use of analytical reviews to identify and prevent errors and irregularities.

1.2 FY03-04 Closing and FY04-05 Opening Highlights

The following items are brought to your attention, as they represent a new area of emphasis or address problems identified during last year's closing process. Review of these highlights should not be used as a substitute for a close review of the text of these instructions.

1. Agencies that receive federal funds from pass-through entities are reminded of their special obligation to report audit information to those entities. (See Chapter 1, Section 3.5.1.)
2. An overexpenditure must be approved or an appropriation transfer authorized prior to releasing warrants. Approval of overexpenditures and transfers are subject to various statewide dollar limits and other criteria. In the event that these limits are reached, departments may have to seek legislative action for the following fiscal year prior to releasing warrants. (See Chapter 3, Section 1.) The process for the transfer and overexpenditure forms has changed from a paper to an e-mail submission. Approved overexpenditures will have the final form signed by the department's executive director instead of submitting a separate letter to the State Controller. The due date has been moved to July 23, one week prior to agency close.
3. In governmental funds, certain accounts receivable accruals result in recording deferred revenue. These deferred revenues must be reconciled and converted to full accrual in fund 471. (See Chapter 3, Section 3.3)
4. In accordance with Senate Bill 03-197, the June payroll funded by General Funds will be reported as an expense for financial reporting purposes in FY03-04, but recorded against the FY04-05 budget. The biweekly payroll for the period ended June 11 that would normally be paid on June 25th will be paid to employees on July 1, 2004. This is the same GAAP and budgetary reporting as last fiscal year. (See Chapter 3, Section 3.27)
5. The financial statement line item account groupings have been updated based on a review of last year's roll-ups. A line item has been added for restricted receivables. The most significant changes are in the Statement of Revenues, Expenses and Changes in Net Assets and the Cash Flow Statement. All agencies are required to segregate investments between short-term and long-term. (See Chapter 3, Section 4.4)
6. The state's PERA contribution percentage in this fiscal year is 10.15%. The suggested PERA pension footnote disclosure language has been updated. (See Chapter 3, Section 4.3)
7. Higher Education institutions are required to include discretely presented component units (DPCUs) in their financial statements and provide the DPCU audited financial statements to the State Controller's Office by October 31. (See Chapter 3, Section 4.5) Receivable and payable accounts (including leases payable) have been added to the chart to accommodate separate reporting of amounts due-from and due-to DPCUs.
8. There are changes to the exhibits: (See Chapter 3, Section 5) E-mail addresses of exhibit preparers should be provided on each exhibit. The Exhibit C has been revised to increase the level of detail for bonds, COPs, and notes. Agencies must use the beginning balances provided on the Exhibit Reconciling Balances Report because the level of detail has changed from the prior year. Carrying value of the old debt and reacquisition price were added to Exhibit G. Fiduciary fund investments must be reported in the financial statements by investment type; this will require separate Exhibits N for certain funds within College Invest, DPA- Employee Benefits, and DOT –

Investment Trust Fund. Reporting of capitalization of interest during construction for proprietary funds was added to Exhibit U.

9. Chapter 3, Section 5.16 lists the SCO assigned Federal Org Codes that are currently available. If there are updates to the CFDA numbers from the federal government before the end of the fiscal year, we will issue an alert notifying agencies of the changes and we will update the Manual on the SCO web site.
10. Chapter 5, Section 1 and Chapter 3, section 3.21 lists all of the SCO diagnostic reports available on COFRS, the purpose of the report, the fields and how to read them.
11. Chapter 6 Section 1 is updated to reflect the new treatment of expired and re-issued warrants. Senate Bill 03-062, effective August 1, 2003, mandates that all outstanding warrants are now subject to the unclaimed property law and will revert to the Unclaimed Property Fund upon expiration. Previously, only outstanding warrants written on Fund 100 reverted to the Unclaimed Property Fund upon expiration.
12. Chapter 9 Section 1 was revised to clarify the requirements for capital project accounting. Higher Education institutions should not use transfer codes when recording augmenting revenue as memo entries in Fund 461.
13. Chart of Accounts Changes – Numerous changes have been made to the chart of accounts. The Chart is also updated on the SCO website each quarter. (See Appendix 2)
14. The SCO will distribute the report of Unrealized Gains/Losses on investments held by the Treasury to agencies after Period 12 close.

1.3 Agency Planning Guidelines For FY03-04 Closing And FY04-05 Opening Activities

To ensure a successful close, adequate planning and scheduling of year end activities are critical to agencies. It is imperative that agencies plan and complete critical tasks early in the year and monitor year end activities closely. The following information is designed to give agencies helpful suggestions for developing plans to complete both current year closing and new year opening activities.

- 1) Identify critical dates.
- 2) Identify critical tasks for new year opening activities:
 - a) Review new year preliminary Long Bill for APP2 and annotation changes.
 - b) Review all outstanding encumbrances: Are they valid for the new year?
 - c) Add new APP2 records.
 - d) Request changes/deletions of incorrect or unneeded APP2's by your field accounting specialist.
 - e) Prepare Long Bill booking worksheet.
 - f) Process AP's to record FY04-05 Long Bill using the book process.
 - g) Prepare expense/revenue budget worksheets.
 - h) Process expense (EB) and revenue (RB) budget documents.
 - i) Process FY04-05 encumbrance documents as needed.
 - j) Review all capital construction appropriations for completion of CCCAS forms.
 - k) Review agency-defined coding structures, sub-object, sub-revenue, GBL's, organization and program codes. Be sure to make all GVAL entries that are needed so that EPS encumbrances rolled into the new year on RO documents will not reject.
 - l) Identify special and supplemental bills with appropriations or spending authority that must be recorded.
 - m) Identify potential appropriation rollforwards.
 - n) Make needed changes to the REJA, REJV, and REPV tables.
- 3) Identify critical tasks for year end closing activities:
 - a) Clear documents off SUSF.
 - b) Clear out invalid encumbrances.
 - c) Record all augmenting revenue and receivables including distribution of indirect cost recoveries.
 - d) Take the fixed asset inventory and record adjustments. Be sure depreciation expense and accumulated depreciation are recorded appropriately.
 - e) Calculate and record compensated absences liability. Segregate the liability into current and non-current portions.
 - f) Clear (pay) outstanding invoices; record payables.
 - g) Review balance sheet accounts for accuracy.
 - h) Confirm intra/interfund payables/receivables in excess of \$1,000.
 - i) Record and process all cash receipts by the Treasurer's closing date.
 - j) Insure that all transfer expenditures and revenues are in balance.
 - k) Review proper classification of revenues for TABOR reporting purposes.
 - l) Review year end diagnostic reports.
 - m) Clear all default and clearing accounts.
 - n) Prepare all required exhibits and use e-mail or electronic submission.
 - o) Submit agency/department financial statements if required.

- 4) Every task should have an individual assigned the responsibility for its completion.
- 5) Identify timelines for completion of critical tasks:
 - a) Identify start dates for all tasks to assure that they are completed by the deadlines.
 - b) Identify checkpoints on the status of tasks to assure staying on schedule.
- 6) Ensure that internal cutoff dates and deadlines are established early enough to allow sufficient lead time for meeting statewide deadlines.
 - a) Cut off issuance of POs according to the dates established by purchasing.
 - b) Cut off acceptance of PV requests prior to system cutoff date.
 - c) Cut off central services, correctional industries orders well before the IT cutoff date; remember that State Forms is using the EPS inventory system for its billings.
- 7) Establish a regular process for monitoring the status of tasks:
 - a) Schedule regular status meeting to report progress.
 - b) Monitor and review reports and on-line tables to verify status and progress.
 - c) Use the checklist to record status and completion of tasks and deadlines
- 8) Establish a process to address problems as they arise.
- 9) Review your plan and make necessary changes for next year.

1.3 Agency Planning Checklist FY03-04 Closing/FY04-05 Opening

<i>Due Date</i>	<i>Date Completed</i>	<i>Task</i>	<i>Ref. Page #</i>
Beginning July 1		<p><i>Italics = closing; regular type = opening.</i></p> <p>The following items are ongoing accounting issues that agencies need to be aware of during the fiscal year to help ensure the year end closing process goes smoother. The issues may not apply to every agency. The issues are grouped by topic area:</p> <p>Capital Assets and Infrastructure:</p> <p>_____ <i>Establish and publish the planned condition level at which infrastructure assets reported under the modified approach will be maintained. (Department of Transportation only)</i></p> <p>_____ <i>For infrastructure assets reported under the modified approach, estimate the dollar amount of expenditures necessary to maintain that infrastructure at the planned condition level. (Department of Transportation only)</i></p> <p>_____ <i>Record depreciable assets separately from nondepreciable assets (affects land improvements and art & historical treasures).</i></p> <p>_____ <i>Use account type 23 for capital asset acquisitions by non-higher education proprietary fund types.</i></p> <p>Capital and Operating Debt:</p> <p>_____ <i>Amortize premium/discount and gain/loss on debt refunding (debit/credit 6730, or 6740 and debit/credit balance sheet account 2801, 2806, 2803, 2807, or 2809.)</i></p> <p>_____ <i>Record capital asset related debt separately from operating debt.</i></p> <p>_____ <i>Record bond premium proceeds in an other financing revenue source code (RSRC 7010) separately from bond proceeds (RSRC 7000), and track the premium in a separate balance sheet account (2801 or 2806) for future amortization.</i></p> <p>_____ <i>Code capital grants separately from operating grants. Capital grants should be recorded in revenue source codes 7430, 7530, 7630, 7730, or 7830.</i></p> <p>Assets and Liabilities:</p> <p>_____ <i>Record deferred revenue related to advances (250X) in balance sheet codes separately from deferred revenue related to long-term assets such as taxes receivable (2530).</i></p> <p>_____ <i>Record restricted assets and related liabilities in a fund separate of the related operating fund for the activity. You may need to request that SCO create a new fund.</i></p> <p>_____ <i>Record proprietary fund type assets and liabilities in current and noncurrent accounts to support a classified statement of net assets</i></p> <p>_____ <i>Prepare to segregate year end current liabilities (due within one year) from noncurrent liabilities (due after one year) for governmental funds. This requirement includes compensated absences.</i></p>	

<i>Due Date</i>	<i>Date Completed</i>	<i>Task</i>	<i>Ref. Page #</i>
		<i>Italics = closing; regular type = opening.</i>	
		<i>Record the principal of permanent funds (nonexpendable portion) in a fund separate from the earnings or expendable portion of the permanent fund.</i>	
		Revenues and Expenditures:	
		<i>Use intrafund and interfund coding to separate disbursements of pass-through federal grants (object code 5770 and 5771) and state grants and contracts (object codes 5775 and 5776).</i>	
		<i>Code additions to Permanent Funds to revenue source code 9525.</i>	
		<i>Record deferred compensation plan contributions segregated between member contributions (RSRC 9531) and employer contributions (RSRC 9532)</i>	
		<i>For internal service funds serving primarily governmental activities, record internal service fund charges for services in the accounts that indicate the source of the revenue by program (RSRC 44XX). Also for internal service funds, record all external transactions in the Non-Program Service Fee revenue sources codes (revenue source class 440) or in RSRCs outside 44XX. This will allow SCO to exclude external transactions from the year end look back adjustment.</i>	
Beginning March 1		Changes and deletions to APP2 submitted to field accounting specialist for approval.	49
Beginning March 1		Submit requests to COFRS for FY04-05 automatic document numbering prefix identifiers (ADNT table entries).	33
April 19		<i>Requisitions for items not on state contract or price agreement must be received by agency purchasing contacts --- delivery by June 30.</i>	n/a
May 10		<i>Purchase requisitions for items on state contract/price agreement received by appropriate purchasing agent -- - delivery by June 30.</i>	n/a
May 29		<i>Expired warrant selection process runs and populates EXPW table for agency review and posting of federal portion.</i>	101
June 7		<i>Bank confirmations sent to confirm all agency bank accounts.</i>	182
June 18		<i>Requests to cancel or reissue aged warrants from the EAP18R report submitted to SCO for processing prior to the expired warrant purge.</i>	101
Beginning June 14		Review EAP03R for Aged Open Encumbrances Report for identification and posting of a lapse indicator to PORL.	41

<i>Due Date</i>	<i>Date Completed</i>	<i>Task</i>	<i>Ref. Page #</i>
<i>Italics = closing; regular type = opening.</i>			
June 18	_____	Target date to have all revenue receiving appropriations active in COFRS and to notify the Department of Revenue of the coding string.	57
June 21 June 21	_____	Deadline for agencies' 3rd level approval on AP transactions needed to record FY04-05 Long Bill.	54
June 25	_____	<i>Requests submitted to SCO for the cancellation of FY03-04 warrants. No FY03-04 warrants will be canceled after June 25 ;they will be canceled in FY04-05.</i>	101
June 30	_____	<i>Physical inventory of consumable goods completed on or before this date.</i>	88
June 30	_____	<i>Petty cash and change funds counted.</i>	192
June 30	_____	<i>Cash deposited with the State Treasurer's Office prior to the cutoff (walk-in cutoff is 2:00 pm). Wire or electronic transfer to the treasurer by close of business.</i>	86
June 30	_____	<i>All inventory module transactions must be cleared by the close of business.</i>	90
July 5	_____	<i>Last FY03-04 biweekly payroll posted.</i>	86
July 8	_____	<i>Deadline for Initiation of IT's required for period 12 close.</i>	80
July 13	_____	<i>IT's with higher education processed.</i>	80
July 15	_____	<i>CR documents completed and approved by the State Treasurer.</i>	86
July 16	_____	<i>IT's with non higher education processed.</i>	80
July 19 – 23	_____	<i>Initiate intra/interfund receivable/payable confirmations and refer disputed amounts to your field accounting specialist as early as possible in this period.</i>	210
July 15	_____	Last day to have PO's accepted on COFRS for encumbrances to automatically roll into next fiscal year.	39
July 16	_____	PORA table reviewed for roll/lapse and changes made to account codes prior to encumbrances automatically rolling to FY04-05. Appropriation codes for rollforwards should have \$0 if necessary so that the code will accept the rollforward encumbrance.	41
July 16	_____	<i>All balances from balance sheet 2751 cleared.</i>	101

<i>Due Date</i>	<i>Date Completed</i>	<i>Task</i>	<i>Ref. Page #</i>
<i>Italics = closing; regular type = opening.</i>			
July 16	_____	<i>Clear all default and clearing accounts. These include the following balance sheet accounts: 1583-1599, 2510, 2520 and 2751. (Target date)</i>	96
July 16	_____	<i>Rollforward requests submitted to SCO.</i>	73
July 16	_____	<i>All intra/interfund receivable/payable issues related to Central Services billings resolved with Audrey Aultman, (phone 303-866-2433).</i>	210
July 23	_____	<i>Capital Construction CCCAS form for reversions submitted to SCO.</i>	218
July 23	_____	<i>Capital Construction CCCAS forms to extend spending authority for expiring projects submitted to SCO, with the appropriate AP document signed screen print attached.</i>	219
July 23	_____	<i>All Highway Users Tax Fund Certifications submitted to the State Treasurer by noon.</i>	n/a
July 23	_____	<i>Budget transfer and overexpenditure requests submitted to SCO.</i>	63
July 23	_____	<i>Last day to confirm intra/interfund receivables/payables.</i>	210
July 28	_____	<i>Compensated absences accruals must be completed by the close of period 13. The PERA percent is 10.15% for FY03-04; Medicare is included in the annual leave accrual.</i>	88
July 28	_____	<i>Period 13 of FY03-04 closes for agency input.</i>	n/a
July 30	The following items summarize other accounting entries that agencies should review and evaluate to determine if they apply:		
	Assets and Liabilities:		
	_____	<i>Record any current year infrastructure additions.</i>	
	_____	<i>Track capacity or efficiency enhancements that qualify for capitalization of infrastructure assets under the modified approach. Post entries to 471 to capitalize these assets and provide for elimination of the expenditure recorded in the governmental fund.</i>	

<i>Due Date</i>	<i>Date Completed</i>	<i>Task</i>	<i>Ref. Page #</i>
		<i>Italics = closing; regular type = opening.</i>	
		<p><i>Report to the SCO the following for infrastructure under the modified approach:</i></p> <ul style="list-style-type: none"> <i>Assessed condition level for the three most recently completed condition assessments.</i> <i>Beginning of the year estimate of the amount needed to preserve assets at the established condition level.</i> <i>The amount actually expended on preserving the asset for each of the past five years.</i> <i>Basis for the condition assessment and scale used to assess and report the condition level.</i> <i>The condition level at which the government intends to preserve the assets for FY04</i> <i>Factors that affect trends in the information reported in the bullets above.</i> 	
		<p><i>Review the balances in Balance Sheet codes 1362/1363 and 1762/1764 to determine if loans receivable are properly classified between current and noncurrent/long-term. Proprietary funds are required to segregate balances into current and noncurrent portions. Governmental funds are not required to segregate the balances between current and noncurrent, but they should record the loans in the accounts that best matches the nature of the loans.</i></p>	
		<p><i>Reclassify a portion of compensated absences as current. For governmental funds this entry is made in 471, and for all other funds, it is made in the fund that will make the payment.</i></p>	
		<p><i>Governmental funds accrue compensated absence liabilities in the fund only to the extent that they are due and payable at June 30. Do not accrue amounts of known retirements that are due and payable in the following year.</i></p>	
		<p><i>Reclassify the unspent portion of capital bond proceeds and related premium/discount to noncapital debt. (Out of 2800 and 2801 and into 2805 and 2806.)</i></p>	
		<p><i>Clear all intragovernment receivables and payables of agency funds through cash before the close of Period 13.</i></p>	

<i>Due Date</i>	<i>Date Completed</i>	<i>Task</i>	<i>Ref. Page #</i>
<i>Italics = closing; regular type = opening.</i>			
		Higher Education institutions should reclassify restricted cash and restricted investments from the existing cash and investment accounts to 1034 and 1634. This entry should be made in fund 399. If restricted cash is held by the State Treasurer, the entry in 399 should not be to 1100 cash; instead, it should be made to another 10XX account. This will preserve the balancing of 100 cash with fund 995-Treasury Investment Offset. Nonhigher education agencies are not required to make this entry because they are required to account for restricted activities in a separate fund.	
		Accrue state risk management claims liabilities according to GASB Interpretation No. 6 in the Risk Management funds, which are to be reported as part of the General Fund. Since the claims have not matured, only the amounts due and payable at June 30 should be recorded in the Risk Management funds. Therefore no estimate of amounts payable within one year should be record in the funds. However, the entire remaining liability (including IBNR) should be recorded in fund 471 and be segregated between current and noncurrent liability accounts.	
		Higher education institutions need to reclassify fund balance accounts from 3400 to the four accounts set up to report restricted net assets. 3200-Externally Restricted Other, 3220-Restricted for Debt Service, 3230-Permanent Endowment Expendable, 3240-Permanent Endowment Nonexpendable. This entry is not required of nonhigher education agencies because they are required to account for restricted activities in separate funds.	
<u>Expenditures/Expenses</u>			
		Record depreciation on all fixed assets (except infrastructure under the modified approach) for FY 03-04. This task can be done on a more frequent basis during the fiscal year at the agency's discretion.	
August 2		Signatures due for approved overexpenditures.	63
August 13		CCCAS forms to reestablish capital construction continuing appropriation spending authority submitted to SCO.	224
August 18		Variance analysis responses submitted to SCO.	100
August 18		Agency exhibit listing and completed exhibits A1, A2, B, C, D1 D2, E, F1, F2, G, I, J, L, M, N, O, P, Q, R, S, T, U, V, W1 and W2 submitted to SCO.	127

<i>Due Date</i>	<i>Date Completed</i>	<i>Task</i>	<i>Ref. Page #</i>
<i>Italics = closing; regular type = opening.</i>			
August 18	_____	<i>Financial statements submitted to SCO; AJE's proposed.</i>	107
August 27	_____	Deadline for booking FY04-05 Special Bills with FY04-05 spending authorizations.	56
August 27	_____	Completion date for booking all continuing capital construction appropriations.	220
September 20	_____	<i>Exhibit K due to SCO.</i>	165
September 24	_____	<i>Management's Discussion and Analysis due to SCO for agencies/institutions issueing stand alone financial statements..</i>	107
September 30	_____	<i>Accounts Payable relating to FY03-04 should be cleared.</i>	80
November 5	_____	<i>Annual Travel Report turnaround forms due to SCO.</i>	253

CHAPTER 1: SECTION 2

OPENING AND CLOSING CALENDAR

2.1 Events Calendar

Note: Standard font represents opening events and *italic font* represents closing events.

Date	Event
March 1	FY04-05 table initialization completed - see Chapter 2, Section 1.3 for the list of tables to be initialized.
March 1	New year budget tables are available.
March 1	System available for input of FY04-05 pre-encumbrances and encumbrances into SUSF. There will be numerous errors that should clear when the FY04-05 appropriation and budget documents are processed. Please refer to Chapter 1, Section 4 for additional discussion of this issue.
March 1	Agencies may begin to submit changes to APP2 tables to their field accounting specialist, and begin to make changes on agency defined tables. Active and approved FY03-04 APP2 table entries were initialized over the weekend to reflect valid FY04-05 hierarchy.
March 1	Agencies may begin to delete FY04-05 CERT & ORGN entries. All deletions will be made prior to calendar year end.
March 1	New year prefix identifier '04' will automatically be available at this date. Agencies may change ADNT new year automatic document numbering prefix identifiers beginning on this date.
March 22	<i>Draft Request for Proposals to be published by State Purchasing should be to State Purchasing for Group I agencies to ensure delivery of goods and services by June 30.</i>
March 31	Begin nightly run of book process.
April 16	<i>Close of period 9 FY03-04.</i>
April 19	<i>Purchase requisitions for items not on a state contract or price agreement must be received by agency purchasing contacts to ensure delivery of goods and services by June 30.</i>
April 26	<i>Draft of invitations to bid must be to State Purchasing from Group I agencies.</i>

March 2004							April 2004							May 2004

May 10	<i>Purchase requisitions for items on a state contract or price agreement must be received by the appropriate purchasing agent to ensure delivery of goods and services by June 30.</i>
May 14	<i>Close period 10 FY03-04.</i>
May 21	<i>Deadline to request changes to existing COFRS extracts.</i>
May 29	<i>Expired Warrants Selection Process runs and populates the EXPW table for agency review and posting of federal portion. See Chapter 3, Section 3.23.</i>
June 7	<i>Bank confirmations sent to confirm bank accounts. See Chapter 3, Section 5.17 for instructions and the bank confirmation form.</i>
June 11	<i>Biweekly payroll for the pay period ending on this date will be recorded for GAAP purposes in FY03-04 and for budget purposes in FY04-05.</i>
June 11	<i>Close period 11 FY03-04.</i>
June 14	<i>Application Services responds to requests for weekly scheduling of existing COFRS extracts by this date.</i>
June 14	<i>Begin production of GNL21R for periods 1 through 11 of FY03-04.</i>
June 16	<i>Coding changes for final billing corrections for Multi-Use Network, data lines, or phone lines prior to fiscal close communicated to the Department of Personnel and Administration.</i>
June 18	<i>All requests to cancel or reissue aged warrants from the EAP18R report must be submitted to SCO by this date to ensure processing prior to the expired warrant purge. See Chapter 3, Section 3.23.</i>
June 18	<i>Target date to have all revenue receiving appropriation codes for FY04-05 active in COFRS and to notify the Department of Revenue of coding string (see discussion in Chapter 2, Section 2.9).</i>

27	28	29	30											29	30	31				

June 21	<i>Deadline for agencies' level 3 approvals on AP transactions needed to record the FY04-05 Long Bill.</i>
June 21	<i>GNL21R available on INFOPAC only.</i>
June 25	<i>Deadline to submit requests to SCO for the cancellation of FY03-04 warrants. All requests submitted by this date will be processed prior to month end. No FY03-04 warrants will be canceled after June 30 in FY03-04; they will be canceled in FY04-05. See Chapter 3, Section 3.23 for explanation of FY03-04 warrants canceled in FY04-05.</i>
June 25	<i>Last possible day to freeze an inventory for year end adjustment. (See Chapter 3, Section 3.14.)</i>
June 25	<i>Last FY03-04 M1 payroll to be posted in nightly cycle to COFRS.</i>
June 25	<i>Biweekly payroll for the pay period ending on this date will be recorded for GAAP purposes in FY03-04 and for budget purposes in FY04-05.</i>
June 25	<i>Biweekly payroll normally paid on this date will be paid on July 1.</i>
June 26	<i>Purge of aged warrants.</i>
June 28	<i>Reports on purge of aged warrants to be distributed.</i>
June 30	<i>Deadline for having FY04-05 Long Bill recorded, approved, and reconciled. Deadline for recording expense budgets to be active July 1.</i>
June 30	<i>Run point-in-time reports. (See Chapter 1, Section 3.15).</i>
June 30	<i>Physical inventory of consumable goods completed on or before this date. Refer to Chapter 3, Section 3.14 for discussion of this topic.</i>
June 30	<i>For continuation of expiring capital construction project appropriations, all contracts must be effective on or before this date.</i>
June 30	<i>A count of petty cash and change funds should be completed on this date.</i>
June 30	<i>Treasury cash cutoff. Walk-in deposits must be at the State Treasurer's Office by 2:00 pm to be recorded in balance sheet account 1100 - Operating Cash for FY03-04.</i>

June 2004							July 2004							August 2004						
S	M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S
		1	2	3	4	5	4	5	6	7	8	9	10	1	2	3	4	5	6	7
6	7	8	9	10	11	12	11	12	13	14	15	16	17	8	9	10	11	13	14	14

27	28	29	30											29	30	31				

- June 30 *Wire or electronic fund transfers of depository account balances or federal fund drawdowns must be to the State Treasurer by close of business to have cash included in balance sheet account 1100-Operating Cash. (Amounts not transferred by this date must be in 10XX accounts and included on the agencies' Exhibit M.)*
- June 30 *All inventory module transactions must be closed by the close of business. This includes the SR, CI, OC, TI, TR, IA, and SN documents. Please see Chapter 3, Section 3.14 for details.*
- June 30 *All year end reports (RYE) will begin to run on the revised schedule for the closing period (run nightly, weekly, monthly).*
- June 30 *Nightly run of Book Process is turned off.*
- July 1 – July 31 *The document suspense file "SUSF" needs to be cleared daily of all FY03-04 rejects and documents that need approval. (See GNL15R weekly).*
- July 1 - July 31 *EAP05R Report (Unscheduled Payment Turnaround) needs to be reviewed daily for warrants being held due to vendors on hold or overspent appropriations. If overspent appropriations cannot be corrected, agency must request overexpenditure or transfer authority under the authority granted to the State Controller in CRS 24-75-105 to 110. See Chapter 3, Section 1.*
- July 1-16 *FYE02R and INV02R available on INFOPAC nightly.*
- July 1 *FY04-05 period 1 open for all accounting transactions.*
- July 1 *Last central payroll FY03-04 "999" payroll (schedule 906 payroll adjustments) to be posted in nightly cycle to COFRS.*
- July 1 *State Controller's Office diagnostic reports available on INFOPAC. (See Chapter 3, Section 3.21)*
- July 5 *STATE HOLIDAY*
- July 6 *Overexpenditure reports will be available.*
- July 6 *State Controller's Office diagnostic reports available on INFOPAC.*
- July 5 *Last FY03-04 B1 payroll posted to COFRS (pay period beginning June 12 and ending June 25).*
- July 8 *Last day to initiate IT's for period 12 close. Be sure to contact other agency in a timely manner. This does not include direct bill IT's. See related discussion of intra/interfund receivable/payables in Chapter 3, Section 5.30.*

June 2004							July 2004							August 2004

27	28	29	30											29	30	31				

July 9	<i>Biweekly payroll for the pay period ending on this date will be recorded for GAAP and budget purposes in FY04-05.</i>
July 13	<i>Deadline for processing IT document with higher education institutions including direct billing.</i>
July 14	<i>Last day to process PB and AJ documents. All reallocation entries for June payroll expenditures must be completed by this date</i>
July 15	<i>Last day to have FY03-04 encumbrance documents accepted on COFRS SUSF for encumbrances to automatically roll to FY04-05.</i>
July 15	<i>Deadline to reissue expired warrants in FY03-04 from balance sheet account 2751.</i>
July 15	<i>Deadline to have FY03-04 CR documents approved by State Treasury (Treasury fax number 303-866-2123).</i>
July 16	<i>Close of period 12 (non-higher education IT cutoff and PV cutoff.)</i>
July 16	<i>Deadline to have appropriation codes activated by an AP document (\$0 AP if necessary) so code will accept rolled forward encumbrance (EPS transactions).</i>
July 16	<i>Clear all balances from balance sheet 2751 per Chapter 3, Section 3.24.</i>
July 16	<i>Target date to clear all default and clearing accounts. (These include the following balance sheet accounts: 1583-1599, 2510, 2520 and 2751).</i>
July 16	<i>Process run for modification and rollover of FY03-04 purchase requisitions and purchase orders.</i>
July 16	<i>Deadline to submit rollforward requests to State Controller (See Chapter 3, Section 2).</i>
July 16	<i>Deadline for booking FY03-04 Supplemental Bills and FY03-04 Special Bills with expenditure authorizations.</i>
July 16	<i>Deadline for entries to PORL table to lapse or roll EAP or EPS encumbrance documents (See Chapter 1, Section 4). System default is to roll.</i>
July 16	<i>Resolve intra/interfund receivable/payable issues related to Central Services billings with Audrey Aultman (phone 303-866-2433) by this date.</i>

June 2004							July 2004							August 2004

27	28	29	30											29	30	31				

- July 16 *Last day to make entries to the PORA table to change coding for EPS encumbrance documents. Process run for the modification and rollover of FY03-04 purchase requisitions and orders into FY04-05.*
- July 19 *Period 13 of FY03-04 open. Only JV's, JA's, TA's, AP's, EB's, TB's, FD's, DP's, FA's, and FC's may be processed.*
- July 19 – 23 *Initiate intra/interfund receivable/payable confirmations and refer disputed amounts to your field accounting specialist as early as possible in this period.*
- July 19 – July 28 *Overexpenditure reports and SCO diagnostic reports will be available on INFOPAC on these business days.*
- July 21 *SCO issues the Unrealized Gain/Loss Report on market valuation of Treasurer's pooled cash.*
- July 22 *First FY04-05 B1 payroll posted to COFRS (pay period beginning June 26).*
- July 23 *Capital Construction CCCAS form for reversions due to SCO.*
- July 23 *Capital Construction CCCAS forms to extend spending authority for expiring projects due to SCO, with the appropriate signed AP document screen print attached.*
- July 23 *Deadline for submitting appropriation transfer and overexpenditure request forms.*
- July 23 *First FY04-05 M1 payroll posted to COFRS.*
- July 23 *All Highway User's Tax Fund and Tobacco Cash Fund Certifications are due to Treasury by 12:00 noon.*
- July 23 *Final day to confirm intra/interfund receivable and payable balances. See Chapter 3, Section 5.30.*
- July 23 *Bank confirmations should be received back from your financial institution by this date for the completion of risk classification on Exhibit M.*
- July 26 *State Controller and OSPB to approve or disapprove all transfer and overexpenditure forms.*
- July 28 *Period 13 of FY03-04 closes for agency input.*
- July 29 *Period 13 of FY03-04 open for SCO input only. Only JA's, AP's and TA's may be processed.*

CHAPTER 1: SECTION 3

GENERAL OPENING AND CLOSING ISSUES

There are many issues to be discussed with the closing of one fiscal year and the opening of a new one. This section addresses issues of general interest.

3.1 COFRS Reports

Report availability will be posted on the COFRS general message screen (GMSS). Contact the COFRS helpline at 303-866-6122 if you have questions on the distribution frequency for the standard COFRS reports during the fiscal year and at year end.

3.2 Transaction Dating Data Elements

During the period from July 1 through the close of period 13, we will be operating in two fiscal years. In addition, you may record FY04-05 budgets and pre-encumbrances or encumbrances before July 1. See Section 4 in this Chapter for more information on encumbrance issues. Required data elements for each transaction during this period are the budget fiscal year, transaction date, and accounting period. This coding is essential to ensure that transactions are posted to the proper fiscal year and must be recorded on each transaction. Careful thought should be given to assigning the correct fiscal year to transactions processed during this period. Below is an example of how transactions should be dated for FY03-04 and FY04-05:

FY03-04:

Date = 06 30 03

Accounting Period = 12 03, or 13 03

Budget FY = 04

FY04-05:

Date = 07 XX 03, or 08 XX 03

Accounting Period = 01 04, or 02 04

Budget FY = 05

3.3 Assignment of Transaction ID Numbers

DOAC/COFRS Alert #9 promulgates the policy mandating the use of the automatic document numbering feature in COFRS for the assignment of document identification numbers on transactions. In order to be able to separately identify various transactions in the system while still utilizing this mandated feature, agencies have the option of establishing document prefixes. The COFRS helpline staff have the ability to establish prefix identifiers in the ADNT table and will do so based on a telephone request from an agency. The prefix identifier "04" will automatically be available beginning March 1 .

Once a prefix is established, the user simply enters the prefix in the first characters of the document ID field and then enters a pound (#) sign. COFRS then automatically assigns a document ID number with the beginning prefix. If you need additional prefix identifiers or wish to extend the use of current prefix identifiers into the next fiscal year, call or write the COFRS helpline. This ability to request prefix identifiers over the phone supersedes the process explained in SYAD Bulletin #87.

3.4 Properly Recording Fiscal Year Revenue

The recording of cash receipts and revenues in the proper fiscal year is extremely important for accurate financial statements and cash reconciliation. Departments should review COFRS reports to make sure both FY03-04 and FY04-05 receipts and revenue are recorded in the proper fiscal year. See Chapter 1, Section 3.2 for transaction dating discussion.

3.5 Specifying Vendor and Subrecipient Relationships in Contracts

If a contract involves the disbursement or receipt of federal funds, you should pay special attention to the coding and reporting of those funds. Such contracts may result in either a subrecipient or vendor relationship between the parties involved. When the transaction is between state agencies it is important that the parties code the transaction similarly. In general, the language in the contract specifying the party's responsibilities determines the type of relationship involved. When a subrecipient relationship exists, the State of Colorado Contract Procedures and Management Manual requires specific language to be included in the contract. Please refer to that manual for details.

OMB Circular A-133 defines subrecipient as, "Subrecipient means a non-Federal entity that expends federal awards received from a pass-through entity to carry out a Federal program, but does not include an individual that is a beneficiary of such a program. A Subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency." Section .210 of OMB A-133 provides guidance on making the subrecipient versus vendor determination. It states:

Characteristics indicative of a Federal award received by a subrecipient are when the organization:

1. Determines who is eligible to receive what Federal financial assistance;
2. Has its performance measured against whether the objectives of the Federal program are met;
3. Has responsibility for programmatic decision making;
4. Has responsibility for adherence to applicable Federal program compliance requirements; and
5. Uses the Federal funds to carry out a program of the organization as compared to providing goods or services for a program of the pass-through entity.

Characteristics indicative of a payment for goods and services received by a vendor are when the organization:

1. Provides the goods and services within normal business operations;
2. Provides similar goods or services to many different purchasers;
3. Operates in a competitive environment;
4. Provides goods or services that are ancillary to the operation of the Federal program; and
5. Is not subject to compliance requirements of the Federal program.

Section .210 also speaks to the use of judgment in making the determination as well as a recipient's responsibility for for-profit subrecipients and vendor compliance.

The following table specifies the accounting and reporting treatment for subrecipient/vendor transactions. See Chapter 3, Section 5.15 for Exhibit K reporting requirements.

	DISBURSOR	RECIPIENT
Vendor Relationship Contract		
	Code payments using object code indicating type of good or service purchased. Report expenditure on Exhibit K. Disburser is responsible for ensuring that expenditure is an allowable cost.	Code receipts using revenue source code indicating type of good or service sold. Do not report on the Exhibit K.
Subrecipient Relationship Contract		
With Another State Agency	Code disbursement using object code 5770 – Pass thru Fed Grant Intrafund or 5771- Pass thru Fed Grant Interfund. Report on the Exhibit K. In general, disburser is responsible for determining if recipient is a qualified recipient and for monitoring if recipients expenditures are allowable costs.	Code receipt using revenue source code 7501-7523-Fed Grant/Cont-Subrecip-(Dept.). Higher education institutions feed to revenue source code 7500. Do not report on Exhibit K. Recipient is responsible for helping disburser comply with grant requirements.
With a Non-State Entity	Code disbursement using object code 51XX- Intergovernmental Grants or 5781-Grants to Non-Gov/Organizations. Report on the Exhibit K. In general, disburser is responsible for determining if recipient is a qualified recipient and for monitoring if recipient's expenditures are allowable costs.	Code receipt using revenue source code 7500-Fed Grant/Cont-Subrecipient-Other. Report on the Exhibit K. Recipient is responsible for helping disburser comply with grant requirements.

3.5.1 Pass-through Entity Notification

State agencies that receive federal assistance from pass-through entities should review the requirements of OMB Circular A-133 for notification of audit results. A-133 requires subrecipients to notify pass-through entities of the results of the subrecipients' A-133 audit whether or not there were audit findings or updates to prior audit findings related to the pass-through assistance. If there were audit comments or updates to prior audit findings, a state agency must send to the pass-through entity a reporting package containing the following four items:

- ♦ Financial statements and schedule of expenditures of federal awards
- ♦ Summary schedule of prior audit findings
- ♦ Auditor's report
- ♦ Corrective action plan

These four items are included in the Office of the State Auditor Single Audit Report. When no findings or updates to prior audit findings related to the pass-through assistance occur, a state agency may notify the pass-through entity of that fact in writing or send the pass-through entity a copy of the reporting package. You can find the text of OMB Circular A-133 on the Internet at: <http://www.whitehouse.gov/OMB/circulars.html>

3.6 VEND Table

Please be sure to follow all procedures issued by SCO that ensure that the vendor you are adding is not already on the file. Vendor file procedures are located in Appendix C of the State of Colorado 1099 Reporting Guide available on the SCO website. Make sure all data you are entering are valid. Changes to vendor information will be processed in a timely manner by SCO. Please make sure your request for vendor changes is supported by adequate documentation, is signed, and includes your phone number in case we need to call you for additional information.

3.7 Program Codes

Program codes are not required for colleges and universities for statewide financial statement reporting purposes. Colleges and universities use program codes for internal management reporting purposes.

3.8 Presence Budgetary Control

Until August 23 all funds in the COFRS system will be set at presence control for budgetary purposes. If an agency needs to process a payment before budget is recorded (from the Long Bill, a special bill, a federal grant, nonappropriated, or on-going capital construction project), they may activate an appropriation code with a \$0 appropriation transaction and record the expenditure. On August 23, all funds will be placed on "full control" except for funds 471, 311, 320, 321, 322, 323, 324, 325, 326, 327, 328, 330, 340, 350, 371, 380, and 399. After this date adequate budget must be recorded to generate a warrant.

3.9 COFRS Hours of Operation

COFRS availability will be posted on the COFRS general message screen (GMSS). In addition, the message on the helpline answering machine will provide the most current information on that weekend's hours of operation. Please call 303-239-4357 before leaving for the office to ensure the system is available on that weekend. The system will not be available on the weekends of period 12 and 13 closing.

3.10 Cash Adjustments on Journal Adjustment Transactions (JA's)

Any JA resulting in a net change to the total book balance of the state's cash must be sent to the State Treasurer's Office for level 5 approval. These transactions include:

- ♦ Recording of investments and/or dis-investments of Treasury cash.
- ♦ Cancellation or re-issuance of warrants requiring a JA (warrants that are no longer on the OPVL and OPVH tables).
- ♦ Other actions that require adjustments in the total book balance of the state.

All other JA transactions should be sent to your field accounting specialist.

3.11 Loans and Advances

Prior to year end close, please review all negative balance sheet code 1100 cash account balances for your agency, except for funds 100, 310, 461, and 600, to determine if loan/advance approvals are current and for the correct amount. A statewide report of all outstanding loans and advances is prepared at the end of the fiscal year to compare approved loans/advances to actual balances. Refer to Chapter 5, Section 3 of these instructions for policies and procedures for applying for a loan/advance.

3.12 Dating of Warrants

All payment vouchers that are accepted in COFRS and recorded on the scheduled payment report (EAP04) as of June 25 will create a warrant (AD transaction) dated June 30. The total of these warrants will be included in the balance of the Warrants Payable Account (balance sheet account

2000) for FY03-04. All payment vouchers entered and accepted in COFRS and recorded on the scheduled payment report (EAP04) after June 25 will create warrants (AD transactions) dated after June 30. The total of these warrants will be included in the balance of the Warrants Payable Account (balance sheet account 2000) for FY04-05.

3.13 Ledgers Rolled after FY03-04 Final Close

Following FY03-04 final close on July 30 , beginning FY04-05 balance sheet account balances will be established on the FY04-05 online ledgers based on the FY03-04 final balance sheet balances. You will receive two reports (FYE07R1-Roll Forward Summary Trial Balance By Agency Within Fund and GNL21R1- General Ledger Year-To-Date Detail by Fund Within Agency) giving you ending and beginning balances by fund, agency, and account. Beginning FY04-05 account balances will be reflected on the July 2003 (FY04-05 period 1) month end closing reports. The coding items that will be carried forward are fund, agency, balance sheet account, grant budget line, and reporting category. The GNL21R report for FY03-04 periods 1-13 will be available in INFOPAC on August 6 .

3.14 Pre-Audit Sensitive Account Codes

There are a number of account codes that are particularly audit and reporting sensitive. An example is travel object codes that are reported in a separate report by SCO to the Legislature by in-state, out-of-state, and international travel breakouts. Another example is the accounts receivable balance sheet codes that are reported by SCO by various predefined receivable categories. A third example is the proper use of revenue source codes to appropriately classify revenues in accordance with the provisions of the TABOR amendment. Accounts of this nature should be carefully reviewed for proper classification prior to close.

3.15 Point-in-Time Reports

There are three reports (FYE04R1, R2, and R3) that provide subsidiary detail and balances for the following three balance sheet control accounts:

- ♦ Billed Accounts Receivable (account 1330) - FYE04R1
- ♦ Vouchers Payable (account 2100) - FYE04R2
- ♦ Warrants Payable (account 2000) - FYE04R3

On June 30 , COFRS will produce these three “point-in-time” reports. This subsidiary detail will be as of the close of business for that day and month (calendar basis). These calendar month end reports are intended for use by agencies to reconcile and analyze these three system accounts prior to the actual close. FYE04R2 is unique in that it is also an accounting period report and will be produced for the close of periods 12 and 13. There will be a GNL19R report produced as a calendar month end report for reconciliation purposes.

3.16 COFRS Fiscal Year Document Closing Table

The following are the last dates for processing COFRS transactions for FY03-04. Questions about the closing dates should be directed to your field accounting specialist.

FISCAL YEAR DOCUMENT CLOSING TABLE (FYDC)

TRAN ID	TRANSACTION DESCRIPTION	LAST DATE OPEN
CI	Stock issue confirmation	June 30
IA	Physical inventory adjustment	June 30
OC	Over the counter	June 30
SN	Stock return	June 30
SR	Stock requisition	June 30
TI	Stock transfer issue	June 30
TR	Stock transfer receipt	June 30
CR	Cash receipt	July 16
CX	Check cancellation	July 16
IN	Invoice	July 16
IT	Interagency	July 16
MW	Manual warrant	July 16
OE	Open end purchase order	July 16
PB	Payroll voucher	July 16
PC	Central purchase order	July 16
PD	Departmental purchase order	July 16
PG	Price agreement release	July 16
PO	Purchase order	July 16
PV	Payment voucher	July 16
RQ	Requisition	July 16
RX	Standard EPS requisition	July 16
SC	Service contract	July 16
WR	Warrant reconciliation	July 16
JV	Journal voucher	July 28
EB	Expense budget	July 28
RB	Revenue budget	July 28
TB	Expense budget transfer	July 28
DP	Fixed asset depreciation	July 28
FA	Fixed asset acquisition	July 28
FC	Fixed asset modification	July 28
FD	Fixed asset disposition	July 28
AP	Appropriation	July 30
JA	Adjusting journal voucher	July 30
TA	Transfer of appropriation	July 30

CHAPTER 1: SECTION 4

ENCUMBRANCE ISSUES

KEY DATES

March 1	New year tables and encumbrance transactions available for modification and input.
July 15	Last day to have FY03-04 encumbrance transactions accepted into COFRS for encumbrances to automatically roll into FY04-05.
July 16	Last day to make entries to the PORL table to lapse or roll EAP or EPS encumbrance documents. System default is to roll the encumbrance amount into the new fiscal year.
July 16	Last day to make entries to the PORA table to change coding for EPS encumbrance documents. Account coding changes for non-EPS documents may be made directly in the rollover document from the suspense file. Process run for the modification and rollover of FY03-04 purchase requisitions and orders into FY04-05.

This section identifies several issues with pre-encumbrance and encumbrance transactions for both the close of the old fiscal year and the opening of the new fiscal year. These issues include: (1) recording new year pre-encumbrances and encumbrances prior to the opening of the new fiscal year, (2) encumbering for contracts prior to the opening of the new fiscal year, and (3) the modification and roll of pre-encumbrances and encumbrances.

4.1 New Year PO's and RQ's (Appropriation Booked)

There is a need to process purchase requisitions (RX and RQ documents) and purchase orders (PC, PD, PG, SC, OE, and PO documents) for the upcoming fiscal year before the year is open on the fiscal year (FSYR) and accounting period (APRD) tables. All document processors for the previously mentioned transactions have been modified to allow future fiscal year transactions when the following conditions have been met (see SYAD Bulletin #249 for additional discussion):

- ♦ All budgetary and account coding necessary for the encumbrance to accept are in place and active in COFRS and the coding on the document is accurate. This includes, but is not limited to, appropriation codes, expense budgets, grant validations, organizations, sub-objects, etc.
- ♦ The accounting period on the document is the first accounting period in the future fiscal year (i.e., 01 04). **Accounting period is a required field on all future fiscal year documents.**
- ♦ The fiscal year on the document is the soon to be opened fiscal year; purchase orders cannot be placed two years in advance. **Fiscal year is also a required field on the future fiscal year documents.**

If the above conditions are met, COFRS will accept the document and will also print the EPS purchase order form for mailing to the vendor. Each EPS purchase order that is printed prior to the opening of the new fiscal year will have printed in the space reserved for SPECIAL INSTRUCTIONS the following message: "Goods are not to be delivered or invoiced prior to July 1."

4.2 New Year PO's and RQ's (Appropriation Not Booked)

Agencies may input FY04-05 purchase requisitions (RX and RQ documents) and purchase orders (PC, PD, PG, SC, OE, and PO documents) prior to the beginning of FY04-05 without the budgetary and account coding being in place and active in COFRS. However, these transactions will show error messages.

In each nightly cycle COFRS attempts to process all purchase order and purchase requisition documents on reject-hold status. If all errors are cleared and the transaction has a third level approval, the transaction will accept during this nightly cycle process and the EPS purchase orders will print. This process saves the users from having to quick edit the documents each day. If the transaction is not approved and/or still has errors, the transaction will not accept.

Some common error messages that you may experience on these transactions for future fiscal years that do not have active budgetary or account coding are listed below:

- ♦ BUFRE - RECORD NOT FOUND ON AFSI
- ♦ BUFRE - RECORD NOT FOUND ON APPI
- ♦ CO69E - DOC PROCESSING BYPASSED

There may be more error messages depending on the combination of date, accounting period, budget fiscal year and account coding used on a particular transaction.

If the transaction is not accepted and the vendor requires a PO number, agencies may use the document number of the rejected COFRS transaction to get the PO number for the vendor. That number will stay with the document until it is approved and processed through COFRS.

The State Controller has also authorized the Division of Purchasing to accept agency purchase requisitions prior to July 1 without the necessary COFRS approvals. Agencies may forward rejected RX and RQ documents to the Division of Purchasing so that purchase commitments for goods and services will be in place July 1. The agency controller or chief financial officer must sign as an approver on the rejected RQ's or RX's in this process.

4.3 Instructions for Encumbering FY04-05 Contracts Prior to July 1

During the period from March 1 to June 30, if an agency has appropriations that have been signed into law and these budgets have been recorded in COFRS, the agency may enter FY04-05 encumbrance documents into COFRS for the amounts required to be encumbered for FY04-05 contracts. When edited and ready for approval, forward these encumbrance documents with the contracts for approval. As soon as the contract is approved and executed by the State Controller's Office or a designee delegated to sign contracts for the State Controller, these documents may be approved and recorded against the agency's FY04-05 appropriations.

If an agency does not have FY04-05 appropriations recorded on COFRS at the time that a FY04-05 contract is being routed for approval, they may enter an encumbrance document into COFRS and forward the contract and the edited encumbrance document containing its errors for review and approval. When the contract is approved by the State Controller's Office, the encumbrance document will be quick edited to eliminate any errors that are no longer valid. If the

encumbrance document is ready for approval, it will be approved and scheduled when the contract is signed by the State Controller's Office.

If the encumbrance document still contains errors, the contract will be signed and executed by the State Controller's Office. A copy of the encumbrance document will be kept by the contract approver. A letter will be attached to the contract that informs the agency that the contract is approved but the encumbrance document must be valid as of July 1. If the document still does not accept on July 1, the agency will have to invoke the thirty day clause to cancel the contract with the vendor. The State Controller's Office will audit rejected encumbrance documents on July 1 to ensure compliance with this procedure.

4.4 Modification and Rollover of FY03-04 Purchase Requisitions and Purchase Orders

By policy, all encumbrances and pre-encumbrances will lapse at the close of a fiscal year. However, encumbrances may be rolled into the new fiscal year through COFRS' automated rollover process. There is no automated process to rollover pre-encumbrances; agencies must manually re-enter those transactions if they wish the pre-encumbrance to be recorded in the new fiscal year. During the processing for period 12 close on **July 16** all FY03-04 purchase requisitions and purchase orders will automatically be modified to zero. All purchase requisitions (both RQ and RX) will remain at zero. Agencies may request that COFRS rollover purchase orders into the new year.

Some errors still occur in this modification and roll process. These errors are primarily due to coding problems that are under the control of the agencies. Examples include appropriation codes not being active, expense budgets not being active, missing GVAL entries, grants closed, etc. It is essential that agencies do everything possible to ensure that the codes necessary to roll encumbrances into the new year are active and available. Errors in the roll process require a significant amount of effort and time to correct and should be avoided if at all possible.

The process to roll encumbrance documents for agencies using EPS and for non-EPS agencies has some common elements and some differences. Those common elements and differences are discussed below.

Common Elements to Both Processes:

The Purchase Order Roll Table (PORL) lists every open purchase order on the open item tables: OPPH and OPPL for EPS documents/OPOH and OPOL for non-EPS documents. These tables are organized by budget fiscal year, agency and purchase order number. Agencies have the opportunity to determine which purchase orders will rollover and which will lapse. This is accomplished as follows.

Lapse -- To lapse a purchase order enter an "L" (lapse) in the ROLL ACTN field on the PORL table. Lapsed purchase order documents will be reduced to zero in the old year, thereby reducing the encumbrance and reserve for encumbrances. The system will not generate new year purchase order transactions.

Roll -- To roll a purchase order enter either an "R" (roll) in the ROLL ACTN field on the PORL table or leave the field blank. Since the system-wide default is to roll purchase orders, leaving the field blank is the simplest option. The process for generating the new year transaction is different for EPS than for non-EPS and is discussed below.

The system will automatically lapse any purchase order if the vendor associated with that purchase order is on hold. System edits will block any attempt to enter an "R" in the ROLL ACTN field on the PORL table if the vendor is on hold. A vendor hold indicator is on the PORL table for reference.

Two reports are generated by the modification and roll process. FYE01 reports all pre-encumbrances that were modified to zero by the system. It reports both RQ and RX transactions. FYE02 reports the disposition of each open FY03-04 encumbrance document (PC, PD, PG, PO, OE and SC). This report indicates whether the document has lapsed or rolled.

A daily version of FYE02R (Report ID = FYE02RYE) will be available on INFOPAC **July 1-16**. This report should be reviewed often to assist in determining the purchase orders that will roll and those that will lapse. The report will be generated every night until all of the FY03-04 purchase orders have been closed.

The final version of FYE02R will be generated the night of **July 16**. This is the version of the report that will be stored on INFOPAC for five years. The daily version will be archived off of INFOPAC on a weekly basis.

Unique Features for Extended Purchasing Agencies:

The EPS purchase order roll process will be as follows:

1. The system will read the "ROLL ACTN" field on the PORL table. If the purchase order is marked to lapse, a zero dollar payment voucher will be created and processed through COFRS in the old year. These documents will accept automatically without any action from agency personnel. The document number will begin PV 999. The actual PV number will appear on FYE02R.
2. If the purchase order is to roll into the new year, the system will create a roll over transaction (RO). This transaction is created and posted to the document suspense file (SUSF). If the necessary budget and account coding are in place and active, the RO transaction will accept automatically without action from agency personnel. If the coding is not in place and active, the RO will reject. The RO is not included in any security group that would allow a user to change or delete the document. So to correct the errors, the agency must establish the account coding that exists on the rejected RO document (i.e., activate an appropriation code, create a GVAL entry, process an expense budget, etc.). After that is completed, the agency should contact the COFRS help line at 303-866-6122 to get the transaction processed.

If an EPS agency wishes to change the coding on an encumbrance, the change must be made prior to the roll process. These changes can be accomplished by using the EPS purchase order roll account code table (PORA). Entries into PORA must be completed prior to **July 16**. The process to change an account code is as follows:

- ♦ Go to the PORA table. This table displays all open EPS purchase order documents including the detail account codes.
- ♦ There are two account code lines for each purchase order. The first line is the codes on the purchase order as it is in the system in the old year. This information comes from the open purchase order line table (OPPL). This set of codes is protected and cannot be changed.

- ♦ The second line is initially blank. To change the encumbrance account coding for the new year, the new account coding string must be entered in this second line. If any code is being changed in the string, the whole string must be entered here.
 - ♦ The purpose of this table is to change account codes on existing lines. The table is not designed for, nor will it allow for, splitting an existing accounting line into multiple lines.
 - ♦ The old codes will be used to modify the old year encumbrance to zero. The new codes will be validated against new year codes and the new codes will appear on the OPPL table after the roll process is completed.
 - ♦ All codes entered on the new year line on PORA must be valid in the new fiscal year. For example, if a new appropriation code is entered, it must already be on the APP2 table for the new fiscal year. In order for the RO transaction to process, the appropriation code must be activated by an AP transaction. The AP transaction must be processed before the roll occurs on July 16 . The RO transaction edits will look for active appropriation codes.
 - ♦ The system will read the PORA table during the roll process to determine if there are any changes in the account code structure. Since the system needs the new structure on July 16 , the changes MUST be identified and entered onto PORA before July 16 . Changes made after that date will not be taken into account in the roll process.
 - ♦ A flag has been added to the PORL table that indicates a change to the account codes has been made on PORA.
3. For all PG (price agreement) documents on the PORL table, a valid entry must exist on the PASM (price agreement summary) table and the PAVC (price agreement vendor/commodity) table in FY04-05 in order for the RO document to accept in the new year. If the price agreement on the FY03-04 PG is not valid in FY04-05, the PG document should be flagged to lapse (L) on the PORL table and a new PG document entered in FY04-05 for the new price agreement. Without valid entries in PASM and PAVC, the RO will reject.
 4. All EPS purchase order documents and their disposition will be reported on the FYE02R report.

Unique Features for Non-Extended Purchasing Agencies:

The roll/lapse of non-EPS documents (PO only) works essentially the same as for extended purchasing documents with some subtle differences.

1. The system will read the “ROLL ACTN” field on the PORL table. If the purchase order is marked to lapse, a modify purchase order document will be created and automatically accepted through COFRS. The agencies do not have to do anything to get the old year transactions to process, unless there is an error of some type. These modify transactions will be batched. The Batch ID will be identified with the term “old” as the first three characters of the batch number. Agencies need to review the COFRS suspense file (SUSF) on the first Monday after period 12 close to determine if all modify transactions in “old” batches have accepted.

2. If the purchase order is marked to roll, the system will perform a series of functions:
 - ♦ Create a modify transaction for the old year as discussed immediately above.
 - ♦ Purge the open item tables (OPOH and OPOL) of all coding for transactions that will roll into the new year. This is done so that the new transaction can be processed and posted to the tables. Historical information such as previous references will be lost. The purge is necessary so that new transactions with the same document ID will accept. (The system cannot handle duplicate records.)
 - ♦ Create new year transactions that are identical to the PO that was just lapsed. These new year transactions will be batched and can be identified by the term “new” as the first three characters of the batch number. These transactions will be posted unapproved to SUSF and made available for agency action.
3. Agency staff can then go to SUSF, call up the document, and make any changes that may be required and approve the document. The transaction will be processed as any other PO transaction. Once the new transaction is accepted, the OPOH and OPOL table records will be created in the normal manner. Once again, there will be no historical information on the table. The system views this as a totally new record. If it is determined that the PO is no longer needed, it can be deleted as any other unprocessed document.
4. All open non-extended purchasing purchase order documents and their disposition will be reported on the FYE02 report.

CHAPTER 2: SECTION 1

FY04-05 COFRS TABLE INITIALIZATION

KEY DATES

March 1 New year tables available; agencies can begin changing agency defined tables and request changes to centrally defined tables (including budget tables).

On **March 1**, COFRS will run the new year table initialization (NYTI) process to initialize tables for FY04-05. The NYTI program identifies all reference tables with either “Fiscal Year” or “Budget Fiscal Year” as the first key field, and then automatically creates a new year table with the same information as the prior year. A list of the tables initialized by this process is included in Chapter 2, Section 1.3.

Agencies should review their FY03-04 account code structure (both the required codes and the optional codes) to determine if the structure will meet their needs for FY04-05. Agencies may begin to modify agency defined tables or request modifications to centrally defined tables for FY04-05 on March 1. Following are the key dates for this section.

1.1 Changes to Centrally Defined Tables

To request changes to any centrally defined table other than budgetary tables, contact your assigned Field Accounting Services Team (FAST) representative. See Chapter 2, Section 2 for a discussion of the budgetary tables: LBAR, LBGR, FSCT, LBLR, APP2, and APPV. As a reminder, these centrally defined tables are for statewide use, and SCO may not be able to meet all individual agency needs on these tables.

1.2 Recurring Entries

The recurring adjusting journal voucher table (REJA), recurring journal voucher table (REJV) and recurring payment voucher table (REPV) may require re-establishment for the new fiscal year. These tables are not rolled forward through the NYTI process.

Any record on the REJA, REJV, and REPV tables with a date of June 30 of the closing year or earlier in the **ENTRY END DATE** field will not generate transactions in the new fiscal year. If the table record has a date later than June 30 of the closing year (e.g., June 30, 2003) in the **ENTRY END DATE** field, transactions will continue to generate until that end date is reached.

Agencies should review their records on these tables by the close of business on June 30 (date when the first recurring transactions for the new fiscal year will be generated). The end date may need to be extended, and two other types of changes to the tables may be required. First, the accounting distribution codes for existing records may require modification to conform to the FY04-05 account code structure. Second, in some cases the transaction ID of a referenced purchase order may need to be changed.

To add or change a record for the new year, enter “04” in the **FY** (fiscal year) field. This allows the new record to edit against FY04-05 reference tables. This field automatically defaults back to the current fiscal year (03) after the add or change action is completed.

Although recurring entry records for the new fiscal year may be added at any time prior to July 1, records should not be changed until at least June 4 to allow the June recurring transactions to be generated; June transactions (last for the old fiscal year) will generate on June 2.

1.3 List of COFRS Tables Initialized for FY04-05

The following tables have been initialized for FY04-05.

TABLE	TABLE NAME
AGCL	Agency Class Table
AGCT	Agency Category Table
AGCY	Agency Table
APP2	Appropriation Code Reference Table
APRD	Accounting Period Table
BACC	Balance Sheet Account Table
BANK	Bank Account Table
BCAT	Balance Sheet Category Table
BCLS	Balance Sheet Class Table
BDCT	Budget Category Table
BGRP	Balance Sheet Group Table
CERT	Cost Element Reference Table
CHRG	Charge Class Table
CLDT	Calendar Date Table
ESOP	Extended Purchasing System Control Options Table
FAGY	Fund/Agency Table
FCAT	Fund Category Table
FCCA	Function Category Table
FCCL	Function Class Table
FCGR	Function Group Table
FCLS	Fund Class Table
FCTP	Function Type Table
FDGP	Fund Group Table
FOBL	Federal Obligation Ledger Table
FSCT	Funding Source Code Table
FSYR	Fiscal Year Table
FUNC	Function Table
FUND	Fund Table
FUPH	Function Sub-Phase Table
GBLC	Grant Budget Line Code Table
GGBL	Revenue Accrual To-GBL Validation Table
GVAL	Grant Validation Table
LBAR	Long Bill Group Accumulation Reference Table
LBGR	Long Bill Group Reference Table
LBLR	Long Bill Line Item Reference Table
LHAC	LDC Holding Account Table
OBAS	Obligation Authority Status Table
OBJT	Object Table
OCAT	Object Category Table
OCLS	Object Class Table
OGRP	Object Group Table
OHDT	Overhead Distribution Table
OHRT	Overhead Rate Table

TABLE	TABLE NAME
ORGN	Organization Table
OTYP	Object Type Table
PBAA	Project Billing Account Reference Table
PBPD	Project Definition Billing Pool Table
PBPT	Project Billing Revenue Parameter Table
PBRA	Project Billing Application Table
PBRV	Project Billing Reference Table
PCAT	Program Category Table
PCLS	Program Class Table
PGMT	Program Table
PGRP	Program Group Table
PPGM	Phase/Program Table
PSCH	LDC Position Schedule Table
PTYP	Program Type Table
RCAT	Revenue Category Table
RCLS	Revenue Class Table
REVA	Revenue Accrual Table
RGRP	Revenue Group Table
RPCL	Reporting Category Class Table
RPTC	Reporting Category Table
RSRC	Revenue Source Code Table
RTYP	Revenue Type Table
SOBJ	Sub-Object Table
SOBL	State Obligation Ledger Table
SOCL	Sub-Object Class Table
SOCT	Sub-Object Category Table
SOPT	System Control Options Table
SORG	Sub-Organization Table
SPEC	System Special Accounts Table
SRCL	Sub-Revenue Class Table
SRCT	Sub-Revenue Category Table
SREV	Sub-Revenue Source Table

CHAPTER 2: SECTION 2

FY04-05 BUDGET

KEY DATES

March 1	New year budget tables available.
March 31	Begin nightly run of book process.
June 18	Target date for communicating new revenue receiving account coding to Department of Revenue.
June 21	Deadline for agencies' level 3 approval on AP transactions needed to record the FY04-05 Long Bill.
June 30	Deadline for having FY04-05 Long Bill recorded, approved and reconciled. Deadline for recording expense budgets.
August 6	Target date for booking of State Controller approved rollforwards.
August 27	Completion date for booking all continuing capital construction appropriations and special bills.

This section deals primarily with budgetary issues for opening the new fiscal year. Included in this section are discussions of the budget hierarchy, spending authority indicators, Long Bill booking, expense budgets, special bill booking, and the carryforward of custodial funds. Following are key dates for this section.

2.1 COFRS Budgetary Hierarchy Edits

COFRS has system edits that control a hierarchy for budgetary codes. This hierarchy ensures the accurate roll-up of information for statewide, departmental and agency level budget reports. To ensure the integrity of the roll-ups, SCO establishes and maintains all coding on the following budgetary tables:

LBAR - Long Bill Accumulation Table
 LBGR - Long Bill Group Reference Table
 FSCT - Funding Source Code Table
 LBLR - Long Bill Line Item Table

The APP2 table is a hybrid table because the agency does the initial entry on the table, but any subsequent changes and approvals (approvals through the APPV table) are done by the SCO. Therefore, if an agency wishes to change any APP2 table entry, they must contact their field accounting specialist to make the change. For FY04-05, this may be done any time after March 1.

The budgetary hierarchy establishes a link between all appropriation coding that follows a basic "one-to-one" or "one-to-many" logic from top to bottom that is a reflection of the Long Bill. This

logic is described below. In the following descriptions, alphanumeric means the first character of any code must be alpha (the convention is the first letter of the agency code) and the subsequent characters may be alpha or numeric.

Long Bill (LB) Group Accumulator:

There may be one or many accumulators to a single department. Accumulators are established by SCO and are alpha for appropriated and alphanumeric for nonappropriated.

Long Bill (LB) Group:

There may be one or many LB groups to a single LB group accumulator. Groups are established by SCO and are alpha for appropriated and alphanumeric for nonappropriated.

Funding Source Code:

There may be one or many funding source codes to a single LB group. Funding source codes are established by SCO and are alpha for appropriated and numeric for nonappropriated.

Long Bill (LB) Line Item:

There may be one or many LB line items to a single funding source code. LB line items are established by SCO and are numeric for appropriated and alphanumeric for nonappropriated.

Appropriation Code:

There may be one or many appropriation codes to a single LB line item. Appropriation codes are determined by agencies and may be alpha, numeric, or alphanumeric. See Chapter 4 Section 1.2 for the requirements related to nonappropriated capital construction.

The NYTI process identifies all FY03-04 LBAR, LBGR, FSCT, LBLR, and APP2 tables with an active status and populates those tables for FY04-05 based on the FY03-04 structure. If any of the LBAR, LBGR, FSCT or LBLR table values are inactive within a particular hierarchy structure, the APP2's in that structure will also be inactive; none of the inactive table values are captured by NYTI.

SCO uses the first introduced copy of the Long Bill to ensure that all centrally defined codes are in the system either as a rollforward from the prior year by NYTI or as a new entry. This is completed as soon as possible after we receive the first introduced copy (depending on the date of the preliminary Long Bill). SCO distributes a coded copy of the preliminary and final Long Bill to each department as soon as possible. Agencies may begin adding new APP2 entries or requesting changes to existing APP2 entries beginning March 1 .

All APP2 tables rolled from the prior year populate in FY04-05 as non-approved. Please work closely with your field accounting specialist to ensure your FY04-05 APP2 tables are correct and approved to ensure a smooth Long Bill booking process. See Chapter 2, Section 2.4 for more detail on this process for FY04-05. As a reminder, if you keep track of FTE counts on your APP2 records, any changes necessary should also be completed at this time.

2.2 Appropriation Type Codes

On the APP2 table, agencies should use only the "01" appropriation type code. According to the COFRS User Manual (Section 2, Chapter 2, Page 2.11), there are four options for this field. However, only type "01" is currently operational. There is no system capability for automatically recording continuing appropriations. Therefore, a valid appropriation code must be established and approved in each fiscal year for all appropriations. See discussion of the NYTI process in Chapter 2, Section 1.

2.3 Spending Authority Indicators

All COFRS appropriation transactions (AP transactions) require a spending authority indicator (SAI) code. This code is intended to identify the source of the spending authority and not the type of funding for the appropriation. For example, SAI = 01 is to be used for all spending authority recorded using the annual Long Bill as the source for determining the amount and funding type (i.e., general, general exempt, cash, cash exempt, or federal).

These codes are listed on the COFRS SPND table. Information regarding the SAI codes is maintained on the SCO website. The descriptions on the website supersede the definitions in any previous SCO/COFRS Alerts. There are no significant changes in this year's definitions from the prior year. The SAI is essential to the production of statewide budget-to-actual statements and SCO's monthly budget reconciliation.

Also included on the website is a description of the documentation requirements for AP transactions. The requirements are listed by SAI. The list is not all-inclusive, nor does each documentation item need to be attached every time you use a particular code on an AP.

Please review both the SAI definitions and documentation requirements carefully. If you have any questions about their use, call your field accounting specialist.

2.4 Long Bill Recording - Overview

For FY04-05 we will use the same process for recording the Long Bill into COFRS that we used in FY03-04. The process is semi-automated, and COFRS SYAD Bulletin #201 provides a detailed discussion including examples of the reports with field descriptions.

The process uses approved APP2 records for the new year and current year AFSI, AFSC, AFSF and AFSG tables to create shell transactions that post to SUSF. Agencies may then modify the transactions as necessary and apply their 3rd level approval. Once this step is complete, the system automatically applies a 4th level approval during the nightly cycle. This 4th level approval generates a report that the field accounting services team (FAST) uses to review the transactions. The field accounting specialist then applies 5th level approval if the transactions are correct. The following sections provide a more detailed discussion of the steps.

2.4.1 Long Bill Recording - FY04-05 APP2 Tables

The first step in the process is for agencies to review their FY04-05 APP2 tables created by NYTI and create new FY04-05 APP2 records where needed. Soon after the NYTI process runs over the weekend of March 1, SCO produces a report that lists all of an agency's FY04-05 APP2 records on the system. Specifically, the report lists the agency, funding source code, line item number, fund, appropriation code and appropriation code name. This report will be distributed to the agencies by the FAST and may be used as a tool for agencies to update APP2 records for FY04-05. Agencies may enter new APP2 records, but only field accounting specialists can change existing APP2 records. If changes need to be made to existing APP2 records, contact your field accounting specialist. Agencies need to use the preliminary copy of the Long Bill to accurately establish any new APP2 records.

The booking process is more efficient if all APP2 records for an agency are approved on the same day because all APP2 records with the same fund agency/funding source code will be combined on a single document. The system identifies all approved FY04-05 APP2 records for each agency/fund/funding source code combination in the nightly cycle of the day the APP2 records are approved. The system creates a shell AP document for each combination and posts that transaction to the suspense file (SUSF). In addition, because of this process, the system produces the BDA16R report that identifies all approved appropriation codes and their corresponding shell

AP documents. The transactions are on the report only on the day following the generation of the shell document. Once an APP2 record generates a shell transaction, a flag on the APP2 table will be automatically set so that APP2 will not generate another shell document in that fiscal year. If you have a shell document created that you do not want to use, please remember to delete the document.

2.4.2 Long Bill Recording - Shell Document

The shell generating program uses approved FY04-05 APP2 tables and the FY03-04 AFSI, AFSF, AFSC and AFSG (AFSx) tables as its sources to create base coding in the FY04-05 shell document. This shell document contains the following codes (actual AP field title shown in UPPERCASE):

- ♦ BUDGET FY - Budget fiscal year 05.
- ♦ FUND - Fund per APP2.
- ♦ AGENCY - Agency per APP2.
- ♦ FUNDING SOURCE CODE - Funding source code per APP2.
- ♦ GEN EXEMPT DETAIL OPT, CASH EXEMPT DETAIL OPT, CASH DETAIL OPT, and/or FEDERAL DETAIL OPT - Detail options per FY03-04 AFSx tables; will default to "N" unless this same agency/fund/funding source code combination was annotated in the previous year, then the detail options will be the same as the FY03-04 options.
- ♦ B/A OPTION (on the AP Header) - Budget authority option per FY03-04 AFSx tables; if detail option = "N", B/A option will default to "E", if detail option = "Y", B/A option will default to blank. This is by appropriation type (GXCWF).
- ♦ APPR CODE - All appropriation codes within an agency, fund, funding source combination per APP2.
- ♦ REVENUE SOURCE - All revenue source codes for the combination per FY03-04 AFSx tables; if the combination was annotated in the FY03-04, the shell will carry the same codes as the previous year. If the combination was not annotated in FY03-04, field will default to blank.
- ♦ GXCWF - General, cash, federal, cash exempt, general exempt indicators based on revenue source codes. Will be blank if no RSRC's.
- ♦ B/A OPTION (on the AP line screens) - Budget authority option per FY03-04 AFSx tables; if revenue source code is populated, B/A option will default to "E"; if revenue source is blank, field will not populate.

The SAI code will not be included on the shell transaction. For documents recording the Long Bill, SAI "01" should be used. Please refer to the SCO website for a full discussion of SAI codes.

COFRS adds a "05" prefix for all agencies in the automatic document numbering table (ADNT) when the FY03-04 tables are rolled into FY04-05 by the NYTI process. If there is a "05" entry in ADNT for the agency, the shell process numbers the AP document as follows:

AP ACY FY000000001 to AP ACY FY999999999

ACY	=	Agency per applicable APP2 record(s)
FY	=	New budget fiscal year - 05
000000001	=	Next sequential number from ADNT table

If an ADNT entry “05” does not exist, the shell process numbers the AP transactions as follows:

AP ACY FYDDD000001 to AP ACY FYDDD999999

ACY	=	Agency per applicable APP2 record
FY	=	New budget fiscal year - 05
DDD	=	Julian date shell created (1-365)
000001	=	Sequential 1 to 99999 by Julian date

For example, under the second method, if the Department of Personnel creates 2 documents on May 31 (Julian date 151), they are numbered as follows:

AP AAA 0515100001

AP AAA 0515100002

2.4.3 Long Bill Recording - Completing and Approving the Shell Document

Shell documents, like any other AP document, may be added to, changed, or deleted, and they carry all system edits. Agencies should add all revenue source codes they anticipate needing for the fiscal year (activate the code with \$0). Once an agency has the AP completed and ready for approval, they should apply a 3rd level approval to the document. The system automatically applies a 4th level approval to the document in the nightly cycle of the day the 3rd level approval is applied. If an agency needs to correct a document after the 4th level has been applied, they must contact their field accounting specialist. Only field accounting specialists can remove the 4th level approval. In addition to the 4th level approval, the system produces a BDA17R report that is a screen print of all AP documents with 3rd and 4th level approvals awaiting SCO action. This report will serve as documentation for SCO's files. No other copies of the AP documents need to be submitted by the agency to SCO. Agencies need to have the 3rd level approval on all AP documents used to record the FY04-05 Long Bill by June 21 .

The BDA17R alerts SCO field accounting specialists that documents are awaiting 5th level review and approval. If the document is correct, the field accounting specialist applies a 5th level approval and schedules the document for processing. If the document is not correct, the field accounting specialist removes the 3rd and 4th level approval and contacts the agency for necessary corrections. The BDA18R reports all accepted documents. This report is used by SCO for initial Long Bill reconciliation.

2.4.4 Long Bill Recording - Policy Matters and Other Issues

The automated Long Bill recording process begins running on March 31 . The process is not only available for recording the Long Bill, but also may be used for recording nonappropriated spending authority, special bills, capital construction carryforwards, \$0 transactions to activate appropriation codes and revenue source codes, and any other appropriation action. The process will be turned off when the Long Bill is fully recorded and initially reconciled by SCO FAST.

When recording the Long Bill, remember to restrict your POTS appropriations (i.e., group health and life, short-term disability, and salary survey), if you do not plan to record expenditures directly against those lines. Also, work with your field accounting specialist to determine how federal amounts in the Long Bill will be recorded. Federal amounts may be restricted (e.g., 100%, 50%, 25%, etc.) or they may be recorded with an end date on the APP2 other than June 30 (e.g. December 31).

If you are using this process to record appropriation actions other than the Long Bill, the documentation requirements identified on the website in the SAI information apply. For

example, if you are recording a new federal grant, the field accounting specialist will need a copy of the grant and the Illustration G.

To make sure this process is as efficient as possible, please coordinate with your field accounting specialist to schedule the approvals of APP2 records and AP transactions. It may be helpful to meet with your field accounting specialist prior to starting the book process. Also, make sure that you are scheduled to receive the BDA16R, BDA17R, and BDA18R reports either in hard copy or on INFOPAC.

The FY04-05 Long Bill must be recorded by the agencies and approved and reconciled by the FAST by June 30. In order to accomplish this task, agencies must have all AP documents used to record the Long Bill completed and 3rd level approval applied by June 21. That will give the FAST time to apply the 5th level approval, obtain the final BDA18R reports, reconcile the reports to the Long Bill, contact the agencies with any errors or problems, and obtain and approve necessary correcting AP documents.

2.5 Federal Funds Appropriated as Cash Exempt in Legislative Appropriations

Agencies may receive a cash exempt legislative appropriation that is actually a 100 percent federal grant or contract from another state agency. If this is the case, the agency should record and restrict the cash exempt appropriation. When the recipient agency receives the award or contract from the other agency, the recipient agency should record the actual amount of the award as federal funds. If there is a need to have funds available at the beginning of the year, the agency may record an estimated amount of federal spending authority (e.g., 50% of the expected award). This must be done on a separate document from the original cash exempt appropriation. A spending authority indicator of "04" must be used on the document to record the estimate. In addition, the federal document must include all required documentation as identified in the SAI information on the SCO website. This section applies only if funds are 100% federal; it does not apply if the funds received from the other agency are a mix of federal and any other fund source.

2.6 Expense Budgets

Summary of Automated EB Process: The automated expense budget process creates "shell" EB transactions for the new fiscal year and loads them into the document suspense file (SUSF). This process is similar to the automated Long Bill booking process discussed in Chapter 2, Section 2.4. The shell EB transactions are created concurrently with or subsequent to creation of the corresponding shell AP transactions created by the Long Bill booking process (see additional discussion later in this section regarding shell EB transaction created subsequent to the creation of shell AP transactions).

Information in the shell EB transactions is copied from the prior fiscal year expense budget tables, but will not contain dollar amounts. Agencies must complete the EB transactions by adding amounts, ensuring the accuracy of the account coding, and processing the transactions through to acceptance.

When the shell EB transactions are created, the AUTO AP/EB GENERATED field on APP2 table will be changed to "B". A new report titled Expense Budget Transactions Generation (BDA31R) that lists all shell EB transactions is created at the same time for viewing on INFOPAC.

The automated EB transactions run during each nightly cycle during the Long Bill booking period. The anticipated dates for this are March 31 through June 30. The automated EB process reads the APP2 table and looks for records that meet the following criteria (actual EB field names shown in UPPERCASE):

- ♦ The BUDGET FY field is "05"
- ♦ The STATUS field is "A"
- ♦ The EXPENSE BUDGET CONTROL OPTION field is "C" (full control) or "P" (presence, control)
- ♦ The CENTRAL APPROVAL CODE field is "Y"
- ♦ The AUTO AP/EB GENERATED field is "N" (none) or "A" (AP generated)

Shell EB transactions are created for all records that meet these criteria. If an APP2 record is approved with the EXPENSE BUDGET CONTROL OPTION set at "N" (no control), an automated AP is generated, but no EB is generated. If this field is subsequently changed to "C" or "P" while the automated process is still active, an automated EB transaction is generated.

If a fiscal year ADNT table record exists, the EB transaction is numbered using the following format:

EB ACY FY000000001 to EB ACY FY999999999

ACY	=	Agency Code from APP2
FY	=	New budget fiscal year - 05
000000001	=	Next sequential number from ADNT table

If no ADNT entry exists, the process numbers the EB transactions as follows:

EB ACY FYDDD000001 to EB ACY FYDDD999999

ACY	=	Agency Code from APP2
FY	=	New budget fiscal year - 05
DDD	=	Julian date that shell was created (1-365)
000001	=	Sequentially numbered from '000001' to '999999'

Once the automated EB process has identified records that meet the previously discussed criteria, the EB process scans the expense budget summary by organization inquiry table (ESU1) and the expense budget inquire table (EXPB) for the agency, fund, and appropriation code for the prior fiscal year. If an expense budget existed in the prior fiscal year, information is copied from ESU1 and EXPB and included in a new EB transaction. Fields populated include:

- ♦ FUND
- ♦ AGENCY
- ♦ ORGANIZATION
- ♦ APPROPRIATION CODE
- ♦ PROGRAM
- ♦ OBJECT LEVEL CODE
- ♦ SUB-OBJECT OPTION
- ♦ SPENDING CONTROL INDICATOR
- ♦ BUDGETED FTE
- ♦ DESCRIPTION

No dollar amounts are included on the shell EB transaction.

If no expense budget exists for the prior fiscal year, only the FUND, AGENCY, and APPROPRIATION CODE are copied from the APP2 into the new EB transaction. All other coding must be input by the agency.

Agencies will need to add dollar amounts, change any coding required, approve and schedule the documents for processing. All normal EB transaction edits apply.

The Expense Budget Transaction Generation report (BDA31R) is available on INFOPAC to help agencies identify the EB transactions that are loaded into SUSF. Agencies should review the reports on SUSF the day after their APP2 records are approved for a listing of EB transactions created. The transactions are on the report only on the day following the generation of the shell document.

Expense budgets must be established for each new fiscal year for agencies that use this budgetary control feature. Please ensure that your APP2 table records include the expense budget options desired for your agency. These sub-budgets must be established on COFRS prior to the acceptance of any pre-encumbrance or encumbrance transaction to ensure proper posting of those transactions.

2.7 Special Bill Recording

Legislative acts that contain appropriation clauses (special bills) should be recorded in the system as soon as possible in the new fiscal year. The semi-automated process discussed in Section 2.4 of this chapter may be used to record special bills, or the agency may manually produce AP's. Always use spending authority indicator "02" on AP transactions recording special bill appropriations.

Special bill appropriations should be recorded by August 27 .

2.8 Nonappropriated Spending Authority

The recording of either new or carryforward nonappropriated spending authority may begin at any time after March 1 . An agency may use the previously described semi-automatic booking process or may generate manual AP's. Zero dollar AP documents may be used to activate appropriation codes for nonappropriated spending authority prior to the actual carryforward or in higher education funds that have presence control. The next two subsections discuss the two main types of nonappropriated spending authority – federal funds and other custodial funds.

2.8.1 Carryforward of Federal Funds

Federal funds received directly from a federal source or indirectly from another state agency and have grant periods that do not expire at the end of the state fiscal year may be carried into the new state fiscal year. This may be done at any time appropriate for the agency after March 1 . Agencies do not have to wait until FY03-04 closes to carryforward grants into FY04-05. However, if an agency wishes to carryforward a grant prior to the close of FY03-04, once the FY04-05 appropriation authority is recorded, the FY03-04 appropriation code will be deactivated. If you are requesting a carryforward prior to the close of FY03-04, ensure that all grant accounting transactions are complete – including revenue recognition. All AP transactions to record federal fund carryforwards should use a "04" spending authority indicator.

To carryforward a federal amount from FY03-04 to FY04-05 the agency must prepare an AP transaction and attach the appropriate documentation as described below:

- ♦ If the federal funds were 100 percent recorded in FY03-04 and are in a unique appropriation code (i.e., not commingled with cash, general appropriations, or other federal

grants), provide a screen print of the applicable APPI and AFSI tables or a copy of the applicable page(s) of the BDA01R report. Also, indicate all AP's used in FY03-04 to record appropriation authority based on the grant – a screen print of the OLBL with the appropriate AP's noted is sufficient.

- ♦ If the federal funds were not 100 percent recorded in FY03-04, were 100 percent recorded but partially restricted, were recorded in an appropriation code with any general or cash appropriation or other federal grants, or the carryforward request is for more than the remaining balance of FY03-04 (i.e., grant modifications), different documentation is required. In this case, a copy of the grant award, documentation of previous expenditures specific to the grant, and an Illustration G worksheet are required.

2.8.2 Carryforward of Custodial Funds

As with federal funds, custodial funds that are still available to an agency after the close of the state fiscal year may be carried forward into FY04-05. Custodial funds are essentially nonfederal gifts, donations, grants, and amounts held by an agency as a trustee (e.g., patient accounts). Custodial funds may or may not be exempt from the limitations of the TABOR amendment. To record the carryforward, the agency must prepare an AP transaction. To support the transaction, the agency must provide documentation of the source for funds (for TABOR purposes), and documentation of previous period expenditures.

If your agency has statutory authority to accept funds of this nature, use a spending authority indicator of "10" on AP transactions to record carryforwards. Always write the CRS cite on an AP document using an SAI "10." If your agency does not have statutory authority but is recording custodial funds, use a spending authority indicator of "04" on the AP transactions. To appropriately use an "04" indicator, the agency must show that the donor has restricted the use of the funds for a particular purpose.

Recording custodial funds carryforwards may begin any time after March 1 . As with federal funds, if the carryforward is done prior to close of FY03-04, the FY03-04 appropriation code will be deactivated when the FY04-05 appropriation is accepted.

2.9 Account Coding for Revenues Collected by the Department of Revenue for Other State Agencies

The Department of Revenue (DOR) collects various taxes and fees for several state agencies and posts these revenues directly to the recipient agencies' COFRS accounts. State agencies receiving funds collected by DOR are reminded that all new account coding or account coding changes must be provided to DOR and must be activated in COFRS prior to the start of the new fiscal year. This is essential to ensure the proper and timely posting of revenues.

DOR posts/distributes receipts daily on a single JV document. This daily posting also includes manual warrant (MW) transactions reflecting the issuance of refunds and a second JV document to record short checks. If any coding on the JV is not active in the system, the whole process rejects, thus delaying the posting of millions of dollars of state revenues. DOR has experienced problems in past fiscal years with the coding not being activated in COFRS or changes in coding not being communicated to them.

It is essential that agencies have this revenue coding activated in COFRS and communicated to DOR prior to the new fiscal year. Thus, in order to ensure that DOR can post revenue in FY04-05, the deadline for activating coding in COFRS and communicating with DOR is June 18 . To activate coding contact your field accounting specialist.

Changes should be provided to Dennis Carroll at:

Colorado Department of Revenue
1375 Sherman Street, Room 448
Denver, Colorado 80203

Dennis Carroll may be reached at 303-866-5809 (e-mail: dcarroll@spike.dor.state.co.us), and DOR's fax number is 303-866-2400.

2.10 Overexpenditures Need to Be Restricted

AP transactions are needed to record a restriction of FY04-05 spending authority for any approved FY03-04 overexpenditure. SCO will request documents to accomplish these restrictions after they receive the Governor's approval to do so. If your agency must do a restriction of this type, please remember to use a restriction type of "O" (alpha) on the document. See Chapter 3, Section 1 for a full discussion of this issue. October 8 is the goal for recording these restrictions.

2.11 Use of the COFRS TA Transaction

The COFRS Transfer of Appropriation (TA) document is used to transfer appropriation authority from one appropriation code to another. However, since the TA does not have the capability to transfer the related annotated revenue sources, it cannot be used for transfers of annotated cash or federal funds. By policy, this makes the TA only available for use when transferring general funds.

2.12 \$0 AP Documents

Agencies are not required to send the FAST a paper copy of most zero dollar (\$0) AP documents. A \$0 AP document is defined as having all \$0's on the FIRST screen of the AP document (the Header page). Processing of a \$0 AP document is accomplished by first applying level 3 approval to the document then sending an e-mail request to the applicable FAST team member. It will be helpful to put the message "please approve \$0 AP's" in the subject line. The e-mail will need to indicate the document number(s) of the AP(s) you would like approved and any associated APP2 records that need approval. This procedure will apply to all zero dollar AP documents except for the following situations where a signed copy of the AP document is required.

- The AP document has attached supporting documentation (e.g., releasing restricted federal spending authority based on a grant award, or booking restrictions based on approved over expenditure forms).
- Any other AP document your FAST team member requests to be signed and submitted to the SCO.

CHAPTER 2: SECTION 3

REVENUE SOURCE NOTE ANNOTATIONS PROCEDURES

The Joint Budget Committee has concluded that the source and amount of funds (referred to as annotations) supporting a cash or cash exempt appropriation included in the Long Bill are part and parcel of the appropriation itself

Following are guidelines that must be followed when booking the Long Bill to track compliance with the cash and cash exempt source annotations. Note, these procedures are only required when specific dollar amounts are delineated in the source note annotations.

3.1 Recording Annotations as Part of Budget Booking

1. When specific sources and dollar amounts are included in the source annotations, cash and cash exempt funded spending authority must be annotated with specific budgeted amounts when the Long Bill is booked. This does not apply to overall generic annotations such as “various sources,” or annotations that only specify the fund from which the amount is coming and the activity is accounted for in that fund.
2. Each annotation reported in the Long Bill must have a unique revenue source code or set of revenue source codes **at the funding source code level** so that each annotation may be tracked separately on COFRS reports and screens. This may necessitate the creation of new revenue source codes. If you need a new revenue source code created, please contact your field accounting specialist. They will work with you to get the new code established in COFRS.
3. If an annotation is used across several Long Bill lines, referred to as bottom line funding (e.g., across the Long Bill group), the agency uses the same revenue source code(s) for like revenue across all the lines so that the SCO may roll up the amounts at the Long Bill group level to compare back to the annotation.
4. Any annotations that contain specific amounts as well as an “other” or “various” amount will be flexible up to the total of the “other” or “various” amount. That means the “other” amount may be from any of the sources already specified in the annotation or from another source. SCO will hold departments to the budgeted amounts in the annotation, but will allow “other” amounts to be re-allocated to the specified annotated amounts.

Example: Annotation is for \$1,000 in fees, \$1,000 in interest, and \$500 in “other.” SCO would allow the agency to add up to the \$500 “other” amount into either of the specified revenue sources (not to exceed \$500 for both) or as a separate source. All of the following situations would be allowed:

Situations	1	2	3	4
Fees	1,000	1,200	1,000	1,500
Interest	1,000	1,100	1,500	1,000
Other	500	200	0	0

5. Personal services lines that receive POTS allocations (centralized appropriations) will have an equal increase in the annotation(s) attached to those lines (i.e., the POTS amount will take on the nature of the line to which it is added). If the POTS amounts are annotated and are transferred to a personal services line that does not already contain that annotations source, the agency will need to add the annotation to the personal services line. If both lines are annotated, either method will work.
6. Special bills will be included in annotated Long Bill lines only when it is clear from the language contained in the special bill that the amount appropriated is related to an existing Long Bill line/program. In these instances, the agency may increase the annotations in the line(s) by the amount included in the special bill(s) or, if applicable, new sources will be added in compliance with the special bill. All other special bills will use separate COFRS coding and be kept separate from annotated Long Bill lines.
7. When a valid cash to cash exempt transfer is allowed under CRS 24-75-107.5, the annotations will be adjusted accordingly with a decrease to the cash annotations for the amount of available spending authority and an equal increase in cash exempt spending authority. The annotation for the increase to cash exempt will follow whatever source the agency is using to cover the transfer (i.e., indirect costs, fund balance, etc.).

3.2 Diagnostic Reports

Diagnostic reports are generated on a monthly basis comparing budgeted and actual revenues by revenue source code (see Chapter 3, Section 3.21 & Chapter 5, Section 1). A final diagnostic report will be generated after period 13 close showing all variances with the budgeted annotations. It is important to note that the variances shown on the diagnostic reports do not constitute an overexpenditure as defined by CRS 24-75-109. Any questions about this process should be directed to your field accounting specialist.

CHAPTER 2: SECTION 4

REQUESTS FOR INTERIM SPENDING AUTHORITY AUTHORIZED BY CRS 24-75-111

4.1 Background

When the General Assembly is not in session, CRS 24-75-111 establishes a process to provide appropriation authority to state agencies because of unforeseen circumstances. Specifically, the law authorizes the State Controller's Office (SCO) to allow agency overexpenditures when approved by the Office of State Planning and Budgeting (OSPB), as applicable, the Capital Development Committee (CDC), if related to a capital construction project, and the Joint Budget Committee (JBC) in anticipation of an approved supplemental appropriation. The law further authorizes the State Controller to restrict an agency's spending authority in the following year when a supplemental appropriation is not approved by the General Assembly. This process is for use in emergency situations only.

4.2 Process For Submitting Requests

The process for submitting requests for both non-capital construction and capital construction follow.

4.2.1 Non Capital Construction Requests

Requests for interim spending authority should be consistent with all statutory provisions applicable to the program, function, or purpose for which the request is made, including the provisions of appropriation acts. This means the request should conform with or address existing statutes, Long Bill line items, the need for new Long Bill line items and any related revenue source annotations associated with the original appropriation. All relevant documentation supporting the request should be included with the submission. Department staff should involve related contacts at OSPB, JBC, and the SCO as they prepare requests so each of the central oversight agencies are aware of the request and may provide input into its preparation.

Once complete, requests for interim spending authority are submitted to OSPB for review and approval. Once approved by OSPB, the requests are forwarded from OSPB to the JBC for review and approval. Requests for interim spending authority submitted by the Departments of Law, Treasury, State, the Judicial department, and the Legislature may be submitted directly to the JBC for review and approval.

A request must be approved, in whole or in part by a majority vote of the JBC. If approved, the JBC sends a letter to the State Controller notifying of such approval. The approval includes certification that the JBC intends to introduce a supplemental appropriation to cover the request during the fiscal year in which the request occurred.

The SCO reviews and approves requests for interim spending authority based on the following factors:

- a. Nature of the unforeseen circumstances and verification that an overexpenditure will result if the request is not approved before a supplemental bill is passed.
- b. Compliance of the request with all relevant statutes, including existing appropriations acts.
- c. Approval by the required central oversight agencies (OSPB, CDC, and JBC).

Should a request be denied, the submitting agency may submit a revised request.

Upon approval, the SCO notifies the agency and requests submission of appropriate appropriations documents. A spending authority indicator of “03” should be used since the request will ultimately be approved by the General Assembly as a supplemental appropriation.

4.2.2 Capital Construction Requests

For requests involving capital construction projects, requests should be completed as described above. (CDC and State Buildings staff should be included in discussions as appropriate.) However, once approved by OSPB, capital construction requests are submitted to the CDC for review and approval. Requests for the Departments of Law, Treasury, State, the Judicial department, and the Legislature may be submitted directly to the CDC for review and approval. Once approved by the CDC, the CDC forwards the request with a letter signifying CDC approval to the JBC. The process followed by the JBC is the same as for non-capital construction requests outlined in the previous section.

4.3 Follow-up and Final Resolution

The SCO maintains a log of all approved interim spending authority requests processed during the fiscal year. The SCO provides a report detailing all approved requests to OSPB and the JBC periodically throughout the year. During the legislative session, SCO staff reviews all requests to ensure they are supported by approved supplemental appropriation acts.

If an interim request is not supported by an approved supplemental appropriation act, appropriation documents are processed reversing the interim spending authority (also processed with a spending authority indicator “03”). Any resulting overexpenditure from this reversal will be addressed through the normal transfer/overexpenditure process established by the SCO (refer to Chapter 3, Section 1).

Once all supplemental bills have been approved, the SCO provides a final report to OSPB, CDC and JBC summarizing the status of all interim spending authority requests submitted during the year.

CHAPTER 3: SECTION 1

YEAR END APPROPRIATION TRANSFERS AND OVEREXPENDITURES

KEY DATES

July 6 ,	
July 19 – July 28	Overexpenditure reports are available on these business dates.
July 23	Overexpenditure and transfer forms are due at SCO.
August 2	Signed overexpenditure form on approved overexpenditures due to SCO.

1.1 Statutory Authority for Appropriation Transfers and Overexpenditures

The Colorado Revised Statutes contain three provisions intended to provide flexibility in dealing with overexpenditures. First, CRS 24-75-107.5 allows the Governor to approve an “increase (to) a cash fund exempt appropriation by decreasing a cash fund appropriation in a corresponding amount.” Second, CRS 24-75-108 allows the Governor, or in the case of the Judicial department the Chief Justice, to authorize transfers between certain types of appropriations or overexpenditures. Third, CRS 24-75-109 allows the State Controller, with the approval of the Governor, to approve expenditures in excess of appropriations. These last two remedies are not available prior to May 1 and are subject to certain maximum statewide dollar thresholds. This section sets forth guidelines for agencies to request these approvals.

Advance approval to transfer an appropriation or overspend a budgetary line is required. Release of disbursements against an overdrawn appropriation without prior approval will subject a fiscal officer to penalties per CRS 24-30-202(14). Overexpenditures not covered by the provisions of statute must be considered null and void ab initio per CRS 24-30-202(3).

Year end diagnostic reports showing overexpenditures will be available on INFOPAC and Document Direct by 11 a.m. on the dates shown above. All overexpenditures must either be cleared by proper accounting entries, or supported by an approved appropriation transfer or overexpenditure form (see Section 1.2 and 1.3). This includes transfers from cash spending authority to cash exempt spending authority within the same Long Bill line item. The methodology used to compute overexpenditures is explained in Section 1.5 of this chapter.

Please make every effort to identify appropriation transfer needs and potential overexpenditures as soon as possible using the forms following Section 1.5. Your cooperation is necessary to determine whether or not the state as a whole is in compliance with the statutes. If you determine that an overexpenditure is going to occur, but you cannot identify the exact amount, submit a form with an estimate as soon as possible. (See State of Colorado Fiscal Rules: Rule 7.4.) You need to submit a revised form no later than July 23 . Statutory funds with cash funding source codes that have underearned revenue are not considered overexpenditures if the fund has sufficient fund balance to cover the underearning. (Note: The State Controller cannot approve an overexpenditure that results in a deficit fund balance.) Federal expenditures unsupported by federal revenue constitute an overexpenditure; they must be covered elsewhere in the budget or reported as an overexpenditure.

The State Controller and OSPB approve or disapprove all transfer and overexpenditure forms during the week beginning July 26 . The exception is transfers of cash to cash exempt spending authority within the same funding source. These transfer requests will be approved by OSPB and SCO weekly. You will be notified by the State Controller's Office whether or not your request is approved as soon as the action is taken.

1.2 How to Request an Appropriation Transfer

Wherever possible, overexpenditures should first be covered by transfers from an eligible budgetary line. If you have questions about which budgetary lines are eligible for possible transfer please refer to CRS 24-75-108. If you still have questions, consult your field accounting specialist or OSPB analyst.

To request a transfer of spending authority:

1. Complete the Appropriation Transfer Authorization Form for each budgetary line. See form example following Section 1.5. Transfer forms will be e-mailed to all non-higher ed controllers after completion of this manual. All submissions should be via attachments to e-mails.
2. Fully document the overexpenditure/request for transfer, including the cause of the overexpenditure, the steps taken to minimize the expenditures, and the consequences of the transfer being denied. Also include the events or circumstances leading up to the request; identify the "like" purpose, if it is a one-time or on-going issue, if it will require a statute or budget change in the future. If the request involves a cash fund, the current fund balance should be documented. Attach additional sheets if the space provided on the form is not sufficient.
3. State in the explanation whether disbursements (warrants) have been held.
4. Indicate the date you anticipate that without the transfer, the budgetary line will be overspent and the date of any affected payroll.
5. There is no need to send AP documents with the transfer request until the request is approved (see #6 below for exceptions). Your agency will be notified of the amount approved and then asked to submit the necessary AP documents. SCO will notify you of approval or rejection of your request by July 26 .
6. For transfers from cash to cash exempt spending authority within the same funding source code, both a final transfer form and AP documents with level 3 approval should be sent to the SCO.
7. Please e-mail your request for approval of transfers to the State Controller's Office, attention of your Field Accounting Services Specialist. The form, along with any additional documentation, should be attached to the e-mail.

1.3 How to Request an Overexpenditure Authorization

If an agency is unable to cover overexpenditures by an appropriation transfer, a request for overexpenditure approval should be made using the following procedures:

1. Complete an Account Overexpenditure Authorization Form for each budgetary line where an overexpenditure is anticipated. (See form following Section 1.5)

2. Fully document the reason for the overexpenditure, including the cause of the overexpenditure, the steps taken to minimize the expenditures, and the consequences of the overexpenditure being denied. Attach additional sheets if the space provided on the form is not sufficient.
3. State in the explanation whether disbursements (warrants) have been held.
4. Indicate the date you anticipate the budgetary line will be overspent and the date of any affected payroll.
5. The budget to actual expenditure report and agency variance letters are the basis for identifying overexpenditures. Overexpenditures of appropriated funds are reported to the Governor as required by law for his approval. Overexpenditure forms signed by the department executive director are due to the SCO by August 2 and shall contain, at a minimum, the following information:
 - ♦ The amount of the overexpenditure and a description of the circumstances surrounding the overexpenditure
 - ♦ Name and position of the person responsible
 - ♦ A statement of the administrative action taken to address the problem or an explanation as to why administrative action was not considered necessary
 - ♦ A statement of procedural changes or internal controls that have been or will be implemented to prevent recurrence
6. If the overexpenditure is approved, CRS 24-75-109(3) requires that a like amount be restricted in the year following the overexpenditure. AP documents to restrict spending authority in FY04-05 for a FY03-04 overexpenditure are not required until the Governor approves the overexpenditure. Your agency will be notified of the amount approved and asked to enter the necessary AP documents.

Overexpenditures of nonappropriated funds are reported to the Governor by the State Controller when the overexpenditures are significant, appear to be ongoing, are related to a sensitive activity, or for other reasons determined appropriate by the State Controller. You will be contacted by your field accounting specialist if a variance letter is needed for non-appropriated overexpenditures.

7. Please e-mail your request for approval of overexpenditures to your agency's accounting specialist at the State Controller's Office. The form, along with any additional documentation, should be attached to the e-mail.

As required by statute, related accounts for FY04-05 will be restricted in the same amount as approved for the FY03-04 overexpenditure. The deadline to record the restriction is October 8 . Use restriction type "O" (alpha) on the AP document.

1.4 Deficit Fund Balances

Deficit fund balances are reported in a footnote to the state's comprehensive financial report (CAFR). The abnormal balance report at year end is the basis for identifying deficit fund balances. Agencies that have deficit fund balances as of final year end close must submit a letter to the State Controller by August 2 containing the following information:

- ♦ Department/agency name
- ♦ Statutory citation and description of the fund
- ♦ The amount and circumstances surrounding the deficit
- ♦ Name and position of the person responsible

- ♦ Action planned to correct the deficit
- ♦ A statement of procedural changes or internal controls that have been or will be implemented to prevent recurrence

1.5 Methodology Used to Determine Overexpenditures

For FY03-04, overexpenditures will be calculated using the process described in the following memorandum.

TO: Department Controllers and Budget Officers
Chief Financial Officers of Boards of Higher Education

FROM: Kenneth Conahan, Staff Director
Joint Budget Committee

George Delaney, Director
Office of State Planning and Budgeting

Clifford W. Hall, State Controller
Division of Accounts and Control

DATE: June 29, 1994

SUBJECT: Determining Overexpenditures for FY93-94

The purpose of this memorandum is to provide the basis for determining how overexpenditures will be calculated for appropriated amounts in the Long Bill for FY93-94. This is necessary since additional columns have been added to the Long Bill, fund balance of statutory funds are appropriated in the Long Bill and the added flexibility and implied intent set forth in the transfer bill (HB94-1367).

Previously, overexpenditures were reported if the overexpenditures exceeded the total line item appropriation or if total expenditures less cash/federal revenues exceeded the general fund appropriation budget line and there was no statutory fund balance to cover the overexpenditures. The requirement now exists to not only comply with the total line item appropriation but also to stay within the appropriation by Long Bill column (funding type) at the Long Bill line or group (funding source code level) depending on how the Long Bill is portrayed.

In order to measure compliance with this secondary level of budgetary control, it was necessary to devise a budget formula to compute expenditures by funding type at the funding source code level. Following are the allocation rules that will be applied in the order shown when year end budget to actual compliance reports by funding type within funding source are prepared by the State Controller's Office:

1. Direct coding by funding type at the appropriation code level will be recognized to the extent possible and take precedence over any allocation formula.
2. Federal expenditures will equal federal revenues and receive the first allocation of total expenditures for the funding source code.
3. Expenditures will be allocated next to the Cash Exempt and then to the Cash funding types to the extent of the lesser of the budget or earned revenues. In the case of reserve appropriations, the annotated budget will be added to earned revenues in the allocation calculation.
4. Remaining expenditures will be allocated next to the General Exempt and then to the General funding types based on the lesser of the budget or unallocated expenditures.

5. Remaining unallocated expenditures will then be distributed to the Cash Exempt and Cash funding types to the extent earned revenues exceed the budget amount.
6. Finally, any remaining expenditures will then be added to either General Exempt, if fund 100, Capital Construction Exempt if fund 461, or Cash Exempt if in another fund.

Some examples of the application of the Allocation formula are shown in Attachment A. Any questions about the calculation of overexpenditures should be directed to your field accounting specialist.

CHAPTER 3: SECTION 2

REQUESTING ROLLFORWARD OF APPROPRIATION AUTHORITY FROM FY03-04 TO FY04-05

KEY DATES

July 16	Requests for rollforwards due to SCO.
August 6	Target for SCO to have rollforwards recorded on COFRS.

By state law unexpended annual appropriations expire at the end of a fiscal year. In certain circumstances the State Controller may approve the rollforward of unused annual appropriations as provided by State of Colorado Fiscal Rules: Rule 7-3. The State Controller cannot rollforward an appropriation based on implied legislative intent. In order for a non-capital construction fund appropriation to rollforward, the appropriated funds must be legally committed by a purchase order or contract, and there must be extenuating circumstances which warrant carryover of the remaining appropriation, or there must be express legislative intent.

2.1 Rollforward of Appropriated General and Cash Funds

A rollforward of an unexpended appropriation may arise out of timing problems associated with completing a legislatively authorized project within a single fiscal year. Rollforward requests are required to extend appropriations funded from general, cash, or cash exempt fund sources beyond the initial appropriation year. A rollforward request will not be considered when it represents an effort to capture unexpended balances for general operations or when adequate appropriation is available in the next fiscal year for the same purpose. Each rollforward request must include both adequate justification and documentation of the issues that prevented the expenditure of funds within the current year. Final approval of general fund rollforwards requires that adequate general fund balance is available to support the request.

A rollforward request is not required for nonappropriated funds (e.g., federal and other custodial funds). See Chapter 2, Section 2.8 for further discussion of establishing spending authority for custodial carryforward items in the new fiscal year. A rollforward request is required for encumbered Tobacco Settlement money that is allowed per the statute creating the program.

2.2 Procedures for Appropriated General and Cash Fund Rollforward Requests

- ♦ Blocks of COFRS coding for rollforwards are assigned for each state agency by the SCO. These codes are permanently assigned to each agency. The codes assigned include Long Bill Line Numbers and Funding Source Codes. Agencies may assign any unique APP2 code to these lines. The number of lines assigned is based on the maximum number of rollforwards an agency has had during the last three years (agencies who have never had a rollforward were given a minimum number of five lines). If the number of requests exceeds the number of lines assigned, the agency should contact Dottie Relaford at 303-866-4165 for additional COFRS line coding. The assigned codes are as follows:

DEPARTMENT NAME	ASSIGNED LINE NUMBERS
Department of Personnel and Administration	RF001 – RF019
Department of Agriculture	
Agriculture	RF020 – RF029
State Fair Authority	RF030 – RF039
Department of Corrections	RF040 – RF064
Department of Education	
Education	RF065 – RF074
School for the Deaf and Blind	RF075 – RF084
Governor's Office	
Governor, Lt. Governor, OSPB	RF085 – RF089

Department of Regulatory Agencies	RF280 – RF289
Department of Revenue	
Revenue, Collections	RF290 – RF299
State Lottery Division	RF300 – RF304

DEPARTMENT NAME	ASSIGNED LINE NUMBERS
Division of Gaming	RF305 – RF309
Department of Health Care Policy and Financing	RF310 – RF329
Department of State	RF330 – RF339
Department of the Treasury	RF340 – RF349

- ♦ Completed rollforward request forms (see form at the end of this section), accompanied by proper and complete documentation including AP documents to record the rollforward, must be submitted to your field accounting specialist no later than July 16 .
- ♦ Separate “Request for Appropriation Rollforward” forms must be submitted for each general fund request, each cash or cash exempt fund request, and each appropriation code. Federal funds and other custodial funds are not included on these forms.
- ♦ Proper documentation is necessary to explain and support the request. Proper documentation may come in various forms such as a letter explaining that an item on a purchase order, which under normal circumstances would have been delivered prior to June 30, has not been received. If the justification for the rollforward is explicit legislative intent, please include a copy of the statute or Long Bill letter note or footnote that allows the funds to be carried forward.
- ♦ Attach a COFRS appropriation code reference table (APP2) screen print for the appropriation code to be used in recording the rollforward spending authority. The appropriation end date is set to the planned liquidation date on the rollforward request form. If an agency determines during the fiscal year that this date needs to be changed, provide appropriate justification to your field accounting specialist to have the date changed. Separate appropriation codes need to be established for each rollforward request. Establish these codes prior to the EPS purchase order roll process on July 16 in order to have purchase orders or contract encumbrances rolled forward into the new fiscal year. Remember to process a zero dollar AP for the new fiscal year prior to July 16 to activate the appropriation code.
- ♦ Attach a screen print of a new fiscal year AP transaction. The increase in spending authority should always be general exempt, cash, or cash exempt. The following table provides agencies with guidance on how general and cash funds should be rolled forward based on the original appropriation type, the fund in question, and the earnings status of the amount to be rolled at year end.

Original Appropriation Type	Fund 100 Roll As	Funds 101 - 999 Roll As
General Funds	General Funds Exempt	N/A
Cash/Cash Exempt Funds Already Earned	Cash Funds Exempt	Cash Funds Exempt
Cash Funds Not Yet Earned	Cash Funds	Cash Funds
Cash Exempt Funds Not Yet Earned	Cash Funds Exempt	Cash Funds Exempt

Agencies should also ensure corresponding annotations are used when preparing the appropriation documents for the rolled amounts. Use RSRC 9523 when recording a rollforward for earned cash or cash exempt funds, including funds earned in fund 100.

- ♦ Please note that these AP's can have numerous errors such as "BUBUE-APPR CODE NOT APPROVED" and "BUCGE-APPR DOES NOT EXIST ON APPI". **The AP should include the dollar amounts of the request on page one (the header), have an "05" spending authority indicator, and must be properly approved.** Agencies will be notified of the approved amount by SCO when the exact amount is determined after final close.
- ♦ The State Controller's Office will return a copy of the approved or denied rollforward request to the agency.
- ♦ Agencies requesting reconsideration of denied requests should submit any additional justification and or documentation directly to the State Controller.

To avoid delay in processing any rollforward request, the request forms must be properly completed and properly documented in accordance with the above instructions. Rollforward requests with insufficient documentation or justification will be disapproved. As a reminder, always round up on your rollforward requests. For example, if you need a rollforward for \$87.16, make the request and AP document for \$88.

Rollforward requests must be received at the State Controller's Office no later than 5:00 p.m. on July 16. SCO will process rollforward requests prior to period 1 close. If you have questions please call your field accounting specialist.

Agencies will be responsible for numbering their own rollforward requests. The numbering convention to be used is the three-character, alpha agency code followed by sequential numbers (i.e., ACA1, ACA2, ACA3, etc.). SCO and OSPB will use these numbers throughout the process.

2.3 Rollforwards Related to Multiple-Year Contracts

In certain instances an agency may have multiple-year contracts extending beyond the current fiscal year that will require the rollforward of the current year appropriation. This includes late contracts that require an amendment to extend the performance period beyond June 30 into the next fiscal year. In these situations it is critical that both the contract/amendment and the rollforward be evaluated and approved at the same time. Therefore, if an agency submits a contract to the SCO that will require a rollforward of current year appropriation, the agency must also submit a completed rollforward request along with the contract. The SCO contracts section will then work with the related accounting specialist and the State Controller to evaluate the contract and the rollforward request together.

It is important to note that if SCO approves a multiple-year contract it is assumed that any funding beyond June 30 of the current year will come from appropriations in the subsequent fiscal year. Contract provisions, unexpected circumstances, and other mitigating factors will be evaluated as part of the approval process and all such items should be clearly communicated to the SCO with the contract and the rollforward request. Communication on these types of contracts should occur as soon as possible after they are identified by the agency.

When state agencies route contracts to the central approvers that are contingent upon an approved spending authority rollforward they should mark the CLIN table in COFRS as described in the following paragraph. This will help identify contracts with rollforward requests attached and ensure that they are delivered to the State Controller's Office for review by the CAOS and FAST sections in a timely manner.

In the ROUTING lines of the CLIN table enter a "1" in the field prior to DOAC, then enter the numbers in the correct sequence for the routing to the other central approvers (e.g., personnel "2", Attorney General "3"). On the bottom line of the CLIN table in the comments section type "Rollforward Request". State agencies may also attach a flag to the contract packet indicating that the contract should be delivered to Phil Holtmann of the CAOS section. Because of the urgent need to get spending authority approval and contract execution, state agencies may wish to hand carry these contracts and rollforward requests to the State Controller's Office.

In addition, the SCO contracts section will begin identifying contracts submitted late in the year that they believe may need a rollforward. In these instances, the agency will be contacted to determine whether a spending problem does exist for the current fiscal year or whether a rollforward is needed.

2.4 Rollforwards Funded by Another State Agency

When an agency has a rollforward request that is funded from an appropriation of another state agency, both state agencies must submit a rollforward request.

CHAPTER 3: SECTION 3

CLOSING ACCOUNTING ISSUES

KEY DATES

June 18	Requests to cancel or reissue aged warrants from EAP18R report must be submitted to SCO.
June 30	Walk-in cash deposits must be at the State Treasurer's Office by 2:00 p.m.
July 8	Last day to initiate IT transactions.
July 13	Last day to process IT transactions involving higher education institutions.
July 15	Last day to reissue expired warrants from balance sheet account 2751.
July 15	Last day to have FY03-04 CR documents approved by the state treasury.
July 16	Period 12 close (non-higher education IT cutoff, PV cutoff date, clear balance sheet account 2751).
July 14	Last day to process PB and AJ documents. All reallocation entries for June payroll expenditures must be completed by this date.
July 21	SCO issues the Unrealized Gain/Loss Report on market valuation of Treasurer's pooled cash.
July 28	Period 13 of FY03-04 closes for agency input.
July 30	FY03-04 final close.
August 4	SCO issues Exhibit Reconciling Balance Report, Variance Analysis Reports, Request for Response to Variances Analysis, and Exhibit J Data Report.
August 18	Variance analysis responses due to SCO.
August 18	Agency financial statements and most exhibits due to SCO.

The material in this section has several intended purposes:

- ♦ Assist agencies in developing uniform year end accounting procedures.
- ♦ Inform agencies of significant accounting changes that impact year end financial reporting.

Each agency is responsible for accurate, timely, and complete year end accounting. These procedures are applicable to all state agencies in the legislative, judicial, and executive branches of government.

3.1 Preparing Accounting Estimates

Agencies should review their current accounting estimation procedures to ensure they are consistent with this guidance. If more estimates are necessary to meet the closing timetable, this guidance will serve as a standard for developing processes to prepare those estimates. If an agency follows this guidance and produces an estimate that subsequently proves to be inaccurate, the agency will be supported by the standard. The revenue and expenditure accrual estimation methodologies need to be documented so the process and source data may be used from year to year to achieve consistency and improve estimation methodology. An inaccurate estimate may indicate the need to research variances and use a different methodology to produce a more accurate estimate, given time and resource constraints. Each agency is expected to strive to improve its estimation process between closings with the objective of improving accuracy over time. Since agencies must enter information into the state's accounting system well before financial statements are produced and they are precluded from changing these entries after the close of period 13, agencies are only responsible for providing estimates based on the best information known prior to agency close (period 13 close). After that date, agencies need to inform the SCO of any changes needed to the year end accruals on an Exhibit H.

3.1.1 Estimation of Accrued Expenditures

Agencies are required to accrue all known liabilities at year end. In addition, agencies must report contingent liabilities in accordance with FASB 5. As part of the year end close process, some liabilities must be estimated. Agencies should make year end estimates based on supportable evidence and recognized situations and circumstances known before issuance of the financial statements. If there is a reason for a significant deviation from the factual source, the reason should be documented (e.g., a change in the weather from prior year would be a reason to deviate from the agency's utility bill of prior year if all other factors remain constant).

3.1.2 Estimation of Accrued Revenues

Agencies are required to accrue revenues in accordance with GAAP and the revenue recognition criteria applicable to the fund for which the accrual is made. Estimates of accrued revenue are calculated based on supportable evidence, situations and circumstances known before the issuance of the financial statements. Should current events suggest a need to deviate from a historical source, that change and the need for it should be documented.

3.1.3 Continuous Improvement of Estimation Process

In order to assess the reliability of the estimation process and improve that process in successive years, agencies should compare accounting estimates with subsequent results. Agencies may want to refer to Statement of Auditing Standards (SAS) No. 57 to better understand the relevance of such a comparison.

3.2 Accounts Payable Accruals

FY03-04 payment vouchers (PV's) must be entered on or before period 12 close on July 16 . PV's with a FY03-04 effective date will automatically record a liability in the vouchers payable account 2100 for FY03-04. Because of the time involved in closing and feeding higher education accounting information to COFRS, IT transactions involving higher education institutions must be processed by July 13 . Non-direct billed IT's should not be initiated after July 8 without the express agreement of the other agency involved. For goods and services received from sources other than state agencies on or before June 30, that have not been paid via a PV by the close of period 12 on July 16 , you must record an accounts payable accrual. Debit an expenditure account and credit 2120-ACCOUNTS PAYABLE - OTHER using a journal voucher (JV). Include the vendor code on the JV document for correct 1099 reporting. Intra/interfund accounts payable/receivable accruals must be confirmed with the controller of the other agency or fund and must be finalized by July 23 . Agencies are encouraged to finalize the confirmations as soon as

possible. The form in Chapter 3, Section 5.30 must be used to confirm your intra/interfund receivables and payables.

Documentation to support the payables should be retained in the agency for audit purposes. Do not accrue payables just to expend the balance of the appropriation. Conversely, all payables must be recorded even if it will result in an overexpenditure. Accounts payable relating to FY03-04 should be cleared by September 30. Be sure that any payables accrued in the capital construction fund are valid.

When clearing accounts payable that are the result of over accruing expenditures in a prior fiscal year, it is important to look at the funding source of the accrued expenditures.

1. If the expenditure was against a general fund, cash fund, or cash exempt fund appropriation, revenue source code 8302 should be credited and accounts payable debited. If the activity is in fund 100, appropriation code 999 should be credited.
2. If the expenditure was against a federal fund appropriation, the expenditure of the federal appropriation should be credited and accounts payable debited. An exception may exist if the federal grant is closed. In this case, you will need to coordinate with your federal agency the return of federal funds.

3.3 Accounts Receivable Accruals

In all funds, accounts receivable should be recorded when the related revenue is earned, but not yet collected, or it has been determined that there is a valid debt owed to the agency. In a governmental fund, in order to record a receivable, it must also be susceptible to accrual, meaning both measurable and available. Measurable means that a reasonable estimate of the amount due may be made. Available means the receivable will be collected in time to be used to fund expenditures within the next fiscal year. If the collectibility of the potential receivable is questionable, the agency needs to evaluate if a receivable should be recorded.

Receivables recorded in governmental funds that are not expected to be collected or are not due within the next fiscal year should not be recorded as current accounts receivable. Instead, they should be recorded as long term receivables with an offset to deferred revenue because the asset/revenue is not available. The deferred revenue related to these long-term receivable must be recognized as revenue under the full accrual basis of accounting. The entries to recognize this revenue are recorded in the General Full Accrual Account Group (GFAAG – Fund 471).

Each year in the governmental funds, agencies will likely report additions to the deferred revenue balance and/or reductions of the deferred revenue balance (with revenue recognition as the offset). In the GFAAG, agencies must eliminate the deferral additions by recognizing revenue. Agencies must also eliminate the current year governmental fund revenue (that was recognized in prior periods on the accrual basis in the GFAAG) by debiting revenue. The State Controller is leaving it to the agency's discretion how these entries will be made in the GFAAG. Some agencies may choose to reverse the prior year GFAAG accrual entry and post a new accrual entry based on the ending balance of the governmental fund deferred revenue account balance. Other agencies may decide to track the governmental fund additions and reductions of deferred revenue and post equivalent eliminating entries in the GFAAG. Regardless of the method chosen, when the GFAAG and the governmental funds are combined the result must reflect revenues on the full accrual basis.

Generally Accepted Accounting Principles (GAAP) specify that governmental funds usually record miscellaneous fees and fines on the cash basis. However, it is the State Controller's policy

that agencies use their professional judgment to determine if these items are measurable and available, and therefore, should be recorded as revenue and receivables before receipt of the cash.

In general, receivables should not be recorded with the credit to the allowance account for the total amount of the receivable.

Aging of accounts receivable is required by the "Department of Personnel & Administration Rules on Accounts Receivable Collections." Chapter 1, Section 1.32.02 of the rules requires a monthly "aged" trial balance of all accounts receivable included in total gross accounts receivable. The year end "aged" trial balance should be maintained by the department for audit and other reporting purposes.

3.4 Receivable Categories

The receivable categories remain the same as in the prior year. The categories are:

Student Receivables (Higher Education Reporting Only):

These are any amounts owed to an institution of higher education by a student or former student for such items as tuition, lodging, meals, books, fees, etc. These receivables do not include student loans or notes.

COFRS account number -- 1332

Allowance for Doubtful Accounts -- 1335

Taxes Receivable (Non-Higher Education Reporting Only):

These are amounts owed to a state agency by individuals or organizations (not other state agencies and institutions) for uncollected taxes.

COFRS account numbers -- 1310, 1311, 1326

Allowance for Doubtful Accounts -- 1316, 1317, 1327

Customer Accounts:

These are amounts owed to an agency or institution of the state by individuals or organizations (not other state agencies and institutions) for goods and services rendered, licenses, and other fees.

Non-Higher Education COFRS account numbers -- 1330, 1333, 1334,
1336, 1337, 1338, 1348, 1366

Allowance for Doubtful Accounts -- 1331, 1335, 1349, 1367

Higher Education COFRS account numbers -- 1332, 1333

Allowance for Doubtful Accounts -- 1331

Intra/Interfund Receivables:

These are amounts owed to agencies and institutions by other state agencies or institutions for goods and services provided or other types of transactions. Because of the importance of balancing the intra/interfund receivables and payables and eliminating them, there is not an allowance account reported on the financial statements for this category. To keep these receivables in balance, anything that is not expected to be collected should be a reduction of the receivable if it is not included in the payable.

Non-Higher Education and Higher Education COFRS account numbers -- 1370, 1371, 1390, 1391, 1392

Loans/Notes Receivables:

These are amounts owed to agencies and institutions of the state as a result of loans the state has made to individuals, organizations, other state agencies, local governments and institutions. This category does not include student loans made by colleges and universities.

Non-Higher Education COFRS account numbers -- 1360, 1362
Allowance for Doubtful Accounts -- 1361, 1363

Higher Education COFRS account number -- 1360
Allowance for Doubtful Accounts -- 1361

Receivables from Other Governments:

These are amounts due from other governments including amounts due under contracts and grants from the federal government. Receivables from other governments reimbursed through another state agency or institution should be reported as intra/interfund receivables. Amounts improperly incurred or amounts that exceed grant or contract limits that will not be reimbursed, should not be reported as receivables. Although not a usual occurrence, there may be some circumstances for which an allowance may be used.

Non-Higher Education and Higher Education COFRS account numbers -- 1350, 1351, 1352, 1353, 1354, 1355
Allowance for Doubtful Accounts -- 1359

Other Receivables:

These are receivables due from privately funded grants and contracts or other amounts owed to an agency or institution of the state. Receivables that have no corresponding revenue should be considered for reporting in this category.

Non-Higher Education COFRS account numbers -- 1300, 1320, 1342, 1395
Allowance for Doubtful Accounts -- 1321, 1343

Higher Education COFRS account numbers -- 1300, 1342, 1348, 1395
Allowance for Doubtful Accounts -- 1343, 1349

Long-Term Receivables Over One Year:

These are amounts owed to an agency or institution of the state by individuals or organizations that are not due for payment within the next twelve months. Since these receivables are not due for payment in the next 12 months, all of the long-term receivables should be reported in the not past due category of the aging schedule.

Non-Higher Education COFRS account numbers -- 1720, 1730, 1740, 1762
Allowance for Doubtful Accounts -- 1741

Higher Education COFRS account numbers -- 1720, 1730, 1762
Allowance for Doubtful Accounts -- 1741

Student Loans (Higher Education Reporting Only):

These are amounts due from students, under federal and nonfederal loan programs. The total amount reported as due includes both the state and federal participation amounts of the loan.

COFRS account number – 1362, 1762

Allowance for Doubtful Accounts – 1363, 1741

3.5 Accounts Receivable Allowance and Write-Off

The requirements for writing-off accounts are set forth in the “Department of Personnel and Administration’s (DPA) Administrative Rule on Accounts Receivable Collections”. All requests for write-offs should be sent to the Central Collections Services (CCS) section within the DPA .

CCS requires that all requests for write-offs contain the following information:

- ♦ CCS Debtor Number (if debt has been previously assigned to CCS. If the debt has not been previously assigned to CCS, please indicate that when the write-off request is submitted)
- ♦ Debtor Name
- ♦ Social Security Number (if available)
- ♦ Amount to be written off
- ♦ Contact name and phone number

Year end accounts receivable balances should be aged, which means grouping individual accounts according to the length of time the debt has been outstanding. This is useful both for identifying accounts that need additional collection effort and estimating the allowance for doubtful accounts that should be recorded. When establishing or increasing a receivable allowance account (type 01) in the general fund or other governmental funds, the debit should be made to the related revenue source code as a type 31 entry. An exception to this general rule is the allowancing of receivables for which there is no related revenue such as for a loan or note receivable. The debit in this case should be coded as an expenditure to account type 22 or 24 and object code 4120 “Bad Debt Expense.” The other exception is the write-off of a receivable established in a prior year that exceeds the balance in the allowance for doubtful accounts. The amount of the write-off in excess of the allowance should be recorded as an account type 22 or 24 expenditure. Account type 24 entries do not impact budgets but still permit proper financial reporting. (Higher education institutions that do not have access to COFRS type 24 accounts should continue to use type 22 accounts.) In proprietary fund types, including higher education funds, the offset to the receivable allowance or direct write-off should always be recorded as an expense.

An account receivable may be written off at any time during the fiscal year. This should be done when an agency determines that the account is uncollectible, and thus, should no longer be included in the state’s general ledger or financial statements. Any related allowance should also be removed. Write-offs should be recorded as a credit to the appropriate accounts receivable account and a debit to the type 01 allowance account. Accounts receivable that are fully allowanced should be considered for write-off. Remember that even though an account is written off, the debt to the state is not forgiven. Collection efforts continue through the Central Collection Service and through the use of programs such as the tax and vendor offset. Accounts receivable may only be forgiven or compromised with the approval of the State Treasurer and the State Controller.

If an agency receives a settlement offer on a current account, acceptance of the settlement requires approval of the State Controller and the State Treasurer in order to compromise or forgive a portion of the debt. Agencies should consider consulting their attorney general if they need help in the construction of a settlement agreement for this situation. Settlement agreements for accounts already submitted to Central Collection Service should follow the procedure outlined in its Administrative Rule for Collection for Accounts Receivable.

3.6 Reconciliation of Past Due Accounts Receivable Assigned to Central Collection Service

The Central Collection Services (CCS) Client Inventory Report is available at fiscal year end close. This monthly report of active accounts is used to reconcile your COFRS records to CCS records for receivables remitted to CCS for collection. Reconciliations should be kept at your agency for audit purposes and not sent to the State Controller's Office. Discrepancies need to be resolved directly with CCS.

The active inventory report includes the following information:

- ♦ Debtor name and number, as assigned by CCS;
- ♦ Outside collection agencies assigned to collect the account;
- ♦ Status of the assigned account;
- ♦ Original amount assigned to CCS including any interest accrued or other fees added by the agency;
- ♦ Add on fees or interest assigned by CCS or an outside collection agency;
- ♦ Previous month carryforward balance; and
- ♦ Current period payments, cancellations, and other adjustments.

3.7 Exemptions from Timely Submission of Accounts to Central Collection Service (CCS)

Certain agencies have received, either through statute or from the State Controller, an exemption from submitting past due accounts to CCS. Past due accounts, as defined by the Accounts Receivable Administrative Rule, include receivables 30 or more days past the due date established by the agency. In most cases the exemption allows for additional time to submit accounts to CCS based on a specific or unique circumstance in that agency. Unless statutorily exempted, an exemption from turning accounts over to CCS must be obtained from the State Controller. The State Controller's Office will periodically review these exemptions to determine whether the circumstances for which they were given are still valid. Any agency wishing to apply for an exemption should do so by submitting a letter to the State Controller citing its circumstances and the specifics of the exemption they are requesting.

3.8 Credit Cards

Colorado Revised Statutes (24-19.5-101) allow state agencies to accept payments by credit card. The State Controller has adopted the following policy regarding payments received by credit card.

- ♦ If the full amount of the payment to the state is received from the customer and the agency subsequently disburses bank fees, or otherwise provides funds for the bank fees, the agency shall record the revenue gross and the bank fee as an expenditure. Object code 4105 - Bank Card Fees has been established for this purpose. When the fee has not been specifically budgeted to the agency, then the agency may use a type 24 (which does not reduce available budget) to expense the bank fee. Institutions of higher education may post the fee to a non-appropriated fund.
- ♦ When the agency receives the payment net of the bank card fees, then the agency shall record the revenue gross and the bank card fee as a debit to revenue in either 5208 - Credit

Card Fees Nonexempt or 5209 - Credit Card Fees Exempt. Nonexempt or exempt classification is dependent on the nonexempt or exempt status of the revenue collected in the transaction.

Questions about this policy may be directed to your field accounting specialist.

3.9 Augmenting Revenue

Prior to final closing, each augmenting revenue account should be analyzed and necessary adjusting entries made. These revenues may be from federally sponsored programs or cash sources such as agency charges for goods and services. Federal revenue accruals should be based on the federal matching rate applied to the related expenditures. Other agency cash funded revenue accounts should reflect only the actual earned revenue.

In funds supported by general purpose revenue (funds 100 and 461), an underearning of augmenting revenue may create an overexpenditure because augmenting revenues are subtracted from total expenditures to determine the net general fund expended. It is important that you carefully review each augmenting revenue balance to be sure that it is correct. In addition, it is important not to over accrue federal revenue since it will revert to fund balance.

3.10 Biweekly Payroll

The biweekly payroll for the period ended June 11 will be paid to employees on July 1, 2004. The biweekly payrolls for the periods ending June 11 and June 25 will be accrued and reported for financial statement purposes in FY03-04 but recorded against the FY04-05 budget.

3.11 Furniture and Equipment Inventory

Furniture and equipment having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit should be inventoried annually. If time does not permit the taking of a physical inventory at June 30, it is permissible to take the inventory at or after March 31 and adjust for additions and deletions occurring from the date of the physical inventory until June 30. The Office of the State Auditor should be advised if you elect to take inventory prior to June 30. These assets should be recorded in the General Full Accrual Account Group (471 fund), with the exception of enterprise, internal service, higher education institutions, and trust fund assets that are recorded in those funds. Adjustments needed as a result of the inventory are discussed below.

Prior to FY03-04, TMU and the Department of Human Services (DHS) implemented the fixed asset module on COFRS. The module has been revised to create general ledger entries similar to those described below for agencies other than DHS. DHS will provide year end fixed asset closing procedures to its staff. Use of the Fixed Asset module in COFRS is available to all state agencies.

Agencies other than the Department of Human Services should use the following procedures.

Proprietary (enterprise and internal service funds) and fiduciary funds other than higher education funds should record fixed assets using a type 23 account with a capitalizable property purchase object code (object group 60 in the chart of accounts). This will obligate the budget for the capital asset purchase and capitalize the asset in the fund. Higher education institutions (enterprise funds) should expense the capital purchase with a type 22 account using a capitalizable property purchase object code (object group 60 in the chart of accounts). Higher education agencies should eliminate the capital expense on COFRS by crediting the appropriate capitalizable object codes in fund 399 when debiting the capital asset or related clearing accounts. From the fund category perspective, the net effect of this accounting treatment is a simple conversion of cash to a fixed asset. Higher education institutions should record capitalizable

expenditures related to buildings directly into construction in progress and record non-capitalizable expenditures in a non-capital object of expenditure code.

In governmental funds, capitalizable property purchases should be expended in the governmental fund with a type 22 using a capitalizable property purchase object code (object group 60 in the chart of accounts). At year end or more frequently, governmental fund accountants should convert the capital expenditure on COFRS to full accrual by crediting matching capitalizable object codes in fund 471. This expenditure object is the offset when debiting the capital asset account to capitalize the asset. If you are coding an expenditure that is less than \$5,000, only use object group 60 for items that will be capitalized.

In all funds, the capitalization of donated capital assets should be offset by revenue source codes 6609 through 6617. Governmental funds would only make this entry in fund 471.

When a fixed asset inventory shows assets in excess of those capitalized through the processes described above it is likely because of a beginning balance problem or miscoding of capitalized property purchase objects or donated capital asset revenue source codes. The error should be identified and corrected.

When a fixed asset inventory shows assets less than the amount calculated as beginning balance plus capitalizable property purchases and donated capital assets less known fixed asset dispositions, a fixed asset has been lost or destroyed. The offset (debit) to reducing the book value of the capitalized asset should be made to the type 31 revenue codes 65XX – Gain/Loss on Property Disposal.

Fund 471 is set to “presence control” on COFRS. You do not need to establish a budget amount for these transactions; however, a zero dollar AP transaction needs to be processed to activate a valid appropriation code.

3.12 Cash Deposits with the State Treasurer

The State Treasurer must receive all walk-in deposits and lockbox receipts by 2:00 p.m. on June 30. Any walk-in deposits received after 2:00 p.m. on June 30 are recorded in the next fiscal year.

Agencies who have funds on deposit in agency bank accounts may choose to wire or electronic funds transfer (EFT) cash from the agency account to the Treasurer’s operating account on June 30 in order to have the balance included in the 1100 - TREASURER’S OPERATING CASH account for FY03-04. Cash receipt (CR) documents for these wire transfers must be faxed to the State Treasurer by July 15 (Treasury FAX # 303-866-2123). Any money remaining in the agency bank account at the end of business on June 30 must be shown on COFRS in a 10XX account and included on the agency’s Exhibit M. No amount should be reported in Balance Sheet code 1013 – Cash in Transit to Treasury at the close of the fiscal year. This procedure will ensure that bank statements as of June 30 parallel the COFRS presentation of treasurer’s operating cash and agency cash on deposit. All wire transfers for FY03-04 grant drawdowns must be initiated with enough lead time to ensure that cash is received and credited to the Treasury operating account by June 30. If your agency has not used wire or EFT transfers before, contact the cash manager at the state treasury for assistance, 303-866-3253. The transfer must be initiated in time for the state treasury to receive the funds by June 30.

Your bank should call you to verify the time and amount of the wire. Once cash is deposited with the treasury, it may then be distributed between funds with a JA or JV document. If a June 30 date is used on the document, it affects your FY03-04 trial balance. This distribution should be

made as soon as possible after July 1 since average daily balances in agency accounts are not affected for purposes of interest calculation until the distribution is processed.

If you have any questions regarding this procedure, please contact the accounting section at the Treasury (303-866-5649) or your field accounting specialist.

3.13 Compensated Absences Accrual

With the adoption of GASB 34/35 and GASB Interpretation No. 6 by the state on July 1, 2001, the liability for compensated absences is no longer a fund liability in the governmental funds unless it is payable by June 30, 2004.

The liability at June 30, 2004 (as computed below) is a fund liability for the proprietary and trust funds using full accrual accounting, but not for the governmental funds, which use modified accrual. The governmental funds will record their liability in fund 471 less any fund payable at June 30.

Agencies may calculate their compensated absences balances at the end of periods 09 (March), 10 (April), or 11 (May) and make adjustments for material changes occurring through June 30. The salary amount used to calculate the liability must be the employee's salary at June 30. An averaging technique for a group of individuals may also be used when that calculation results in a reasonably accurate estimate. Regardless of the methodology of calculation, the long-term liability should be increased by any known and material impending claims for sick and annual leave.

The calculation of the compensated absences liability includes:

- ♦ The value of annual leave should be computed as the total days earned, but not taken, times the salary rate per day in effect at the close of the fiscal year. The annual leave accrual also includes the state share of PERA, FICA, or other retirement programs as appropriate. The PERA percentage is 10.15 percent of salary, except for state troopers and CBI agents for which it is 12.85 percent, and Judicial Branch judges for which it is 12.66 percent. For employees hired after March 31, 1986, the state share of Medicare taxes of 1.45 percent of salary is added to the accrual.
- ♦ The value of the vested sick leave accrual should be computed as follows:
25 percent of the total number of sick leave days (not to exceed 45 days plus sick leave earned prior to July 1, 1988), earned but not taken by employees at the close of the accounting period, multiplied by the percentage of current employees covered by PERA that are expected to retire from state service, multiplied by the salary rate per day in effect at the close of the fiscal year. The actuarial percentage of current employees covered by PERA that are expected to retire from state service will not be known until April 2004 or later. This information will be communicated to agencies in an alert. The sick leave accrual does not include the state share of PERA, FICA, other retirement plans, or Medicare taxes since the state share is not paid out at retirement. For higher education employees who are covered by retirement programs other than PERA or FICA and have vested sick leave retirement benefits, the employer should make a compensated absences accrual to assure that the appropriate liability is recorded per GAAP.

The increase or decrease (net change) to the compensated absence liability as of June 30, 2004 is recorded as follows:

- ♦ Funds using modified accrual (governmental funds):

In fund 471 record an increase in the compensated absences as:

- A debit (Type 22 or 24) to 1810-Comp Absence - Annual Leave and 1820-Comp Absence - Sick Leave, and
- A credit to 2910-LT Compensated Abs Liability-Annual Leave and 2920-LT Compensated Abs Liability-S/L.

In fund 471 record a decrease in the compensated absences as:

- A credit (Type 24) to 1810-Comp Absence - Annual Leave and 1820-Comp Absence - Sick Leave (this will result in an abnormal balance but that is allowable in Fund 471), and
- A debit to 2910-LT Compensated Absence Liability-Annual Leave and 2920-LT Compensated Absence Liability-Sick Leave.

In the governmental fund where the amount was payable at June 30, but not paid:

- A debit (Type 22) to 1810-Comp Absence - Annual Leave and 1820-Comp Absence - Sick Leave, and
- A credit to Type 02 – 2440 Current Compensated Absences

♦ Funds using full accrual (proprietary and trust funds):

In the fund record an increase in the compensated absences as:

- A debit (Type 24) to 1810-Comp Absence - Annual Leave and 1820-Comp Absence - Sick Leave, and
- A credit to 2910-LT Compensated Abs Liability-Annual Leave and 2920-LT Compensated Abs Liability-S/L.

In the fund record a decrease in the compensated absences as:

- A credit (Type 24) to 1810-Comp Absence - Annual Leave and 1820-Comp Absence - Sick Leave, and
- A debit to 2910-LT Compensated Abs Liability-Annual Leave and 2920-LT Compensated Abs Liability-S/L.

In all funds, including fund 471, any portion of the liability that is current (to be paid in the next fiscal year) should be reclassified to Type 02 – 2440 Current Compensated Absences. This means that each agency will have both current and long term liabilities for compensated absences. If the current portion is estimated for the retirements to occur in the next year, the long-term liability will be the difference between the current portion and the total liability. Reasonable estimates should be used to allocate the liabilities between the current and long term portions.

3.14 Prepaid Expenses and Consumable Inventories

Agency policies for recording prepaid expenses at June 30 should be reviewed and applied on a consistent basis from year to year. Prepaid expenses should be recorded if the amount is material

and if the entire amount of the payment is attributable to the following year. If a significant and material portion of a payment is attributable to the following year, recording a prepaid expense for that portion should also be considered for recurring payments such as leases, dues, maintenance agreements, etc. Where the amount expensed from year to year is essentially the same, recording a prepaid amount may not be necessary. In all cases, "advance payments" should be closely reviewed to ensure that they are required by "contract terms" and are approved by the State Controller.

All agencies should record on their balance sheet at June 30 significant supplies or other consumable inventories. Significant for this purpose is defined as inventories totaling \$100,000 or more per location. Agencies should not forget that to change the level required to be in their consumable inventory from \$35,000 to \$100,000 requires expensing the difference. Agencies may record inventories under \$100,000 at their discretion. All inventories recorded on the balance sheet must be physically inventoried regardless of dollar amount (see inventory requirements below). If inventories under \$100,000 are not included on the balance sheet, SCO does not require them to be inventoried. However, the agency may decide to conduct a physical inventory count for management purposes. In all cases, internal policies and procedures related to consumable inventories should be consistently applied from year to year, and the recorded balances of such inventories are subject to verification and audit.

Inventories greater than \$100,000 per location must be inventoried annually. Recorded inventories less than \$100,000 per location must be inventoried at least biennially. Estimates of changes in value should be booked in the year a physical count is not taken.

All inventories should be taken at year end. However, if time or resources do not permit the taking of a physical inventory at year end, it is permissible to take the inventory at the end of period 09 (March), 10 (April), or 11 (May) and adjust for additions and withdrawals occurring from the date of the physical inventory until June 30.

Alternately, other inventory schedules may be established for perpetual inventories that are cyclical in nature. Physical counts of perpetual inventories may be taken on a prearranged schedule. This would allow the physical counts for these inventories to be scheduled around the low point in the inventory stock cycle.

Agencies should notify the Office of the State Auditor (OSA) in advance of all physical inventory counts. This may be done by providing the OSA with an inventory schedule showing the dates and locations for planned physical inventory counts.

COFRS inventory module closing procedures:

Users of the COFRS inventory module (INV) have some unique aspects to their closing schedule. In addition to adhering to GAAP and physical inventory requirements regarding perpetual inventories, users of the INV module in COFRS need to follow these procedures.

1. All inventory documents must be completely closed. This may be accomplished by either processing the documents (ACCP status on SUSF) or by modifying the original documents to zero. This includes all stock requisitions (SR) and their accompanying backorders, confirmation issues (CI), over-the-counter sales (OC), transfers (TI/TR), inventory adjustments (IA), and stock returns (SN). No inventory documents can be outstanding after June 30. Inventory documents for the new fiscal year begin on July 1.
2. Inventory Freeze processes take a minimum of three days to complete, as outlined here:

- Day One – Freeze Select of 1, 2 or 3 applied on the FREZ table. System must run overnight to begin physical inventory freeze process, OR, the users must manually enter every inventory item on the INVF table.
- Day Two – INV68R1, 2 or 3 printed and used for the physical count of items in inventory and totals then entered on the INVF table. INV70R, Physical Inventory Discrepancy Report, printed to verify results entered on the INVF table. FREZ table then changed to remove freeze status and post results of physical inventory to COFRS. System must run overnight to complete the physical inventory freeze process.
- Day Three – Annual Physical Inventory Freeze process complete.

Warehouses anticipating a longer than one day physical count of inventory items should adjust the minimum three day schedule accordingly to add additional counting days as necessary. Inventory users should also take into consideration that the minimum three-day process does not take into account potential system or process malfunction.

If a physical inventory is being conducted for a warehouse at year end, the last possible day to freeze an inventory for year end adjustment is June 25 . If there are questions regarding the details of how to post a physical inventory to the COFRS system or if the inventory discrepancy report needs to be rerun, please call the Production Support Team (COFRS Helpline) at 303-866-6122. If you have questions regarding the details of how or when to conduct a physical inventory, please call your field accounting specialist.

3. COFRS will run the regular nightly cycle process on June 30 . All entries made to the warehouses on this day will post to the general ledger and to the inventory ledger in that nightly cycle. Accounting personnel will be able to obtain the dollar value of the inventory by reading OLGL the next day.
4. On July 1, COFRS will change the fiscal year field on the date table (DATE) for INV module transactions to read the new fiscal year account codes. COFRS will also reset the numbering scheme used for the CI documents on the job control language table (JCLT). If a change in the CI numbering scheme is required, please contact COFRS one week before this date with the changes.
5. At this point, users may change values on the WHSE table. These changes should be made July 1 before any INV transactions have been processed and accepted by COFRS for that particular warehouse for the new fiscal year.
6. The warehouses may then begin to enter and process all inventory transactions for the new fiscal year.

No matter when the physical inventory is taken, a clean cut-off at year end is important. Problems may occur if items have been received and counted with the inventory prior to July 1, but the receiving report is not completed until after July 1. In this case, completion of the receiving report in the new fiscal year will add the value to the inventory in the new year when it was already added in the inventory adjustment in the year being closed. These types of difficulties come up because the inventory system “closes” for the fiscal year on June 30, while the accounting system remains “open” until final close. Pay particular attention to situations when the “three way match” is used in relationship to how the inventory system has recorded closing information.

One way to check to be sure that the cut-off is clean is to compare the value of the inventory at year end in the inventory system to the value of the inventory in the general ledger. The value of the inventory may be obtained from INV40R for June 30; on the last page there is an extended value of the cost of the inventory. Compare this to the inventory accounting in the general ledger at year end. These two balances should be close to the same amount. Large differences should be reviewed for possible adjusting entries.

3.15 Internal Control and Certification of Accounting and Reporting Systems

Certification of financial accounting and reporting systems is required on Exhibit I. Every agency within a department must be represented on an Exhibit I, but separate exhibits for each agency within a department are not required. Only one copy of Exhibit I needs to be submitted and is due on August 18. Be careful not to confuse the Exhibit I requirement with the reporting required under the Financial Responsibility and Accountability Act (CRS 24-17-101 et. seq.). See Chapter 5 Section 6 for the related Statement of Compliance due December 31.

3.16 Year End Fund Balance Sweep Entries for Funds 100 and 461

The fiscal year end sweep entries are generated automatically by COFRS and are processed shortly before period 13 close. The purpose of the sweep is to ensure that agency year end fund balances in funds 100 and 461 equal zero. The amount of the sweep entry for each agency will be the fund balance carried forward from the prior year (if any) plus the difference between revenues and expenditures in these funds. The entry will be a debit or credit to balance sheet account 3400 with the offset to the cash account 1100 and/or 1130. An equal and opposite entry will be made to agency 999 in the same fund. It is the intent of this process to prevent agencies from rolling forward fund balances and 1130 cash balances in funds 100 and 461. These entries will eliminate any negative cash position in the 1100 accounts caused by the absence of cash transfers to support general funded expenditures. Because of the timing of these entries, there is the possibility that transactions processed after the sweep entries will leave residual balances on COFRS that roll into the next fiscal year. Since this process is designed to prevent meaningless balances from accumulating over time at the fund/agency level and is essentially for cosmetic purposes, no adjustment to the sweep entry will be made. These balances will simply be 'swept' in the subsequent year end closing.

3.17 Interfund and Intrafund Transfers

Balancing of intra and interfund transactions is required for financial statement preparation at the statewide level. As in prior years, SCO will produce transfer reports during the closing process to inform agencies as to the balancing of their transfer transactions. The transfer reports are available on INFOPAC in COFRS and in Document Direct at http://docdir.state.co.us/document_direct.

The use of the IT transaction by state agencies has made a marked improvement in the balancing of transfer accounts. However, there are some instances where the use of the IT transaction is not feasible and other instances where agencies are not using the IT transaction. The following information is provided to assist agencies in properly coding their transfer transactions. Communication between and within agencies is key to the consistent treatment of transfers and balancing of all transfer accounts.

The SCO definition of a transfer is any payment from one state agency to another, or one fund to another, or one appropriated line item to another, which does not involve the exchange of money for goods or services, and which are generally of an involuntary nature and mandated by budget, statute, or administrative requirements. When goods or services are exchanged and the value received is commensurate with the value paid, then transfer accounts should not be used.

Transfers are most commonly used to move money from an agency or fund where it was properly earned as revenue to another fund or agency. For example, departmental indirect cost recoveries are often appropriated to fund administrative activities in a department. The revenue should be earned in the receipting agency, and a transfer in should be recorded by the other agency (e.g., central administration) to support its cash funded appropriation.

Subrecipient grant transactions with other state agencies should not be confused with transfers, and transfer accounts should not be used for these transactions. Disbursements to other state agencies for federal or state grants should be coded to object codes 5770 through 5776 with special attention paid to the intra/interfund nature of these object codes. Receipts of federal or state grants as a subrecipient from other state agencies should be coded to revenue source codes 7501-7523, 7530, or 7600-7630. Refer to Chapter 1, Section 3.5 for further information on identifying subrecipient relationships and the related accounting and reporting requirements.

The difference between intrafund and interfund transfers is defined at the statewide financial statement level. If two funds are presented in different columns in the combining statements of the state's CAFR then transactions between them are considered interfund. Conversely, transactions between funds presented in the same column of the combining statements are considered intrafund transactions. Transactions between the expendable and nonexpendable funds within a permanent fund should be recorded as interfund even though they will be presented in a single column in the state's CAFR.

The following table shows how COFRS funds are currently grouped for intra/interfund transactions. Any transactions between funds within each category (cell) below should be coded as intrafund. Any transactions between funds in different categories (cells) below should be coded as interfund transactions. Note: This table can also be used to determine whether a receivable/payable or a federal/state grant to another state agency is considered intra or interfund.

FUND CATEGORY	COFRS FUNDS
General Fund	100, 11L, 11P, 11W, 16W, 600
Special Revenue Funds:	
State Public School Fund	113, 17H
Highway Fund	400, 402 thru 409, 414, 435, 715, 730, 731
State Education Fund	440
Labor Fund	415 thru 417
Gaming Fund	274, 401
Tobacco Litigation Settlement	11X, 13J, 13M, 13V, 14B, 14G, 15J, 430, 434, 765, 865
Water Conservation Const.	424, 480 thru 491
Other Special Revenue Funds	101 thru 112, 114 thru 119, 11A thru 11K, 11M, 11N, 11Q thru 11V, 11Y, 11Z, 120 thru 129, 12A thru 12M, 12P thru 12Z, 130 thru 139, 13A thru 13H, 13K, 13L, 13N thru 13T, 13W thru 13Y, 140 thru 149, 14A, 14C thru 14F, 14H, thru 14Y, 150 thru 159, 15A thru 15H, 15K thru 15Y, 160, 162 thru 169, 16A thru 16V, 16X, 16Y, 170 thru 1709, 170A thru 170G, 17J, 17K, 180 thru 209, 20N, 20P, 210 thru 272, 275 thru 299,
Other Special Revenue Funds (Cont)	

FUND CATEGORY	COFRS FUNDS
	2WW, 419, 420, 426, 427, 431, 432, 441, 442, 443, 519, 700, 702, 704, 713, 714, 716, 717, 718, 721, 722, 724 thru 729, 732, 734 thru 760, 811 thru 822, 824, 825, 826, 828, 829, 860, 907, 945, 946
Debt Service	450
Capital Construction	12N, 273, 461, 462, 463
Permanent Funds:	
State Lands Trust Nonexpendable	851 thru 859
State Lands Trust Expendable	705 thru 712, 733
Other Permanent Trusts NonExpndble	161, 723, 850, 861, 862,
Other Permanent Trusts Expendable	761 thru 764, 770
Enterprise Funds:	
Higher Education	3XX
Unemployment Insurance	701
Co. Student Obligation Bond Auth.	512, 513, 514,
Lottery Fund	503
Wildlife Fund	410 thru 413, 418, 421, 422, 423, 428, 433
Guaranteed Student Loan Fund	501, 502, 511, 524, 526
State Fair Authority	510
State Nursing Homes	505
Correctional Industries	507
Prison Canteens	506
Other Enterprise	504, 508, 509, 516 thru 518, 520, 521, 522, 525, 534, 535
Internal Service Funds:	
Central Services	601, 607
General Government Computer Center	602
Telecommunications	603
Capitol Complex	610
Transportation Int. Serv.	606
Public Safety Internal Service	612
Administrative Hearings	611
Debt Collection	604, 609
Agency Funds:	
Revenue Agency Funds	905, 914, 916 thru 928, 939, 940, 942, 944, 949
Treasury Agency Funds	929 thru 938, 941, 943
Other Agency Funds	900 thru 903, 906, 908 thru 911, 915, 947, 948
Pension and Employee Benefit Trust Funds:	
Deferred Compensation Plan	720, 912
Defined Contribution Plan	890
Group Benefits Plan	719, 913, 91E, 91S
Investment Trust Funds	876

FUND CATEGORY	COFRS FUNDS
Private Purpose Trust Funds:	
Treasurer's Private Purpose Trusts	703, 801, 803, 804, 823, 827,
College Savings Plan	515, 545
Other Private Purpose Trusts	802, 810, 830, 831
General Full Accrual Account Group	471
Treasury Invest. Offset	995
Local Government	990, 991

Note to the Fund Category Table: Fund 995, Treasury Investment Offset, and funds 990 and 991, Local Government, are not included in the statewide financial statements. Therefore, these funds are for memo entries only. Actual revenue, expense and balance sheet entries must be made in other funds to be included in the statewide financial statements. Memo entries normally made into funds 990, 991, or 995 should not be made in any other funds because the entries would then be included in the statewide financial statements.

Appropriations in the Long Bill are often based on an agency's receipt of funds from another agency or fund; these requirements to earn revenue are called annotations. The staff of the Joint Budget Committee expects to be informed of whether agencies earn revenue from the sources specified in the Long Bill. The State Controller's Office developed and implemented transfer codes to support reporting on Long Bill annotations. The coding is based on alpha characters to allow for the many codes required by annotation reporting. Note the following about the coding system:

- ♦ Intrafund versus interfund is shown in the first character of the code – A for intrafund and E for interfund.
- ♦ Transfer types are shown in the second letter of the code and are set up in pairs – nonexempt is the first letter of the pair and exempt is the second letter. For example A signifies a cash operating transfer and a B signifies a cash exempt operating transfer.
- ♦ The third character is always the other department involved in the transfer signifying the department that money was received from or transferred to. When the transfer is internal to a department both the object and the revenue source code will use the exact same code. When a transfer is between departments, the code will be the same except for the third character.
- ♦ The fourth character has no particular significance but is used to make the code unique for the annotation reporting process.

The following table displays the coding scheme and lists the transfer types (second character):

First Character Intra or Interfund	Second Character Transfer Type	Third Character <i><u>OTHER</u></i> Department	Fourth Character Unique Transfer (Acct Name)
A (Intrafund)	A (Operating Trans. NonExempt)	A (Personnel)	A-(OT NE DPA INTERNAL) 31 & 22
			B-(OT NE DPA FM DEFFRD COMP.) 31
			B-(OT NE DEFFRD COMP. TO DPA) 22
			C ... etc.
		B (Agriculture)	Similar to above
		C (Corrections)...	Similar to above
	B (Operating Transfer Exempt)	A (Personnel)	A-(OT EX DPA INTERNAL)31 & 22
			C-(OT EX DOL FM RISK MGMT) 31
			C-(OT EX RISK MGMT TO DOL) 22
	D (Cash to General Fund – Shortfall)	Repeat above	Similar to above
	K (Student Fin. Aid NonEx)	Repeat above	Similar to above
	L (Student Fin. Aid Ex)	Repeat above	Similar to above
	M (HUTF Transfers NonEx)	Repeat above	Similar to above
	N (HUTF Transfers Ex)	Repeat above	Similar to above
	P (State Support NonEx)	Repeat above	Similar to above
	Q (State Support Ex)	Repeat above	Similar to above
	R (CMTF NonEx)	Repeat above	Similar to above
	S (CMTF Ex)	Repeat above	Similar to above
	T (Res. Equity Xfr NonEx)	Repeat above	Similar to above
	U (Res. Equity Xfr Ex)	Repeat above	Similar to above
	Y (Indirect Cost NonExempt)	Repeat above	Similar to above
	Z (Indirect Cost Exempt)	Repeat above	Similar to above
E (Interfund)	A (Operating Trans. NonExempt)	Repeat above	Similar to above
	B (Operating Transfer Exempt)...	Repeat above	Similar to above
	Z (Indirect Cost Exempt)	A (Personnel)	A-(IC EX DPA INTERNAL) 31 & 22
		B (Agriculture)	Similar to above

Please refer to the current COFRS chart of accounts to identify the proper object and revenue source codes for individual transfer transactions. Note that residual equity transfers are no longer reported in the state's CAFR; however, the transfer codes related to the residual equity transfer concept have not been deleted or changed. The codes were maintained to support existing coding by agencies, and the related balances will be presented with other interfund operating transfers.

3.18 Clearing Abnormal Balances and Clearing Accounts

Agencies should clear abnormal account balances and any balances in clearing accounts prior to period 12 close on July 16 . Abnormal account balances are identified on the COFRS report GNL05R and on the SCO abnormal balance diagnostic report. Examples of clearing accounts are the Undistributed Charges codes 1583-1599 and Undistributed Receipts codes 2510 and 2520. This requirement in no way reduces the agency's responsibility to identify the proper distribution of amounts recorded in clearing accounts or accounts with abnormal balances.

3.19 Use of Account Type Codes 23 and 24

A careful review of COFRS general ledger reports such as GNL20R should be done to determine if these account types were used properly. Account type 23 is used when a payment is budgeted but the amount should be capitalized rather than impacting the operating statement. This account type is inferred when both the balance sheet code and appropriation code fields are filled on a PV. The result is that the debit appears on budgetary reports and tables as an expenditure, but the balance closes at year end to the balance sheet account rather than an operating statement account. Account type 23 and account type 01 balances will be shown together on the GNL20R. Account type 24 codes result from JV transactions where an expense/expenditure needs to be recorded for the operating statement but the item is not budgeted. Examples of appropriate use of this code are depreciation expense in proprietary fund types, bad debt expense if appropriate (see Chapter 3 Section 3.5), and deferral of payroll and/or Medicaid expenditures related to the budgetary basis of accounting.

Higher education institutions should not use these account types. In the case where an expense/expenditure needs to be recorded but the item is not budgeted, such as compensated absences and depreciation, the activity should be recorded in a nonappropriated/exempt higher education fund.

The following table summarizes the use and impact of account types 23 and 24.

ATTRIBUTE	ACCOUNT TYPE	
	TYPE 23	TYPE 24
Impacts Operating Statement	No	Yes
Obligates a Budget	Yes	No
Closes to Balance Sheet	Yes	No
Potential Applications	Proprietary fund type budgeted capital purchases	Depreciation
	Budgeted loan disbursements	Bad debt expense
		Payroll and Medicaid Deferral/Reversal

3.20 COFRS Extracts

If you receive monthly COFRS extracts, a procedure has been developed for you to request weekly extracts during the closing period (from June 30 through July 30). Use the following form to request that COFRS run normal monthly extracts on a weekly basis starting the week after period 11 close and continuing through period 13 close. The exception to this will be the weekends when FY03-04 periods close (on those weekends only, normal monthly extracts for FY03-04 will be run). This form is to request changes to existing extracts only and is not for new extracts. This form must be submitted to COFRS by May 21 . COFRS will review the request to determine if it is feasible, and will have a response to you by June 14 . If you do have this request approved, be sure to notify your data processing staff so that adequate space will be allocated for COFRS to write the extract data. Also, you will need to ensure that data you need is not overwritten.

TO: Production Support Team, TMU
1525 Sherman St., Suite 150
Denver, CO 80203
Phone: 303-866-6122 Fax: 303-866-6313

FROM: Production Support Team, TMU

DATE: _____

We have reviewed your request for your monthly extract _____ to be run on a weekly basis during year end close. We () can () cannot honor this request. Reason request is denied, if any:

3.21 State Controller's Office Diagnostic Reports and INFOPAC

SCO produces diagnostic reports to assist you in ensuring that the year end balances in your accounts and supplementary information is materially correct. For these reports to be useful, agencies must receive them timely. These diagnostic reports are available on the INFOPAC system in COFRS and on Document Direct at http://docdir.state.co.us/document_direct/.

The INFOPAC system provides both online viewing and paper report distribution. The diagnostic reports are exception reports and use a small volume of paper; therefore, all agencies will receive a printed copy of each SCO diagnostic report placed on INFOPAC. This paper report distribution will be done by GGCC along with the normal COFRS report distribution. If your COFRS reports are currently printed at your location, then your SCO diagnostic reports will also be printed at your location. In addition, if you have a printer connected to GGCC, you may print selected pages from any INFOPAC report during online viewing. Contact the Production Support Team (COFRS help-line staff) at 303-866-6122 if you have problems with access to INFOPAC or Document Direct or getting your reports printed.

On the days the diagnostics are run, the reports will be available for viewing by 11:00 a.m. on the morning following the COFRS nightly processing. If the reports are posted earlier than 11:00 a.m. you will be able to tell by looking at the version date on INFOPAC.

The following table is a listing of the diagnostic reports available on INFOPAC.

Report ID	Report Title	Agency Level
DOACOEX1	Budget-to-actual by Long Bill Group and Funding Source Code	Department
DOACOEX2	Budget-to-actual by Long Bill Group and Funding Source Code	Agency Class
DOACOEX3	Budget-to-actual by Long Bill Group and Funding Source Code	Agency
DOACOEL1	Budget-to-actual by Department, Long Bill Line Item (Overexpended lines only)	Department
DOACANN1	Budget-to-actual Annotations Report by Long Bill Group and Funding Source Code	Department
DOACANN2	Budget-to-actual Annotations Report by Long Bill Group and Funding Source Code	Agency
DOACCCM1	Capital Construction Expenditures Compared to Budget	Agency Class
DOACABN1	Abnormal Balances	Agency
DOACUCH1	Unchanged Balances	Agency
DOACXFR1	Transfer Balances	Department
DOACMAN1	Mandatory and Non-Mandatory Transfers	Agency Class (H.E. only)

Report ID	Report Title	Agency Level
DOACMNO1	Mandatory and Non-Mandatory Transfers Outside the System	Department (H.E. only)
DOACGFA1	Matching Object Codes Between Governmental Funds and GFAAG (471)	Department
DOACCPE1	Capital Project Expenditures Compared to Plant Fund Transfers	Agency (H.E. only)
NOTE: Diagnostic reports will be available on the Monday before fiscal close and on the Monday following fiscal close for all accounting periods. They will also be available for quarter close months (March, September, and December) on the day following calendar close. At year end, reports will be available on July 1, 6, 12 and daily (business days) from July 19 through August 2. All reports include transactions balances as of the close of business on the previous business day.		

The budget-to-actual (by funding source code) report cited in the table above is produced at three levels (agency, agency class, and department) to accommodate the varying methods of allocating budgets. If your department has only one agency indicator, your budget-to-actual report will only appear at the departmental level.

In addition to the reports cited above, the SCO will distribute the following report after Period 12 close.

Unrealized Gains/Losses Report - This report provides agencies with information related to the gain or loss on the cash invested for state agencies by the State Treasurer. The report is only distributed to those agencies that prepare separately issued financial statements or request the information. The content of the report is also limited to those agencies that receive interest on the cash they deposit with the treasurer. The balances in the report are based on Period 12 cash balances; it will be distributed in paper format by **July 21**.

After the final close, the SCO will distribute the following three reports in paper format:

1. Variance Analysis - This report identifies material year-to-year differences in line items by major fund on the statewide financial statements and reports agencies that contributed materially to those differences. The report, distributed in paper format, compares the period 13 balance with the prior year balance in the related account. SCO will distribute these reports by August 4. Agencies are required to review these reports and submit their explanation of the identified variances by August 18. Timely responses are essential to the preparation of the state's financial statements. In addition, the variance analysis addresses an audit requirement at both the agency level and the statewide level. Your responses to this report should satisfy part of your auditor's request for an explanation of year-to-year changes in ending account balances. Your responses will be used to explain year-to-year variances in the comparative financial statements required in the Management Discussion and Analysis.

2. Exhibit Reconciling Balances - This report provides agencies and institutions with COFRS balances required to be reconciled to exhibits. The reconciling balances for Exhibits C, D1, D2, E, F1, M, N, R, W1, and W2 are included. The amounts are based on final closing data and will be distributed in paper format as soon as possible after final close. The report shows prior and current year balances for Exhibits C, W1, and W2. Note that the amounts reported for Exhibit C show more line item detail than was reported in the prior fiscal year in order to reflect changes to the FY03-04 Exhibit C. Agencies and institutions should proceed with preparing their exhibits and should use this report as a check to ensure that all COFRS balances have been included.
3. Exhibit J Data Report – This report provides agencies in higher education institutions with a COFRS trial balance for their agency aggregated into state CAFR financial statement line items. The report will be prepared by the Reporting and Analysis Section and distributed by the field accounting specialists in electronic spreadsheet format. Agencies outside of higher education that prepare proprietary fund financial statements may also request this report. This report is also available each time the diagnostic reports are produced.

3.22 Changes to the COFRS Chart of Accounts

The chart of accounts, included as Appendix 2, should be used both for the FY03-04 closing and for coding transactions in FY04-05. An updated chart of accounts is available on the Financial Date Warehouse. Proposed changes to the chart or related tables should be submitted to David McDermott, SCO Reporting and Analysis Section at 303-866-2739 or david.mcdermott@state.co.us.

3.23 Reissuing Expired Warrants and Clearing the Expired Warrants Liability Account

CRS 24-30-202(9)(a) requires that the State Controller expire outstanding stale dated warrants annually and credit the general fund or if practicable the fund originally charged with the expense. Pursuant to CRS 38-13-112 all monies for these expiring warrants, less federal amounts be delivered to the Unclaimed Property administrator. Effective August, 1, 2003, Senate Bill SB03-062 mandated that outstanding warrants written on all funds are now subject to the unclaimed property law and revert to the Unclaimed Property Fund upon expiration. Previously only outstanding warrants written on Fund 100 reverted to Unclaimed Property upon expiration.

All stale dated and outstanding warrants issued prior to July 1, 2003, that have not been canceled or reissued by June 26 will be expired. The moneys for these expiring warrants will be split between the original fund portion and the federal portion. An automated COFRS JA transaction will transfer the amount of the expiring warrant, less the federal portion, to Unclaimed Property and transfer the federal amount back to the agency.

On May 29 the Expired Warrants Table (EXPW) and the Expired Warrants Table by Agency (EXP2) within COFRS will be uploaded with detailed information about warrants scheduled for expiration. The warrant number and warrant date are displayed as well as payment voucher line detail. Agency, fund, appropriation code, grant budget line code, grant number and federal %, and amount are included for each line.

After the upload has occurred on May 29, agencies are required to review the EXPW or EXP2 table for all warrants. If any portion of the soon-to-be-expired warrant was paid from federal funds, the federally funded amount must be entered in the federal amount field on the EXPW or EXP2 table prior to June 26, the date the expired warrant purge process takes place. The COFRS security group required to enable agencies to make changes to these table is EAPD.

When the warrants expire on June 26 the identified federal amount of these warrants will be posted to balance sheet account 2751-CANCELED WARRANTS PRIOR YEAR. Agencies may reissue expired warrants from balance sheet account 2751 in accordance with procedures in Chapter 6, Section 1 until July 15

Each agency is responsible for clearing balance sheet 2751 by the close of period 12 on July 16. The amount of the federal funds transferred back to the agencies should be credited to the federal grant. Balances in funds 100 (general fund) and 461 (capital construction) should be posted to appropriation code 999, account type 31 and revenue source code 8304 (reversion of expired warrants). Balances in funds other than 100 and 461 may be credited to any appropriate appropriation code as an account type 31 using revenue source code 8304. Any other accounting treatment of this account should be discussed with your field accounting specialist.

3.24 Cancellation of Warrants Issued in FY03-04 and Canceled in FY04-05

All FY03-04 warrants received by the Central Accounting and Operations Section of the State Controller's Office after June 25 will be canceled in FY04-05. When the canceled warrant was originally issued, agencies may have debited accounting codes in FY03-04 that are no longer valid on COFRS for FY04-05. In order for the State Controller's Office to cancel these warrants and record the proper accounting entries required, agencies must identify the FY04-05 accounting codes to be used to restore these funds to the agency.

3.25 Capital Lease Accounting in Governmental Funds

Governmental accounting standards require special treatment of governmental fund capital leases (GASB Codification Section L20.114-5, and FASB 13). The objective of the requirements is to show on the operating statement the source and use of funds related to the financing arrangement that resulted in the entity recording a capital asset and related liability.

In the inception year of the lease, agencies should debit the appropriate object codes in the 63XX or 64XX series (Capital Property Lease Purchase) for the total value of the lease-purchased asset using account type 24. The use of account type 24 allows financial reporting of the transaction but avoids budgetary impact. The agencies should credit revenue source code 7200 (Future Capital Lease Payments) for an amount equal to the amount recorded in account type 24. Revenue source code 7200 will be blocked from the SCO budgetary diagnostic reports. In the budget-to-actual financial statements, augmenting revenue will not be recognized for this non-budgeted transaction. However, revenue source code 7200 does show as earned cash exempt revenue on COFRS. Agencies should be careful when using COFRS tables or reports if they have earned revenue in source code 7200 in the same funding source code as other earned cash exempt revenue. The capital asset and related lease liability should be recorded in the General Full Accrual Account Group (GFAAG – Fund 471) in the same amount as was recorded in the account type 24. This entry is part of the conversion to full accrual described below. If current or subsequent year lease payments are budgeted, record them as type 22 expenditures in account 6810 (capital lease principal) and 6820 (capital lease interest).

Lease payments are normally recognized as expenditures in the year in which they are due. However, if debt service resources have been provided (that is, budgeted from general purpose revenues or recognized augmenting revenue) during the current year for payment of principal and interest due early in the following year, the expenditure and related liability may be recognized in the fund and the principal amount removed from the General Full Accrual Account Group (GFAAG – Fund 471).

The accounting for leases recorded in governmental funds must be converted to the full accrual basis of accounting. Journal entries to convert to full accrual are done in the General Full Accrual

Account Group (GFAAG – Fund 471). The State Controller's Office prefers (but does not require) that the conversion entries be made at the same time the lease accounting entries are made in the governmental fund. The capitalizable property purchase expenditure and other financing source recorded in the governmental fund at inception of the lease must be eliminated. In addition, the governmental fund expenditure related to lease principal payments must be converted to a reduction of lease liability. See Chapter 9 Section 2.5.2 for the journal entries demonstrating the conversion to full accrual for governmental fund lease accounting.

3.26 Closing a Fund

If an agency needs to close a fund that has net assets, the fund should be closed using the object and revenue source codes for residual equity transfers rather than operating transfers. Under GASB 34 residual equity transfers are no longer separately identified in the financial statements. However, the existing residual equity transfer codes have been preserved to allow agencies that routinely use these codes to continue that coding. The residual equity transfer codes will be presented as part of the other interfund transfer balances.

The entry in the fund to be closed will be a debit to object code EUXA. The credit will be to the asset, probably cash. Liabilities of the fund should be liquidated with assets of the fund or closed to the other fund. In the destination fund the entry will be a debit to the asset, probably cash, with the credit to revenue source code EUXA. Under the alpha transfer coding format, both the transfer-out and transfer-in would be coded to EUXA (where the X is replaced by the department indicator letter of the departments involved in the transaction). Before the entries are made, it is important to be sure that all of the appropriate coding structure has been established in both of the funds. If you have questions about this process or have a deficit fund balance in a fund that you are closing, please contact your field accounting specialist or Reporting and Analysis in the SCO.

3.27 Pay Date Shift

SB 03-197 changed the pay date for salaries earned in the month of June from the last working day in June to the first working day in July. This applies to salaries paid to all state employees regardless of funding source. It also includes the second bi-weekly payroll for June, the pay period ending June 11, 2004, which would normally be paid on June 25th. This pay period will be paid on July 1st.

The legislation also changed the calculation of the general fund surplus to record salary expenditures against general fund revenues upon payment of expenditures in July. This means salary expenditures related to the June payroll will be recorded against the FY05 budget for **general funded** salary expenditures **only**. The legislation does not apply to salary expenditures funded by cash or federal sources accounted for in the general fund (fund 100).

Financial statements for the state must be prepared according to generally accepted accounting principles (GAAP). Therefore, the salary expenditures must be expended for financial statement reporting in FY04, but will be expended for budgetary reporting in FY05. The table below summarizes the effect of June salary expenses for financial statement and budget purposes.

Work Period	Normal Pay Date	Revised Pay Date	GAAP	Budget
May 15-May 28	June 11	June 11	Posts to FY04	Leave in FY04
May 29-June 11	June 25	July 1	Posts to FY04	Move to FY05
June 12-June 25	July 9	July 9	Posts to FY04	Move to FY05
June 26-June 30	July 23	July 23	Accrue in FY04 if Material	Leave in FY05
June 1-June 30	June 30	July 1	Posts in FY04	Move to FY05

In order to accommodate the payroll disbursement on July 1, 2004, agencies using CPPS will record June payroll expenditures using the following process:

- June payroll batches for bi-weekly and monthly payroll will post to COFRS as normal, including cash being transferred from each fund/agency combination to fund 100, agency 999 to pay the payroll. All PB batches must be processed by July 14, 2004.
- Departments that redistribute payroll by using LDC or other in-house allocation programs should distribute the affected payroll in the same manner as they do the rest of the fiscal year. All distribution entries to redistribute payroll expenditures from the original payroll batch posting must be completed by July 14, 2004. (**July 14 Last day to process PB and AJ documents. All reallocation entries for June payroll expenditures must be completed by this date.**)
- COFRS, using an analysis of payroll expenditures recorded as of July 14, 2004, will generate and post a JV entry to allocate the payroll liability and related cash amounts in fund 100, agency 999 back to the proper fund/agency combinations. This will record the proper liability amount in the applicable fund. The entry will be automatically reversed in FY05 to record the disbursement of pay on July 1st.
- Higher education institutions using CPPS, the Community College system and AHEC, and the Department of Transportation must process a JA document to allocate the payroll liability and related cash amounts back to the proper fund/agency combinations, because detail information related to their payroll expenditure codes is not recorded on COFRS.
- Payroll expenditure codes used to determine the liability entry include all state personnel system (SPS) and contractual salary and benefit codes, with the exception of leave payout or leave conversion pay codes (1140, 1141, 1142, 1240, 1241, 1242). Other excluded codes include, client wages codes (1256, 1260, 1280), all other employee benefit codes, (13XX), higher ed tuition reimbursements (1531, 1631), unemployment compensation and workers compensation codes (1532, 1533, 1632, 1633, 1640), compensated absence codes (18XX), and all purchased services codes, (19XX).
- Given the process COFRS will use to allocate the June payroll liability and related cash, entries made to payroll expenditure codes recorded in period 12 should only relate to June payroll expense. Any correcting entries for year-to-date payroll-related expenditures through May, 2004, should be processed in period 11 or period 13.

For budgetary purposes, agencies are required to generate an adjusting journal voucher (JV) document to change the payroll expenditures for the general funded portion of the affected payrolls by crediting type 22 expenditures and debiting type 24 expenditures. The fund, agency, appropriation code, and object code must be included in this entry. Organization codes may be used if expense budgets are maintained, but are not required. For appropriation codes requiring a grant budget line (GBL), a dummy code should be established to keep the grant reporting clean. Federal draws should be completed as normal for June payroll expenditures.

- A budgetary adjusting entry based on estimated June payroll may be processed prior to the payroll posting in June, but must be adjusted to actual amounts by agency close, July 28, 2004.
- The budgetary adjusting JV must be reversed in FY05, exactly as processed. Use of the reversal feature in the JV document should be used to avoid re-keying of the entry. The Long Bill line item needed to reverse the entry will be re-established in FY05 even if it is not included in the agency's FY05 Long Bill. This is necessary for the correct reversal of the JV entry. After the reversal entry has been recorded, and reconciled by the SCO, agencies may move the payroll expenditures (type 22), as necessitated by FY05 budget constraints. Do not move the type 24 expenditures. We will notify agencies when the reconciliation process is complete.
- For employees terminating service or retiring from state service effective June 30, 2004, GAAP requires payments due and payable on the effective date of termination to be accrued. These types of expenditures should not be expended in July, even if processed through the payroll system in July.

Agencies not using CPPS:

- Payroll related to June should not be disbursed until July 1, 2004.
- A liability for accrued payroll payable should be recorded as of June 30, 2004, and cleared on July 1.

Budgetary reports will not include type 24 entries, nor will type 24 expenses show on COFRS tables such as APPI. GNL reports will show type 24 expenditures, but are summarized separately from the type 22 expenditures.

CHAPTER 3: SECTION 4

FINANCIAL STATEMENTS

KEY DATES

August 18	Agency financial statements (along with Exhibit J if required) and most other exhibits due to State Controller's Office.
September 24	Management Discussion and Analysis Due to the State Controller's Office .

Financial statement requirements are different for higher education institutions than for non-higher education agencies. Also, requirements vary among non-higher education agencies. Following is a discussion of the financial statement requirements.

4.1 Higher Education Financial Statements

Financial statements required of higher education governing boards and/or institutions are discussed in Higher Education Accounting Standard No. 17. One copy of these statements and related footnotes are to be sent to the State Controller's Office by August 18 along with Exhibit J (See Section 5.14). The Management Discussion and Analysis that is part of the Basic Financial Statements should be sent to the State Controllers Office by September 24 . Exhibit J should reconcile the COFRS period 13 closing trial balance per GNL02R and GNL04R to the board or institution's financial statements. The State Controller's Office prepares an electronic report, distributed via e-mail, that provides the institution's trial balance segregated into the state CAFR line items.

4.2 Non-Higher Education Agencies Financial Statements

COFRS generated financial statements, MCR01R - Comparative Balance Sheet and MCR02R - Statement of Revenue and Expense, meet the fiscal rule requirement for financial statement preparation for non-higher education agencies except for the following agencies that need to prepare statements with full GAAP disclosures including Management Discussion and Analysis:

State Fair Authority
 Gaming Division of the Department of Revenue
 Lottery Division of the Department of Revenue
 Colorado Student Loan Program
 Colorado Student Obligation Bond Authority
 Deferred Compensation Plan

For the agencies listed above, one copy of these statements and related footnotes are to be sent to the State Controller's Office by August 18 along with Exhibit J (see Section 5.14). Exhibit J shows the reconciliation of the COFRS period 13 closing (July 30) balances to the agency's financial statement line items. The Management Discussion and Analysis that is part of the Basic Financial Statements should be sent to the State Controller's Office by September 24

Agencies not on the list above may prepare full GAAP disclosure statements and/or additional supplementary information if they believe that information would be beneficial to management. These agencies are not required to submit an Exhibit J. However, all agencies are required to certify on Exhibit I that they have reviewed COFRS MCR01 and MCR02 reports and the reports are materially correct (see Exhibit I in Chapter 3 Section 5.13). MCR01R and MCR02R reports will be produced weekly by COFRS through period 13.

4.3 Suggested PERA Pension Footnote Language

The following language is suggested for inclusion in the notes of any June 30 financial statements published for agencies or institutions of the State of Colorado. Due to the complex funding mechanism associated with the Matchmaker Program, you will not be able to determine the exact percentage allocation of the state contribution to two of the three plans described. The amount contributed to the health care fund can be calculated as 10.84% (1.1/10.15) of the total contribution from July 1, 2003, thru June 30, 2004.

NOTE X. PENSION PLANS

A. PLAN DESCRIPTION

Virtually all of the department/institution's employees participate in a defined benefit pension plan. The plan's purpose is to provide income to members and their families at retirement or in case of death or disability. The plan is a cost sharing multiple employer plan administered by the Public Employees' Retirement Association (PERA). PERA was established by state statute in 1931. Responsibility for the organization and administration of the plan is placed with the Board of Trustees of PERA. Changes to the plan require legislation by the General Assembly. The state plan and other divisions' plans are included in PERA's financial statements, which may be obtained by writing PERA at 1300 Logan Street, Denver, Colorado 80203, by calling PERA at 303-832-9550 or 1-800-729-PERA (7372), or by visiting www.copera.org.

Plan members vest after five years of service and most are eligible for retirement benefits at age 50 with 30 years of service, age 60 with 20 years of service, or at age 65 with 5 years of service. Members are also eligible for retirement benefits without a reduction for early retirement if they are at least 55 and have a minimum of 5 years of service credit, and their age plus years of service equals 80 or more. State troopers and judges comprise a small percentage of plan members but have higher contribution rates and state troopers are eligible for retirement benefits at different ages and years of service. Monthly benefits are calculated as a percentage of highest average salary (HAS). HAS is one-twelfth of the average of the highest salaries on which contributions were paid, associated with three periods of 12 consecutive months of service credit.

Members disabled, who have five or more years of service credit, six months of which has been earned since the most recent period of membership, may receive retirement benefits if determined to be permanently disabled. If a member dies before retirement, their spouse or their eligible children under the age of 18 (23 if a full time student) are entitled to monthly benefit payments. If there is no eligible spouse, financially dependent parents will receive a survivor's benefit.

B. FUNDING POLICY

Most employees contribute 8.0 percent (10.0 percent for state troopers) of their gross covered wages to an individual account in the plan. During FY03-04, the state contributed 10.15 percent (12.85 percent for state troopers and 12.66 percent for the Judicial Branch) of the employee's gross covered wages. Effective January 1, 2003, 1.1 percent of the total contribution was allocated to the Health Care Trust Fund. Throughout the fiscal year, the amount needed to meet the match requirement established by the PERA Board was allocated to the Matchmaker program (See Note XX below.) The balance remaining after allocations to the Matchmaker program and the Health Care Trust Fund was allocated to the defined benefit plan.

The annual gross covered wages subject to PERA is the gross earnings less any reduction in pay to offset employer contributions to the state sponsored IRC 125 plan established under Section 125 of

the Internal Revenue Code. The contribution requirements of plan members and their employers are established, and may be amended, by the General Assembly.

The department/institution's contributions to the three programs described above for the fiscal years ending June 30, 2004, 2003, and 2002 were \$x,xxx, \$x,xxx, and \$x,xxx, respectively. These contributions met the contribution requirement for each year.

NOTE XX. VOLUNTARY TAX-DEFERRED RETIREMENT PLANS

Beginning on January 1, 2001, the Matchmaker Program established a state match for PERA member's voluntary contributions to tax-deferred retirement plans. For calendar years 2001 and 2002, the match was 100 percent of up to 3 percent of the employee's gross covered wages paid during the month (7 percent for judges in the Judicial Branch). For calendar year 2003, the match was 100 percent of up to 2 percent of employee's gross covered wages paid during the month (6 percent for judges in the Judicial Branch). For calendar year 2004, the match was 100 percent of up to 1 percent of employee's gross covered wages paid during the month (5 percent for judges in the Judicial Branch). The PERA Board sets the level of the match annually based on the actuarial funding of the defined benefit pension plan. Two percent of gross salary plus fifty percent of any reduction in the overall contribution rate due to overfunding of the pension plan was available for the match. While the plan was not overfunded in the current year, the maximum one-year change in the match rate is statutorily limited to one percent, and therefore, the match changed from 2 percent to 1 percent. PERA offers a voluntary 401k plan entirely separate from the defined benefit pension plan. The state offers a 457 deferred compensation plan and certain agencies and institutions of the state offer a 403b plan. Members who contribute to any of these plans also receive the state match.

NOTE XXX. POSTRETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

Health Care Program

PERACare (formerly known as the PERA Health Care Program) began covering benefit recipients and qualified dependents on July 1, 1986. This benefit was developed after legislation in 1985 established the Program and the Health Care Fund. Under this program, PERA subsidizes a portion of the monthly premium for health care coverage. The benefit recipient pays any remaining amount of that premium through an automatic deduction from the monthly retirement benefit. During FY03-04, the premium subsidy was \$115.00 for those with 20 years of service credit (\$230.00 for members under age 65 and not eligible for Medicare), and it was reduced by 5 percent for each year of service fewer than 20.

The Health Care Trust Fund is maintained by an employer's contribution as discussed above in Note X B.

Monthly premium costs for participants depend on the health care plan selected, the number of persons covered, Medicare eligibility, and the number of years of service credit. PERA contracts with a major medical indemnity carrier to administer claims for self-insured medical and prescription benefit plans, and with several health maintenance organizations providing services within Colorado. As of December 31, 2002, there were 35,418 enrollees in the plan.

Life Insurance Program

PERA provides its members access to two group life insurance plans offered by Prudential Insurance Company and Anthem Life (formerly known as Rocky Mountain Life Insurance Company). Members may join one or both plans, and they may continue coverage into retirement. Premiums are collected monthly by payroll deduction or other means.

Other Programs

(Refer to GASB Statement No. 12 for disclosure requirements for other postretirement health care and life insurance benefit plans.)

4.4 Financial Statement Line Item Account Groupings

Selected agencies and all higher education institutions are required to prepare financial statements and Exhibit J as specified in Chapter 3, Section 4.1 and 4.2. The instructions for Exhibit J in Section 5.14 refer to tables that list balance sheet accounts and operating statement accounts that comprise line items on the statewide financial statements. The tables on the following pages provide that information for the following basic financial statements:

- ♦ STATEMENT OF NET ASSETS (Government-wide)
- ♦ BALANCE SHEET – GOVERNMENTAL FUNDS
- ♦ STATEMENT OF NET ASSETS – PROPRIETARY AND FIDUCIARY FUNDS
- ♦ STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS
- ♦ STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET ASSETS – PROPRIETARY FUNDS
- ♦ STATEMENT OF CASH FLOWS – PROPRIETARY FUNDS
- ♦ STATEMENT OF CHANGES IN NET ASSETS – FIDUCIARY FUNDS

Agencies that prepare stand-alone financial statements should use the format and account groupings shown in the following tables. Higher education institutions may present additional detail in their financial statements; generally, that detail should be subsets of individual lines in the following tables. In addition, higher education institutions may present operating expenses in the functional rather than natural object classifications.

As noted in the instructions, Exhibit J should be compiled so that all COFRS trial balance accounts that accumulate to a financial statement line item are grouped together and subtotaled at the financial statement line item level. Throughout the year and at year end the State Controller's Office provides an electronic report (a spreadsheet distributed by e-mail) that lists agency accounts aggregated into financial statement line items. Adjusting, reclassifying, and presentation entries affecting a financial statement line item should also be subtotaled at the line item level.

As shown in the following tables, account 1348 - UNBILLED RECEIVABLES and account 1349 - ALLOWANCE FOR UNBILLED RECEIVABLES roll up into the "Student and Other Receivables" line on the statements. These accounts have been used primarily for management reasons (e.g., complying with an agreement not to bill an earned receivable). However, if management uses these accounts, please be aware that the State Controller's Office may require you to submit a post closing entry. That entry would reclassify the unbilled receivables and the

related allowance account so that the nature of the underlying receivable can be properly shown on the state's financial statements.

The cash flow statement prepared under the direct method format is unique in that it requires assigning both balance sheet and operating statement accounts to line items. Some cash flows are unrelated to operating statement activities including:

- ♦ Purchase and sale/maturity of investments,
- ♦ Acquisition or disposal (at book value) of a fixed asset,
- ♦ Debt issuance and payments on principal,
- ♦ Leases entered and lease principal payments,
- ♦ Receipts and disbursements of deposits held in custody or similar agency type activity.

Balance sheet accounts reported as cash on the financial statements (10XX, 11XX, 2000, and 2712) are excluded from the cash flow statement table below because they are the cash target that the cash flow statement attempts to identify by reporting the operating statement account balances as adjusted for balance sheet accounts. Compensated absences operating statement accounts and balance sheet accounts should net to zero, if they do not the State Controller's Office reports the difference as a payment to or for employees. Accounts such as depreciation are included in the table even though they do not result in cash flows. This is done to ensure that the effect on the balance (e.g. fixed assets) where the change in cash is being measured is accurately represented. The depreciation recorded should offset the change in accumulated depreciation resulting in no cash flow reported.

If your agency records transactions in a proprietary fund, you may need to submit Exhibit Q (see Chapter 3, Section 5.22). Higher education institutions are not required to submit Exhibit Q because they are required to disclose noncash transactions on the cash flow statement exhibit (Exhibit V see Chapter 3, Section 5.27).

Preparation of the direct method format cash flow statement is adversely affected by accounting shortcuts often used by state agencies. Therefore, agencies should observe the following requirements when entering proprietary fund type transactions. These requirements do not apply to higher education, which is reporting as a special purpose government engaged solely in business type activities.

- ♦ Agency fund type accounting should not be done in proprietary funds. If you are holding and disbursing cash for another entity or fund (and therefore making no entries to operating statement accounts), the activity should be accounted for in an agency fund.
- ♦ Journal voucher type transactions should not be done on documents involving cash, such as PVs, CRs, etc.
- ♦ When holding cash or disbursements on the balance sheet, for instance in deferred revenue or undistributed charges or receipts, the transaction that eventually distributes the receipt/disbursement should include an impact on cash. This will result in an equal debit and credit to cash with zero net impact on cash, but it will allow the State Controller's Office to identify the operating statement account impacted by the deferred cash accounting distribution.

STATEMENT OF NET ASSETS – GOVERNMENT WIDE (Excludes Fiduciary Funds)	
Financial Statement Line Item	Accounts Included
ASSETS:	
CURRENT ASSETS:	
Cash and Pooled Cash	1000 thru 1033, 1035 thru 1099, 11XX, 200X, 2712
Investments	12XX
Taxes Receivable, net	1310 thru 1327
Other Receivables, net	1300, 1330 thru 1344, 1346 thru 1349, 1360 thru 1363, 1366 or 1367
Due From Other Governments	135X
Internal Balances	137X, 1390 thru 1394, 1396 thru 1399, 172X, 1730, 236X, 239X, 294X, 295X
Due From Component Units	1395
Inventories	14XX
Prepays, Advances, and Deferred Charges	1500 thru 1537, 1583 thru 159B, PRLN, or LDCR
NONCURRENT ASSETS:

4.5 Discretely Presented Component Units Required by GASB 39

The state is implementing GASB 39 for Fiscal Year 2003-04. The new standard requires foundations or other entities that meet certain requirements to be discretely presented as component units in the state's financial statements. The State Controller has adopted a policy that foundations with assets or revenues in excess of \$75 million will be discretely presented as component units in the state's financial statements. This threshold was based on a survey of state agencies, which has shown that currently this requirement applies only to higher education institution foundations. However, any state agency that has a relationship with an entity that meets the requirements of GASB 39 and exceeds the \$75 million threshold must comply with the requirements of this section.

In order to include these foundations as discretely presented component units (DPCUs), the State Controller's Office needs the audited financial statements of the foundation. The state agency to which the DPCU is related must provide the audited foundation financial statements at the earliest date they are available, but not later than October 31. Because most of the DPCUs have the same fiscal year end as the state, the State Controller's Office will present the DPCUs financial information from the prior fiscal year in the Basis Financial Statements required by Colorado Revised Statutes at September 20. The State Controller's Office will update the DPCUs financial information for the Comprehensive Annual Financial Report using the current year audited financial statements of the DPCUs.

The State Controller requires state agencies and institutions to prepare financial statements using Generally Accepted Accounting Principles similarly to how those standards apply to the state as a whole. Consistent with that requirement, the State Controller requires state agencies related to DPCUs of the state to include those entities as DPCUs in the agency's audited financial statements.

CHAPTER 3: SECTION 5

SUPPLEMENTAL INFORMATION FOR STATEWIDE REPORTING

KEY DATES

July 30	Intra/Interfund Receivable/Payable Confirmation Form due to State Controller's Office.
August 18	Agency Exhibit Listing and applicable exhibits A1, A2, B, C, D1, D2, E, F1, F2, G, I, J, L, M, N, O, P, Q, R, S, T, U, V, W1, and W2 are due to State Controller's Office.
September 20	Exhibit K due to State Controller's Office.

The following additional information, which cannot be obtained from COFRS, is needed for statewide reporting purposes. Exhibits must be based on COFRS data as of the period 13 close. If post closing adjusting entries are approved by your field accounting specialist and Reporting and Analysis after period 13, and before the exhibit due date, they should be incorporated into your exhibit data. Please do not aggregate agencies on the exhibits except on Exhibits I and J if appropriate.

You are not required to complete an exhibit for an agency if it is not applicable. Instead you must show on the Agency Exhibit Listing form discussed in Section 5.1 which exhibits are applicable.

You may submit the Agency Exhibit Listing and all applicable exhibits except Exhibit I and Exhibit R in electronic format if you wish. An Excel template is available on disk or through e-mail from David McDermott (e-mail address - david.mcdermott@state.co.us, phone 303-866-2739). **Submit all exhibits directly to David McDermott in the Reporting and Analysis Section of the State Controller's Office. Reporting and Analysis will provide copies or originals to the field accounting specialists as appropriate.** Submitting your exhibits promptly will eliminate the need for you to respond to our reminder telephone calls. Note the "Date Prepared" line on each exhibit. We will refer to this date to ensure that we are using the latest version of each agency's exhibits in preparing the state's financial statements. **Note that we have added a line for you to provide your e-mail address on each exhibit submitted.**

The following file naming convention should be used in submitting electronic format exhibits through e-mail. The file name should indicate the agency(ies) included, whether the file contains original or revised exhibits, and the file format type in the following structure:

XXX_YYYZ.WWW

- ♦ The XXX represents the COFRS agency indicator. Replace the Xs to the level for which you are reporting. For example, replace the first X with your department letter if you are reporting for your entire department. Replace the first and second X if you are reporting for the agency class or at the board level. Replace all three Xs with your agency code if you are reporting for a single agency.
- ♦ The YYY represents the indicator for whether the file is the original submission or a revision. If you are making your original submission, replace the YYY with ORG. If the file is to revise exhibits already submitted, replace the YYY with REV.

- ♦ The Z represents the revision version number and is needed to ensure we do not overwrite previous revisions.
- ♦ The WWW represents the file type indicator and should be XLS. Your software will supply this indicator when you save the file as an Excel file.

5.1 Agency Exhibit Listing

The completed Agency Exhibit Listing form is your representation of which exhibits were applicable, and it shows the date on which you submitted the applicable exhibits.

The form provides a space at the top to enter the agency code for each active COFRS agency for which you are responsible. For this purpose, active COFRS agencies are agencies having general ledger activity, outstanding or defeased debt, federal assistance, or outstanding lease agreements. In the columns under the agency code, enter for each exhibit listed either 'None' or the date you submitted the exhibit. You will enter 'None' only if the conditions requiring the exhibit did not exist at your agency. If you are not submitting your Exhibit K with your other exhibits because it has a later due date, you should leave the related cell blank. The Reporting and Analysis section will record the date it receives your Exhibit K.

You may use multiple copies of the Agency Exhibit Listing form if you are responsible for more than four agencies. **You should not revise the form if you submit revised exhibits;** Reporting and Analysis will record the revision date on your original exhibit listing.

It is difficult to identify the changes made if an agency submits a full set of exhibits when it makes a revision. **Therefore, if you submit an exhibit revision, include only the exhibits that have changed.** This can be done by deleting all unchanged exhibits from the Exhibit Listing file or by copying only the changed exhibit to a new workbook for submission. Please explain the changes you have made to the exhibits in your revision e-mail or other communication.

AGENCY EXHIBIT LISTING

For the Fiscal Year Ending June 30, 2004

- A1-Changes in TABOR Base Fiscal Year Spending
- A2-Changes in TABOR District or Enterprise Status
- B-Risk Financing and Related Insurance Issues
- C-Schedule of Changes in Long-Term Liabilities
- D1-Governmental & ISF Debt Service Requirements to Maturity
- D2-BTA Debt Service Requirements to Maturity
- E-Schedule of Revenue Bond Coverage
- F1-Schedule of Capital Leases
- F2-Schedule of Operating Leases
- G-Advanced Debt Refunding and Defeasance
- H-Proposed Financial Statement Post-Closing Entry
- I-Letter of Certification of Financial Systems
- J-Financial Statement Reconciliation Format
- K-Schedule of Federal Assistance
- L-Summary of Material Contingent Liabilities
- M-Cash on Hand or Deposited with Financial Institutions
- N-Schedule of Investments
- O-Summary of Related Party Disclosures
- P-Major Estimates
- Q-Proprietary Fund Noncash Transactions (nonhigher ed only)
- R-Petty Cash Delegation Certification/Application
- S-Changes in Short-Term Financing
- T-Segment Reporting
- U-Other Accounting Disclosures
- V-Higher Ed Cash Flow Stmt - Supplemental Information
- W1-Changes in Capital Assets - Gov't'l and Internal Service Funds
- W2-Changes in Capital Assets - Enterprise Funds

[illegible]

Instructions:

1. Enter your three character agency indicator at the top of a column.
2. For each of the exhibits listed enter either:
 - "None" if the conditions requiring the exhibit did not exist at your agency.
 - "XX/YY" if you are submitting an exhibit; replace the XX with the month and the YY with the day the exhibit is being submitted to the State Controller's Office.
 - " " leave the cell blank if an exhibit will be submitted later because it has a later due date.
3. Complete one column for each active COFRS agency; use multiple copies of this form if needed.
4. Submit this form as a cover to your package of exhibits.

5.2 Exhibit A1 - Notification of Changes in the TABOR Base Fiscal Year Spending

A change in fiscal year spending (nonexempt revenues) is either an increase or decrease to nonexempt revenues with a matching offset to exempt revenues. Such a change may affect both the base fiscal year and the fiscal year just completed. A change could be due to resolution of audit findings or misclassifications of revenues. **Show on the Exhibit A1 the balanced journal entry that would have been made to correctly state the TABOR revenues.**

The State Controller's policy is to correct errors relating to each of the previous years that affect the current year TABOR limit. Each year's limit is the lesser of the adjusted prior year limit or adjusted prior year fiscal year spending. The state did not exceed the TABOR limit in Fiscal Year 2002-03. As a result, the Exhibit A1 shows only the prior year as the base year. Increases (of any amount) or decreases in fiscal year spending (less than \$584.3 million – the amount by which the state was under the Fiscal Year 2002-03 limit) will not affect the current fiscal year spending limit. Since a revenue error of that magnitude is unlikely, the Exhibit A1 will show only the prior year as the base year until the state again exceeds the TABOR revenue limit.

Corresponding changes to the current year (FY03-04) are done on Exhibit H unless they have already been posted on the Colorado Financial Reporting System. The same \$100,000 materiality threshold applies to Exhibit A1 as applies to Exhibit H.

5.3 Exhibit A2 - Notification of Changes in the TABOR District or Enterprise Status

In agreement with the Office of the State Auditor and the Attorney General's Office, we revised the processes underlying the Exhibit A2 in Fiscal Year 1997-98. The purpose of this exhibit is to provide the State Controller's Office with the information necessary to ensure that the comparison of TABOR revenues between fiscal years is legitimate. The Exhibit A2 has three sections.

Section A – Increases in TABOR Limit

Use Section A to report the **current year nonexempt revenue** of an entity or activity that is new to the state's TABOR district (this does not include miscoding that should be reported on Exhibit A1). Also, use it to report the nonexempt revenues of an activity that was previously a qualified TABOR enterprise but has lost that qualification in the current year. Such a disqualification may occur because of legislation, because the activity received state support exceeding the allowable ten percent, or for other reasons. The controller will use the amount you report in this section to increase the TABOR limit so that there is no TABOR impact in the year the disqualification occurs or a new activity becomes part of the state's TABOR district. Exempt revenues should not be included in the amount reported in this section. You should show changes to current year (FY03-04) revenues on Exhibit H unless you have already made the change on COFRS. Please indicate by a check mark whether FY03-04 is correct on COFRS or you have submitted an Exhibit H.

Section B – Decreases in TABOR Limit

Use Section B to report the prior-year nonexempt revenues of a newly qualified or requalified enterprise. Such a qualification may occur because of legislation, because the activity received state support of less than ten percent, or for other reasons. When an activity qualifies as a TABOR enterprise, its prior year revenues should not be counted in the limit. To ensure comparability between years, the State Controller's Office must know the amount of the prior year nonexempt revenue of the activity in order to appropriately reduce the TABOR limit.

Section C – Fund Balance

Use Section C to report the current year beginning fund balance of an activity that is new to the TABOR district or of a newly qualified or disqualified enterprise. This information is needed because the TABOR schedule of computations shows the changes in district fund balance to identify the revenues received but not expended. Provide the current year beginning fund balance (i.e., net assets) of the activity. If the assets exceed liabilities show the amount in brackets; if the liabilities exceed assets show the balance without brackets.

The same \$100,000 materiality applies to Exhibit A2 as applies to Exhibit H.

5.4 Exhibit B - Reporting for Risk Financing and Related Insurance Issues

This exhibit reports the detail of agencies' arrangements for insuring against risks. It is required for State Risk Management and any agencies that self-insure their risks other than through State Risk Management.

At the top of the form, enter a summary of the transactions that affected your risk management liability. The balance of the form is descriptive in nature and the sections are self-explanatory.

Accounting literature references for this exhibit include GASB Statement No. 10, GASB Interpretation No. 4, and GASB Implementation Guide for Statement No. 10.

EXHIBIT B
REPORTING FOR RISK FINANCING AND RELATED INSURANCE ISSUES
FOR THE FISCAL YEAR ENDING JUNE 30, 2004

Beginning Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at June 30
------------------------	---	--------------------	-----------------------

Directions: This form is required for any agency that self-insures its risks. Do not include any risks assigned to State Risk Management, unless you are completing this form as State Risk Management. Also include the following:

(a) A description of the risks of loss to which you are exposed and the way in which those risks are handled (for example the purchase of insurance, participation in a risk pool, etc.).

(b) A description of any significant reductions in insurance coverage from coverage in the prior year. Also indicate whether the amount of settlements exceeded insurance coverage for each of the past three fiscal years.

(c) If you are in a risk pool, a description of the nature of the participation including yours, and the pools, rights and responsibilities. If you are not in a risk pool explain the basis for estimating your liabilities, the carrying amount of liabilities for unpaid claims that are discounted and the range of discount rates, the aggregate outstanding amount of claims liabilities for which annuity contracts have been purchased in the claimants' names and the related liabilities that have been removed from the books.

5.5 Exhibit C - Schedule of Changes in Long-Term Liabilities

This exhibit reports the gross increases and decreases in long-term liabilities matching the level of detail shown in the notes to the state's financial statements. The exhibit is divided into the following seven sections that parallel the disclosure in the financial statement footnotes:

- ♦ Long-Term Deposits Held in Custody - (Account 2970) Show additional deposits received during the year as an increase and deposits released as a decrease.
- ♦ Claims and Judgments Payable – (Accounts 287X) Show increases in actual and estimated claims as well as increases in judgments payable as an increase. Show payments of claims, estimated claims reductions, and judgment payments as a decrease. This information will duplicate the amounts shown on Exhibit B if your agency has only risk financing activity in accounts 287X. Since judgments are not included on Exhibit B, the claims information must be included on both exhibits.
- ♦ Capital Lease Payable - (Accounts 2820, 2825) Show new lease liabilities incurred as an increase and payments on lease principal as a decrease. Note that the Exhibit C information for leases is not the same as that reported on Exhibit F1, but it is required to show the gross change in capital lease liability.
- ♦ Bonds (Accounts 2800, 2801, 2803, 2805, 2806, 2807) – Show bonds issued as an increase and payments on principal as a decrease. Show premium/discount and gain/loss on refunding in separate lines. Original recording of premium/discount or gain/loss on refunding should be shown in the increase column, and amortization of these balances should be shown in the decrease column. Use the sign convention discussed below.
- ♦ Certificates of Participation (Accounts 2808, 2809) – Show COPs issued and original premium/discount as increases and payments on principal and amortization of premium/discount as decreases.
- ♦ Notes, Anticipation Warrants, and Mortgages - (Accounts 281X, 2830 and 2840) Report your noncurrent notes (and any related premium/discount), anticipation warrants, and mortgages.
- ♦ Other Long-Term Liabilities - (Accounts 2960 and 2990) Show the gross increases and decreases in these liability accounts in the respective columns.

In each of the categories, both the current and prior year account balances, must agree with the COFRS balances adjusted for postclosing entries. The current and prior year balances were provided to you on the Exhibit Reconciling Balance Report. **All amounts should be entered with the accounting normal-balance signs, that is, credit balances are entered as negative numbers and debit balances are entered as positive numbers.** Compensated absences liabilities are also included in the financial statement notes; however, the State Controller's Office will estimate the gross increase and decrease in this liability based on the payouts recorded in object codes 114X and 124X.

For all liabilities reported on this exhibit, reclassifications from long-term to current should be included in the column titled "Decreases." If you reclassify principal payments to current liability accounts and payment is made against the current liability, then only the reclass should be shown as a decrease in the long-term lease liability.

At the bottom of the exhibit, describe the nature of the liabilities reported in the line Other Long-Term Liabilities. The description should be adequate to explain the nature of the liability to an uninformed user of the financial statements.

EXHIBIT C
SCHEDULE OF CHANGES IN LONG-TERM LIABILITIES
FOR THE FISCAL YEAR ENDING JUNE 30, 2004

Fund	COFRS Account	6/30/03 Balance(CR)	Changes		6/30/04 Balance(CR)
			Increase(CR)	Decrease(DR)	
Deposits Held in Custody (297X)					
Claims and Judgments (287X)					
Capital Lease Payable (2820, 2825)					
Bonds Payable (2800, 2801, 2803, 2805, 2806, 2807)					
Certificates of Participation (2808, 2809)					
Notes, Anticipation Warrants, Mortgages (281X, 2830, 2840)					
Other Long-Term Liabilities (2960 and 2990)					
Totals					

Describe the nature of Other Long-Term Liabilities listed above:

Note: Liabilities reported on the state's financial statements that are not current should be included on this exhibit. Therefore, it includes the COFRS accounts noted parenthetically above. Beginning and ending balances must agree with the balances on COFRS, including any approved adjustments. Do not include Compensated Absence liabilities.

5.6 Exhibit D1 - Governmental and Internal Service Fund - Debt Service Requirements to Maturity

GASB 38 requires disclosure of both principal and interest payments individually by year for the first five years and in five-year increments throughout the term of the debt. The Exhibit D1 reports the debt service requirements for the liabilities reported in the governmental activities column of the Statement of Net Assets.

Enter the amount to be paid in each fiscal year by your governmental and internal service fund types. Do not include amounts to be paid by enterprise funds or fiduciary funds on the Exhibit D1. Unamortized premiums, discounts, refunding gains, and refunding losses should not be allocated to the individual periods on the exhibit, but should be shown in aggregate at the bottom of the exhibit in the line titled "Unamortized Balances". These amounts should only be entered in the principal columns. **The subtotals for the four types of liabilities shown on the exhibit in the principal columns must equal the balances in COFRS accounts 2800, 2805, 2808, 2810, 2830 and 2840, plus current liabilities in accounts 2320, 2323, 2600, 2608, 2610, 2630, and 2640 (as adjusted for post closing entries).** If they do not, you must submit an Exhibit H even if the amount is less than the Exhibit H threshold amount. **The amount classified as current (accounts 23XX and 26XX) must equal the amount shown on this exhibit as payable in Fiscal Year 2004-05.** If they do not, you must submit an Exhibit H even if the amount is less than the Exhibit H threshold amount. The Totals on Exhibit D1 will not agree to Exhibit C by the amount classified as current.

Note that lease liability accounts are not included on this exhibit.

5.7 Exhibit D2 - Business Type Activities - Debt Service Requirements to Maturity

GASB 38 requires disclosure of both principal and interest payments individually by year for the first five years and in five-year increments throughout the term of the debt. The Exhibit D2 reports the debt service requirements for the liabilities reported in the business-type activities column of the Statement of Net Assets.

Enter the amount to be paid in each fiscal year by your enterprise fund types. Do not include amounts to be paid by governmental fund types, internal service funds, or fiduciary fund types on the Exhibit D2. Unamortized premiums, discounts, refunding gains, and refunding losses should not be allocated to the individual periods on the exhibit, but should be shown in aggregate at the bottom of the exhibit in the line titled "Unamortized Balances". These amounts should only be entered in the principal columns. **The subtotals for the four types of liabilities shown on the exhibit in the principal columns must equal the balances in COFRS accounts 2800, 2805, 2808, 2810, 2830 and 2840, plus current liabilities in accounts 2320, 2323, 2600, 2608, 2610, 2630, and 2640 (as adjusted for post closing entries).** If they do not, you must submit an Exhibit H even if the amount is less than the Exhibit H threshold amount. **The amount classified as current (accounts 23XX and 26XX) must equal the amount shown on this exhibit as payable in Fiscal Year 2004-05.** If they do not, you must submit an Exhibit H even if the amount is less than the Exhibit H threshold amount. The Totals on Exhibit D2 will not agree to Exhibit C by the amount classified as current.

5.8 Exhibit E - Schedule of Revenue Bond Coverage

Use this exhibit to report the extent to which pledged revenues exceeded direct operating expenses and were available to meet debt service needs. Report the gross revenue pledged to service your revenue-bond debt and the direct operating expense related to those revenues. Calculate the available net revenue as the difference between pledged gross revenue and direct operating expense. Enter the debt service principal and interest related to the revenue bonds, and calculate the total debt service as the sum of the principal plus interest. You may aggregate multiple bond commitments on the same exhibit. The revenue amount shown on the exhibit should be your agency or institution's pledged revenues, and it should equal the amount of revenues recorded or reclassified into the pledged revenue accounts (5030, 5470, 5930, 7450, and 8330) on COFRS and on the state's financial statements.

EXHIBIT E

5.9 Exhibit F1 - Schedule of Capital Leases

Use this exhibit to report information on capital assets acquired under lease financing.

At the top of the form, enter the gross amount of capital assets under lease at fiscal year end by asset type. This should include only assets that remain under lease, and it should be the balances originally recorded in the COFRS 18XX accounts without regard to depreciation. Assets financed by certificates of participation should not be included in these amounts. Combine the land and improvements to land accounts (1800, 1810, 1815) under the category land. Combine the buildings, leasehold improvements, and construction in progress accounts (1820, 1830, and 1860) under the heading buildings. Combine the equipment, library books and holdings, and other capital assets accounts (1840, 1841, 1842, 1843, 1850, 1855, 1857, and 1870) under the heading equipment and other. This information is presented in the CAFR as a frame of reference to show the state's progress in paying for its leased assets.

In completing the section on future minimum lease payments, apply the criteria in FASB Statement 13 to differentiate between capital and operating leases. Report operating leases on Exhibit F2. For your capital leases enter the total payments per your lease payment schedule by fiscal year. Enter the portion of the payment that is interest or executory costs. Executory costs comprise insurance, maintenance, and taxes included in your lease payment. Calculate the payments on principal as the capital lease payments less implicit interest and executory costs.

The COFRS combined balances in accounts 2321 and 2620 must equal the amount reported as principal payments due in Fiscal Year 2004-05. If they do not, you must submit an Exhibit H even if the amount is less than the Exhibit H threshold amount. **The total future payments on principal for all years combined must equal the lease liability recorded in accounts 2321, 2620, 2820, and 2825 on COFRS.** If they do not, you must submit an Exhibit H even if the amount is less than the Exhibit H threshold amount.

Amounts related to Certificates of Participation are reported on Exhibit D1 and/or Exhibit D2; do not include them on Exhibit F1.

Report as a single total amount the sublease rental payments you will receive from third party sublessees in all future years. Report the amount of contingent rentals for the current fiscal year. Contingent rentals are any lease payment that is determined in relation to some factor other than the passage of time. An example of a contingent rental is a lease payment based on the usage level of equipment.

At the bottom of the form, provide a description of your leasing arrangement along with a description of the basis for determining contingent rentals, renewal and purchase options or escalation clause, and restrictions imposed by the lease agreements. If the exhibit covers more than one lease arrangement, provide a description for each major leasing arrangement.

5.10 Exhibit F2 - Schedule of Operating Leases

GAAP requires disclosure of future minimum lease payments for all noncancelable operating leases. State contracts contain a clause making them contingent on the availability of future lease appropriations. However, since these contracts are normally funded, this clause alone will not qualify the lease as cancelable. Therefore, you should look to other provisions of the lease agreement to determine if your operating lease is noncancelable, and thus, should be reported on this exhibit. The operating lease disclosure requirements are intended to show external commitments; therefore, lease arrangements with Capitol Complex and other internal lease arrangements should not be included on this exhibit.

In completing the section on future minimum lease payments, apply the criteria in FASB Statement 13 to differentiate between capital and operating leases. Report capital leases on Exhibit F1. Enter your future minimum lease payments by year from your lease payment schedule.

GASB Statement No. 13 requires specific accounting for operating leases with scheduled rent increases. Scheduled rent increases are increases that are fixed by contract. They occur with the passage of time and are not contingent on future events. There are two types of rent increases. Systematic and rational increases result from inflation or increases in the value or availability of the leased item. For this type of rent increase, the contract amount should be recorded as rent expense/expenditure and entered on the Exhibit F2. A second type of rent increase occurs when certain operating lease payments are low in relation to other payments as an inducement to enter the lease. For this type of rent increase, proprietary funds should record expense based on the straight line or effective interest method. Governmental funds should record the contract amount of rent in the governmental fund, and make an adjustment in the General Full Accrual Account Group (Fund 471) to convert the expenditure to the full accrual basis of accounting (that is, rent expense based on the straight line or effective interest method.) When this condition occurs for governmental or proprietary funds, the amounts shown on the Exhibit F2 should be based on the straight line or effective interest method calculation rather than the contract. See GASB Statement No. 13 for more information.

In the middle of the form report the total minimum sublease rentals related to the leases reported above. This should be the total of payments you expect to receive from a third party (external to the state's reporting entity) for the use of an asset you have rights to under the operating leases reported above. This information should be provided in total, not by year. Report the amount of contingent rentals for the current fiscal year. Contingent rentals are any lease payment that is determined in relation to some factor other than the passage of time. An example of a contingent rental is a lease payment based on the usage level of equipment.

At the bottom of the form, provide a description of your operating leasing arrangement. If the exhibit covers more than one lease arrangement, provide a description for each major leasing arrangement.

5.11 Exhibit G - Advance Debt Refunding and Defeasance

Use this exhibit to report the balance of all previously in-substance-defeased debt and to document debt refunding and/or debt defeasance occurring during the fiscal year. You should complete an Exhibit G for each refunding transaction or addition to the in-substance defeased debt balance made during the fiscal year. Detailed examples of refunding calculations are shown in the appendices of GASB Statements 7 and 23.

The year end balance of all in-substance defeased debt need only be shown on one copy of Exhibit G. This balance should include both current year and prior year in-substance defeased debt that is still outstanding. This information should be available from your escrow agent.

If debt is in-substance defeased using current funds rather than a refunding transaction, you should complete an Exhibit G so that SCO can support the change in the in-substance defeased debt balance. If you have a defeasance that does not involve the issuance of new debt, enter the amount deposited with the escrow agent in the column titled 'Escrow Deposit or New Debt' for the lines titled:

- ♦ Face amount of debt or deposit
- ♦ Sum of debt service cash flows or deposit
- ♦ Sum of present values of debt service cash flows or deposit

The sum of debt service cash flows (a & b) is the real dollar projected cash flows for both interest and retirement of debt excluding payments related to accrued interest received at the new debt issuance. The present value sums (c & d) are the present value of each year's cash flows (excluding accrued interest received) totaled for the term of the debt with each discounted at the effective interest rate. The effective interest rate is the rate that, when used to discount the debt service requirements on the new debt, produces a present value equal to the proceeds of the new debt (including accrued interest) net of any premiums, discounts, underwriting spread, and issuance costs that are not recoverable through escrow account earnings. Issuance costs include all costs incurred to issue the bonds.

The economic gain or loss is the change in the sum of present values of future cash flows. If the issuance and other costs were not covered from the proceeds of new debt, then those costs should further reduce the economic gain or increase the loss on the refunding. Also note that if the new debt is issued in an amount greater than that required for the refunding, **only that portion of the new debt applicable to the refunding should be reported on the Exhibit G.**

GASB 23 requires that proprietary activities, defeasing debt through current or advance refunding, defer the difference between the reacquisition price and the net carrying amount (g-f) of the old debt and amortize that amount as interest expense over the shorter of the remaining life of the old debt or the new debt. Thus, no gain or loss is reported in the operating statement. On the statement of net assets, the deferred amount should be reported as a deduction from or an addition to the new debt liability. Note that GASB 23 applies to higher education institutions. Governmental funds that have an accounting gain or loss on refunding would not report it in the governmental funds, but they are required to defer the gain or loss in the General Full Accrual Account Group (Fund 471) and amortize it over the shorter of the remaining life of the old debt or the new debt. Governmental funds are also allowed to apply GASB 23 prospectively at the government-wide level.

5.12 Exhibit H - Proposed Financial Statement Post closing Entry for Identified COFRS Errors Over \$1,000/\$100,000

This exhibit is required to report errors, including proposed audit adjustments, on the final COFRS reports and ledgers that exceed \$100,000 after the close of COFRS. However, the Exhibit H must also be submitted for errors over \$1,000 that would cause or prevent an overexpenditure. Do not include differences between estimated payables and other accruals and the subsequently identified actual amounts. Submit Exhibit H as soon as the error is discovered, as these exhibits will be analyzed for material impact on line items in the statewide financial statements. If you have any questions regarding the need for or the content of an Exhibit H, please contact your Field Accounting Specialist.

Due to the large number of Exhibits H processed for each year's financial statements, the following three requirements have been continued for Fiscal Year 2003-04 to improve tracking of these exhibits:

- ♦ **Each Exhibit H submitted may contain no more than a single entry.** Please note in the explanation if related entries should be considered in posting an entry.
- ♦ **All Exhibit H's should be sequentially numbered.** A space has been provided at the bottom right of the Exhibit template for the agency assigned Exhibit H number.
- ♦ **Revisions to Exhibit H must reference the agency assigned number of the original Exhibit H submitted.** Exhibit H revisions should provide the correct entry, and thus, it should replace rather than adjust the originally submitted Exhibit H. Please make it clear in the explanation on the revision the number of the originally submitted Exhibit H that is being replaced by the revision.

An Exhibit H should not be submitted for presentation differences noted on the Exhibit J Financial Statement Reconciliation (see Section 5.14 below). The Office of the State Auditor or its designee may identify other errors that were not deemed material for the agency's financial statements, and therefore, an audit adjustment was not proposed. These types of errors that exceed the Exhibit H thresholds must also be submitted to the SCO on an Exhibit H.

Provide an explanation of the proposed entry that is sufficient for audit purposes. **The explanation should be detailed enough that no prior knowledge of the conditions leading to the proposed entry is necessary.** Please explain if posting the entry will impact the supplemental appropriations process.

At the bottom of the form, the block of cells on the left is exclusively for agency use. You may provide a COFRS document reference number if you have posted an entry on the COFRS suspense file in anticipation of the proposed entry being posted to the statewide financial statements. The block on the right is primarily for State Controller's Office use. However, **it also includes a line for agencies to sequentially number their Exhibit H's** and a line for agencies preparing financial statements to record whether the Exhibit H entry is shown on the Exhibit J.

If an Exhibit H entry is approved for posting to the statewide financial statements and requires adjustment of accounting records on COFRS, your field accounting specialist will contact you in the subsequent fiscal year. Such adjustments may involve real or nominal accounts as well as adjustments to fund balance. Adjustments to COFRS for post closing entries cannot be finalized until the State Controller's Office receives the financial statement audit opinion. Thus, a time frame for posting system adjustments related to Exhibit H postclosing entries cannot be specified, however, the State Controller's Office will try to complete this process before supplemental budget requests are due.

In some instances, a post closing adjusting entry may be recorded on agency financial statements but not approved for the state's CAFR. When this occurs, the adjustment will be a reconciling item on the Exhibit J in the initial year and in the subsequent year because the entry must be posted to COFRS in the subsequent year. In the subsequent fiscal year's Exhibit J:

- ♦ The adjustment must be reported in the Adjusting/Reclassification Entries column,
- ♦ It must be clearly marked as resulting from a prior year Exhibit H, and
- ♦ A copy of the **prior year's** Exhibit H must be resubmitted with the Exhibit J.

5.13 Exhibit I - Letter of Certification

This exhibit is intended to give assurance to the State Controller that agencies have properly reviewed their accounting estimates, year end account balances, COFRS financial statements (MCR01 and MCR02), and that informational disclosures necessary for statewide financial reporting have been made. In addition, the exhibit certifies that the agency has provided meaningful explanations for the variances identified in the variance analysis reports. This certification is to be signed by the department head or president of the college or university and the chief financial officer. **Due to the attest signatures required on this exhibit, it must be submitted in paper format.** List every agency for which the chief financial officer is responsible. Please explain fully any exceptions on a separate sheet.

Be careful not to confuse the Exhibit I requirement with the reporting required under the Financial Responsibility and Accountability Act (CRS 24-17-101 et. seq.). See Chapter 5, Section 6 for the Statement of Compliance that is due **December 31**.

EXHIBIT I
LETTER OF CERTIFICATION OF FINANCIAL ACCOUNTING
AND REPORTING SYSTEMS
FOR THE FISCAL YEAR ENDING JUNE 30, 2004

The undersigned certify to the following statements regarding this agency:

1. We have reviewed the Period 13 Colorado Financial and Reporting System (COFRS) general ledger balances, and those account balances are materially correct and properly classified in accordance with generally accepted accounting principles and standards promulgated by the Governmental Accounting Standards Board (GASB) except for adjustment and reclassification entries that have been submitted to the State Controller's Office.
2. The agency is in compliance with all applicable financial, headnote, footnote, and FTE requirements in the Long Bill.
3. We have identified all accounting estimates that could be material to the financial statements, including the key factors and significant assumptions underlying those estimates, and we believe the estimates are reasonable for the circumstances.
4. No line item overexpenditures occurred or existed as of fiscal year end, and no disbursements were authorized for overexpenditures without the prior approval of the State Controller.
5. All exhibits and other supplementary information requested by the State Controller's Office in the Fiscal Procedures Manual have been submitted by the specified due dates and reconciled to COFRS ending balances.
6. We have reviewed the Variance Analysis Report distributed by the State Controller's Office and have submitted explanation for the variances identified or proposed adjusting or reclassification entries by the due date.
7. The accounting function is in compliance with the State Fiscal Rules.
8. The accounting function is staffed with adequate personnel to assure the accounting is properly carried out and timely, and sufficient monthly accruals are being made to update financial records so that management can properly analyze their financial condition and determine that the federal government and other parties owing the state are being properly billed.

Any exceptions to the above statements have been fully explained on attachments to this exhibit.

This certification is for the following agencies:

5.14 Exhibit J - Financial Statement Reconciliation

The Exhibit J is a schedule used by the agency or institution's accounting office, State Controller's Office (SCO), and the Office of the State Auditor (OSA) to reconcile the institution's trial balance per the State of Colorado's book of record (COFRS) to the institution's financial statements. The exhibit also informs the State Controller's Office if agencies preparing financial statements believe the COFRS accounts properly accumulate to the state's CAFR financial statement line items. The Exhibit J is also used by the State Controller as a means of complying with the statutory responsibility to examine and approve all financial statements and reports of state government before publication, CRS 24-30-201 (1)(d). **One copy of Exhibit J and the financial statements and related footnotes are to be submitted to the State Controller's Office (SCO) by August 18.**

Agencies that are required to or choose to prepare financial statements should complete this exhibit. Prepare the Exhibit J using COFRS accounting period 13 information and the financial statements you prepared for your auditors. The State Controller's Office will provide higher education institutions (and other proprietary funds upon request) a Period 13 trial balance organized by state CAFR line items in electronic format. Agencies are not required to use this electronic trial balance, but they must organize the Exhibit J by state CAFR line items if they choose to provide their own trial balance.

The instructions for this exhibit are specific to institutions of higher education; however, the format of the exhibit is applicable to those agencies operating in non-higher education funds that are required to prepare financial statements. These agencies should show their period 13 COFRS balances, adjusting entries, reclassification entries, any presentation entries, and the financial statement line item amount. If you are not using the electronic trial balance provided by the SCO, COFRS reports GNL02, GNL04 provide the needed information for the Amount column on the Exhibit J.

The Exhibit J does not eliminate the requirement that the institution reconcile COFRS to their internal systems on a monthly basis. Entries to correct reconciling items should be processed into COFRS and/or the institution's internal system on a timely basis throughout the year. If this procedure is followed it should minimize the number of adjusting and reclassification entries needed at year end.

The SCO's review of the Exhibit J ensures that the institution's financial statements reconcile with COFRS. This review also includes determining the reasonableness and proper classification of the adjusting, reclassification, and presentation entries, and ensures that the required Exhibit H's are prepared and submitted. The institution may consider the Exhibit J approved unless contacted by the SCO. If the SCO has questions or concerns with the exhibit, the institution will be contacted and additional information or changes may be requested. The SCO will review the Exhibit J by September 5 and contact agencies/institutions if necessary.

For the purpose of the Exhibit J instructions, the following definitions apply:

- ♦ Institution's financial statements means the financial statements supplied to the SCO and the institution's auditors.
- ♦ CAFR means the state's Comprehensive Annual Financial Report and implies the roll-up of funds and accounts used to compile the CAFR.

- ♦ Fund category means the grouping of either COFRS funds or institution's accounting system funds into columns for financial statement presentation. Grouping of COFRS funds into fund categories for the CAFR presentation are shown in a table in Chapter 3, Section 3.17.
- ♦ Line item means an individual title and related amounts on the CAFR or institution's financial statements and implies the roll-up of accounts appropriate to the financial statement type.

The exhibit shows the relationship between the CAFR and the institution's separately issued financial statements. At least one Exhibit J should be prepared for each CAFR fund category.

The Exhibit J is organized as follows. The left side of the exhibit consists of the COFRS trial balance aggregated to the CAFR line item level. The right side of the exhibit consists of the related totals per the institution's financial statement line items. Two columns in the center of the exhibit are for posting of adjusting, reclassifying and presentation entries. Further explanation of these section's follows.

- ♦ The left side of Exhibit J is a trial balance by COFRS account subtotaled by CAFR line item. Subtotaling at the CAFR line item level provides SCO with information on how adjusting and reclassifying entries affect the line items in fund category columns on the state's CAFR. Chapter 3 Section 4.4 contains "Financial Statement Line Item Account Grouping Tables" which show how COFRS balance sheet accounts and operating statement accounts feed into line items for the statewide financial statements. **If an institution elects not to use the trial balance provided by the SCO (as discussed above), the institution must provide the agency, fund, type, and account information that was aggregated to CAFR line items on the left side of the exhibit. This information may be supplied by additional columns or rows on the Exhibit J or by providing a separate supporting schedule to show the detail in each CAFR line item.**
- ♦ The right side of Exhibit J shows the institution's financial statement line items related to the CAFR line items on the left side of the exhibit. For the Statement of Net Assets and portions of the Statement of Revenues, Expenses, and Changes in Net Assets, there will often be a one-to-one relationship between CAFR line items and agency financial statements. However, institutions are allowed to disaggregate CAFR line item balances into additional lines on their financial statements resulting in a one-to-many relationship. Higher education has elected to present operating expenses by functional categories rather than by natural object classifications (except depreciation). While the SCO has agreed to this presentation, the Exhibit J must show how adjusting, reclassification, or presentation entries affect the CAFR line items. In addition, because the two formats (natural and functional) will not tie directly by line item, the total operating expenses per the CAFR classifications must agree to the total operating expenses presented under the functional format.
- ♦ The center section of Exhibit J consists of columns for adjusting and reclassifying entries and presentation entries. The definitions below related to adjusting, reclassifying, and presentation entries apply to both higher education fund types and non-higher education fund types.

As in FY02-03, the columns for adjusting and reclassification entries are combined into one column on the Exhibit J template. However, the following definitions have been kept separate because the distinction between adjusting and reclassification entries remains relevant to the

discussion of timing differences in posting entries to agency financial statements as compared to the state's CAFR.

ADJUSTING ENTRIES:

Adjusting entries correct both a COFRS balance sheet account and a COFRS revenue or expense/expenditure account with the net effect of changing the ending fund balance. Accordingly, adjusting entries always change the state's financial statement fund category ending fund balance and COFRS ending fund balance.

All adjusting entries made to an agency's financial statements after period 13 must be included on Exhibit J. In order for the SCO to properly analyze the cumulative effect of all adjusting entries on the CAFR, an Exhibit H must be completed for each adjusting entry on the Exhibit J which exceeds \$1,000/\$100,000 (please review Section 5.12 of these instructions for additional information on the preparation of Exhibit H). Exhibit H explains the reason the entry is needed and provides the COFRS account code information needed to determine the impact on the statewide financial statements. If the Exhibit H is determined to be material at the statewide level and is posted to the state's financial statements, the SCO will request COFRS JA documents in the subsequent year to make the accounting records agree to the audited financial statements.

In some instances, a postclosing adjusting entry may be recorded on agency financial statements but not be approved for the state's CAFR. When this occurs, the adjustment will be a reconciling item in the initial year and in the subsequent year because the entry must be posted to COFRS in the subsequent year. In the subsequent fiscal year's Exhibit J:

- ♦ The adjustment must be reported in the Adjusting/Reclassification Entries column,
- ♦ It must be clearly marked as resulting from a prior year Exhibit H, and
- ♦ A copy of the **prior year's** Exhibit H must be resubmitted with the Exhibit J.

RECLASSIFICATION ENTRIES:

Reclassification entries correct the COFRS trial balance classification of certain amounts in the Statement of Net Assets or the Statement of Revenues, Expenses, and Changes in Net Assets. **Reclassification entries change CAFR lines and may change a COFRS ending fund balance but never change the CAFR fund category ending fund balance.** Reclassification entries may change the total from one balance sheet classification to another or from one revenue/expense line to another. For example, reclassifying a credit balance in accounts receivable to accounts payable.

All reclassification entries made to an agency's financial statement after period 13 must be included on the Exhibit J. In order for the SCO to properly analyze the cumulative effect of all reclassification entries on the CAFR, an Exhibit H (Section 5.12) must be completed for each reclassification entry contained on the Exhibit J that exceeds \$1,000/\$100,000. Reclassification entries for amounts below \$100,000 or those with no budgetary impact should be avoided. Exhibit H will provide the information needed for the SCO to properly combine like entries, calculate the cumulative effect, and determine if an adjustment needs to be made to the CAFR. If the Exhibit H is determined to be material at the statewide level and is posted to the state's financial statements, the SCO will request COFRS JA documents in the subsequent year to make the balance sheet accounts agree to the audited financial statements.

Balance sheet reclassification entries made to an agency's financial statements, but not posted to the state's CAFR, must be posted to COFRS in the subsequent year. Nominal account reclassifications should not be posted to COFRS in the subsequent year.

Each institution should make every effort throughout the year to reconcile their system to COFRS and process timely corrections to minimize the need for adjusting and/or reclassifying entries at year end.

YEAR END TREATMENT of ADJUSTING and RECLASIFICATION ENTRIES:

In order to ensure the SCO has sufficient time to prepare the state's basic financial statements and CAFR, the following schedule will be used regarding adjusting and reclassification entries:

- ♦ Subsequent to July 30 (period 13 close) and prior to August 18 (Exhibit J due date) agencies and higher education institutions are allowed to make adjusting and reclassification entries to their separately issued financial statements without the approval of the SCO. As stated above, these entries must be included on the Exhibit J and an Exhibit H (Section 5.12) must be submitted to the SCO.
- ♦ Subsequent to August 18 and prior to September 2, agencies can make additional material adjusting and reclassification entries to their financial statements without the approval of the SCO. It is expected that entries made during this time period will only involve amounts that equal or exceed the Exhibit H thresholds or are material to the institution's financial statements. A revised Exhibit J and the related Exhibit H's (Section 5.12) should be submitted to the SCO by September 2.
- ♦ Subsequent to September 1 adjusting and reclassification entries are considered proposed audit adjustments and require the approval of the SCO prior to being posted to the agencies' or higher education institutions' financial statements. In general, proposed entries below \$100,000 with no budgetary impact will not be approved by the SCO. If the proposed entry is greater than \$1,000/\$100,000, the agency or institution should submit an Exhibit H (Section 5.12) to the SCO as soon as possible. Proposed entries below \$100,000 that do not have a budgetary impact should be discussed with the SCO prior to submitting an Exhibit H. A revised Exhibit J is not required for proposed audit adjustments unless requested by the SCO.

The institution should always consider the materiality of any adjusting and reclassification entries.

The following timeline illustrates the various dates discussed above.

PRESENTATION ENTRIES:

Presentation entries adjust account balances that are reported on a different financial statement line item for the State of Colorado than for the institution. These entries do not require the approval of SCO. **The key to identifying a presentation entry is that the account balance(s) is properly recorded on COFRS for the State of Colorado's CAFR.** However, because the institution is issuing separate financial statements the account balance(s) must be presented differently. An example of a presentation entry is the recording of state appropriated general fund revenue. On the financial statements for the State of Colorado this is shown as "Operating Transfers-In." On the separately issued financial statements for the institutions it is shown as "State Appropriations." If the SCO determines as part of the review of the Exhibit J that an agency or higher education institution has made a presentation entry that is in fact an adjusting or reclassification entry, the agency or institution will be contacted and requested to revise the Exhibit J and submit a corresponding Exhibit H (Section 5.12).

Following is a listing of the acceptable **PRESENTATION** entries. Other items that the institution believes are presentation entries should be discussed with SCO **prior** to submitting the exhibit.

- ♦ Changing the presentation of transfers of state appropriation (COFRS transfer codes ABGF and ABGH) between the University of Colorado at Denver, Metropolitan State College of Denver, the Community College of Denver and the Auraria Higher Education Center.
- ♦ Changing the presentation of transfers of state appropriation (COFRS transfer code EQGB) from an operating transfer to non-operating revenue.
- ♦ Changing the presentation of transfers of state appropriated student financial aid awards from CCHE to the institutions (COFRS transfer codes ELGB) from an operating transfer to grant and contract revenue.
- ♦ Eliminating offsetting intrafund receivables and payables between institutions of the same board.
- ♦ Combining immaterial amounts from one CAFR line into another CAFR line in a like financial statement category (see Chapter 3, Section 4 for CAFR classifications).
- ♦ Disaggregating private, state and local grants and contracts from other operating revenue to aggregating with federal grants and contracts operating revenue on institutional financial statements.
- ♦ Changing the presentation for Higher Education institutions moving payments to CCHE for statewide indirect cost assessment (COFRS transfer codes EYGA) from non-operating transfers to other operating expense (institutional support).
- ♦ Eliminating revenue and related expense of internal service fund activity (COFRS fund 328).
- ♦ Disaggregating a State CAFR financial statement line into more detailed lines within the same financial statement classification for presentation on the institutions financial statement (see Chapter 3, Section 4 for CAFR classifications).
- ♦ Eliminating CAFR line items that are parenthetical disclosures on the institutions financial statements, such as scholarship allowances.

AUDIT ADJUSTMENTS:

As a result of the audit process, the Office of the State Auditor or its designee may require entries to an agency or institution's financial statements in order to issue an unqualified opinion. These entries should be submitted to SCO on the Exhibit H (Section 5.12). As stated above, **all** adjusting or reclassification entries identified by either the auditors or the agency after September 1 are considered to be audit adjustments. **These entries require the approval of the State Controller prior to posting to the institution's financial statements.** Unless requested by the SCO, a revision of the Exhibit J does not need to be submitted for audit adjustments. In addition, the Office of the State Auditor or its designee may identify other errors that were not deemed

material for financial statement adjustment purposes, and therefore, an audit adjustment was not proposed. These types of errors that exceed the Exhibit H thresholds must also be submitted to the SCO on an Exhibit H.

EXHIBIT J

--	--------	-----------------------------------	---------------------------------	-------------------------	------------------	-------------------	--	--

Column Subtotals

This exhibit is required from agencies issuing financial statements other than those produced by COFRS.

- Notes: (1) CAFR balance must agree with COFRS trial balance at the close of Period 13.
(2) Exhibit H forms must be submitted to explain all adjusting and reclassification entries over \$1,000/\$100,000.
(3) Agency financial statement totals must tie directly to line items in the accompanying agency financial statements.
(4) Account detail if shown should be grouped and subtotaled according to the "Financial Statement Line Item Account Grouping" tables in Chapter 3, Section 4.4.
(5) Each adjusting, reclassification, or presentation entry should carry a cross reference number to where the entry is explained.

5.15 Exhibit K - Schedule of Federal Assistance

This exhibit is required for preparing the Statewide Schedule of Expenditures of Federal Awards, which is reviewed by the state auditor in the statewide single audit. That schedule provides a listing of federal assistance by Catalog of Federal Domestic Assistance (CFDA) number or other identifying number. The same data are used in preparing the Report of Federal Monies required by CRS 24-75-212 for submission to the General Assembly by November 1 each year. The exhibit format is based on the reporting requirements in Section __.310(b) of OMB Circular A-133 and agreement with the Office of the State Auditor.

Include on Exhibit K awards you receive directly from federal agencies and awards you receive from other entities as a subrecipient. Subrecipient awards are of two types, that is, awards received from other state agencies and awards received from non-state entities. Those received from state agencies would normally have revenue source codes of 7501 through 7523 and 7530 and are not reported on the Exhibit K. Those received from non-state entities would normally have revenue source code of 7500 and must be reported on the Exhibit K. Both direct and subrecipient awards must be reported by CFDA number – if one has been assigned by the federal agency administering the original award – unless the award is for research and development as discussed below.

In some instances, state agencies receive federal funds from non-state entities – a portion of which the non-state entity may have received from a State of Colorado agency. When this occurs the receipt and related expenditures should be shown on the Exhibit K unless either of the two following conditions is met:

1. The funds received from the non-state entity are received by the state in its capacity as a vendor. Examples of the vendor relationship are rent receipts for space the state provided or payments for services that the state provided for which the state is not responsible for carrying out the requirements related to the federal funds. See Chapter 1 Section 3.5 for more about determining if a relationship is vendor or subrecipient in nature.
2. The non-state entity can identify for you the portion of your receipt that came from a State of Colorado agency. Do not include this portion on your Exhibit K.

While the balances reported on Exhibit K are not required to tie directly to COFRS account balances, it is important that you be able to reconcile the federal balances shown on this exhibit to COFRS. Beginning balances should equal the ending balance shown on the prior year exhibit. Any differences between prior year ending and current year beginning balances must be explained in detail. For agencies using the COFRS grants module, the GPP01R report is a good source of expenditure amounts for this exhibit.

In compiling this exhibit, please be certain to include all amounts related to federal awards regardless of the method of payment or the fund used to account for the activity. The Single Audit Act of 1984 (Amended 1996) defines federal financial assistance:

‘Federal financial assistance’ means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property, cooperative agreements, interest subsidies, insurance, donated surplus property, food commodities, direct appropriations, or other assistance, but does not include amounts received as reimbursement for services rendered to individuals in accordance with guidance issued by the Director (of the Office of Management and Budget).

The Single Audit Act of 1984 (Amended 1996) defines subrecipient:

‘Subrecipient’ means a non-Federal entity that receives Federal awards through another nonfederal entity to carry out a Federal program, but does not include an individual who receives financial assistance through such awards.’

Section __.210 of OMB A-133 provides additional directives on determining the difference between subrecipients and vendors.

The following four paragraphs apply specifically to higher education institutions, but they may also apply to other state agencies. Include on Exhibit K all direct and non-direct federal financial assistance. It should show all federally financed student aid, including Perkins funds. In order to ensure that only the federal portions of loan programs are shown in the statewide schedule, institutions should include only the new federal capital contribution of their loan fund activity on the Exhibit K. You should show this amount as federal receipts and the same amount as a direct expenditure. **Therefore, both the beginning and ending Due From or Advanced By Federal Sources should be zero.** The following noncomprehensive list of CFDA numbers cites the federal programs that have been identified as loan funds:

- 84.037 - Federal Perkins Loan Cancellations
- 84.038 - Federal Perkins Loan Program - Federal Capital Contribution
- 84.268 - Federal Direct Loan
- 93.139 - Financial Assistance for Disadvantaged Health Professions
- 93.342 - Health Profession Student Loans Including Loans for Disadvantaged Students
- 93.364 - Nursing Student Loans

Do not include on the Exhibit K amounts for the Federal Family Education Loans (CFDA #84.032) that are guaranteed and reported by the Colorado Student Loan Program (CSLP) because those amounts will be shown on CSLP’s Exhibit K. However, if students at your institution receive FFEL assistance (including Stafford and Plus loans) from entities external to the State of Colorado, include those amounts on the Exhibit K.

Please be certain to include all amounts related to federal funds regardless of the method of payment or the fund used to account for the activity. For example, checks received from the federal government for Pell administrative fees and recorded in the 31X and 32X funds should be included on the Exhibit K in the receipts and indirect expenditures column.

A-133 allows clustering of certain programs for reporting on the Schedule of Expenditures of Federal Awards. Awards related to research and development are one instance of the allowed clustering. When reporting research and development awards, institutions should enter “R&D” in the **Federal Program Name** field whether or not the CFDA number is provided. If a valid CFDA number is not provided, then the SCO Assigned Fed Org Code or Federal Agency Name must be provided. This information will allow Reporting & Analysis to classify research and development by federal awarding agency as required by A-133.

SPECIFIC INSTRUCTIONS:

Agencies are encouraged to send the Exhibit K data to the SCO in Microsoft Excel or other electronic spreadsheet format. The following are descriptions of the exhibit fields by footnote reference on the form:

- A) Employer Identification Number – This is a required field; please list the EIN number associated with the grant. Exclude any dashes. The EIN number is the nine-digit Taxpayer Identification Number assigned by the Internal Revenue Service (IRS). The state's principal EIN # is 840644739; however, agencies that do federal grant reporting under a different EIN number should enter the EIN number under which they do the grant reporting. If you fail to match the Exhibit K EIN number to the grant reporting EIN number, the federal audit clearinghouse will not be able to provide federal agencies with the A-133 audit report that demonstrates compliance with grant requirements.
- B) Federal Agency Name – This is a required field if neither a valid CFDA number nor an SCO Assigned Fed Org Code is provided. Enter the name of the federal sub-org (institute, bureau, etc.) administering the program followed by the oversight level federal department. For example, Bureau of Alcohol, Tobacco and Firearms – Department of Justice.
- C) SCO Assigned Fed Org Code – This is a required field if the CFDA number is not provided and the SCO has pre-assigned this code to the federal program being reported. See the table on page 162 for the available codes.
- D) Federal Program Name – This field is required under two circumstances. First, higher education institutions should always enter “R&D” in this field for research and development awards even if a CFDA number is provided. Second, for all other awards for which a CFDA number is not provided, the program name should be entered as it appears in the award document.
- E) CFDA Number – These are program codes that are listed in the Catalog of Federal Domestic Assistance (CFDA) published by the General Services Administration. The CFDA is available on the Internet at the following address:
<http://12.46.245.173/cfda/cfda.html>. Some programs may not have been assigned a CFDA number. If no CFDA number is assigned, then complete the columns Federal Program Name, Other Identifying Number, and SCO Assigned Fed Org Code or Federal Agency Name.
- F) Non-Federal Pass-through Entity – This is a required field in all instances of subrecipient Federal funds from an external entity. Enter the name of the pass-through entity. Do not report funds received from other State of Colorado agencies.
- G) Other Identifying Number – This is a required field under two circumstances. First, for subrecipient awards, enter the contract, award, or other identifying number assigned by the external pass-through entity. Second, in all instances when a CFDA number has not been assigned, enter the contract, award, or other program number. Do not use COFRS numbers in this field. This number is used to assist federal personnel in tracking these awards back to the original program source.
- H) Beginning Due-From or Advanced By Federal Sources – This balance should equal the prior year ending balance of the audited Schedule of Expenditures of Federal Awards. Deferred Revenue and Advanced By Federal Sources balances should be shown in brackets.

I) Receipts

Direct – Show the funds received directly from a Federal agency. Show the normal balance for receipts as positive numbers unbracketed.

Subrecipient – These are subrecipient funds received from entities other than State of Colorado agencies. If there is an amount in this field then columns E), F), and G) should also be completed. Show the normal balance for receipts as positive numbers unbracketed.

Noncash – Except for food stamps and commodities – which are expended when distributed – receipts for noncash assistance should be recognized on this schedule at the same time and in the same amount as the related expenditures for such assistance in accordance with Section __.205 of Circular A-133. The noncash expenditure should be shown as an expenditure in J) and should not be combined with cash assistance. This requires noncash assistance to be on a line separate from cash assistance. Show the normal balance for receipts as positive numbers unbracketed.

J) Expenditures

Direct – These are amounts expended for the direct costs of Federal programs. Show the normal balance for expenditures as positive numbers unbracketed. When Section __.205 of Circular A-133 requires you to report expenditures for which there will be no cash receipt (such as, reporting outstanding loan balances) be sure to report an equal amount of noncash receipts in I.

Indirect – These are amounts expended for the indirect costs of Federal programs. This distinction is not required by A-133 but is needed to comply with state reporting requirements. Show the normal balance for expenditures as positive numbers unbracketed.

Pass-through – These are federal funds passed-through to an external entity (outside Colorado state government). These amounts should not duplicate amounts shown in Direct Expenditures or Indirect Expenditures. Show the normal balance for expenditures as positive numbers unbracketed.

- K) Ending Due-From or Advanced By Federal Sources – This amount should equal beginning balance minus receipts plus expenditures (+H -I +J). Deferred revenue and Advanced By Federal Sources balances should be shown in brackets.

Any questions about these instructions or our interpretation of A-133 requirements should be directed to Karoline Clark at 303-866-3811 or David McDermott at 303-866-2739.

EXHIBIT K
SCHEDULE OF FEDERAL ASSISTANCE
FOR THE YEAR ENDED JUNE 30, 2004

Employer ID Number ^(A)	Federal Agency Name ^(B)	SCO Assigned Fed Org Code ^(C)	Federal Program Name ^(D)	CFDA Number ^(E)	Non-Federal Pass-Through Entity ^(F)	Other Identifying Number ^(G)	Due-From or ^(H) (Advanced By) Fed Sources 6/30/03		Receipts ^(I)		Expenditures ^(J)		Due-From or ^(K) (Advanced By) Fed Sources 6/30/04
							Direct	Subrecipient	Non-Cash	Direct	Indirect	Pass-Thru	

Totals

^(A)Please provide the employer identification number associated with each grant

^(B)If SCO Assigned Org Code or CFDA Number is not provided in (C) or (E) then Federal Agency Name must be provided in (B).

^(C)If CFDA Number is not provided in (E) then SCO Assigned Federal Org Code should be provided in (C). See the table following this exhibit for a list of codes.

^(D)If CFDA Number is not provided in (E) then Federal Program Name must be provided in (D). Enter "R&D" if activity is related to research and development

^(E)CFDA Number should always be provided if assigned.

^(F)For funds received as a subrecipient provide CFDA Number, Non-Federal Pass-Through Entity Name, Other Identifying Number (assigned by Pass-Through Entity) in (E) (F) and (G), and related balances in (H) through (K)

^(G)Provide Other Identifying Number in (G) if CFDA Number in (E) is not assigned or if you received funds as a subrecipient (use number assigned by entity giving you the funds.)

^(H)This should equal the beginning balance of amounts receivable from or advanced by federal sources. Agencies use various balance sheet accounts to track these balances.

^(I)Refer to the attached instructions for determining Federal receipts (show the normal balance as positive number with no brackets).

^(J)Refer to the attached instructions for determining Federal awards expended.

^(K)This should equal the ending balance of amounts receivable from or advanced by federal sources. Agencies use various balance sheet accounts to track these balances.

Note: Column widths were set to accommodate letter sized paper; expand column widths as necessary to match the data elements entered

5.16 State Controller's Office Assigned Federal Org Codes (SCO Assigned Fed Org Codes)

The following table provides a listing of codes assigned to federal agencies by the State Controller's Office. These codes are to be used on the Exhibit K when a valid CFDA number has not been assigned; this code will specify the federal agency originating a federal award. This table will be updated on an annual basis from the Catalog of Federal Domestic Assistance (CFDA) and from federal agencies identified on the Exhibit K that are not listed in the CFDA.

The information contained in the following table is the most current information available at the time of printing of the Fiscal Procedures Manual. Any updates before year end will be posted on the SCO web site.

SCO ASSIGNED FEDERAL ORG CODE	FEDERAL AGENCY NAME
01.ADF	AFRICAN DEVELOPMENT FOUNDATION
01.ADF	AFRICAN DEVELOPMENT FOUNDATION
02.AID	AGENCY FOR INTERNATIONAL DEVELOPMENT
04.IAF	INTER-AMERICAN FOUNDATION
07.ONDCP	OFFICE OF NATIONAL DRUG CONTROL POLICY
08.PC	PEACE CORPS
09.LSC	LEGAL SERVICES CORPORATION
10.AARC	ALTERNATIVE AGRICULTURAL RESEARCH AND COMMERCIALIZATION (AARC) CENTER, DEPARTMENT OF AGRICULTURE
10.AMS	AGRICULTURAL MARKETING SERVICE, DEPARTMENT OF AGRICULTURE
10.APHIS	ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

5.17 Exhibit L - Summary of Material Contingent Liabilities

This exhibit is used to report conditions that may result in material liabilities contingent on future events. Contingent liabilities include items that may become liabilities as a result of conditions undetermined at a given date, such as guarantees, potential lawsuits, and unsettled disputed claims or audit disallowances. Only unrecorded contingent liabilities should be included on the exhibit. If possible, estimate the potential loss amount or range of amounts. Do not include amounts that would be immaterial to your financial statements. Do not include lawsuits that have been referred to the Attorney General's Office because the SCO receives a separate listing of those suits from the Attorney General's Office.

At the beginning of October, the SCO will contact state agencies via e-mail regarding subsequent events, which are events occurring after June 30 that warrant disclosure in the state's Comprehensive Annual Financial Report.

EXHIBIT L
SUMMARY OF MATERIAL CONTINGENT LIABILITIES
AT JUNE 30, 2004

Item	Estimated Amount or Range	Estimated Percentage Probability of Loss	Estimated Settlement Date
------	---------------------------------	---	---------------------------------

Note: Only list unrecorded contingent liabilities. If possible, estimate the possible loss amount or range of amounts. Do not include amounts that would be immaterial to your financial statements, and do not include lawsuits that have been referred to the Attorney General's Office.

5.18 Exhibit M - Cash on Hand or Deposited with Financial Institutions

Deposits with financial institutions include all imprest cash accounts, checking accounts, depository accounts, certificates of deposit, restricted cash (not held for an agency by the State Treasurer) and amounts held in trust for students, inmates and patients. If these balances are not transferred to the State Treasurer by the close of business on June 30, they should be classified in 10XX accounts and reported on Exhibit M. Do not include on Exhibit M any balances classified in 11XX accounts or balances reclassified to account 1034 – “Restricted Cash Per GASB 34” that were held by the State Treasurer at June 30.

In order to meet the footnote disclosure requirements of GASB Statement 3, we require you to classify your financial institution deposits into the following categories of risk:

- ♦ Category 1 includes those deposits or portion of deposits that are insured by the FDIC and those deposits collateralized with securities held by the state or a custodial agent of the state in the state’s name. The determining factor is the degree of control the state exercises over the disposition of the collateralizing securities relative to the financial institution. **In the normal course, collateralizing securities are not held by the state in the state’s name. Therefore, unless you have made specific arrangements requiring that type of collateralization, related amounts should not be included in this category.**
- ♦ Category 2 is used for the uninsured portions of deposits that are fully collateralized with securities held by the bank or the bank’s agent in the state’s name. Correspondence with GASB indicates that the pooling of collateral allowed by the Colorado’s Public Deposit Protection Act would most likely fall into this category. Since most financial institutions hold the collateral (as allowed by statute) this category is the most reasonable/conservative for reporting the uninsured portion of the deposits.
- ♦ Category 3 applies to deposits that are both uninsured and uncollateralized. Deposits in this category are not in compliance with the Public Deposit Protection Act.
- ♦ Category 4 designates cash on hand and not deposited with financial institutions. The bank balance should be zero for this category of deposits.

Colorado statutes state that public moneys may only be deposited in financial institutions designated as eligible public depositories. The statutes also require that amounts of public moneys on deposit over the FDIC insurance coverage shall be collateralized. These requirements apply to both banks and savings and loan institutions.

A bank confirmation form is provided near the end of this section to be used to determine the appropriate risk category for your deposits. It is important for the information confirmed by the bank to be complete and accurate. For any information requested and not confirmed by the bank, or for any information provided that appears to be in error, the department should contact the bank for clarification. Due to differences in interpretation of the rules concerning coverage of FDIC insurance, we must rely on the banking institution’s representation to the department of available insurance or collateralized assets.

***RISK CATEGORIES:**

- 1 Federally insured deposits, or deposits fully collateralized with securities held by the state or its agent in the state's name.
- 2 Uninsured but fully collateralized with securities held by the pledging financial institution's trust department or agent in the state's name.
- 3 Uninsured and uncollateralized deposits. Deposits in this category are not in compliance with the Public Deposit Protection Act.
- 4 Petty cash, change funds, and other cash on hand. The bank balance should be 0 for these types of funds.

Note: Report on this exhibit all amounts classified in 10XX accounts on COFRS on June 30, including certificates of deposit and restricted cash (if not held by the State Treasurer). Do not include any amounts recorded in 11XX or amounts held by the State Treasurer that have been reclassified to 1034. Deposits with multiple risk classifications must show amounts related to each risk category. Group and subtotal accounts by risk categories.

BANK CONFIRMATION FORM

In order for your agency to properly prepare Exhibit M, you need to confirm June 30 checking, savings, and certificate of deposit account balances. The Bank Confirmation Form requests information about amounts insured and collateralized under a given Public Deposit Protection Act (PDPA) number. If an agency has more than one PDPA number, it may need to send a separate confirmation form for accounts related to each PDPA number. The information received from the financial institutions on this form should be summarized on the Exhibit M. Reporting and Analysis uses the risk classification information for footnote disclosure in accordance with GASB Statement 3 in the statewide financial statements.

The information provided on the confirmation by the banking institution must be reviewed carefully. Incomplete or inaccurate information should be clarified with the bank. If FDIC insurance is applicable on the account, it should be reported as the lesser of the June 30 balance or \$100,000. Questions regarding FDIC insurance should be directed to the Division of Banking at 303-894-7573.

It is also important to determine that the PDPA number assigned to your department is the PDPA number attached to the account on the banking institution's records. Banking institutions report monthly to the Division of Banking regarding FDIC insurance and collateralization requirements for public funds identified with a PDPA number. If the bank does not confirm the PDPA number, contact the bank.

SUBJECT: *Verification of Insured and Uninsured Deposits*

In order for our agency to properly report its cash deposits in fiscal year end financial statements, we need the information requested below. It would be appreciated if you could provide the information by July 12, 2004.

The following is a listing of accounts for our agency under the given Public Deposit Protection Act Number that are on deposit in your financial institution along with space to report the balance, insurance, and collateral:

State Department Public Deposit Protection Act Number: _____

<u>Account</u>	<u>6/30/04 Balance</u>	<u>Insured Amount</u>	<u>Collateralized Amount</u>
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

If the collateral amount is held by someone other than your financial institution please so indicate by an “*”.

In addition, I (we) certify that our financial institution is an Eligible Public Depository as required in Title 11 of the Colorado Revised Statutes.

Name of financial institution: _____

Person submitting the information: _____

Telephone number of preparer: _____

5.19 Exhibit N - Schedule of Investments

Use this exhibit to provide information about the types of investments your agency holds, the custodial risk associated with the security evidencing the investment, the difference between carrying value and fair value, and additional information about how you manage your investments.

GASB 31 requires investments to be reported at fair value with only a few exceptions (such as, money market investments.) Effectively, this requires us to record revenues related to realized or unrealized gains or losses on investments. To ensure that statewide reporting of unrealized gains and losses is done consistently, the State Controller has decided that, except for the Deferred Compensation Plan investments, all entries for unrealized gains/losses will be handled as post closing entries. **Therefore, you should not make an entry to COFRS for unrealized gains/losses on investments your agency holds.** Exhibit N is divided into three sections as follows:

Section A – Risk Category Classification

In this section enter the fair value and indicate the credit risk category (A, B, or C) for each investment type as follows:

- ♦ Category A investments include securities insured or registered in the state's name or securities held by the state or its custodial agent in the state's name.
- ♦ Category B investments are uninsured and unregistered, with securities held by the counterparty's trust department or agent in the state's name. A counterparty might be the issuer of a security, a financial institution holding a security, a broker-dealer selling securities, or a third party holding securities in a transaction.
- ♦ Category C investments include uninsured and unregistered securities held by the counterparty, or by its trust department or agent but not in the state's name. This includes the portion of the carrying amount of any repurchase agreement that exceeds the market value of the underlying securities. Risk classification is not applicable to reverse repurchase agreements, open-end mutual funds, positions in investment pools, investments not held for income or profit, advance refunding escrow assets, venture capital, limited partnerships, real estate, mortgages and other loans, annuity contracts, guaranteed investment contracts. The exhibit includes lines for reverse repurchase agreements and mutual funds; other investments listed in the previous sentence should be shown in the line item titled "Other – Uncategorized", and the type of investment should be disclosed.

Section B – Fair Value Information

In order for the SCO to make the necessary unrealized gain/loss entries, we need both the carrying value and the fair value of your investments. Although, GASB 31 allows certain investments (money market funds and investment contracts having less than one year to maturity at the time of purchase) to be reported at amortized cost, it is the State Controller's policy that all investments be reported at fair value. For most investments fair value will be determined by quoted market prices. However, if other valuation methods are used they must be disclosed (See Section C below). For the investments your agency holds, report the June 30 carrying balance by fund (COFRS Period 13 close balance as adjusted by Exhibits H posted to the state's financial statements) and the related June 30 fair value. These investments should be recorded in COFRS balance sheet accounts 12XX or 16XX.

Section C – Valuation Disclosures

GASB 31 and GASB 34 require several disclosures related to fair value of investments. The questions presented in Section C of the exhibit address the disclosures that can only be identified at the agency level. For the first question, check the appropriate box. If you used something other than a quoted market price to establish fair value, then explain the significant assumptions and methods used in valuing that investment.

For the second question, check the appropriate box and list the fund that reported the investment asset and the fund that reported the investment income. Explain the reason for reporting the income in a fund category other than the one in which the asset was reported.

The third major item in Section C is a disclosure requirement of paragraph 121 in GASB 34, and it applies to donor-restricted endowments, which the SCO interprets as including donor restricted permanent funds. For the first question provide the net appreciation of donor-restricted investments. This should include the unrealized gain/loss included in Section B as well as realized investment earning (interest, capital gains, etc.) Also provide the amount that management has the authority to expend.

For the second question, state how the amount available for expending is reported in the net assets section of the financial statements. For higher education, the donor-restricted investment should be part of the required fund balance reclassification entry that segregates the fund balance accounts as follows:

3200 – Externally Restricted – Other

3230 – Permanent Endowment – Expendable

3240 – Permanent Endowment – Nonexpendable

If the amount available for expending is offset in net assets by related liabilities, please explain that condition. For permanent funds, the classification as to expendable or nonexpendable is determined by the fund in which the investment revenue is recorded.

For the final question, state your policy for authorizing and expending endowment earning that are subject to management's discretion. The standard cites spending-rate (a percentage of investment income) and total-return (all of investment income, realized and unrealized) as two policy options that entities may be using.

EXHIBIT N

5.20 Exhibit O - Summary of Related Party Disclosures

FASB 57 and SAS 45 promulgate the standards for disclosure of material related party transactions. In general, a related party is one that can exercise control or significant influence over the management or operating policies of another party, to the extent that one of the parties is or may be prevented from fully pursuing its own separate interests.

The minimum disclosures required for material related party transactions are:

- ♦ The nature of the material related party relationship. In addition, the name of the related party should be disclosed, if it is essential to the understanding of the relationship.
- ♦ A description of the material related party transactions, including amounts and other pertinent information. Related party transactions of zero or nominal amounts must also be disclosed. In other words, all information that is necessary to an understanding of the effects of the material related party transactions on the financial statements must be disclosed.
- ♦ The effects of any change in terms between the related party and the state from the terms applicable in prior periods.
- ♦ The terms of related party transactions, the manner of settlement of related party transactions, and the amount due to or from related parties must also be disclosed. Further, if the operating results or financial position of the state can be altered significantly by the effects of management control of the related party, even if there are no transactions with the related party, the nature of the control must be disclosed. In other words, if the existence of the control relationship has the potential of producing operating results or financial position that differs from those that would exist if there were no control relationship, disclosure must be made of the nature of such management control.

Examples of related organizations that might require related party transaction disclosure include but are not limited to:

- Colorado Housing and Finance Authority
- Colorado Health Facilities Authority
- Colorado Agricultural Development Authority
- Colorado Beef Council Authority
- Colorado Sheep and Wool Authority
- Fire and Police Pension Association
- Pinnacol Assurance (formerly Colorado Compensation Insurance Authority)
- The State Board of the Great Outdoors Colorado Trust Fund
- Colorado Educational and Cultural Facilities Authority
- Colorado Institute of Technology

In addition to the entities listed above, foundations existing for the benefit of higher education institutions that are not reported as component units of the state may or may not meet the criteria for disclosure as related parties. However, to address the State Auditor's concern regarding consistency in foundation reporting, the Higher Education Financial Advisory Committee has made the following interpretation of Higher Education Accounting Standard No. 14. Institutions should disclose foundation activity on this exhibit if the institution records transactions on its books that are funded by or at the direction of the foundation. If a foundation expends funds on behalf of an institution and the transactions are not recorded on the institutions books, no disclosure is necessary. Foundations that are reported as discretely presented component units of the state should not be reported on this Exhibit O.

EXHIBIT O

SUMMARY OF RELATED PARTY OR FOUNDATION DISCLOSURES FOR THE FISCAL YEAR ENDED JUNE 30, 2004

1. The name of the related party or foundation and the nature of the material relationship.
2. A description or summarization of the transactions, including amounts and other pertinent information.
3. The effects of any change in terms between periods.
4. The terms, the manner of settlement, and the amounts due to or from any related parties or foundations.

Note: References are FASB 57 and SAS-45(AU Section 334). Submit one form for each entity with which your agency had a material relationship.

5.21 Exhibit P - Major Accounting Estimates

The use of estimates has been encouraged to aid in completing the close of the state's financial books of record. This exhibit provides information to the State Controller regarding major accounting estimates used in closing.

For purposes of this exhibit, major estimates include those over \$1,000,000. The \$1,000,000 threshold applies both to balance sheet accounts and expenses/expenditures and revenues. Estimates related to recording depreciation of capital assets should not be included on the Exhibit P. The State Controller will review agencies' listings of major accounting estimates and request additional information if needed.

The exhibit requests information on the accounting entry resulting from the estimate and a brief narrative description of the purpose of the estimate.

EXHIBIT P

5.22 Exhibit Q - Proprietary Fund Noncash Transactions – NonHigher Education Institutions Only

Use this exhibit to provide information on noncash transactions of funds using proprietary fund type accounting. Governmental Accounting Standards Board (GASB) Statement No. 9 requires the disclosure of certain types of noncash transactions on the Statement of Cash Flows in the state's CAFR. Cash flow statements are only required for fund types using proprietary fund accounting. While these noncash transactions affect the balances on COFRS, they cannot be separately identified from the COFRS records. Higher education institutions are not required to complete this Exhibit Q. Noncash transactions of higher education institutions are reported on Exhibit V.

In fiscal year 1998-99, the State Controller's Office began using direct-method techniques in preparing the Statement of Cash Flows. Under this approach, Reporting and Analysis reviews proprietary fund type cash transactions through an automated process. This process does not provide a way to identify noncash transactions. Therefore, noncash transactions that meet the criteria in the following paragraph should be included on the Exhibit Q.

The Implementation Guide for GASB Statement No. 9 requires the disclosure of noncash transactions if all of the following three conditions are met.

1. The transaction is noncash. If a transaction is part cash and part noncash, the cash portion should be shown in the statement and the noncash portion evaluated for items 2 and 3 below.
2. The transaction affects recognized assets or liabilities. Changes in noncash assets or liabilities that are not attributable to a cash receipt or payment should be considered a noncash transaction. For example entering a capital lease for a building is a noncash transaction because a lease liability and the building were recorded. However, the inception of an operating lease would not be reported because there is no balance sheet effect.
3. The transaction is due to an investing, capital and related financing, or noncapital financing activity. (This implicitly excludes transactions that are related to operations. For the purposes of cash flow statement preparation, operating activities are defined as any activity that does not qualify as an investing, capital and related financing, or noncapital financing activity.) For example, a capital lease transaction meets the definition of a capital and related financing activity and should be reported as a noncash transaction. However, an account receivable exchanged for the forgiveness of an account payable is an operating activity and should not be reported as a noncash transaction.

Other examples of noncash transactions that the SCO has identified include assets (other than cash) or liabilities received or surrendered through capital contributions, losses on disposal of capital assets, and exchange of an investment to satisfy a loan or note payable. You may exclude transactions under one thousand dollars (\$1,000).

Please review the information in Chapter 3, Section 4.4 to ensure that your accounting transactions support the State Controller's Office preparation of the direct method cash flow statement.

EXHIBIT Q**PROPRIETARY FUND NONCASH TRANSACTIONS (Excluding Higher Education)
FOR THE FISCAL YEAR ENDING JUNE 30, 2004**

1. Accounts impacted by the noncash transaction(s):

Agency	Fund	Acct Type	BS Acct	Rsrc/ Objt	Debit	Credit
--------	------	--------------	------------	---------------	-------	--------

2. Description of the noncash transaction(s).

NOTE: Include only noncash transactions that affect investing, capital and related financing,
and noncapital financing activities.

5.23 Exhibit R - Application/Letter of Certification for Petty Cash and Change Funds

CRS 24-30-202 (20.1) and Fiscal Rule 6.2 allow the State Controller to delegate approval of petty cash funds to a designee. This delegation allows the agency to establish, abolish, or change the dollar amount of petty cash and change funds.

Use Exhibit R to complete the annual certification confirming that the delegation conditions are still in place. The Exhibit R may also be used to apply for delegation of the State Controller's approval for petty cash and change funds. Application for delegation may be completed at any time during the fiscal year, not just during the open/close process. The "List of Approved Petty Cash and Change Funds" in Item #6 on Exhibit R contains the minimum data elements required. Agencies may use a more inclusive format if desired and attach it to Exhibit R. The item "Petty Cash or Change Fund Identifier" is the agency assigned descriptor of the petty cash or change fund; it could be location, an assigned number, or a text description.

If your agency does not have delegated authority for petty cash and change funds, enter "none" on the Exhibit Listing Form and do not complete this exhibit. Due to the attest signatures required on this exhibit, it must be submitted in paper format.

EXHIBIT R
APPLICATION/LETTER OF CERTIFICATION
FOR PETTY CASH AND CHANGE FUNDS
FOR THE FISCAL YEAR ENDING JUNE 30, 2004

CRS 24-30-202 (20.1) and Fiscal Rule 6.2 allow the state controller to delegate approval of petty cash funds to a designee. This delegation allows departments or institutions to establish, abolish, or change the dollar amount of their petty cash and change funds.

Please sign below to signify your understanding, agreement, and certification of the following statements:

1. The delegation of petty cash and change funds is to the controller or chief financial officer of this department or institution. This authority can not be sub-delegated to anyone else.
2. The department or institution has adequate internal controls in place to safeguard the petty cash and change funds.
3. No individual petty cash fund exceeds \$2,500
4. All cash at the agency is maintained in the correct classifications on COFRS as Petty Cash (1012), Change Funds (1011) or Cash on Hand (1010).
5. Change funds are kept to a minimum. No expenditures have been made from change funds. Expenditures from petty cash have been limited to those allowed in Fiscal Rule 6.2.
6. A report listing the agency, fund, petty cash and change funds authorized, and the authorized amount is to be submitted annually. A format for the report follows; attach an additional schedule if needed.

Agency	Fund	Petty Cash or Change Fund Identifier	Amount Authorized

 For the State Controller

5.24 Exhibit S – Changes in Short-Term Financing

Paragraph 12 of GASB 38 requires disclosure of short-term debt financing even if no short-term debt was outstanding at June 30. Exhibit S applies only to short-term financing that is external to the state's reporting entity; therefore, State Treasury loans and advances and inter and intrafund borrowings should not be reported on this exhibit.

In the upper section of the exhibit, enter your beginning short-term debt balance, any increase in the balance during the year, and the ending balance. **All amounts should be entered with the accounting normal-balance signs, that is, credit balances and increases are entered as negative numbers and decreases (debits to the account) are entered as positive numbers.** The decrease is calculated by the formulas in the exhibit template. If you enter balances in the line item titled "Other Short-Term Financing", please provide a descriptive title for the activity.

In the lower section of the exhibit, describe the nature and purpose of the short-term borrowing reported in the upper section.

EXHIBIT S
SCHEDULE OF CHANGES IN SHORT-TERM FINANCING
FOR THE FISCAL YEAR ENDING JUNE 30, 2004

COFRS		6/30/03 Balance(CR)	Changes		6/30/04 Balance(CR)

5.25 Exhibit T – Segment Reporting

Paragraph 122 of GASB 34, as revised by Paragraph 17 of GASB 37, requires certain disclosures of enterprise activities that qualify as segments. An enterprise activity qualifies as a segment if it is an identifiable activity that has revenue bonds with a revenue stream pledged in support of the debt and is required by an external party to separately account for the assets, liabilities, revenues, and expenses of the activity.

In Section A of the exhibit, you should enter the condensed financial information specified by the line items listed. The exhibit template includes Check Totals at the bottom of Section A that must remain at zero after the data entry for the segment is complete. These Check Totals ensure that the required financial statement relationships are maintained.

Section B is used to recast the operating statement balances from Section A into the format required on the government-wide Statement of Activities for reporting in the state's Comprehensive Annual Financial Report (CAFR). Amounts reported in this section of the exhibit will be reported on a line separate from the related business type activity in the CAFR Statement of Activities. This section is applicable only if the segment reported in Section A is considered a "different" identifiable activity from the business type activities in which it is reported on the fund level statements. If the goods or services of a segment are supplemental or secondary to the delivery of the primary goods or services of the enterprise, then the segment is not considered "different", and it would not be reported in Section B of this exhibit. GASB 37 (paragraph 10, footnote C) states that, "For higher education institutions reported in enterprise funds, the variety of activities common to those institutions – for example, food service, bookstore, residence halls, and student unions – generally would not be required to be reported separately." An example of a "different" identifiable activity that would be reported in Section B is the generation and sale of electricity by a higher education enterprise that qualifies as a segment. In this instance, the goods sold are unrelated to the primary products of the enterprise, and Section B of the exhibit should be completed. The State Controller's Office will interpret the absence of balances reported in Section B as each agency's representation that its segments are not "different" from their normal enterprise activity.

In Section C of the Exhibit describe the type of goods or services provided by each segment.

Two segments may be reported on the exhibit. Additional numbered instances of the exhibit may be needed if an agency or institution has more than two segments.

EXHIBIT T

5.26 Exhibit U – Other Disclosures

Accounting standards require certain disclosures that do not fit well with existing exhibits. Those required disclosures are accumulated on Exhibit U.

Sections A and B

Paragraph 89 and other paragraphs in GASB 34 require specific reporting treatment of special and extraordinary items as defined in paragraphs 55 and 56 of that standard. Because the nature of unusual and extraordinary items can vary widely, we have not established accounts on COFRS to record the transactions. Unusual and infrequent transactions should be recorded on COFRS in the accounts that most accurately reflect the underlying events. Sections A and B on Exhibit U are used to disclose how the transaction was coded and to describe the nature of the transaction.

Special items are transactions that are either unusual in nature or infrequent in occurrence and are under the control of management. The terms unusual and infrequent should be assessed in the context of the activities normal operations (see APB 30 for more on the definitions of unusual and infrequent). In Section A of the exhibit show how the special item was coded on COFRS and provide a description of the underlying event. The description should be adequate for disclosure in the state's annual financial report, and it should explain the transaction without the need for prior knowledge of the event. The State Controller's Office will reclassify the transaction in a post closing entry to make it possible to report the transaction separately from other balances.

Extraordinary items are transactions that are both unusual in nature and infrequent in occurrence; whether or not the event was within the control of management. The terms unusual and infrequent should be assessed in the context of the activities normal operations (see APB 30 for more on the definitions of unusual and infrequent). In Section B of the exhibit show how the extraordinary item was coded on COFRS, and provide a description of the underlying event. The description should be adequate for disclosure in the state's annual financial report, and it should explain the transaction without the need for prior knowledge of the event. The State Controller's Office will reclassify the transaction in a post closing entry to make it possible to report the transaction separately from other balances.

Section C

The State Controller does not specify the asset class lives to be used in calculating depreciation; instead, agencies are required to use their own experience in establishing class lives. The State Controller's Office is required to disclose in the CAFR the policy for estimating asset useful lives. Show in Section C the shortest estimated life used and the longest estimated life used for each class of the following classes of assets; land improvements, buildings, leasehold improvements, equipment, library books, infrastructure, other. Do not consider assets that are clearly immaterial in completing this section of the exhibit. The State Controller's Office will disclose a range of class lives used based on the information provided in Section C of this exhibit.

Section D

Paragraph 9 of GASB 38 requires disclosure of significant violations of finance-related legal or contractual provisions and the actions taken to address the violation. In Section D, describe any such violations that occurred within the fiscal year and the actions taken to cure the violation and/or prevent reoccurrence.

Section E

FASB Statement 34 requires proprietary activities to capitalize interest cost during the time that activities necessary to get the asset ready for its intended use are in progress. Report in Section E the amount of interest capitalized during the fiscal year.

5.27 Exhibit V – Higher Education Cash Flow Statement – Supplemental Information

The State Controller's Office (SCO) is required to present a cash flow statement for all proprietary fund types, and it must use the direct-method format for the presentation. For agencies outside higher education, the SCO uses the indirect method along with transaction-based adjustments to prepare the direct-method format cash flow statement. Because higher education feeds summarized transactions to COFRS, the SCO does not have access to the transaction detail needed to convert the indirect method to the direct-method format. Higher education should complete Exhibit V to provide the information needed for the conversion and to disclose noncash transactions.

Section A

The items listed in Section A of the exhibit are cash inflows and outflows that affect real accounts (Statement of Net Assets accounts - SONA) and that generally do not affect nominal accounts (operating statement accounts). Refer to Chapter 3 Section 4.4 for a schedule showing how COFRS accounts aggregate to cash flow statement line items. The indirect method using these aggregations in some instances results in net cash flows that must be converted to gross cash flows. The amounts presented in Section A provide that conversion.

Cash From Operations:

The two lines related to loans are used to show the cash inflows and outflows that result from SONA transactions in the loan revolving activity. The sum of the cash inflows and outflows for the loan revolving activity must equal the year-to-year change in the real accounts used to track the loan activity. The SCO includes loan cancellations in the indirect-method calculation of the year-to-year change in loans receivable, so loan cancellations should not be included in the amounts shown on the exhibit.

Cash Flows From Noncapital Financing:

The two lines related to Deposits Held in Custody are used to show the cash received and disbursed when the institution holds funds for others that it will not report as revenues or expenses. This is commonly referred to as agency or balance sheet accounting in the proprietary funds. Examples of this situation include funds held and disbursed for campus organizations, and funds related to the Federal Direct Lending Program. The sum of the cash inflows and outflows for agency activity must equal the year-to-year change in the real accounts used to track this activity.

The two lines related to noncapital debt are used to show the cash inflows and cash outflows that result from notes and anticipation warrants that are used for operations rather than capital financing. Note that cash flows related to liability accounts 2805, 2806, and 2807 are not to be included in the amounts shown for noncapital debt. We expect that the use of these accounts in the proprietary funds will be limited to the year end entry to reclassify unspent certificates of participation proceeds (for net asset classification purposes). Since certificates of participation are issued for capital related purposes, accounts 2805, 2806, and 2807 are included in the capital related financing section.

Cash Flows From Capital and Related Financing:

The line titled State Capital Contributions applies only to those higher education institutions that disburse funds for capital projects from the 3XX funds and then are reimbursed by the 461 fund. In order to present the higher education enterprise fund similarly to other enterprise funds, the SCO will report expenditures in the capital construction fund for the general funded portion of projects and convert the transfer-in (revenue source code EBGD) recorded by higher education in the plant fund to a capital contribution (RSRC 8800). Revenue source code 8800 will be included with the change in capital assets, thus, eliminating the cash outflow that would have been shown for the acquisition of capital assets. For institutions that pay capital expenditures from the 461 fund, the

balance in EBGD/8800 should be disclosed in Section B as a noncash transaction. For institutions that are reimbursed by the capital construction fund 461, this line item should show the balance in revenue source code EBGD, and the amount should not be shown as a noncash transaction.

The two lines related to capital assets should show the cash disbursed for capital asset acquisitions and the cash received from sales of capital assets. Together these amounts should equal the net change in the real and nominal accounts related to capital assets. The SCO will calculate the net amount for these two lines combined by adjusting the year-to-year change in net capital asset balances for depreciation, leases entered, gain/loss on sale, capital contribution, and any other account for which capital assets are the offset. Agencies can calculate the gross amount for each of these lines by reviewing transactions that affect capital assets and that have cash offsets, or by a separate tracking mechanism.

The line titled Capital Lease and Mortgage Principal Payments should show the cash disbursements for lease and mortgage principal payments but not the cash disbursed for interest payments, which the SCO can identify from the operating statement accounts. This amount may not match the amount shown as lease liability reduction on Exhibit C if you have mortgage payments. This amount will be shown as a capital related cash outflow, and it will be used to adjust the cash provided/used in Acquisitions of Capital Assets where the change in lease and mortgage liability is included. The increase in lease or mortgage liability related to acquiring a new capital asset is disclosed in Section B – NonCash Transactions (See below).

The line titled Proceeds from Bonds, Notes, and COPs should show the cash received at issuance of the debt instrument including any premium or discount. The line titled Bond, Note, and COP Principal Payments should show disbursements for capital related debt service, but it should exclude interest payments, which are presented in a separate line and can be identified from the operating statement accounts. It should also include amounts recorded in 171X related to deferred debt issuance costs that did not reduced bond proceeds. The sum of the cash inflows and outflows for debt activity must equal the year-to-year change in the real accounts used to track the debt.

Cash Flows From Investing:

The line titled Purchases of Investments should show cash disbursed to buy investments. The line titled Proceeds from Sale and Maturity of Investments should show cash received from the sale of investments and the cash received when investments mature. The sum of the cash inflows and outflows for investment activity must equal the year-to-year change in the real accounts used to track investments.

Section B

Higher education institutions should complete this section of Exhibit V and should not complete Exhibit Q. (However, the instructions for Exhibit Q include a more detailed definition of noncash transactions that higher education institutions may find of value.) Certain noncash transactions must be reported on the Statement of Cash Flows. Those transactions are limited to investing, capital, and financing activities that affect recognized assets or liabilities but do not result in cash receipts or cash payments. Note that this definition excludes transactions affecting operating assets or liabilities. Examples of noncash transactions that should be shown in this section include: (the following list is not intended to be comprehensive)

- Loss on disposal of capital assets,
- State capital contributions (if cash was not transferred to the higher education funds) ,
- New mortgages or capital leases initiated during the year,
- Amortization of refunding gain/loss,
- Amortization of debt premium or discount,

- Amortization of investment premium or discount,
- Exchange of an investment to satisfy a loan or note payable.

Each noncash transaction should be shown in Section B as the accounting journal entry used to record the transaction. Include the accounting string elements shown in Section B. The unrealized gain/loss adjustment required by GASB 31 is a noncash transaction for agency held investments; the same adjustment for cash with the State Treasurer is a cash transaction for the state's Comprehensive Annual Financial Report. The SCO will identify the noncash transaction related to unrealized gains/losses from the Exhibit N, and therefore, higher education institutions should not include it on the Exhibit V.

You may omit noncash transactions under \$10,000 from this exhibit.

EXHIBIT V

5.28 Exhibit W1 – Changes in Capital Assets – Governmental and Internal Service Funds

Use the Exhibit W1 to report changes in capital assets owned or used by governmental funds and internal service funds. Internal service funds are included on this exhibit because internal service fund assets are reported with governmental activities on the government-wide Statement of Net Assets. Do not report capital assets owned by enterprise or fiduciary funds on this exhibit. Changes in enterprise fund capital assets are reported on Exhibit W2, and changes in fiduciary fund capital assets are not on either exhibit W1 or W2 because fiduciary funds are not reported on the government-wide Statement of Net Assets.

The Exhibit W1 is divided into the three sections required by the footnote disclosure; Capital Assets not Being Depreciated, Capital Assets Being Depreciated, and Accumulated Depreciation. Each section is subdivided into the asset classes established for reporting by the SCO. The COFRS balance sheet account numbers related to each asset class are listed below the asset class. The beginning and ending balance for each asset class is provided to you on the Exhibit Reconciling Balances Report. You should enter these balances in the first and last columns respectively and adjust the ending balance for any applicable Exhibits H. In the column titled Additions enter the summation of all entries that increase the capital assets or accumulated depreciation including:

- ♦ Capitalize property purchases,
- ♦ Donations of capital assets,
- ♦ Lease inceptions,
- ♦ Depreciation expense, and
- ♦ Prior period adjustments.

In the column titled CIP Transfers, enter the amount of completed construction that you are reclassifying from Construction in Progress to a particular capitalized asset. Use the normal accounting convention to report the transfer, that is, credit CIP (a negative or bracketed amount) and debit the capitalized asset (a positive or unbracketed amount). No amounts should be entered in this column in the Accumulated Depreciation Section.

In the column titled Deductions enter the summation of all entries that decrease capital assets or accumulated depreciation including:

- ♦ Capital assets sold,
- ♦ Capital asset inventory losses,
- ♦ Other capital asset dispositions,
- ♦ Removal of accumulated depreciation at capital asset disposition, and
- ♦ Prior period adjustments

Beginning, ending, and additions balances should be entered with their normal accounting signs (that is, as positive numbers for capital assets and negative numbers for accumulated depreciation); deductions should also be entered using their normal accounting signs (that is, negative numbers for capital assets and positive numbers for accumulated depreciation). Each asset class (row) must cross-foot using this sign convention. As with other exhibits, you should explain whether any Exhibit H affected the ending balance on the Exhibit W.

5.29 Exhibit W2 – Changes in Capital Assets – Enterprise Funds

Use the Exhibit W2 to report changes in capital assets owned by enterprise funds. Do not report capital assets owned by governmental funds, internal service funds, or fiduciary funds on this exhibit. Changes in capital assets of those funds are reported on Exhibit W1 except fiduciary funds, which are not on either exhibit W1 or W2 because fiduciary funds are not reported on the government-wide Statement of Net Assets.

The Exhibit W2 is divided into the three sections required by the footnote disclosure; Capital Assets not Being Depreciated, Capital Assets Being Depreciated, and Accumulated Depreciation. Each section is subdivided into the asset classes established for reporting by the SCO. The COFRS balance sheet account numbers related to each asset class are listed below the asset class. The beginning and ending balance for each asset class is provided to you on the Exhibit Reconciling Balances Report. You should enter these balances in the first and last columns respectively and adjust the ending balance for any applicable Exhibits H. In the column titled Additions enter the summation of all entries that increase the capital assets or accumulated depreciation including:

- ♦ Capitalize property purchases,
- ♦ Donations of capital assets,
- ♦ Lease inceptions,
- ♦ Depreciation expense, and
- ♦ Prior period adjustments.

In the column titled CIP Transfers, enter the amount of completed construction that you are reclassifying from Construction in Progress to a particular capitalized asset. Use the normal accounting convention to report the transfer, that is, credit CIP (a negative or bracketed amount) and debit the capitalized asset (a positive or unbracketed amount). No amounts should be entered in this column in the Accumulated Depreciation Section.

In the column titled Deductions enter the summation of all entries that decrease capital assets or accumulated depreciation including:

- ♦ Capital assets sold,
- ♦ Capital asset inventory losses,
- ♦ Other capital asset dispositions,
- ♦ Removal of accumulated depreciation at capital asset disposition, and
- ♦ Prior period adjustments

Beginning, ending, and additions balances should be entered with their normal accounting signs (that is, as positive numbers for capital assets and negative numbers for accumulated depreciation); deductions should also be entered using their normal accounting signs (that is, negative numbers for capital assets and positive numbers for accumulated depreciation). Each asset class (row) must cross-foot using this sign convention. As with other exhibits, you should explain whether any Exhibit H affected the ending balance on the Exhibit W.

5.30 Intra/Interfund Receivable/Payable Confirmation Form

This confirmation form fulfills multiple purposes. In addition to being the source of information for balancing the intra and interfund payables/receivables, it is the basis for the GASB 38 disclosure of the source of all interfund receivables and the fund to which the amounts are payable. The form is also the source of information for a postclosing entry eliminating amounts receivable from or payable to fiduciary funds, which are considered external for the government-wide Statement of Net Assets. In order to prepare this disclosure from the existing confirmation process, it is necessary that the confirmation forms contain only one-to-one or many-to-one fund relationships. The SCO cannot identify the source of receivables and the funds to which amounts are payable if the confirmation forms contain many-to-many fund relationships. The numerous disclosure requirements dependent on this form make it essential that both parties to each receivable/payable transaction submit confirmation forms.

Based on our experience in the prior fiscal year closings, the following five areas need to be emphasized in the intra/interfund receivable/payable confirmation process.

1. Send all confirmation forms directly to Karoline Clark in the Reporting and Analysis Section. Do not send the confirmation forms to your field accounting specialist. Karoline's telephone number is 303-866-3811.
2. Buying agencies may have cleared an intra/interfund payable that the selling agency still has recorded as a receivable. One example of this occurring is when a buying agency uses a check or warrant to make payment and the selling agency has not yet received the payment or has recorded the receipt in the following fiscal year. When this or a similar situation occurs, agencies should complete the confirmation process by explaining the condition on the confirmation form and submitting it to Reporting and Analysis. The information will be used to reclassify the receivable for statewide financial statement purposes only.
3. The process Reporting and Analysis uses to balance these intra/interfund receivables and payables relies on having a signed copy from both the buyer and the seller. Therefore, both agencies must submit confirmation forms equal to the amount recorded in their intra/interfund receivables/payables. (Confirmation forms related to revenues posted to other agencies books by the Department of Revenue are the only exception to this rule.)
4. The confirmation form should not be used as a billing instrument, except as described below for the Department of Personnel and Administration direct billing. The selling agencies should ensure that bills for services are sent out with sufficient time for the receiving agency to record the payable and complete the confirmation form.
5. The State Controller's Office is setting the intra/interfund receivable/payable cutoff date at July 23 . However, agencies should complete their confirmations as far in advance of the cutoff date as possible. The completed and signed forms are due to the State Controller's Office by July 30 .

GENERAL INSTRUCTIONS

The intra/interfund receivable/payable confirmation form that follows is required for all agencies and institutions recording intra/interfund receivable/payables at the close of FY03-04. The form represents an agreement between agencies or funds documenting that both parties are aware of the amount and the account coding recorded by the other party to the transaction. Please remember that these receivable/payables may be within a single agency and either within the same fund category or between funds in that single agency.

Individual receivable/payable accounts that are equal to or less than \$1,000 do not need to be confirmed. All balances that exceed \$1,000 in COFRS accounts 137X, 139X, 1720, 1730, 236X, 239X, 2940, and 2950 must be supported by these agreements. If the actual amounts are not known, an estimated amount should be agreed on by the agencies involved. The confirmation forms must be signed by the controllers (or their designee) of the departments or institutions of higher education. The deadline for finalizing intra/interfund receivable/payables is July 23. It is essential that the intra/interfund receivable/payable accounts balance at the close of the fiscal year. You should reconcile the balances in the intra/interfund receivable/payable accounts on COFRS to the detail on the Intra/Interfund Receivable/Payable Confirmation Forms. However, this reconciliation should not be submitted to SCO. Submit a signed copy of all Intra/Interfund Receivable/Payable Confirmation Forms to Reporting and Analysis by July 30. If you are using e-mail to complete these forms, when the confirmation is complete and agreed to by both sides of the transaction, copy (cc) Karoline Clark at 'karoline.clark@state.co.us' on the final e-mail. This will serve as the submission of the form to the SCO by both parties and no paper copy need be transmitted. Karoline will respond to the e-mail to confirm that she has received documentation of the confirmation process.

Agencies can determine if a transaction should be coded as an intra or interfund receivable or payable by referring to the table included in Section 3.17 of this chapter.

In general, the following steps should be taken:

1. The initiating fund/agency controller should contact the other fund/agency controller to discuss the existence of the receivable/payable. They should come to agreement at that point whether it is a valid receivable/payable and agree as to the amount (either estimated or actual). You may summarize multiple transactions on a single form, but not many-to-many fund relationships. If the amount is determined to be equal to or less than \$1,000, no confirmation need be completed.
2. Either agency should complete their portion of the confirmation form and fax or e-mail the form to the other agency.
3. If the receiving agency agrees to the amount and coding, they should complete their portion of the form, retain a copy to support their receivable or payable, and fax or e-mail a completed copy back to the initiating agency. If agencies are using e-mail for the confirmation process they should follow the submission instructions above.
4. If the agencies cannot agree on the item or the amount, the dispute should be referred to their field accounting specialist(s) promptly so that it can be resolved prior to closing. If balancing is not achieved by the deadline, explain the conditions on the forms and submit them to Reporting and Analysis.

5. Once an agreement is reached and documented, both agencies should prepare journal vouchers to accrue their receivable/payable at the agreed on amount (whether it is actual or an estimate).

If the Department of Personnel and Administration (DPA) is not able to process IT's for any services (such as long distance telephone, fleet vehicle mileage, or copier billings) before July 16 (period 12 closing) the following special procedures will be used for direct billing.

1. DPA will prepare an estimate of the cost of services based on May 2003 information.
2. Estimates will be provided to the agencies by July 7 on the Intra/Interfund Receivable/Payable Confirmation Form following this section.
3. Agencies will need to review the estimate and if they agree, complete their portion of the interfund agreement and accrue the payable.
4. If the agencies do not agree with the estimate, they should call the DPA contact for the particular service as follows:
 - ♦ Capitol Complex rental billings – Janice Benton, phone 303-866-2161 or e-mail janice.benton@state.co.us
 - ♦ Telecommunications billings – Lorilie McCann, phone 303-866-2799 or e-mail lorilie.mccann@state.co.us
 - ♦ All other Central Services billings – Charlie Marquez, phone 303-866-3981 or e-mail charlie.marquez@state.co.us

The DPA staff will make every effort to arrive at a mutually agreeable estimate.

5. Actual charges will be posted via an IT in period 1 of FY04-05. At this time, agencies should compare the actual to the estimate and reverse their accrued payable. This reversal should occur prior to the close of period 1 in FY04-05.

In order to make final billing corrections for Multi-Use Network, data lines, or phone lines prior to fiscal close, the Department of Personnel and Administration requires that coding changes be communicated to Sheryl Whala (phone 303-866-2793, e-mail sheryl.whala@state.co.us) by June 16 .

CHAPTER 4: SECTION 1

CAPITAL CONSTRUCTION

KEY DATES

Within 2 weeks after Long Bill is signed	If FY04-05 project appropriation is needed in FY03-04, contact your field accounting specialist.
June 30	For continuation of expiring project appropriations, all contracts must be effective on or before this date. PO's should be approved and issued.
July 15	Last date to have FY03-04 PO's accepted on COFRS SUSF for encumbrances to automatically roll to FY04-05. EPS users must make sure FY04-05 \$0 AP is processed to activate APPR code or automatic RO transaction will not accept.
July 16	NYPO closes FY03-04 PO's and opens FY04-05 PO's.
July 23	CCCAS turnaround form for reversions due to SCO.
July 23	CCCAS turnaround form to extend expiring projects due to SCO.
August 13	CCCAS turnaround form for continuing appropriations due to SCO.
August 27	Deadline for recording all capital construction continuing spending authority in COFRS.

This chapter discusses issues related to carrying forward and reverting spending authority for controlled maintenance and capital construction project budgets. In addition, the *Capital Construction Accounting Guidelines* (revised October 1998) provide detailed guidance for managing capital construction projects and are available on the SCO website at: <http://www.colorado.gov/dpa/dfp/sco>. This chapter also provides guidance on proper accounting for expenditures, augmenting revenues, and retainages payable related to capital construction projects. Fund 461 is used to account for all appropriated and nonappropriated capital construction activity unless otherwise approved by the State Controller's Office.

The instructions for the Capital Construction Continuing Appropriation Status (CCCAS) turnaround document are included in this chapter (see Section 1.16). For your convenience, a flowchart is available on our website showing the steps involved for fiscal year end, closing a project, and reverting funds.

An agency may choose to record their capital construction appropriations using the book process (see Chapter 2, Section 2.4). However, given the required documentation that must be attached to a carryforward appropriation, it may be more convenient to use a manual AP transaction. Contact your field accounting specialist to plan the method and timing for booking your agency's capital construction appropriations.

Due dates for the CCCAS turnaround forms have been set to ensure timely reversions of projects expiring in FY03-04 and to allow agencies adequate time to record activity for continuing projects prior to establishing spending authority in FY04-05. Due dates are listed on the first page of this section. CCCAS forms may be submitted early. Our goal is to process all CCCAS turnaround forms and related

AP documents within three working days of receipt at SCO and to have all continuation spending authority recorded by August 27 .

If using EPS, a zero dollar or estimated/actual dollar AP is required to activate the appropriation code in order for the RO transaction to accept during the rollover process which will run on **July 16** . The RO transaction is used to rollover EPS encumbrances to the new year. The program uses an edit to verify that the appropriation code has been activated for the new year. If the code has not been activated, the transaction will not process and the encumbrance will not roll to the new fiscal year. In addition, the appropriation code in the old year must remain active through the encumbrance roll process in order for the old encumbrance to be liquidated in the old year. Please contact your field accounting specialist if you have questions about this process or have special requirements. Your field accounting specialist will inactivate FY04-05 appropriations for expiring projects in which no PO transactions roll to the new year.

1.1 Construction Project Applications - State Buildings Form SC4.1

All new capital construction appropriations, both capital projects and controlled maintenance projects, are 100 percent restricted when booked. In addition, new funding for existing projects is 100 percent restricted when booked. In order to release the restriction and receive spending authority for a project, an agency must complete a Construction Project Application (SC4.1). The SC4.1 must be approved by the authorized officials within the agency, forwarded to OSPB for non-higher education agencies or to CCHE for higher education institutions. OSPB and CCHE will then forward the signed form to State Buildings and Real Estate Programs for signature and/or distribution and filing. The SCO does not sign the Construction Project Application form. Agencies should submit to the SCO a properly prepared and agency approved AP document to unrestrict the correct amount of spending authority. The AP will be approved when a completed SC4.1, submitted to and processed by OSPB/CCHE and State Buildings and Real Estate Programs, is received by the SCO. All questions and problems related to capital construction accounting or budget should be referred to your agency's field accounting specialist. All questions related to the completion of the Construction Project Application form should be directed to State Buildings and Real Estate Programs or the applicable central oversight agency, CCHE or OSPB.

1.2 Recording the New Capital Construction Appropriations

The capital construction portion of the Long Bill is effective on passage. As a result, it must be 100 percent booked in the fiscal year the bill is signed by the Governor. This is necessary for proper budget reconciliation and financial reporting.

SCO will establish the following central coding which is necessary for the appropriations to be booked. This includes:

- ♦ Long Bill group accumulator;
- ♦ Long Bill group;
- ♦ Funding source code;
- ♦ Long Bill line item; and
- ♦ Project number.

Agencies are responsible for establishing APP2 records for their capital construction projects. New appropriated capital construction projects should have an all numeric appropriation code. Appropriation codes for new nonappropriated capital projects should begin with an alpha character. Where possible, appropriation codes for continuing projects should be changed to correspond with this coding structure.

Agencies must carefully review the coded draft Long Bill and verify that appropriations for new projects have been assigned a new project number. Appropriations to an existing capital construction project should retain the original project number. Contact Dottie Relaford of the Field Accounting Services Team (303-866-4165) within two weeks after receiving the coded draft Long Bill to request coding changes.

An agency may need to have a FY04-05 project appropriation available in FY03-04. They must contact the SCO within two weeks after the Long Bill is signed to let their field accounting specialist know that the appropriation needs to be booked in FY03-04 and request that the appropriation code(s) be approved. The agency will need to prepare and submit to the field accounting specialist a properly prepared and agency approved AP document with a spending authority indicator (SAI) code of "01" for Long Bill. Spending authority must be restricted until a completed SC4.1 form is received by the SCO.

If an agency does not need the FY04-05 capital construction appropriation in FY03-04, the SCO will record the appropriation as a lump sum in the agency's fund 461 in appropriation code 999. The intent of recording a lump sum appropriation is to ensure that current year appropriations are recorded for statewide financial reporting purposes.

Six-Month Rule: Agencies receiving capital construction appropriations must comply with CRS 24-30-1404(7) which is known as the six-month rule. The purpose of the rule is to get capital construction projects started as soon as the funds are available. The statute requires, except for specific exemptions listed, that a professional services contract be executed and encumbered within six months after the appropriation becomes law. If a professional services contract is not needed, the agency must have a contract with the contractor encumbered within six months of when the funds are available. If the project appropriation is for equipment, a PO should be executed and processed on COFRS within six months of when the funds are available. If the agency cannot meet the six-month rule, they may send a request directly to the Capital Development Committee (CDC) for a recommendation to the State Controller that the deadline be waived. Since the capital construction appropriation is effective upon passage, the six-month deadline is six months after the Governor signs the bill.

A certification form will be sent from the SCO to the agency controller or chief financial officer (CFO) for higher education institutions. This form must be completed for each project that is subject to comply with the six-month rule. The controller/CFO and project manager will certify to the SCO that the encumbrance recorded on COFRS meets the requirements contained in CRS 24-30-1404(7). The certification form should be sent to the SCO via e-mail, wherever possible, and electronic signatures are acceptable.

A memorandum of understanding (MOU) has been signed between the CDC and the SCO regarding the enforcement of the six-month rule. If the full amount of the encumbrance required by the statute cannot be met, the MOU allows a department or institution to include an amount in its project plan that will be encumbered by the six-month deadline. Justification for the proposed amount is required. Once the CDC grants approval of a project plan with a stated encumbrance amount, a waiver for this revised amount will be granted by the State Controller and monitored by the SCO to determine compliance with the statute. If the stated encumbrance amount cannot be met by the six-month deadline, the agency may send a request directly to the CDC for a recommendation to the State Controller that the deadline be waived.

If the appropriation for the project is subject to the six-month rule, agencies need to enter the six-month rule deadline date as the APP2 appropriation code end date. When a purchase order document (PO) is executed and encumbered in COFRS, which meets the statutory requirements

of the six-month rule, agencies need to complete the certification form and return it to the appropriate field accounting specialist who will then change the APP2 appropriation code end date to June 30.

For any capital construction project subject to the six-month rule which does not comply with the rule by the deadline date, the appropriation code associated with the project will be inactivated and no additional budgetary or accounting transactions will be recorded against the project. As noted above, if an agency is not able to meet the six-month rule project deadline, a request may be submitted by the agency directly to the CDC for a recommendation to the SCO that the deadline be waived. If the SCO approves the request, the agency will be notified in writing and the appropriation code end date on the COFRS APP2 record will be changed to June 30 and transactions may be recorded against the appropriation code. Any questions about this policy should be directed to your field accounting specialist.

1.3 Carryforward of FY04-05 Capital Construction Appropriation

The capital construction appropriations that the SCO booked in FY03-04 into each agency's fund 461 as a lump sum must be carried forward into FY04-05 and booked into the proper Long Bill line item and agency assigned appropriation code. Agencies will be responsible for initiating the AP document necessary to carryforward these appropriations. For new projects, the appropriation booked in FY04-05 must be 100 percent restricted until a completed SC4.1 has been submitted, processed by OSPB/CCHE and State Buildings Programs, and received by the SCO. In addition, new appropriations to continuing projects must be 100 percent restricted when booked in FY04-05 unless a completed SC4.1 has been processed.

For continuing projects, the amount to be booked is the amount remaining after all the FY03-04 expenditures are recorded against that appropriation.

In all cases, the AP document used to book the appropriations must be completed with a SAI code of "08" for capital construction carryforwards. This includes lump sum amounts booked because technically they are carryforwards into FY04-05 since the appropriations were effective on passage of the Long Bill in FY03-04 and booked by the SCO.

See Section 1.8 of this chapter for information on the carryforward of ADA project spending authority.

1.4 Capital Construction Carryforwards and Reversions - General Information

In accordance with the headnotes to the capital construction section of the Long Bill, capital construction appropriations, if initiated within the fiscal year of appropriation, are available until completion of the project or for a period of three years, whichever occurs first. Because spending authority does not automatically carryforward on COFRS, spending authority for capital construction projects must be re-established on a project-by-project basis. In addition, uncommitted spending authority on expiring projects must be reverted to the capital construction fund on a project-by-project basis.

Project carryforwards may be completed prior to final close of FY03-04. However, when the field accounting specialist approves the FY04-05 AP, the FY03-04 appropriation codes will be inactivated at the same time. This includes FY04-05 Long Bill projects recorded and used in FY03-04. (See the discussion in Section 1.3 above for other details on the "carryforward" of the FY04-05 Long Bill appropriations.) All FY03-04 appropriation codes should remain active through the encumbrance roll process to properly liquidate the encumbrance in the old year and roll the encumbrance into the new year.

In order to identify which projects should revert and which projects should continue, a CCCAS turnaround form has been designed. In March, the SCO will send a turnaround form to the controller of each agency or CFO of each higher education institution. The controller/CFO will receive a separate CCCAS for expiring projects and for continuing projects. Follow the instructions in Section 1.16 of this chapter for completing the form. AP documents to record the reversion of FY03-04 spending authority or to establish FY04-05 spending authority should be attached to the completed form.

1.5 Capital Construction Appropriations Expiring June 30

The CCCAS turnaround report distributed by SCO will list all appropriated capital construction projects for an agency that are due to expire at June 30. Any discrepancies in the expiration date of a capital construction or controlled maintenance project between the CCCAS turnaround report and the departments records must be discussed and resolved with the departments field accounting specialist. DO NOT change the dates on the CCCAS form. Projects and uncommitted spending authority on this listing will expire unless the project is not complete and a valid commitment voucher exists on COFRS (encumbered on COFRS). Be sure to retain the last period 12 BDA01R report that shows the complete listing of encumbrances before the new year purchase order roll (NYPO) closes the FY03-04 PO's. PO's entered on Friday, July 13, will not be shown on the period 12 BDA01R report. Documentation of the posting of any encumbrance documents on this date must be submitted with the AP document requesting carryforward of expiring funds.

To notify SCO of agency agreement that a project or a portion of a project will revert, complete the CCCAS turnaround form and forward it to SCO by July 23. In addition, please submit a properly prepared and agency approved AP document to reduce uncommitted spending authority for the reversion amount. A SAI code of "06", for capital construction reversions, must be used on these documents.

1.6 Continuation of Expiring Capital Construction Appropriations

To request continuation of committed but unexpended spending authority for an expiring project, a CCCAS turnaround form must be completed and forwarded to SCO by July 23. For each AP please attach documentation to show that the spending authority request for the new year is properly encumbered at the end of the current fiscal year. A copy of the final BDA01R report for the applicable appropriation code will provide sufficient documentation of properly encumbered funds. You should retain the last period 12 BDA01R report that shows a complete listing of encumbrances before the NYPO closes the FY03-04 PO's. PO's entered on Friday, July 11, will not be shown on the period 12 BDA01R report. Documentation of the posting of any encumbrance documents on this date must be submitted with the AP document requesting carryforward of expiring funds. Also, Chapter 1, Section 4 contains information on entering new and modifying existing PO's and RQ's. Please notify your field accounting specialist of any contract-in-process amount. You may only carryforward the amount equal to valid PO's/contracts. No additional uncommitted amounts may be carried forward.

All AP documents used to carryforward the project appropriations from FY03-04 to FY04-05 must be completed with a SAI code of "08" for capital construction carryforwards. The FY03-04 appropriation code will be deactivated when the CCCAS turnaround form is received and the FY04-05 AP is processed. For a valid encumbrance to exist, a contract must have an effective date of June 30 or earlier, or a purchase order must be dated June 30 or earlier. FY03-04 purchase orders must be accepted into COFRS by the July 15 nightly cycle deadline to enable the related encumbrance to rollforward into FY04-05 in the NYPO process. The FY03-04 appropriation code must remain active through the NYPO process to liquidate the PO in the old year. Requisitions in process on June 30 or contracts with an effective date subsequent to June 30

are not acceptable support for requesting the continuance of spending authority for capital construction projects. See discussion preceding Section 1.1 if your agency uses EPS.

1.7 Capital Construction Appropriations Continuing into FY04-05

The carryforward process for projects that were available and active all of FY03-04 will be done on a project-by-project basis and must be initiated by the agency. CCCAS turnaround forms for continuing appropriations should be completed and forwarded as soon as FY03-04 project activity ends. Any discrepancies in the expiration date of a capital construction or controlled maintenance project between the CCCAS turnaround report and the departments records must be discussed and resolved with the departments field accounting specialist. DO NOT change the dates on the CCCAS form. Depending on project needs, agencies may determine priority for processing on the CCCAS turnaround form. However, all CCCAS turnaround forms to reestablish continuing spending authority must be received at SCO by August 13 .

The FY03-04 “unexpended” appropriation amount will be the carryforward spending authority in FY04-05. If there is a restricted amount in the FY03-04 appropriation, it must be carried forward as a FY04-05 restriction. Appropriate documentation is required to release any of the restricted portion of the appropriation.

Please submit a properly prepared and agency approved AP document to record spending authority in the new year equal to the amount of unexpended spending authority at the point of request. All AP documents used to carryforward the project appropriations from FY03-04 to FY04-05 must be completed with a SAI code of “08” for capital construction carryforwards. As indicated above, the FY03-04 appropriation code will be deactivated when the CCCAS turnaround form is received and the AP document is processed.

If it is necessary to record expenditures on a project prior to the carryforward of spending authority, an agency may establish the FY04-05 appropriation code and book a \$0 appropriation in the new year. See discussion preceding Section 1.1 if your agency uses EPS.

Prior to closing a project for FY03-04 and requesting continuation of spending authority for FY04-05, if necessary, matching cash and federal revenue should be earned in the correct proportion to capital construction fund appropriation available for total expenditures. For projects funded wholly or in part with cash funds, including insurance recoveries, and accounted for in the capital construction fund (fund 461), excess cash earnings should be carried forward as cash exempt funds. Cash fund balance should be annotated, revenue source code 9523, on the carryforward AP document. The SCO will use the total annotated fund balance amount to reserve fund balance in the capital construction fund for earned but unspent cash funds.

1.8 Capital Construction Appropriations for Americans with Disabilities Act (ADA)

Capital construction appropriations for the implementation of the Americans with Disabilities Act (ADA) were made to the Office of State Planning and Budgeting (OSPB). The intent of the appropriations was to make structural improvements to state facilities to ensure that they are accessible to individuals with disabilities and to bring the state into compliance with the provisions of the Act.

The project appropriations were made directly to OSPB and available to the agencies for which OSPB had made allocations for specific projects. The appropriations are in COFRS agency code ECB, and through COFRS security, agencies with allocations have direct access to their appropriations. In most ways the appropriation is like any other capital construction appropriation, but there are some significant differences. For higher education institutions, your

ADA activity recorded in COFRS code ECB must also be recorded in your institution's fund 371. See Section 1.14 of this chapter for more information. Other differences are discussed below.

Capitalize Assets: At the end of each fiscal year, agencies must capitalize assets for which construction is complete or record construction in progress for the portion of a project that is complete. See Section 1.11 of this chapter for discussion of this process. There is a unique issue with the ADA projects. Although the expenditures are recorded in agency ECB, the assets and construction-in-progress must be capitalized in the specific agency's accounting records where the improvements take place.

Appropriation Carryforward : All budgetary entries will be done by OSPB staff.

Security and Reports: In order for an agency to access an ADA appropriation allocation, special COFRS security actions must take place. If you need security and do not have it, please have your department's COFRS Security Administrator contact Roger Cusworth of SCO at 303-866-3891. Also, please be sure you are scheduled to receive and/or view reports for COFRS agency ECB.

There are special issues related to federal indirect cost recoveries and ADA projects. Please refer to SCO/COFRS Alert #84 issued December 9, 1994 for details.

1.9 Capital Construction Carryforwards for Nonappropriated Projects

All nonappropriated capital construction projects should be accounted for in fund 461. Agencies that need to re-establish spending authority for nonappropriated projects should follow procedures as noted above for timely establishment of spending authority in FY04-05 except that SAI code "08" should not be used. Instead, the indicator should reflect the authority. For example, if federal dollars authority, use "04"; if statutory authority, use "10". CCCAS forms will not be sent to agencies for nonappropriated capital projects.

1.10 Capital Construction Project funded by the Federal Tax Relief Act Funds

The State of Colorado was awarded federal funds with the passage of the Federal Tax Relief Act of 2003. The Governor decided to use part of these federal funds to address capital safety needs that have been unmet due to the budget shortfalls of the past several years. The following parameters apply to capital construction or controlled maintenance projects funded with these federal funds:

- All projects will be recorded on COFRS, and accounted for in the capital construction fund, fund 461.
- Non-appropriated coding for the funding source and long bill line item number will be used for each project. Appropriation codes must begin with an alpha character.
- Custodial spending authority will be granted for each project, spending authority indicator "04" on the AP document.
- A controlled maintenance or capital project number will be assigned to each project, the project number ending with an F to identify the federal funding.
- SC4.1 forms, Construction Project Application, will be required for each project. Spending authority should be restricted on the AP document unless the SC4.1 form is submitted with the AP. A separate AP will be necessary to un-restrict the funds if the SC4.1 is submitted following the AP submission.
- Six-month rule and three year life provision will not apply to these projects as they are non-appropriated.
- The federal funds will be transmitted to your agency or institution via an IT document.

An IT document for your agency or institution should be entered on COFRS using the appropriate federal grant/contract coding. For these controlled maintenance or capital projects, revenue source code 7505, Federal grant/contract-sub-recipient GOV, must be used. Please contact Flo Nath, 303-866-3141, once the IT is on COFRS and she will code the expenditure portion of the entry and approve the document.

For federal funds not fully expended in FY04, the unspent portion of the funds will be returned to the Governor's Office via an IT document. Additional funds to reimburse the expenditures incurred in FY04-05 will be transferred from the Governor's Office via an IT document following the same process outlined above. Spending authority for the unspent portion of the project should be carried forward as custodial funds, spending authority indicator of "04".

1.11 Art in Public Places

Per CRS 24-80.5-101 and 102, a certain percentage of construction costs of capital construction projects is allocated to the Arts in Public Places program administered by the Colorado Council on the Arts. The expenditure of capital construction funds from the project into the art in public places fund must occur within the three year life of the capital construction project. Funds received in the art in public places fund are governed by the applicable statute. The six month rule or three year life requirements of capital construction projects do not apply to these funds as the requirements were met in the individual capital construction project.

1.12 Capital Construction Fund Expenditures

During FY03-04, expenditures for a capital construction project related to the cost of land, materials and labor used in the construction of a building or permanent structure, or purchase of furniture or equipment should be debited to the appropriate expenditure object code. The SCO Alert #106 provides guidance on the appropriate object codes to be used in fund 461 to record capital construction expenditures.

At the end of the fiscal year and prior to period 13 agency close, agencies should review all capital construction projects to identify projects completed and closed during the year. The intent of this review is to ensure that all costs of the closed projects meeting the capitalization criteria are recorded in a fixed asset account. This includes the reclassification of amounts previously recorded in construction in progress and current year expenditures recorded in various object codes. For capital construction projects completed and closed during the fiscal year, a COFRS JV should be prepared prior to period 13 agency close transferring the total cost of the project, including costs previously recorded in the construction in progress account (account 1860) to the appropriate balance sheet account in the Full Accrual Account Group, for governmental funds (fund 471), or the applicable proprietary fund. For capital construction projects not completed by the end of the year, a COFRS JV should be prepared to record expenditures incurred to date meeting the capitalization criteria in account 1860-CONSTRUCTION IN PROGRESS. Appropriate balance sheet accounts in fund 471, or the appropriate proprietary fund include:

1800	LAND
1810	DEPRECIABLE IMPROVEMENTS TO LAND
1815	NON-DEPRECIABLE IMPROVEMENTS TO LAND
1820	BUILDINGS
1830	LEASEHOLD IMPROVEMENTS
1840	FURNITURE AND EQUIPMENT
1860	CONSTRUCTION IN PROGRESS

See Chapter 9, Section 1.6 and 1.7 for information and examples of entries to record capital assets and related depreciation for capital assets built or purchased with capital construction appropriations.

1.13 Retainage for Capital Construction Projects

Before period 13 agency close on July 28 , agencies should verify that the balances of the retainage accounts (Account 2315) related to each project are correct. If the balance is incorrect, but the expenditure for the payments was recorded correctly, it is not necessary to record a reclassification of the retainage as a liability to the contractor or receivable from the contractor.

If the expenditure was incorrectly recorded, determine if the vendor was either incorrectly over or under paid the amount of the contractor's payment application. Another reason for an error may be that the agency incorrectly recorded the release or final payment of retainage as an expenditure or an expenditure as retainage. If these types of errors occurred, one of the following correcting entries and the related adjustment to the contract encumbrance should be made:

Contractor's payment application overpaid:

Dr. Account Receivable - Contractor
Dr. Retainage Payable
Cr. Expenditure

Contractor's payment application underpaid:

Dr. Expenditure
Cr. Accounts Payable - Contractor
Cr. Retainage Payable

Release or final payment of retainage incorrectly recorded as expenditure:

Dr. Retainage Payable
Cr. Expenditure

Expenditure incorrectly recorded as retainage:

Dr. Expenditure
Cr. Retainage Payable

Higher education institutions should follow the guidance provided in Higher Education Accounting Standard # 9, as revised, when recording retainage payable.

1.14 Automated Year End Fund Balance Sweep Entries

COFRS will process automated JA transactions prior to the final close of period 13 in fund 461 to ensure that agency fund balances in the fund equal zero. The amount of the entry will be the difference between revenues and expenditures in this fund. The entry will debit or credit balance sheet account 3400 with the offset to the cash account 1100. An equal and opposite entry will be made to agency 999 in the same fund. It is the intent of this process to prevent operating agencies from rolling forward fund balances at the agency level in fund 461. An agency can roll forward fund balance in fund 461 if there are nonappropriated projects accounted for in the fund. See the discussion in the next paragraph. Also, these entries will help offset the negative cash position in the 1100 accounts caused by cash not being transferred to the appropriate account to support capital construction fund expenditures.

1.15 Relationship Between Fund 461 and 37X Plant Funds in Higher Education

Higher education institutions should review the details of Higher Education Accounting Standard #9, as revised. The following are the most important points to keep in mind during year end closing:

- ♦ All revenues and expenditures recorded in fund 461 under your agency code and also for ADA activity recorded in fund 461 in agency ECB are duplicated in your higher education unexpended plant funds on COFRS.
- ♦ The amount of revenue recorded in fund 371, or other appropriate plant fund, using revenue source code EBGD, Operating XFERS DOHE/CAPITAL CONSTRUCTION, should be equal to the total expenditures less earned revenues recorded in fund 461 including ADA activity recorded in agency ECB. SCO relies on the revenues recorded under revenue source code EBGD in the 37X funds to be the basis for the reclassification of 461 fund expenditures including ADA activity in agency ECB as capital contributions on the statewide financial statements.
- ♦ Cash revenues are earned in a higher education fund and also recorded in fund 461 in an amount equal to or less than total project expenditures. SCO will eliminate fund 461 revenues and expenditures in the statewide financial statements to the extent cash revenues have been accrued in fund 461 for your agency. Until cash is actually transferred to fund 461, interfund receivable and payable accounts may be needed to balance the revenue and expenditure entries in each fund. Use balance sheet accounts 1371-INTERFUND REC-SAME AGENCY and 2361-INTERFUND PAY-SAME AGENCY. All cash should be transferred to fund 461 within forty-five days of establishing the interfund receivable.
- ♦ Since the booking of the FY04-05 capital construction appropriations into each agency's fund 461 in FY03-04 per Section 1.1 above is a budget entry only, it will have no effect on the relationship between fund 461 and the discreet higher education plant funds.

1.16 Emergency Maintenance Projects

Department of Personnel & Administration (DPA) will notify agencies/institutions annually of emergency maintenance projects appropriated to DPA for the agency/institution that have been completed and for which the total project expenditures were \$50,000 or more. The agency/institution should capitalize the cost of these projects on its books so that indirect cost may be recovered. Emergency maintenance projects with expenditures totaling less than \$50,000 will be expensed in the Statewide Cost Allocation Plan for purposes of indirect cost recovery.

1.17 Instructions for Capital Construction Continuing Appropriation Status Turnaround Forms (CCCAS Forms)

Please review the project information included on this form. If you find errors, mark a line through the incorrect data and write in the correct data. Please verify that the project expiration date agrees with the agencies internal records. Communicate any discrepancy to your department field accounting specialist. DO NOT change the turnaround form. It is the agency's responsibility to provide information on the form as explained below.

FY03-04 AP #: Enter the AP# in this field only for a transaction to revert the appropriation. Prepare an AP transaction to reduce the appropriation spending authority detailed by source (general, general exempt, cash, cash exempt, or federal) to 0. Decrease revenue source codes if previously used. Use a spending authority indicator of "06." Attach a copy or screen print of the APPI, AFISI, AFICI, AFSC tables related to the project.

FY04-05 AP #: Enter the AP# in this field only for a transaction to carryforward the appropriation. Prepare an AP transaction to carryforward the unexpended balance of spending authority detailed by source (general, general exempt, cash, cash exempt, or federal). Be sure to round up the amount to the next dollar. Use a spending authority indicator of “08.” Attach a copy or screen print of both the APPI and AFSI tables related to this project.

Prepared by/Phone Number: Enter the name and phone number of the person who prepares the form.

Date Report Submitted: Enter the date the form is submitted. You may submit this form more than once as you have information completed for groups of projects. For subsequent submissions, enter the notation “2nd” or “3rd” as appropriate, along with the new date.

Turnaround forms may be returned electronically, faxed, or mailed to your field accounting specialist. AP documents must be faxed or mailed.

CHAPTER 5: SECTION 1

DIAGNOSTIC REPORTS

This Section provides information on various diagnostic reports prepared by the State Controller's Office. These reports are prepared on a monthly basis and are available on INFOPAC and DocumentDirect. They are used in the quarterly reporting process and for assuring that agencies have completed critical year end closing processes. The reports are presented in the following subsections in report number order. The report title is the way it appears on the INFOPAC and Document Direct indices.

1.1 DOAC Abnormal Balances Report DOACABN1

Purpose of Report: This report lists items that appear to be misclassified on COFRS based on the account balance, type of account and fund in which they are recorded. Agency personnel are to review the balances listed and determine if corrections are required. This report provides information only when the total posted to an account results in an abnormal balance.

Sample report format:

REPORT ID: DOACABN1 (STATE CONTROLLER'S OFFICE FOCXEC: DOACABN1.FEX)						
AGENCY: (A)						
ABNORMAL BALANCES REPORT						
FISCAL YEAR (B) PERIOD (C)						
BASED ON DATA FROM COFRS RUN DATE (D) AND PRINTED ON (E)						
(F)						
FOR AGENCY: (G)						
(H)	(I)	(J)	(K)	(L)	(M)	(N)
AGENCY	FUND	TYPE OF ABNORMALITY	TYPE	ACCOUNT #	ACCOUNT NAME	AMOUNT
---	---	---	---	---	---	---
ZZZ	123	ACCOUNT INCOMPATIBLE W/ FUND	22	2110	WATER AND SEWERAGE SERVICES	397.51

NOTE: ACCOUNT TYPE 23 BALANCES ARE SHOWN AS TYPE 01 ON THIS REPORT						
NOTE2: CERTAIN BALANCES ON THIS REPORT MAY BE INDICATIONS OF POTENTIAL						
PROBLEMS UNDER GASB 34/35. SEE CHAPTER 9 IN THE FISCAL						
PROCEDURES MANUAL FOR RELATED DEADLINES						

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the three character COFRS agency code.
B	FISCAL YEAR: Indicates the fiscal year for which the report is run.
C	PERIOD: Lists the accounting period for which the report is run.
D	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
E	PRINTED ON: Shows the date the report was printed and made available.
F	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
G	FOR AGENCY: This will contain the name of the agency as shown on the COFRS AGCY table.
H	AGENCY: This column contains the three character agency identification.

Item	Description
I	FUND: This column lists the COFRS fund related to the balance being reported.
J	TYPE OF ABNORMALITY: This column lists an error message describing why the balance is being reported.
K	TYPE: This column shows the COFRS account type for the item being reported.
L	ACCOUNT #: This column lists the COFRS account number being reported.
M	ACCOUNT NAME: This column shows the description for the COFRS account code listed in the previous column.
N	AMOUNT: This column lists the amount being reported as a possible abnormal balance.

Report sort:

- Agency
- Fund
- Type
- Account #

How to read the report:

All items listed on the report are potential problems. Items listed on the report should be researched and needed corrections made. The agency controller should be ready to fully explain any balances remaining at the end of the fiscal year.

1.2 DOAC Department Level Annotations Report For Approp. Fsc DOACANN1

Purpose of Report: This report is to assist agencies in complying with the annotations attached to various appropriations in the Long Bill.

Sample report format:

REPORT ID: DOACANN1 (STATE CONTROLLER'S OFFICE FOCEXEC: RP_OEXR.FEX)						
AGENCY: (A)						
DEPARTMENT LEVEL ANNOTATIONS REPORT FOR APPROPRIATED FUNDING SOURCE CODES						
FISCAL YEAR (B) PERIOD (C)						
BASED ON DATA FROM COFRS RUN DATE (D) AND PRINTED ON (E)						
(F)						
FOR DEPARTMENT: (G)						
(H) SOURCE	(I) RSRC	(J) ACCOUNT NAME	(K) SPENDING AUTHORITY	(L) REVENUE OR FUND BALANCE AUTHORITY	(M) VARIANCE	(N) SPENDABLE AMOUNT/ (EXPENSES)

*** (O)						
FUNDING SOURCE CODE: (P) FUNDING SOURCE CODE DESCRIPTION: (Q)						
CASH	4400	SVC CHARGES FM OTHERS NONEXMPT	10,000	15,000	5,000	10,000
CASH EXEMPT	EZAA	IC EX GSS INTERNAL	2,000,000	600,000	(1,400,000)	600,000
FEDERAL			100,000	55,000	(45,000)	55,000
GENERAL FUND			75,000	0	0	75,000
EXPENDITURES			0	0	0	(744,000)
TOTAL FUNDING SOURCE CODE: (P)			2,185,000	670,000		(4,000)

Negative number
Indicates potential
Problem.

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the first character (agency category code) of the three character COFRS agency code.
B	FISCAL YEAR: Indicates the fiscal year for which the report is run.
C	PERIOD: Lists the accounting period for which the report is run.
D	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
E	PRINTED ON: Shows the date the report was printed and made available.
F	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
G	FOR DEPARTMENT: This will contain the name of the agency category as shown on the COFRS AGCY table.
H	SOURCE: This column indicates whether the amounts reported on each line represents revenues or expenditures. Revenues are identified by Long Bill column. The options for revenues are: CASH CASH EXEMPT FEDERAL GENERAL FUND
I	RSRC: This column lists the COFRS revenue source code in which the revenue is annotated and/or earned.
J	ACCOUNT NAME: This column contains the COFRS description of the revenue source code listed in Column I.
K	SPENDING AUTHORITY: This column shows the spending authority booked to each revenue source code in column I.
L	REVENUE OR FUND BALANCE AUTHORITY: This column reports the amount of earned

Item	Description
	revenue for each revenue source code listed. If the annotations include fund balance spending authority the total amount annotated in revenue source code 9523 is reported as earned revenue.
M	VARIANCE: This column reports the variance between the spending authority in column K and the actual revenue earned in column L.
N	SPENDABLE AMOUNT: For each revenue line this column reports the amount of revenue available for expenditure. The amount of revenue available is the lesser of the spending authority in column K or the revenue in column L. For general fund amounts the amount of spending authority is reported as the spendable amount. For the expenditure line this column reports the total expenditures booked to the funding source code. For the total funding source code line this column reports the difference between the revenue available for expenditure and the expenditures.
O	This area displays the COFRS Long Bill Group description from the LBGR table. Each Long Bill Group is a section in the report.
P	FUNDING SOURCE CODE: The three character COFRS funding source code is displayed.
Q	FUNDING SOURCE CODE DESCRIPTION: The description of the three character COFRS funding source code from the FSCT table.

Report sort: Agency (Based on the Agency Category)
 Long Bill Group
 Funding Source Code
 Source
 Revenue Source Code

Calculated amounts: $\text{Variance} = \text{Spending Authority} - \text{Revenue or Fund Balance Authority}$

$\text{Spendable Amount} = \text{Spending Authority or Revenue and/or fund Balance Authority whichever is less.}$

Break total: Funding Source Code

How to read Potential problems are indicated in the report whenever the total by Funding Source Code in the Spendable Amount/(Expenses) Column is negative. The problem is either a possible overexpenditure or an annotation variance. An annotation variance occurs when earned revenues in excess of the amounts annotated are needed to cover expenditures and the total expenditures do not exceed the amount appropriated.

**1.3 DOAC Agency Level Annotations Report For Approp. Fsc
DOACANN2**

Purpose of Report: This report is to assist agencies in complying with the annotations attached to various appropriations in the Long Bill. This report is identical to DOACANN1 except that it is displayed at the individual agency versus department wide level. The primary sort is by the three character COFRS agency code. This report needs to be assessed in combination with the DOACANN1 to determine if a particular variance represents a compliance issue.

1.4 DOAC Capital Capital Construction Expenditures Compared to Budget DOACCCM1

Purpose of Report: This report is used to identify shortfalls in earning revenue on capital construction projects with multiple revenue sources.

Sample report format:

REPORT ID: DOACCCM1 (STATE CONTROLLERS OFFICE FOCEXEC: RP_MIX.FEX)						
AGCL: (A)						
CAPITAL CONSTRUCTION EXPENDITURES SPENT COMPARED TO BUDGET						
BASED ON DATA FROM COFRS RUN DATE (B) AND PRINTED ON (C)						
(D)						
(E)	(F)	(H)	(I)	(J)	(K)	(L)
FSC	FSC_NAME	GCF	BUDGET	EXPENSE	BUDGET	EXPENSE
---	-----	---	-----	-----	PERCENT	PERCENT
NON APPROPRIATED FUNDS (G)						
001	NON APPROPRIATED	W	203,064	125,000	61.9	100.0
		X	125,000	0	38.1	.0
CONTROLLED MAINTENANCE (G)						
PEB	M403 FIRE PROTECTION SYS	X	28,293	1,035	100.0	100.0
TAG	M603 R/R FLOORING BVCF P1	X	1,417	0	100.0	.0
TEA	M701 FIRE PROTECT SYS ACF	X	10,554	0	100.0	.0
TEE	M702 PRKG LOTS CTCF&WOMEN	X	656,281	242,534	100.0	100.0
TIA	M80016 R/R SEC COMPONENT	X	284,715	2,333	100.0	100.0
CAPITAL CONSTRUCTION PROJECTS (G)						
PLE	P9568 TRINIDAD	W	917,000	717,600	9.5	22.9
		X	8,734,861	2,413,494	90.5	77.1
PLO	P9573 FREMONT BEDS	X	794,616	32,402	100.0	100.0
VAI	P0108 FORT LYON ACQ/RENOV	F	5,880,400	0	47.8	.0
		W	6,413,441	979,050	52.2	100.0

Expense percent greater than the budget percent for the capital construction fund exempt funding (X) indicates a potential revenue problem.

The following table describes the information provided on the report:

Item	Description
A	AGCL: Displays the two character COFRS agency class code from the AGCY table.
B	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
C	PRINTED ON: Shows the date the report was printed and made available.
D	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
E	FSC: This column displays the funding source code of the capital construction project.
F	FSC NAME: This column displays the description of the funding source code displayed in the previous column.
G	This line displays, as a section heading, the description of the COFRS long bill group. The various funding source codes are reported within Long Bill Group.
H	GCF: This column indicates the type of revenue funding the project. Valid values are: W = Cash funds exempt C = Cash funds non exempt F = Federal funds X = Capital construction funds exempt
I	BUDGET: The current fiscal year appropriation for each project is shown by type of revenue.
J	EXPENSES: This column shows the total fiscal year expenses for the project allocated to each type of revenue. The expenses are allocated to federal, cash exempt and cash sources based the amount of revenue earned in each source. The remaining expenses are allocated to the capital construction fund exempt funding source.

Item	Description
K	BUDGET PERCENT: This column shows budget by type of revenue as a percent.
L	EXPENSE PERCENT: This column shows the fiscal year expense allocation by type of revenue as a percent.

Report sort: Agency Class
 Long Bill Group
 Funding Source Code
 Type of Revenue

Calculated amounts: Expenses = allocated expenses based on the amount of revenue earned in each revenue type within each funding source code.

Budget Percent = Budget in column I expressed as a percent of total budget for the funding source code.

Expense Percent = Expenses in column J expressed as a percent of the total expense for the funding source code.

How to read the report: A potential problem with earning revenue on a project is indicated when the expense percent is greater than the budget percent for a capital construction fund exempt line. This indicates that expenses may be disproportionately funded by the capital construction fund. The project records should be analyzed for unearned revenues or reasons for not billing and collecting revenues in the same proportion as the budget.

1.5 DOAC Cap Proj Expend Compared To Transfers To/Fr Plant Funds DOACCPE1

Purpose of Report: This report is used by higher education institutions to determine if appropriated capital construction expenditures and revenues are in balance between the state capital construction fund (461) and the institution's plant funds on COFRS.

Sample report format:

REPORT ID: DOACCPE1 (STATE CONTROLLER'S OFFICE FOCEXEC: DOACCPE1.FEX)						
AGENCY: (A)

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the two character COFRS agency class code from the AGCY table. This represents an individual higher education board.
B	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
C	PRINTED ON: Shows the date the report was printed and made available.
D	FISCAL YEAR: Indicates the fiscal year for which the report is run.
E	PERIOD: Lists the accounting period for which the report is run.
F	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
G	BOARD: This column displays the COFRS agency class that identifies the higher education board.
H	AGENCY: This column displays the COFRS agency code for the individual higher education institution.

Item	Description
I	AGENCY NAME: This column displays the agency name for the higher education institution.
J	FUND: This column shows the COFRS fund number. On this report only two funds are reported, the 371 and 461.
K	TYPE: This column indicated the COFRS account type being reported. Revenue is an account type 31 and expenses are account type 22.
L	ACCT: This column displays the COFRS account number being reported.
M	ACCOUNT NAME: This column displays the COFRS account name associated with the COFRS account number.
N	ACCOUNT BALANCE: This column shows the balance of the reported COFRS account numbers.

Report sort: Agency Class (Higher Education Board)
 Agency (Higher Education Institution)
 Fund
 Account type
 Account

Break total: Agency (Higher Education Institution)
 Agency Class (Higher Education Board)

Report Selection: Revenue source code EBGD for higher education in fund 371 and 333.

 Expenses and revenues for higher education in fund 461.

How to read
the report: This report compares the amount of revenue recorded in fund 371
 by higher education institutions from capital construction fund transfers,
 revenue source code EBGD, to expenses net of augmenting revenues
 recorded in the 461 fund. The report, unless controlled maintenance trust
 fund transfers are involved, should zero at both the institution and board
 levels. If controlled maintenance trust fund transfers are involved the
 balance at both the institution and board levels should equal the amount
 posted to transfer revenue source code ERWB in fund 461. Other
 exceptions to balancing may exist and should be discussed with your
 field accounting specialist in the SCO.

1.6 DOAC Matching Object Codes Between Gov Funds And GFAAG DOACGFA1

Purpose of Report: This report provides information to assist in reconciling the expenses recorded in governmental funds that should be reconciled for financial statement purposes with the amount actually capitalized in fund 471.

Sample report format:

REPORT ID: DOACGFA1 (STATE CONTROLLER'S OFFICE FOCXEC: DOACGFA1.FEX)						
AGENCY: (A)						
REPORT OF MATCHING OBJECT CODES BETWEEN GOVERNMENTAL FUNDS AND GFAAG						
FISCAL YEAR (B) PERIOD (C)

			471	.00	(46,000.00)	(46,000.00)
		XXY	461	22,000.00	.00	22,000.00
TOTAL ACCOUNT 6210				48,000.00	(46,000.00)	2,000.00
6280	OTHER CAP EQUIPMENT-DIR PURCH	XXX	100	74,000.00	.00	74,000.00
			471	.00	(1,185,000.00)	(1,185,000.00)
6280	OTHER CAP EQUIPMENT-DIR PURCH	XXY	222	11,000.00	.00	11,000.00
			461	1,100,000.00	.00	1,100,000.00
TOTAL ACCOUNT 6280				1,185,000.00	(1,185,000.00)	0.00
TOTAL DEPARTMENT X				7,506,000.00	(1,511,000.00)	5,995,000.00

The totals for each object code and for the department should be zero. Non-zero totals indicate that an entry must be prepared to capitalize the amount or that the amount should be transferred to another object code. In this example only object code 6280 is ok.

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the first character (agency category code) of the three character COFRS agency code.
B	FISCAL YEAR: Indicates the fiscal year for which the report is run.
C	PERIOD: Lists the accounting period for which the report is run.
D	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
E	PRINTED ON: Shows the date the report was printed and made available.
F	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
G	ACCT: This column displays the COFRS account number being reported.
H	ACCOUNT NAME: This column displays the name of the COFRS account number.
I	AGY: Displays the three character COFRS agency code from the AGCY table. This represents the agency being reported.

Item	Description
J	FUND: This column shows the COFRS fund number.
K	GOVERNMENTAL FUND: This column shows the amount for agency fund combination within a reported object code.
L	FUND 471 GFAAG: This column shows the amount capitalized for financial reporting purposes for each object code being reported.
M	TOTAL: This column shows the total of the GOVERNMENTAL FUND column and the FUND 471 GFAAG column.
N	TOTAL ACCOUNT: This line provides a total of each column the object code being reported. It will only appear on the report if the object code has multiple agency/fund combinations being reported.

Report sort: Agency Category
 Object Code
 Agency Code
 Fund

Report selection: Object codes in governmental funds identified as representing capitalizable expenses for financial statement reporting purposes.

How to read
the report: The report should show a zero balance in the TOTAL column for each object code reported. The line for the department also needs to zero. Amounts in these object codes that should not be capitalized for financial statement purposes should be transferred to a non-capitalizable object code (3128 or 3131).

1.7 DOAC Budget To Actual By Dept, Agy, And Long Bill Line Item DOACOEL1

Purpose of Report: This report shows appropriated Long Bill line items that have expenditures exceeding the spending authority.

Sample report format:

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the single character COFRS agency category code from the AGCY table. This represents the department being reported.
B	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
C	PRINTED ON: Shows the date the report was printed and made available.
D	FISCAL YEAR: Indicates the fiscal year for which the report is run.
E	PERIOD: Lists the accounting period for which the report is run.
F	FOR : This will contain the agency name as shown on the COFRS AGCY table.
G	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
H	LBLI: This column shows the COFRS Long Bill line reference number.
I	LONG BILL LINE ITEM: This column provides the Long Bill line item description per the LBLR table.
J	LEGISLATIVE APPROPRIATION: This is the appropriation from the Long Bill plus special and supplemental bills.
K	STATUTORY OR CUSTODIAL APPROPRIATION: This is the amount resulting from statutory or custodial spending authority.
L	RESTRICTED APPROPRIATION: Any amounts restricted on appropriations are reported in this column.
M	FINAL SPENDING AUTHORITY: This a calculated total from columns J + K - L
N	EXPENDITURES: This column reports all expenditures made against the reported Long Bill line.
O	(OVER) UNDER EXPENDED: This is a calculated total from columns M – N
P	This line displays the COFRS Long Bill group description from the LBGR table. The report is split into sections by the Long Bill group.

Report Sort:	Agency Category Long Bill Group Long Bill Line
Report selection:	The report selects only Long Bill lines that have expenditures greater than the final spending authority.
How to read the report:	All items on the report indicate a potential statutory overexpenditure that must be addressed by the department. See Chapter 3, Section 1 for more detail on appropriation transfers and overexpenditures.

1.8 DOAC Budget To Actual By Long Bill Grp/Fund Source Cd Dept DOACOEX1

Purpose of Report: This report shows expenditures and earned revenues by type of revenue at the funding source code and Long Bill group code levels. It is used to identify potential overexpenditures caused by expenditures exceeding spending authority and/or earned revenues.

Sample report format:

REPORT ID: DOACOEX1 (STATE CONTROLLERS OFFICE FOCEXEC: RP_OEXF1.PEX)

			17,039,147	13,527,119	3,512,028	7,414,571
						166,794

A negative amount for the TOTAL GROUP line may indicate an overexpenditure problem.

Expenses allocated to GEN EX (general fund exempt) without spending authority indicates a possible overexpenditure.

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the single character COFRS agency category code from the AGCY table. This represents the department being reported.
B	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
C	PRINTED ON: Shows the date the report was printed and made available.
D	FOR: This will contain the agency name as shown on the COFRS AGCY table.
E	FISCAL YEAR: Indicates the fiscal year for which the report is run.
F	PERIOD: Lists the accounting period for which the report is run.
G	This section of the report will display one of the following messages depending on when the report is run: “CALENDAR MONTH END BALANCES”, “PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)”, “PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)”, or “PERIOD X CLOSING BALANCES” where X = the period number.
H	FSC: This column displays the funding source code.
I	FSC NAME: This column displays the description of the funding source displayed in the previous column.
J	Source: This column indicates the type of revenue funding the project. Valid values are: CASH EX = Cash funds exempt CASH = Cash funds non exempt FEDERAL = Federal funds GENERAL = General funds GEN EX = General funds exempt
K	FINAL SPENDING AUTHORITY: Total spending authority by type of revenue as of the end of the period being reported.
L	EXPENDITURES: Total expenditures posted to the funding source code allocated to the type of revenue. See Chapter 3, Section 1.5 for allocation methodology.
M	(OVER)/UNDER EXPENDED: The difference between the final spending authority and expenditures (columns K-L).
N	ACCRUED REVENUE/FUND BALANCE AUTHORITY: The amount of revenue earned to a funding source code by type of revenue.
O	ACCRUED REVENUE OVER/(UNDER) EXPENDITURES: Accrued revenue/fund balance spending authority less expenditures. (Column N – L)
P	This line displays the Long Bill group description from the LBGR table.
Q	TOTAL GROUP: Displays the three character COFRS Long Bill group code.

Report sort: Agency Category
 Long Bill Group
 Funding Source Code
 Type of Revenue

Break total: Long Bill Group
 Agency Category

How to read the report: This report can point out a number of potential problems. If the total at the funding source code or Long Bill group in the (OVER)/UNDER EXPENDED column is negative an overexpenditure exists at one or more Long Bill lines within the funding source code. If expenditures are allocated to the GEN EX revenue type with no spending authority it indicates that an overexpenditure has occurred. If the total in the ACCRUED REVENUE OVER/(UNDER) EXPENDITURES at the funding source code level or the Long Bill group level is negative, it indicates a possible overexpenditure due to an underearning of revenue.

**1.9 DOAC Budget To Actual By Long Bill Grp/Fund Source Cd Class
DOACOEX2**

This report is identical to DOACEX1 except that it is sorted at a lower level, COFRS agency class code, so that all data is sorted, displayed, and totaled based on the first two characters of the COFRS agency code.

**1.10 DOAC Budget To Actual By Long Bill Grp/Fund Source Cd Agency
DOACOEX3**

This report is identical to DOACEX1 except that it is sorted at a lower level, COFRS agency code, so that all data is sorted, displayed, and totaled based on the three character COFRS agency code.

1.11 DOAC Unchanged Account Balances DOACUCH1

Purpose of Report: This report provides information on account balances that have not changed between the previous and current fiscal year. This may indicate an update to a year end accrual balance is required or that activity to clear a balance in the current year was not made or made incorrectly.

Sample report format:

REPORT ID: DOACUCH1 (STATE CONTROLLER'S OFFICE FOCEXEC: DOACUCH1.FEX)						
AGENCY: (A)

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the three character COFRS agency code from the AGCY table. This represents the agency being reported.
B	Lists the previous fiscal year being report in the format YYYY
C	Lists the current fiscal year in the format YYYY
D	PERIOD: Shows the period of the current fiscal year for which balances are being reported.
E	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
F	PRINTED ON: Shows the date the report was printed and made available.
G	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
H	AGENCY: Displays name of the agency associated with the three character COFRS agency code listed in (A).
I	FUND: This column displays the three character COFRS fund code.
J	TYPE: This column displays the COFRS account type.
K	ACCOUNT #: This column displays the COFRS account number.
L	ACCOUNT NAME: This column displays the name of the COFRS account number.
M	FYAA BALANCE: This column provides the balance for the COFRS agency, fund, account type, account number as of June 30 th of the preceding fiscal year (where AA = fiscal year).
N	FYBB BALANCE: This column provides the balance for the COFRS agency, fund, account type, account number as of the accounting period being reported for the current fiscal year (where BB = fiscal year).

Report Sort:

Agency Code
Fund
Account Type
Account #

How to read
the report:

This report lists COFRS account balances that have not changed between the previous and current fiscal year. Each balance should be researched to determine if the current year balance is correct.

Revenues and expenditures are included in this report so that agencies can determine if an error has occurred such as booking routine accrual entries.

1.12 DOAC Transfer Balances (Interfund Transfers-Section 1) DOACXFR1

Purpose of Report: The purpose of this report is to match revenue transfer codes to the corresponding expense transfer codes and to show where out-of-balance conditions exist. The report is split into four sections, two sections for interfund transfers and two sections for intrafund transfers. This part of the Fiscal Procedures Manual (FPM) is for **section 1 of the interfund transfers** and shows all interfund transfers except for higher education transfer codes EQGB and EBGD.

Sample report format:

REPORT ID: DOACXFR1 (STATE CONTROLLER'S OFFICE - FOCEXEC DOACXFR1.FEX)

SECTION 1 TOTAL FOR DEPARTMENT A							(1,000.00)			

Report should be 0 on lines beginning "TRANSFER ACCOUNT MATCH..."

Non-zero "TRANSFER ACCOUNT MATCH" lines are a problem.

Non-zero department totals are a problem.

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the single character COFRS agency category code from the AGCY table. This represents the department being reported.
B	FISCAL YEAR: Shows the fiscal year for which balances are reported.
C	PERIOD: Shows the accounting period for which balances are reported.
D	RUN DATE: The report includes COFRS data through this date for the accounting period being reported.
E	PRINTED ON: Shows the date the report was printed and made available.
F	This section of the report will display one of the following messages depending on when the report is run: "CALENDAR MONTH END BALANCES", "PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)", "PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)", or "PERIOD X CLOSING BALANCES" where X = the period number.
G	INTERFUND BALANCES FOR: Displays the description associated with the single character COFRS agency category code listed in (A).
H	FUND CATEGORY: This list the fund category description from the FCAT table.
I	AGCY: this column displays the three character COFRS agency code.

Item	Description
J	AGENCY NAME: This column displays the agency name of the three character agency code.
K	FUND: This column displays the three character COFRS fund code.
L	TYPE: This column displays the COFRS account type.
M	ACCT: This column displays the COFRS transfer account number being reported.
N	ACCOUNT NAME: This column displays the account name associated with the COFRS transfer account number being reported.
O	AMOUNT: This column displays the total for each agency, fund, account type, account number combination being reported.
P	This line displays the section heading of the report.

Report Sort: Agency Category
 Fund Category
 Fund
 Account Type

Selection Criteria: Interfund transfer account codes, except for EQGB and EBGD,
 identified as being to or from the Agency being reported.

Grouping: Amounts are grouped on the report by the first, second and fourth
 characters of the account number.

Break totals: The first, second, and fourth characters of the account number.
 Agency category (department total)

How to read the report: This report is sorted and grouped such that all expense transfer
 account numbers are reported with the corresponding revenue
 transfer account numbers. This is possible because the numbers are
 defined with a one-to-one match between three of the four characters
 of both the revenue and expense transfer account numbers. This
 match is based on the first two characters plus the fourth character of
 the account number. The report is grouped for each department
 based on this combination from the account number. Transfers are
 in balance if the total for each three character combination is zero.

A problem exists if the total line beginning "TRANSFER
ACCOUNT MATCH TOTAL WITH OTHER DEPARTMENT..."
is not zero.

1.13 DOAC Transfer Balances (Interfund Transfers-Section 2) DOACXFR1

Purpose of Report:

The purpose of this report is to match revenue transfer codes to the corresponding expense transfer codes and to show where out-of-balance conditions exist. The report is split into four sections, two sections for interfund transfers and two sections for intrafund transfers. This part of the Fiscal Procedures Manual is for **section 2 of the interfund transfers**. This section applies only to higher education institutions and shows transfers using EQGB as either the object code or revenue source code.

Sample report format:

REPORT ID: DOACXFR1 (STATE CONTROLLER'S OFFICE - FOCEXEC DOACXFR1.FEX)

H	BD: This column displays the two character agency category identifying the higher education board.
I	FUND CATEGORY: This list the fund category description from the FCAT table.
J	AGCY: This column displays the three character COFRS agency code.
K	AGENCY NAME: This column displays the agency name of the three character agency code.
L	FUND: This column displays the three character COFRS fund code.
M	TYPE: This column displays the COFRS account type.
N	ACCT: This column displays the COFRS transfer account number being reported.
O	ACCOUNT NAME: This column displays the account name associated with the COFRS transfer account number being reported.
P	AMOUNT: This column displays the total for each agency, fund, account type, account number combination being reported.
Q	This line displays the section heading of the report.

Report Sort: Agency Class (Higher Education Board)
 Fund Category
 Fund
 Account Type

Selection Criteria: Agency Category = G
 Transfer Account Number = EQGB

Grouping: Agency Class (Higher Education Board)

Break totals: Agency Class (Higher Education Board)
 Agency Category (department total)

How to read the report: This report matches by higher education board the balances in transfer code EQGB (object code or revenue source code). Code EQGB is used to book the transfer of state appropriation from fund 100 to the higher education discrete fund 310. Transfers are in balance if the total is zero at the higher education board level.

A problem exists if the total line beginning “TRANSFER ACCOUNT MATCH TOTAL FOR BOARD...” is not zero.

1.14 DOAC Transfer Balances (Intrafund Transfers Section 1) DOACXFR1

Purpose of Report: The purpose of this report is to match revenue transfer codes to the corresponding expense transfer codes and to show where out-of-balance conditions exist. The report is split into four sections, two sections for interfund transfers and two sections for intrafund transfers. This part of the Fiscal Procedures Manual is for **section 1 of the intrafund transfers** and shows the balance of intrafund transfers except those that are internal to or between institutions of higher education.

Sample report format:

REPORT ID: DOACXFR1 (STATE CONTROLLER'S OFFICE - FOCXEC DOACXFR1.FEX)

 Fund Category
 Agency Category (department total)

How to read the report: This report is sorted and grouped such that all expense transfer account numbers are reported with the corresponding revenue transfer account numbers. This is possible because the numbers are defined with a one to one match between three of the four characters of both the revenue and expense transfer account numbers. This match is based on the first two characters plus the fourth character of the account number. The report is grouped for each department base on this combination from the account number. Transfers are in balance if the total for each three character combination is zero at the fund category level.

A problem exists if the total line beginning "TRANSFER ACCOUNT MATCH TOTAL WITH OTHER DEPARTMENT..." is not zero.

1.15 DOAC Transfer Balances (Intrafund Transfers Section 2) DOACXFR1

Purpose of Report: The purpose of this report is to match revenue transfer codes to the corresponding expense transfer codes and to show where out-of-balance conditions exist. The report is split into four sections, two sections for interfund transfers and two sections for intrafund transfers. This part of the Fiscal Procedures Manual is for **section 2 of the intrafund transfers** and shows the balance of intrafund transfers that are internal or between institutions of higher education.

Sample report format:

REPORT ID: DOACXFR1 (STATE CONTROLLER'S OFFICE - FOCEXEC DOACXFR1.FEX)							
AGENCY: (A)							
TRANSFER BALANCES - FISCAL YEAR (B) - PERIOD (C)							
BASED ON DATA FROM COFRS RUN DATE (D) AND PRINTED ON (E)							
(F)							
INTRAFUND BALANCES FOR: (G)

TRANSFER ACCOUNT MATCH TOTAL WITHIN BOARD GG							0.00
TRANSFER ACCOUNT MATCH TOTAL WITH OTHER DEPARTMENT FOR FUND CATEGORY E1							0.00
HIGHER EDUCATION FUNDS	GJD	COMMUNITY COLLEGE OF D	310	22	ABGF	OT EX AHEC CONSTIT LONG BILL	1,832,607.75
TOTAL FOR AGENCY GJD							1,832,607.75
TRANSFER ACCOUNT MATCH TOTAL WITHIN BOARD GJ							1,832,607.75
HIGHER EDUCATION FUNDS	GMA	AURARIA HIGHER EDUCATI	310	31	ABGF	OT EX AHEC CONSTIT LONG BILL	(1,832,607.75)
TOTAL FOR AGENCY GMA							(1,832,607.75)
TRANSFER ACCOUNT MATCH TOTAL WITHIN BOARD GM							(1,832,607.75)
TRANSFER ACCOUNT MATCH TOTAL WITH OTHER DEPARTMENT FOR FUND CATEGORY E1							0.00
SECTION 2 TOTAL FOR DEPARTMENT G							0.00

Transfer, other than with AHEC, must zero at both the board and fund category levels.

Transfers between AHEC and institutions must zero at fund category level.

Department total

The following table describes the information provided on the report:

Item	Description
A	AGENCY: Displays the single character COFRS agency category code from the AGCY table. This represents the department being reported.
B	FISCAL YEAR: Shows the fiscal year for which balances are reported.
C	PERIOD: Shows the accounting period for which balances are reported.
D	RUN DATE: The report includes COFRS data through this date for the accounting period being

Item	Description
	reported.
E	PRINTED ON: Shows the date the report was printed and made available.
F	This section of the report will display one of the following messages depending on when the report is run: “CALENDAR MONTH END BALANCES”, “PRECLOSING BALANCES (SECOND THURSDAY PRIOR TO CLOSE)”, “PRECLOSING BALANCES (MONDAY PRIOR TO CLOSE)”, or “PERIOD X CLOSING BALANCES” where X = the period number.
G	INTERFUND BALANCES FOR: Displays name of the agency associated with the single character COFRS agency category code listed in (A).
H	FUND CATEGORY: This list the fund category description from the FCAT table.
I	AGCY: This column displays the three character COFRS agency code.
J	AGENCY NAME: This column displays the agency name of the three character agency code.
K	FUND: This column displays the three character COFRS fund code.
L	TYPE: This column displays the COFRS account type.
M	ACCT: This column displays the COFRS transfer account number being reported.
N	ACCOUNT NAME: This column displays the account name associated with the COFRS transfer account number being reported.
O	AMOUNT: This column displays the total for each agency, fund, account type, account number combination being reported.
P	This line displays the section heading of the report.

Report Sort: Agency Class
 Fund Category
 Fund
 Account Type

Selection Criteria: Intrafund transfer codes defined as being within or between institutions of higher education.

Grouping: Amounts are grouped on the report by the first, second and fourth characters of the account number.

Break totals: Agency class (higher education board)
 Fund Category
 Agency category (department total)

How to read the report: This report is sorted and grouped such that all expense transfer account numbers are reported with the corresponding revenue transfer account numbers. This is possible because the numbers are defined with a one to one match between three of the four characters of both the revenue and expense transfer account numbers. This match is based on the first two characters plus the fourth character of the account number. The report is grouped for each department base on this combination from the account number. Except for transfers between institutions and the Auraria Higher Education Center (AHEC), the report should zero at the board level. For transfers between AHEC and institutions the transfers must zero at the fund category level within transfer account codes ABGF and ABGH.

CHAPTER 5: SECTION 2

PROCEDURES FOR PREPARING ANNUAL EMPLOYEE TRAVEL EXPENSE REPORT

KEY DATES

After Period 13	Agencies may submit Travel Turnaround reports to the SCO.
November 5	Completed travel report turnaround forms due back to SCO with distribution of total in-state, total out-of-state, and total out-of-country expenses for state employee travel by source of funds and total vehicle miles driven by state employees broken out between in-state and out-of-state travel and two-wheel drive and four-wheel drive miles.

Travel Reporting Overview:

CRS 24-30-202(26) requires that “The controller shall make available a report no later than February 1 of each year to the governor, the joint budget committee, and the legislative audit committee regarding the travel expenses of state employees for the prior fiscal year. Such report shall include, but shall not be limited to, an itemized list of the travel expenses of each department including in-state travel, out-of-state travel, and out-of-country travel. The controller shall notify, in the most cost-effective manner available, the governor, the joint budget committee, and the legislative audit committee of the availability of the report and offering to provide copies of the report.”

At the request of the Office of the State Auditor, the Employee Travel Expense report includes information on the number of personal vehicle miles driven by state employees broken out by in-state and out-of-state travel and two-wheel drive and four-wheel drive miles. **Do not provide the dollar amount reimbursed for personal vehicle miles driven.** Methods available for agencies to accumulate this information were provided in State Controller’s Alert #87 issued October 13, 1995.

Travel expenses are recorded in COFRS using object of expenditure codes contained in the object group of expenditures group 30. These object codes include specific codes for both employee and non-employee travel expenses. Since the statute requires only the reporting of travel expenses incurred by state employees, use of the distinguishing object of expenditure codes is critical for the proper separation of expenses between state employees and non-employees. If an individual acts in more than one capacity (e.g. employee and witness, employee and juror, student employee and athlete), report only those expenses that individual incurred while traveling in the course of his/her employment as employee expenses. All travel expenses incurred outside the course of employment should be reported as non-employee expenses.

The object codes used in the preparation of the annual report are:

STATE EMPLOYEE TRAVEL

In- State Travel - State Employees

- 2510 - In-State Travel
- 2511 - In-State Common Carrier Fares
- 2512 - In-State Personal Travel Per Diem
- 2513 - In-State Personal Vehicle Reimbursement
- 2514 - State Owned Aircraft
- 2515 - State Owned Vehicle Charges
- 2516 – In-State Personal Aircraft Reimbursement

Out-Of-State Travel - State Employees

- 2530 - Out-Of-State Travel
- 2531 - Out-Of-State Common Carrier Fares
- 2532 - Out-Of-State Personal Travel Per Diem
- 2533 - Out-Of-State Personal Vehicle Reimbursement

Out-Of-Country (International) Travel - State Employees

- 2550 - Out-Of-Country Travel
- 2551 - Out-Of-Country Common Carrier
- 2552 - Out-Of-Country Personal Travel Reimbursement

The following codes are not used in the annual report:

NONEMPLOYEE TRAVEL

In-State Travel – Non-employees

- 2520 - In-State Travel Non-employees
- 2521 - In-State Non-employee - Common Carrier
- 2522 - In-State Non-employee - Personal Per Diem
- 2523 - In-State Non-employee - Personal Vehicle Reimbursement
- 2524 – Non-employee Use Of State Owned Aircraft
- 2525 – Non-employee Use Of State Owned Vehicles

Out-Of-State Travel – Non-employees

- 2540 - Out-Of-State Travel – Non-employees
- 2541 - Out-Of-State Non-employee - Common Carrier Fares
- 2542 - Out-Of-State Non-employee - Personal Per Diem
- 2543 - Out-Of-State Non-employee - Personal Vehicle Reimb

Out-Of-Country (International) Travel – Non-employee

- 2560 - Out-Of-Country Travel – Non-employee
- 2561 - Out-Of-Country Non-employee - Common Carrier Fares
- 2562 - Out-Of-Country Non-employee - Personal Travel Reimb

Proper use of these object of expenditure codes is critical to the accuracy of the data and the reliability of the report. Agencies should review their accounting records to assure that all travel expenditures have been properly classified and recorded. Agencies that are using the “generic” object codes 2510, 2530, and 2550 to record their employee travel expenditures may use the “generic” counterparts to record non-employee travel; 2520, 2540, and 2560. **The use of object of expenditure codes 2513 and 2533 is encouraged to assist in determining the number of personal vehicle miles driven by state employees.**

EMPLOYEE TRAVEL EXPENSE REPORTING PROCEDURES

2.1 Reviewing Accounting Data

Agencies should periodically review all travel related expenditure data to assure that all expenses are properly classified and recorded. The preparation of the annual employee travel report is based on the object of expenditure codes that designate travel expenses according to state employee travel or non-employee travel. Improper classification and recording will result in agencies having to manually adjust expenses at year end. To assist in this review, the financial data warehouse (FDW) has detail travel expense reports showing employee and non-employee travel expenses by fund and object code. The reports are located under “Agency Reports” and “Department Reports” in the “YTD/Period End” hyperlink on the right side of the FDW home page. The reports are:

- Travel Expenditure Detail – Employee
- Travel Expenditure Detail – Non-Employee
- Travel Turnaround Report

The advantage of having these reports on the FDW is that you may run the reports at any time and that you can “drill down” on the expense balances in the report to determine what specific transactions are included in the report.

2.2 Correcting the Accounting Data

Agencies should make correcting entries in COFRS prior to period 13 agency close. Manual adjustments to the final report made by the agency will require an explanation for the change.

2.3 Preparation of the Report

After the final close of period 13 and prior to November 5 , agencies are required to submit the Travel Turnaround report to their field accounting services team (FAST) representative. Agencies must run the travel turnaround report on the FDW. The report is automatically produced in an Excel spreadsheet that makes it easy to complete and save it electronically. The completed report should be e-mailed to your FAST representative.

The travel turnaround report should only include **employee travel expenditures** summarized by in-state, out-of-state, and out-of-country travel. Agencies should use the report to allocate **total** in-state, out-of-state, and out-of-country employee travel expenses by general, cash/cash exempt, and federal fund sources. These allocations may be made in any manner determined to be

reasonable and supportable by the agency so long as the allocation for any source of funds does not exceed the amount of that source of funds authorized in the Long Bill.

Agencies must also calculate and report the number of personal vehicle miles driven by state employees for in-state and out-of-state travel. This information must be reported for two-wheel drive and four-wheel drive miles. This information will be included on the employee only travel expense turnaround report.

The SCO will review and compile the agency turnaround reports, prepare the year end employee travel expense report and reconcile the report to COFRS. The final employee travel expense report will be available no later than February 1.

CHAPTER 5: SECTION 3

STATUTORY REPORTING OF OUTSTANDING LOANS AND ADVANCES

KEY DATES

November 30 Due date for State Controller's statutory loan and advance report.

Per CRS 24-75-204, the State Controller must file an annual report of all loans and advances outstanding at the end of the preceding fiscal year. This report must be filed with the Governor, the Joint Budget Committee and the Legislative Audit Committee and is due no later than November 30. The SCO prepares the report based on negative cash balances recorded on COFRS as of final close June 30 and supports the report with approved agency loan or advance applications.

Preparation of loan and advance applications is not solely a year end task, and agencies need to make sure that all loan and advance approvals are current and accurate throughout the year. Agencies need to assess each of their activities' working capital needs and review cash account balances on an on-going basis to identify accounts where an approved loan or advance is or may be required. A loan or advance is not required for cash deficits in fund 100, 310, 461, and 600 (fund 600 is used with the COFRS inventory module).

The following policy and procedures covering loans and advances were contained in a memorandum issued jointly by the State Treasury, OSPB and SCO on February 7, 1997. This section contains updates to that original policy to reflect current conditions.

3.1 Policy Statement

CRS 24-75-203 allows the State Treasurer to make working capital loans to state agencies with the approval of the Governor and the State Controller. The statute also allows the State Controller to authorize interest free working capital advances to state agencies. The use of working capital loans and advances is to be kept at a minimum due to the impact on general fund cash and because of the negative impact on statewide investment earnings.

CRS 24-75-204 requires the State Controller to submit an annual report to the Governor, the Joint Budget Committee, and the Legislative Audit Committee summarizing all outstanding loans and advances. This report is based on deficit cash balances at the close of the preceding fiscal year and is supported by approved loan and advance applications. This report is due no later than November 30 of each year.

In order to comply with the provisions of CRS 24-75-203 & 204, it is the policy of the State Treasurer, State Controller and the Office of State Planning and Budgeting that:

- ♦ Cash must be on deposit with the State Treasurer except where approved by the State Controller and the State Treasurer, or where exempted by the State Constitution.
- ♦ An application for a working capital loan or advance must be submitted and approved for all deficit cash balances unless a specific exemption is granted.
- ♦ Deficit cash balances not supported with an approved working capital loan or advance will constitute the unauthorized use of general fund cash. This unauthorized use may

result in interest charges to the state agency with the deficit and may result in other remedies that may include the suspension of activity from the deficit cash account.

The following are commitments made by the State Treasurer, State Controller, and the Office of State Planning and Budgeting to achieve the goal of providing working capital loans and advances to state agencies while minimizing the impact on general fund cash and the loss of investment earnings. We will:

- ♦ Adopt and communicate criteria defining which activities are eligible for a loan and which activities are eligible for an advance.
- ♦ Review the working capital needs of each state agency that requests a working capital loan or advance using information provided by the agency.
- ♦ Prescribe forms and procedures for state agencies to use in reporting their need for and requesting approval of working capital loans and advances.
- ♦ Analyze cash balances on a monthly basis at the fund/agency level unless a lower level review is requested by an agency or deemed necessary by the State Treasurer or the State Controller.
- ♦ Monitor cash balances in the general fund (fund 100), the current unrestricted fund (fund 310), the capital construction fund (fund 461), and the COFRS warehouse inventory fund (fund 600) at the fund level on a statewide basis. Generally, agencies do not need working capital loans or advances for activities in these specifically identified funds; however, if it is determined that an agency is operating in one of these funds and is not in compliance with the statutes or this policy, a loan or advance may be required for that fund/agency combination.
- ♦ Perform post-audit reviews, as necessary, to ensure state agencies are complying with this policy.

3.2 Definition of Terms

The following are definitions of terms used in this policy:

Deficit Cash Balance - A negative amount in the COFRS balance sheet account 1100 - Operating Cash at the fund/agency level, or the fund/agency/reporting category level when appropriate, at the close of any fiscal period and/or on an average daily balance level at the end of any calendar month.

Teaching or Research Activities - “Teaching” activities are those that include regularly enrolled students of the institution who receive credit toward a degree for participating in this activity. “Research” activities are those that advance the state of knowledge of an academic, vocational, or professional subject being conducted at the institution (testing performed solely for private concerns does not qualify as “research” for the purposes of this policy).

Primary Purpose - A significant majority (75% or more) of a fund/agency’s activities by dollar volume are for a particular activity. For example, if 75% of the activity of a fund/agency is for teaching and research then this is the fund’s primary purpose.

Business Enterprise - An activity that is intended to be self sufficient by generating adequate revenues through the sale of a product or a service to cover the associated cost of operations. This is not the TABOR definition of an enterprise.

Self-Maintaining Program - Programs that are intended to generate adequate revenues to support or exceed the expenditures incurred by the program.

3.3 Criteria for Determining Working Capital Loans or Advances

Cash balances (COFRS account 1100 - Operating Cash) will be evaluated at the fund/agency level unless the agency, the State Treasurer, or the State Controller believes it is necessary to monitor the balances at a fund/agency/reporting category level. A deficit cash balance at the fund/agency level indicates the need for a working capital loan or advance. Considering the primary purpose of the fund, the agency should apply for a working capital loan or advance at the point in time when a deficit occurs. Currently, the State Controller's Office does a monthly internal report to identify deficit cash balances at the close of any fiscal period, and the State Treasurer uses the COFRS CAM02 report to identify cash accounts with average daily balance deficits.

Agencies should have procedures in place to monitor and identify deficit cash balances, so that they can request a working capital loan or advance on a timely basis. The COFRS MCR01 report is the best source to identify cash deficits at the fund/agency level at the close of a fiscal period. The COFRS CAM02 report identifies cash accounts with average daily deficit cash balances at month end. The COFRS CASH table provides daily cash balance information at the most detailed level including the entire account coding string of any cash balance; there is no fund/agency summary on this table. The CAM02 and other reports (GNL02 or GNL04) and the CASH table and other COFRS tables (OLGL) provide this information but in a way that is not user friendly.

Fund/agencies established solely as system clearing funds are not considered a business enterprise activity or a self-maintaining program and should not have continuous deficit cash balances. However, if a clearing fund has a continuous deficit cash balance, the fund to which the cash is ultimately cleared should be evaluated to determine if the clearing fund requires a working capital loan or advance.

State Fiscal Rules, Rule 6-1, requires that agencies make timely deposits of cash to the state treasury unless otherwise exempted by statute or rule. Withdrawal of these funds and subsequent redeposit into a separate checking account, savings account, or another investment shall be done only when authorized in writing by the State Treasurer and the State Controller. This approval is required even if moneys are subject to bond covenants or are eligible for investment pursuant to CRS 23-5-112.

3.4 Working Capital Loans

CRS 24-75-203(1) allows the State Treasurer to make loans to state agencies upon the written approval of the Governor and the State Controller. The Governor's Office of State Planning and Budgeting provides the approval for the Governor. Interest on loans shall bear interest at the earnings rate calculated monthly by the state treasurer. The State Treasurer calculates and charges interest based on the average daily balance of the cash account during a calendar month, and charges interest to the agency on a quarterly basis. All loans must be reviewed at least annually.

The following activities are eligible for loans:

- ♦ The operation of business enterprises by institutions of higher education when the primary purpose of that enterprise is not teaching or research, and which are, or may be, in competition with private enterprise.
- ♦ Any other self-maintaining program of a state agency that generates its own revenues and which in the judgment of the State Treasurer has the capacity to repay the loan.
- ♦ Any other statutorily authorized loan.
- ♦ Any fund/agency designated as a TABOR enterprise; fund/agency is able to issue revenue bonds and receives less than 10% of annual revenues in grants from Colorado state and local governments.

The answers to the following questions will be included in the evaluation by the State Treasurer, State Controller, and the Office of State Planning and Budgeting in reviewing applications for working capital loans:

- ♦ Does the fund/agency's cash account earn interest?
- ♦ Is the predominate source of a fund's cash maintained on deposit outside of the state treasury?
- ♦ Is the predominate source of a fund's cash on deposit in another fund that is earning interest?
- ♦ Is the activity self-supporting continuing education?

All deficit cash balances in any fund/agency will be considered to be eligible for a working capital loan and the agency may be charged interest by the State Treasurer, unless the agency submits an application and can demonstrate that the activity is eligible for a working capital advance. Any deficit cash balance that exists that is not supported by an approved working capital loan or advance application from an agency may be charged interest as if it were a loan.

3.5 Working Capital Advances

CRS 24-75-203(2) allows the State Controller to authorize interest free advances to state agencies to provide working capital for certain programs. The statute sets a limit of no more than \$12 million in advances to any one department, institution, or agency. These advances must be reviewed annually and shall be repaid at such time as the State Controller directs.

The statute defines the following activities as eligible for an advance:

- ♦ The operation of a program other than those defined in CRS 24-75-203(1) and discussed in Section 4.4 of this chapter.
- ♦ Federal programs for which federal advances or letters of credit are not available.
- ♦ Any other statutorily authorized advance.

Other factors that will be evaluated by the State Treasurer and the State Controller in reviewing applications for working capital advances include:

- ♦ Is cash designated to support a fund/agency's activity on deposit with the State Treasurer or in another agency pending a distribution/allocation to the fund/agency with the deficit cash balance?
- ♦ Does the fund/agency's cash account earn interest?

3.6 Additional Criteria Guidelines for Institutions of Higher Education

For higher education governing boards, deficit cash balances will be monitored at the board level. Deficits in individual funds within those boards will not be reviewed for this purpose. If a deficit does occur at the board level, it will require an interest-bearing loan from the state treasury.

3.7 Processing a Loan or Advance Application

Agencies should prepare loan or advance applications when a fund/agency under their control incurs a cash deficit. The dollar amount of the request should be adequate to cover any existing or potential cash deficit. If a deficit exceeds an approved loan or advance amount, a revised application must be submitted. Failure to submit an application when a deficit has occurred may result in interest charges, and may result in the suspension of activity in the affected fund/agency's cash account.

All loans and advances must be reviewed annually. Thus, applications should be for a period of no more than 12 months. To ensure adequate review time, applications for the renewal of an existing loan or advance should be submitted one month prior to the expiration date.

If a loan or advance application is for activities that are not federally funded and the request exceeds \$300,000, a 24-month cash flow projection is required as support to the application. If the activity is federally funded and the request exceeds \$1,000,000, a 24-month cash flow projection is required as support to the application. The cash flow analysis should be for the period of the loan or advance plus the subsequent number of months necessary to total 24 months. When there is a mixture of activities within the fund, the nature of the request and the primary purpose of the fund should be considered in determining if a cash flow projection is required.

Cash flow analysis should include a narrative description of the assumptions on which the cash flow is based. The assumptions may include stable, increasing, or decreasing revenue flows, source of revenues, industry trends, stable or unstable expenditure flow, economic trends, etc. At a minimum, the cash flow analysis should show on a monthly basis for 24 months the beginning cash balance, expected receipts and disbursements, and ending cash balance. Receipts and disbursements may be broken out as to the type of receipt (e.g., fees and fines) and to the type of disbursement (e.g., personal and operating).

The application forms included in this section should be used for all requests for working capital loans or advances. There is a standard form to be used for initial requests, revisions and renewals. There is also a quick renewal form that may be used to renew existing loans or advances only when the conditions, other than the period and amount, for that loan or advance have not changed from the prior approved request. Instructions for both forms are also included in this section.

Complete and obtain the necessary signatures on the applications and forward them to your accounting specialist in the FAST.

Please contact your field accounting specialist if you have questions regarding this policy or the procedures or forms necessary to apply for a loan or advance.

3.8 Instructions for Completing Application Form

Each area of the loan and advance application form is identified with a number. Below are instructions for each area of the form, by the number on the form.

- 1) Enter name of the requesting department\agency.
- 2) Enter the beginning date and the end date for the loan or advance being requested. This period may not exceed 12 months.
- 3) Check whether the application is for a loan or an advance.
- 4) Check whether this is an initial request or a renewal. Note if the renewal box is checked, it will be assumed that this new application supersedes any previous application with the same or an overlapping period.
- 5) Enter the dollar amount of the request.
- 6) Enter the COFRS fund number and agency code for the cash account that is the subject of this request.
- 7) Enter any additional COFRS coding that the agency wishes to use to monitor the cash of the fund/agency below the base level. Leave section blank if loan or advance is at the fund/agency level.
- 8) Enter a complete statement describing the activities of the applicable fund/agency and the intended use of the loaned or advanced funds. The description must clearly state the reason for an advance, otherwise all requests will be considered a loan. Attach additional pages if necessary.
- 9) Check either (a), (b), or (c) depending on the nature of the activity and the amount of the request. If required, attach a cash flow projection for a 24 month period beginning with the start date of the application showing at a minimum both the receipts and disbursements of the activity and the change in the cash balance on a month-by-month basis.
- 10) Enter the COFRS coding string you wish the State Treasurer to use to record interest expense on a loan. If pre-printed codes do not meet your needs, please identify your additional coding needs on the form.
- 11) Agency controller or chief financial officer's signature and date.
- 12) Agency executive director or college/university president's signature and date.

3.9 Instructions for Submitting Application Form

Once the application is completed, send it to your FAST representative for review and approval. The lower section of the application will be completed during the review and approval process. The FAST will route the application for all appropriate signatures. Once the application is reviewed and approved, the FAST will send a copy of the completed application with all signatures back to the agency and will retain the original application in a central file. If the application is not approved, your field accounting specialist will contact the agency to discuss the reasons for rejection.

3.10 Instructions for Completing Quick Renewal Form

- 1) Enter Agency Name.
- 2) Enter COFRS agency code.
- 3) Check whether the line is for the renewal of a loan or an advance.
- 4) Enter the COFRS fund number and reporting category code (RPTC) if applicable.
- 5) Enter the beginning date for the loans and/or advances being requested.
- 6) Enter the ending date for the loans and/or advances being requested. This period may not exceed 12 months.
- 7) Enter the dollar amount being requested.
- 8) Enter the date of the original application.

- 9) Check one of the lines depending on the nature of the request. If required, attach a cash flow projection for a 24 month period beginning with the start date of the application showing at a minimum receipts and disbursements of the activity and the change in the cash balance on a month-by-month basis.
- 10) Enter agency controller or chief financial officer's signature and date.
- 11) Enter agency executive director or college/university president's signature and date.

3.11 Instructions for Submitting Quick Renewal Form

This form may only be used when an agency is requesting that an existing loan and/or advance be renewed. The conditions for the renewal must be the same as the original request. The description of the activity, the COFRS coding strings, and the nature of the request cannot change. The only thing that can change is the loan/advance time period and the dollar amount. The completion of cash flow requirements remains the same.

Once the application is completed, send it to your FAST representative for review and approval. The lower section of the application will be completed during the review and approval process. The FAST routes the application for all appropriate signatures. Once the application is reviewed and approved, the FAST sends a copy of the completed application with all signatures back to the agency and retains the original in a central file. If the application is not approved, the field accounting specialist will contact the agency to discuss the reasons for rejection.

LOAN/ADVANCE APPLICATION FORM

(1) Department/Agency:			(2) Date/Period of Loan/Advance Requested:		
			FROM / / TO / /		
(3) LOAN _____ or ADVANCE _____ (check one)			(5) Dollar Amount of Request: \$		
(4) INITIAL _____ or RENEWAL _____ (check one)					
(6) Cash Account: (Required Coding)			(7) Additional Acct Codes: PROG: _____		
FUND	AGENCY	BS ACCOUNT	REPT CAT: _____ PROJ: _____		
_____	_____	_____ 1100	GRANT (GBL): _____		

- (8) Describe activities covered by application and reason for requesting working capital. Applications for **Advances** must include reason request qualifies for advance.

(9) Cash Flow Projection

If request is for: (check a, b or c)

- a. ☐ Federally funded activity and request exceeds \$1,000,000 or
- b. ☐ Non-federally funded activity and request exceeds \$300,000, a two-year cash flow projection is required and is attached.
- c. ☐ Neither (a) nor (b), no cash flow projection is required.

- (10) **This section must be completed if application is for a loan:** Interest charges for loans are calculated monthly, based on the account's average daily cash balance and the earnings rate calculated monthly by the State Treasury. Interest charges will be recorded in the following COFRS account coding string.

FUND	AGCY	ORG	SUB ORG	APPR CODE	PROG	OBJ CODE	SUB OBJ	GBL	RPTG CAT
------	------	-----	------------	--------------	------	-------------	------------	-----	-------------

This application is made pursuant to CRS 24-75-203. We certify that this request is for temporary working capital as described above and authorize the charge for interest on loan requests.

Agency Controller (11)

Date _____

Agency Director (12)

Date _____

We approve a ____ loan / ____ advance from the Colorado State Treasurer for a dollar amount of \$ _____ as described in the application above and subject to the following special conditions:

State Controller

Date _____

Governor (loans only)

Date _____

State Treasurer

Date _____

LOAN AND ADVANCE QUICK RENEWAL FORM

Agency Name (1): _____

CHAPTER 5: SECTION 4

PROCEDURES FOR PREPARING QUARTERLY FINANCIAL REPORTS

KEY DATES

October 15	First quarter FY04-05 closing.
January 14	Second quarter FY04-05 closing.
April 15	Third quarter FY04-05 closing.

4.1 Quarterly Reporting Overview

CRS 24-30-204 provides for all departments, institutions and agencies to submit a quarterly report of financial information to the State Controller that shall include financial information deemed reasonable and necessary. The following section sets forth the State Controller's policy and guidelines to accomplish the intent of this important law and is amended to incorporate important modifications deemed necessary after review and analysis.

4.2 Policy Statements Related to Quarterly Reporting

Timely and accurate financial reporting is vital for the proper functioning of state government. Such financial information must be available for controllers, program administrators, executive management, legislators and their staff for decision making and planning purposes. It is also recognized that human and data processing resources necessary to provide this information are very limited.

The following policy statements shall apply:

1. This policy applies to all state departments and institutions, including all boards and commissions.
2. Sufficient monthly accruals should be made to update financial records so that management at each department, institution and agency can properly analyze their financial condition and determine that the federal government and other parties owing the state are being properly billed.
3. Each quarterly reporting period should be regarded as an integral part of the fiscal year. Thus, in general, the results for each quarterly period should be based on the accounting principles set forth in the State Fiscal Rules. Expenditures such as salaries, operating expenditures and accruals of expenditures should be allocated to interim periods as they are incurred or, where appropriate, allocated among quarterly periods on the basis of benefit received, time expired, etc. Arbitrary assignment to a quarterly period is not appropriate. Revenues should be allocated to quarterly reporting periods in accordance with generally accepted accounting principles.
4. The state's financial system, COFRS, shall be the system for recording timely and accurate financial data and from which COFRS standard reports shall be prepared and forwarded to the controller in compliance with the reporting requirement of this law.

5. The normally scheduled monthly closing dates for COFRS, usually the second Friday of each month, will not be changed. Delay of the scheduled closing dates, defeats the purpose of providing timely financial information.
6. All state departments and agencies, other than institutions within the Department of Higher Education, are strongly encouraged to use the grants module of COFRS to facilitate accounting and revenue recognition. Use of the module may be mandated should accounting and revenue recognition not be completed as required and departments appear to be overspent.

4.3 Guidelines for Quarterly Reporting

The following guidelines are to be implemented in order to carry out the policy statements set forth above.

1. This guideline applies to all fund types except for agency funds (fund 9xx), and the general full accrual account group (fund 471). For the Department of Higher Education this guideline shall apply only to funds 310, 311, 320-332, 340, 341 and capital construction fund 461.
2. When either appropriation/spending authority (net of restrictions) or estimated annual expenditure or a budget line item (i.e., LBLI) is greater than \$250,000, then appropriate expenditure accruals must be considered. The budget line item is to be analyzed and an expenditure accrual estimate must be recorded if the accrual estimate is at least 4% of the line or exceeds \$1 million. All expenditure driven revenue accruals must be recorded.
3. Other revenue accruals must be completed if the accrual is 4% or more of the annual revenue estimate by funding source code or exceeds \$1 million. Special procedures shall be provided for state agencies acting as a collection agency for significant general purpose revenues and Highway Users' Tax Fund revenues. General purpose revenues include excise taxes, income taxes, estate taxes, insurance taxes, court receipts, severance taxes, pari-mutual racing receipts and gaming taxes normally recorded in the general fund.
4. State agencies with sponsored programs are to timely bill and collect from the sponsoring entities as provided by the State Fiscal Rules.
5. COFRS has modified the "JV" transaction that provides for accrual and reversal of expenditures with offsetting dollar amounts recorded to encumbrance accounts. This capability is vital to properly reflect expenditures and encumbrances at the end of each reporting quarter.
6. Direct billing agencies are to standardize the billing and cut-off dates so that the cost of the various services may be consistently charged and accrued. A standardized schedule of billings will be distributed to all affected agencies by no later than the 7th working day of September each year.
7. State agencies shall clear all suspense and clearing accounts to zero. If an individual clearing/suspense account balance exceeds \$7,500 at quarter end, a variance disclosure statement must be submitted in accordance with paragraph 11.e of this policy. The balance sheet accounts covered by this provision are as follows:

PRLN - Payroll Line Balancing Account
LDCR - LDC Document Offset Account
1013 - Cash In Transit To Treasury
1583 - IG PV Billing Clearing
1584 - IG PV Interagency Clearing
1590 - CPPS Cash Funds Default
1591 - CPPS Due From Default
1592 - CPPS Payroll Default
1593 - CPPS/LDC Clearing
1594 - CPPS Distribution Edit Clearing
1595 - F/A Disposition Clearing
1596 - Interface Clearing
1597 - DOA Billing Default
1598 – Procurement Card Default
1599 - Undistributed Charges – Other
159A – F/A Buying/Owning Clearing
2510 - Undistributed Receipts
2520 - NSF Returned Checks

8. Physical counts of consumable inventories, fixed assets or accrual for compensated absences and depreciation are generally not required for quarterly financial reporting purposes. However, when in the judgment of a controller or chief financial officer, a sudden loss, known obsolescence or seasonal variation materially affects expenditures or an asset then an accounting adjustment during the quarterly period should be completed.
9. State agencies shall clear all funds and appropriation codes established for the purpose of clearing activity that should be properly recorded in another fund to zero. Examples are funds and appropriation codes established to record payroll activity prior to distribution to the appropriate fund where the expense was incurred.
10. State agencies shall correct all abnormal account balances. Credit balance expenditures and receivables, debit balance revenues and payables all have the impact of misstating an agency's financial position and should be corrected. All account balances should be properly recorded.
11. Reporting to the State Controller under this policy shall be met by the requirements listed below. These reporting requirements are in addition to other requirements as set forth in CRS 24-75-102, and 24-30-204(1).
 - a. COFRS standard report BDA24R and BDA01R provided to the State Controller and state agencies.
 - b. COFRS standard report BDA24R provided to the Office of State Planning and Budgeting (OSPB) and the Joint Budget Committee (JBC).
 - c. A modified version of COFRS standard report MCR01R containing information on statutory fund balances, as defined by the State Controller, provided to the State Controller, OSPB, JBC and all state agencies.
 - d. On an exception basis, a variance disclosure statement will be prepared by a controller or chief financial officer explaining why compliance with CRS 24-30-204, and/or this policy/guidelines was not possible for the quarter reported thereon. This

variance disclosure statement must be directed to the State Controller with a copy to the executive director, or president of the institution. Variance disclosure statements must be received in the State Controller's Office by the 25th of the month following the month end close.

- e. Based on a review of COFRS reports, department or institution controllers are encouraged to continue to provide department executive management with a financial summary highlighting significant trends, issues or developments.

In order to comply with this policy agencies must complete the above reporting requirements within 25 days after the quarter ends.

4.4 Quarterly Reporting Procedures

SCO will generate a series of diagnostic reports showing potential noncompliance conditions. The titles of the reports and the frequency at which they will be issued are shown in the table in Chapter 3 Section 3.21. Descriptions of the various reports are provided in Chapter 5, Section 1.

Agencies will have until the close of the quarter in which to review the reports and make the necessary adjusting entries in COFRS to correct the conditions. Agencies should make every effort to correct all abnormal account balances, out-of-balance conditions, underearning of revenue, or overexpenditures identified in the reports.

Diagnostic reports will be available for quarter close months (March, September, and December) on the day following calendar close and the Monday prior to fiscal quarter close. The reports should be available on INFOPAC by 11 a.m. Agencies should submit variance disclosure statements to their respective accounting specialist in the Field Accounting Services Team for material items that were not corrected and are not in compliance with the established guidelines. The agencies have until the 25th of the month following the quarter close to review the final quarter close diagnostic reports and where applicable, provide the variance disclosure statement to the State Controller's Office.

For each of the first three quarters, the State Controller prepares a report highlighting significant trends or financial conditions for the general fund and capital projects fund. This report is given to the Governor, OSPB and JBC. This report also includes significant problems or issues identified at the agency level that could have a material or significant impact at the statewide level.

At fiscal year end, the quarterly diagnostic reports will be available on INFOPAC as a tool for agencies to use to identify and correct problems. Agency variance disclosure statements are not required to be submitted to the State Controller for the fourth quarter. Please refer to Chapter 3, Section 3.21 for the availability of these reports during the year end closing process.

CHAPTER 5: SECTION 5

TABOR REPORTING

5.1 Background

Article X, Section 20, the Taxpayer's Bill of Rights (TABOR), was added to the Colorado Constitution as a result of the passage of Amendment 1 in the November 1992 general election. The passage of Amendment 23 and Referendum A, amended it in the November 2000 general election. Other than Article X, Section 20 itself, the most pertinent legislation is CRS 24-77-101 to 106 which provides implementation guidance and clarifies many of the terms used in TABOR.

5.2 TABOR District and Exclusions From the District

The District is defined by TABOR as "... the state or any local government, excluding enterprises." In addition to enterprises CRS 24-77-101(16)(b) also excludes any special purpose authority from the District.

Enterprises are designated in one of two ways. The first method is by statute and the second method is exclusive to Higher Education enterprises, and that is designation by the governing boards and review by the State Auditor. Even if an enterprise is designated by statute or Higher Education governing board, it still must annually clear a hurdle imposed on it by TABOR to be excluded from the District in that year. It must be a government-owned business authorized to issue its own revenue bonds and receiving under 10% of its annual revenue in grants from all Colorado state and local governments combined.

Statutorily designated enterprises are:

Name	Citation	Code	Funds
State Lottery	24-35-202(b)	TFA	503
Student Loan Program	23-3.1-103.5(1)(b)	GDA	501, 502, 511, 524, 526
Correctional Industries	17-24-104	CFA	507
		CFB	508
		CFC	506
State Fair Authority*	35-65-405(1)	BSF	510
State Nursing Homes	26-12-110	ILA-ILG	505
Clean Screen Authority	42-3-134	TCA	520
Statewide Tolling Authority*	43-4-804	HTA	534-535
CSOBA	23-3.1-205.5	GRA	512-515
Wildlife	33-1-103(9.5)(a)	PBA	410, 413, 418, 421-423, 428, 429, 433, 761, 861
Higher Education Auxiliaries	23-5-101.5	GFA-GZA	320-324

*Note: The State Fair Authority and Statewide Tolling Authority did not qualify as exempt enterprises in FY 2003-04 nor are they expected to qualify in or FY 2004-05.

5.3 Fiscal Year Spending is the Same As Non-Exempt Revenue

Fiscal Year Spending (FYS) is defined in paragraph (2)(e) of TABOR as "all district expenditures and reserve increases except, as to both, those for refunds made in the current or next fiscal year or those from gifts, federal funds, collections for another government, pension contributions by employees and pension fund earnings, reserve transfers or expenditures, damage awards, or property sales."

A literal reading of the definition of FYS is confusing because it is defined as expenditures and reserve increases except for those from certain revenues. The definition mixes expenditures, revenues, reserve increases, reserve transfers, and reserve expenditures. Fortunately, the Colorado Supreme Court has defined reserves as the same as fund balance. Thus expenditures plus reserve increases (or less decreases) would equal revenues given the accounting equation. Logically, then FYS is the same as revenues except for those specifically excluded by TABOR.

Two further refinements are necessary. One is that once District revenue is exempt, it is always exempt. The second is that revenue should not be counted twice within the same District. Given this, earnings on exempt money is exempt, and transfers within the District are always exempt. However, money transferred from an exempt enterprise to another agency within the District would not be exempt, because it is the first time the money has entered the District. An example would be indirect revenue received by the Department of Revenue. Indirect revenue from the Gaming Division would be exempt from TABOR, while the same revenue received from the Lottery would be TABOR non-exempt. The reason is that the Gaming Division has already counted the Gaming revenue from which the indirect charge is paid for TABOR while the indirect charge revenue received from the Lottery had not been counted for TABOR, because the Lottery is an exempt enterprise.

5.4 Differences Between the Long Bill & the State Controller's Office Reports

The primary reason for the differences between how revenues are appropriated in the Long Bill and how the State Controller's Office reports them for TABOR is due to the Legislature's desire to appropriate funds where they are eventually spent rather than where they are first earned. Since COFRS uses the revenue source code for both accounting and budgeting purposes, a certain amount of confusion is unavoidable.

It is always the responsibility of the billing agency to assure the proper revenue source code is used in transactions between state agencies. For example, if a college is paying DPA for risk management charges, then it must inform DPA of which portion is from TABOR exempt enterprises (funds 320-324) so that DPA can record that portion as non-exempt (first recording in the District) and the balance as exempt.

5.5 Great Outdoors Colorado

Amendment 8 established the Great Outdoors Colorado Authority (GOCO) in the same November 1992 general election that established TABOR. Amendment 8 received substantially more votes than Amendment 1 (TABOR) did. Thus, the Colorado Supreme Court ruled that GOCO takes precedence over TABOR and that money the state receives from GOCO is exempt. Since exempt money retains its exemption, agencies need to be careful when using and accounting for GOCO money. For example, if the Division of Wildlife receives GOCO money and then passes it on to another agency, that money would retain its exemption even though Wildlife is a TABOR exempt enterprise and normally revenue received from Wildlife would have to be counted as non-exempt.

5.6 Investment Earnings

Normally when investment earnings are received on exempt revenues those earnings would also be exempt. However, there is an exception to that rule. When non-exempt revenues are transferred within the District, even though the transfer is exempt, the earnings on the transferred moneys would be non-exempt since the original source was non-exempt. For example Gaming moneys are non-exempt and the investment earnings on that money is also non-exempt even after the funds have been transferred to another agency as an exempt transfer. Otherwise the State could avoid earning non-exempt TABOR investment revenue but simply transferring the revenue to another fund. This would violate the intent of TABOR.

5.7 Questions Regarding TABOR

Questions about TABOR and whether or not certain revenue is exempt or non-exempt may be directed to the Reporting and Analysis section of the State Controller's Office.

CHAPTER 5: SECTION 6

REPORTING FOR FINANCIAL RESPONSIBILITY AND ACCOUNTABILITY ACT CRS 24-17-101 ET. SEQ

KEY DATES

December 31	Statement of Compliance forms with attachments are due. One copy to the State Controller, one copy to the State Auditor.
--------------------	--

The Financial Responsibility and Accountability Act requires that each principal department and higher education institution file an annual written statement that their systems of internal accounting and administrative control are in compliance with the requirements of the Financial Responsibility and Accountability Act. The Statement of Compliance form, included with these procedures, was developed by the Management Systems Improvement Project Team as part of a statewide effort to improve evaluation of administrative controls including accounting controls.

The Statement of Compliance form should be completed for each statutory element (items a-e on the form). Examples of items that might be considered in the assessment process are listed after each element. We recognize that each department/institution has its own method for assessing its control systems. You are asked to attach a brief summary of the assessment process used and plans and schedules for correcting any weaknesses noted.

The Statement of Compliance form, with attachments, is due by **December 31**. Please send one copy of the form, with attachments, to the State Controller and one copy to the Office of the State Auditor. The State Controller's Office will provide the required information to the Governor's Office.

DUE DECEMBER 31

(Department/Higher Education Institution)

STATEMENT OF COMPLIANCE WITH THE STATE
DEPARTMENT FINANCIAL RESPONSIBILITY AND ACCOUNTABILITY ACT
CRS 24-17-101 et seq.

THIS AGENCY HAS REVIEWED THE REQUIRED COMPLIANCE ELEMENTS FROM THE FINANCIAL RESPONSIBILITY AND ACCOUNTABILITY ACT AS DESCRIBED BELOW. A SUMMARY OF THE ASSESSMENT PROCESS USED IS ENCLOSED.

- (a) A plan of organization that specifies such segregation of duties as may be necessary to assure the proper safeguarding of state assets. [Examples of items the agency might consider when determining compliance are: organizational chart, procedure manuals, assignment of personnel.]
- (b) Restrictions permitting access to state assets only by authorized persons in the performance of their assigned duties. [Examples of items the agency might consider when determining compliance are: security (physical and information systems), annual inventories, clearances/bonding of staff.]
- (c) Adequate authorization and record-keeping procedures to provide effective accounting control over state assets, liabilities, revenues, and expenditures. [Examples of items the agency might consider when determining compliance are: reviews of existing procedures, audits (internal and external), review of monthly expenditure reports by cost center directors, segregation of duties, procedure manuals.]
- (d) Personnel of quality and integrity commensurate with their assigned responsibilities. [Examples of items the agency might consider when determining compliance are: use of state classified personnel system, internal personnel departments, personnel policies and procedures manual (classified and exempt), annual performance evaluations, job descriptions, cross training of staff, continuous training of staff.]
- (e) An effective process of internal review and adjustment for changes in conditions. [Examples of items the agency might consider when determining compliance are: internal review of procedures by each department, internal audits, TQM or similar process, risk analysis in order to target problem areas, training on policy/procedural changes, communication of expectations to staff, system to follow-up on recommended changes (both external and internal recommendations).]

STATEMENT OF COMPLIANCE

The _____ has instituted and maintains systems of internal accounting and
(Department/Higher Education Institution)

administrative control and _____ is _____ in substantial compliance with the requirements of the statute.
_____ is not*

____ Summary of assessment process used is attached.

EXECUTIVE DIRECTOR/PRESIDENT

DATE

* If not in substantial compliance, the statement shall further detail specific weaknesses known to exist, together with plans and schedules for correcting such weaknesses. Attach plan and schedules for correcting weaknesses to this Statement of Compliance.

CHAPTER 5: SECTION 7

UNCOMMITTED CASH RESERVES REPORTING

KEY DATES

August 6	Turnaround uncommitted cash reserves reports are mailed to agencies.
August 13	Due date for sending turnaround uncommitted cash reserves reports back to the SCO.
September 17	Uncommitted Cash Reserves Report due to OSPB and the JBC.

CRS 24-30-207 requires the State Controller to prepare a report showing the amount of uncommitted reserves credited to each of the State of Colorado's cash funds. This report is prepared in accordance with the statutory definitions and may not agree to financial reports prepared on the basis of generally accepted accounting principles (GAAP). The state auditor must audit the report. The report is to be delivered to the Office of State Planning and Budgeting and to the Joint Budget Committee on or before September 20 of each year.

7.1 Cash Fund Defined

CRS 24-75-402(2)(b) defines "cash fund" as any fund, other than the state general fund and any federal fund, established by law for a specific program or purpose.

The balances of each fund are generally reported at the fund and agency level except that certain higher education funds have been combined to more accurately reflect the activity in those funds.

7.2 Cash Funds Excluded

The following cash funds are specifically excluded from the cash reserves report:

- ♦ Any cash fund for which revenue is derived solely from fees, the amounts of which are established by the federal government;
- ♦ Any cash fund for which revenue is derived solely from fees set by the Colorado Supreme Court in the exercise of its exclusive authority to regulate the practice of law;
- ♦ Any cash fund for which revenue is derived solely from fees set by an enterprise, as defined in CRS 24-77-102(3) or a special purpose authority;
- ♦ Any cash fund that is established for capital construction;
- ♦ Any cash fund for which the reserve amounts are based on actuarial requirements;
- ♦ Any trust funds;
- ♦ Any cash fund with uncommitted reserves of less than \$50,000;
- ♦ The Petroleum Storage Tank Fund;
- ♦ The Hazardous Substance Response Fund;
- ♦ The Land and Water Management Fund;
- ♦ The Brand Inspection Fund;
- ♦ The Colorado State Fair Authority Cash Fund;
- ♦ The Highway Users' Tax Fund; and
- ♦ The State Highway Fund.
- ♦ The Workmens' Compensation Cash Fund;
- ♦ The Workmens' Compensation Cost Containment Fund;
- ♦ The Motorcycle License Fund; or

- ♦ Any cash fund used to single program if the program has been in existence less than two full fiscal years.

7.3 Fund Balance

Fund balance is the net of total assets and total liabilities in each fund as of fiscal year end.

7.4 Exempt Assets

Exempt assets are any long-term assets or non-monetary current assets held by the fund at fiscal year end. “Non-monetary” current assets are those that either cannot be converted to cash or are held with the intent of being used rather than converted to cash, including but not limited to consumable inventory and prepaid expenses.

7.5 Previously Appropriated Fund Balance

Previously appropriated fund balance is that portion of fund balance that has been appropriated for capital construction or other multi-year purposes. Funds to be transferred per a continuous appropriation in statute are considered to be a multi-year purpose and therefore should be included in the previously appropriated fund balance. However, reserve transfers mentioned in the Long Bill are not necessarily considered multi-year and will need to be evaluated on a case-by-case basis to determine whether they fit the description of previously appropriated fund balance.

7.6 Fee Revenue

Fee revenue means any moneys collected by an entity, except that fee revenue does not include:

- ♦ Any moneys collected from sources excluded from state fiscal year spending, as defined in CRS 24-77-102(17).
- ♦ Any moneys received through the imposition of penalties or fines or surcharges imposed on any person convicted of a crime;
- ♦ Any moneys received through the imposition of taxes;
- ♦ Any moneys received from charges or assessments, the amount of which is not determined by the entity;
- ♦ Any moneys received from gifts or donations;
- ♦ Any moneys received from local government grants or contracts;
- ♦ Any moneys received through direct transfers from another entity, enterprise, or a special purpose authority; or
- ♦ Any moneys received as interest or other investment income.

7.7 Non-Fee Fund Balance

Non-fee fund balance is calculated by subtracting any exempt assets and previously appropriated fund balance from the total fund balance and multiplying the result times the ratio of non-fee revenue to total revenue.

7.8 Uncommitted Reserve

Uncommitted reserve is calculated by subtracting any exempt assets and previously appropriated fund balance from the total fund balance and multiplying the result by the ratio of fee revenue to total revenue.

7.9 Target/Alternative Reserve

Target reserve is defined as 16.5 percent of fiscal year expenditures. In some cases, an alternative reserve is used when there is a reserve limit established by statute.

7.10 Excess Uncommitted Reserve

Excess uncommitted reserve is the amount by which the uncommitted reserve exceeds the target/alternative reserve.

7.11 Turnaround Report/Variance Analysis Report

The SCO will distribute turnaround reports to the agencies for any funds with uncommitted reserves greater than \$50,000 during the week following final close. Please fill in any information regarding previously appropriated fund balances and alternative reserve balances. The turnaround reports are due back to the SCO by August 13 .

During the audit of the Uncommitted Cash Reserves Report, the auditors will send out a variance analysis between the current and prior year. Agencies will be asked to explain significant variances.

The SCO will review and compile the agency turnaround reports, prepare the year end uncommitted cash reserves report and reconcile the report to COFRS. The report is then delivered to OSPB and the JBC no later than **September 17** . The report will be posted to the SCO web site shortly thereafter.

CHAPTER 6: SECTION 1

AGENCY ACCOUNTING GUIDELINES FOR REISSUING EXPIRED COFRS WARRANTS

Introduction:

These agency accounting guidelines are developed by the State Controller's Office (SCO) to assist agencies in performing their accounting responsibilities. This chapter is intended to be sufficiently detailed that if an agency adopts them as procedures, SCO will consider the agency to be complying with legal and regulatory requirements and exercising adequate internal control.

Administrative and operational accounting environments are different in every agency. An agency may need to change these guidelines to meet individual needs. An agency controller may substitute alternate procedures for those described in this chapter or may add or eliminate procedural steps.

The agency controller is expected to use professional judgment to ensure that adequate internal accounting processing controls are used and that compliance with state statutes and fiscal procedures is maintained. The agency controller is also expected to document:

- A. The changes to the guidelines made by the agency; and
- B. The reason(s) changes were made; and
- C. An analysis of the impact of the changes on the agency's ability to maintain adequate internal accounting controls and continue to meet the requirements of relevant state statutes and fiscal procedures

This documentation should be maintained in a manner that makes it readily available to the SCO internal auditor and members of the Office of the State Auditor.

If you have questions or need additional information about reissuing expired warrants, contact Katrina Baker at 303-866-2126.

Purpose:

This document provides agencies with guidance needed to reissue an expired COFRS warrant and requesting reimbursement of the reissued funds from the Unclaimed Property Administrator.

Definitions:

Expired Warrant - A stale dated, outstanding warrant that has been purged from the COFRS warrant reconciliation header table (WREH). Twice a year, outstanding warrants that are over a year old are expired and the funds are remitted to the Unclaimed Property Administrator.

Expired Warrant Log - A listing of expired warrants. The official title is *Warrants Expiration Detail Report*. The COFRS report ID is EAP16R. This report was the permanent record of the expired warrants until June 1997 when the EXPW table was developed.

EXPW Table - The Expired Warrants Table in COFRS that replaced the EAP16R report, beginning with the warrants expired in June 1997. COFRS documentation and instructions on the use of this table are available by contacting Production Support Services (COFRS helpline) at 303-866-6122.

Third Party - Anyone other than the original payee requesting reissuance of an expired warrant.

Power of Attorney - A legal document giving authority to a third party to act on behalf of the original payee (or successor) in collecting funds for an expired warrant. The Power of Attorney must be signed and notarized.

Estate of Payee - Possessions of a deceased payee.

Successor(s) - The person (or persons) entitled to receive money or property from an estate.

Affidavit for Collection of Personal Property Pursuant to Small Estate Proceeding - A legal form (available on the State Controller's website) used by the successor(s) to claim all or part of an estate worth \$27,000 or less.

Personal Representative - An individual recognized by a court to either implement the will of a deceased person or administer the estate of a deceased person who died without a will.

Letters Testamentary - A document appointing a personal representative to implement the will of a deceased person. (Form is available on State Controller's website.)

Letters of Administration - A document appointing a personal representative to administer the estate of a deceased person who died without a will.

Taxpayer Identification Number - The federally assigned number used to identify a legal entity for tax purpose. For an individual, the TIN is the Social Security Number. An estate is assigned an Employer Identification Number (EIN) separate from the deceased individual's Social Security Number.

Unclaimed Property "Holder Reimbursement Form" - The form that agencies must complete and return to the Unclaimed Property administrator (with a copy of the approved payment voucher) to request a refund of agency funds that were remitted to Unclaimed Property when the reissued warrant expired.

Administrative/Fiscal Requirements:

Agencies are responsible for meeting the following requirements.

- ♦ The final Expired Warrant Log (report EAP16R) must be maintained as a permanent record for all warrants expired prior to June 28, 1997. The COFRS EXPW table is the permanent record for all warrants expired June 28, 1997 and later.
- ♦ When a warrant is reissued, a notation must be made on the final Expired Warrant Log (EAP16R) or the COFRS EXPW table to record the reissued warrant number, payment voucher number and date of the reissue.

- ♦ A warrant that is not on the final Expired Warrant Log (EAP16R) or recorded as expired on the COFRS EXPW table is not an “expired warrant” and may not be reissued using this procedure.
- ♦ A reissued expired warrant must be for the exact amount of the original warrant, from the original fund and agency.
- ♦ An expired warrant must be reissued to the same payee as the original warrant except in the following cases:
 - When the payee’s name has changed. A copy of a marriage license, social security card or court document must be submitted to verify the name change.
 - Deceased payee. A copy of the death certificate must be submitted to establish the death of the payee. An *Affidavit for Collection of Personal Property Pursuant to Small Estate Proceedings*, letters testamentary or letters of administration must be submitted to establish the identity of the successor or personal representative.

Procedures

An expired warrant may be reissued at the request of the original payee, a third party appointed by the payee, the successor or personal representative of a deceased payee, or a third party appointed by the successor or personal representative of a deceased payee. Treasury should be contacted before any reissue of an expired warrant to verify that Unclaimed Property did not previously pay the claim.

Step 1 of the following procedures addresses each type of request in turn.

Procedural Steps:

STEP 1A. Receive a reissue request from an original payee. Require one of the following items as validation to request a reissue of the warrant in the original name.

- ♦ The original expired warrant with a request from the payee requesting its reissue.
- ♦ A letter requesting reissue signed by the payee and containing the original warrant number, payee name and correct amount. An *Affidavit of Lost Warrant* is acceptable.

IN ADDITION to one of the above items, require proof of a name change to validate a request from the original payee to reissue the warrant to a new name. A marriage license, Social Security card or court document is acceptable.

STEP 1B. Receive a reissue request from a third party acting on behalf of an original payee. Either the original expired warrant must be returned with the request or the warrant number, warrant date, original payee name and amount must identify the warrant. Require both of the following items to validate the request.

- ♦ A Power of Attorney signed by the original payee, authorizing the third party to act on his or her behalf. The Power of Attorney must be original, unaltered and notarized and must contain the taxpayer identification number (TIN) of the payee.

- ♦ A photocopy of the original payee's social security card, driver's license, passport or other official document that can be used to verify the signature on the Power of Attorney.

STEP 1C. Receive a reissue request from the successor or personal representative of a deceased payee. Either the original expired warrant must be returned with the request or the warrant number, warrant date, original payee name and amount must identify the warrant. Require one of the following items to validate the request.

- ♦ A photocopy of the original payee's death certificate;
- ♦ An *Affidavit for Collection of Personal Property Pursuant to Small Estate Proceedings*, letters testamentary or letters of administration;
- ♦ A Power of Attorney signed by the successor or personal representative, authorizing the third party to act on his or her behalf and a photocopy of the successor or personal representative's Social Security card, driver's license, passport or other official document that can be used to verify the signature on the Power of Attorney. The Power of Attorney must be original, unaltered and notarized and must contain the taxpayer identification number (TIN) of the successor or personal representative.

STEP 2. Confirm that the warrant is expired by reviewing the final Expired Warrant Log (EAP16R) and/or scanning the EXPW table in COFRS.

STEP 3A. Verify that the original payee name on the request is the same as the payee on the final Expired Warrant Log or the EXPW table. Payee names on the Expired Warrant Log or EXPW table may not be complete. If the original payee cannot be confirmed from the log, use the warrant number and amount to locate the original payee name on the original warrant register and use this name to confirm the original payee name on the request.

STEP 3B. Review agency payment records to verify that a subsequent payment was not made for the same goods and services. Examining your agency's payment records for another payment of the same amount to the same vendor provides a final precaution against the possibility that a warrant expired because it was in fact a duplicate payment. If not, enter a PV transaction in COFRS to reissue the warrant using the original fund and agency, debiting balance sheet 2751.

STEP 4. Request reimbursement of the expired warrant funds from the Unclaimed Property administrator for the amount of the warrant, less any federal funded portion recorded on the EXPW table. Use the *State of Colorado – Treasurer's Office, Holder's Request for Reimbursement Standardized Holder Claim Form* available on the State Controller's website. A current online version of the form that can be filled out on your computer prior to printing is available online by using the following link: http://www.treasurer.state.co.us/payback/reporting/holderreimburse_CO.pdf.

Complete the form, notarize it, and return it to the Unclaimed Property Administrator with a screen print of the approved payment voucher that was entered into COFRS for the expired warrant reissue.

Once the Unclaimed Property administrator approves the agency reimbursement, Treasury will process a journal to restore the funds expended from the agency, crediting Balance Sheet 2751.

STEP 5. When the new warrant is printed and returned, highlight the original warrant number, payee name, and amount on the Expired Warrant Log. Write the reissue warrant number, PV number, and date of the reissue on the log. For the EXPW table, complete the fields for Reissue Warrant number, date, bank code, amount, vendor code and vendor name.

Keeping an accurate record is important to prevent reissuing a warrant more than once.

CHAPTER 7: SECTION 1

EXTERNAL BANK ACCOUNTS

1.1 External Bank Account Approval Process

Per the requirements of CRS 24-36-103, 24-36-104, and 24-75-202, departments, institutions or agencies must obtain approval from the State Controller and the State Treasurer to open an external bank account. Approval for the account must be granted prior to contacting the bank to open an account.

The agency should prepare and submit a written request for an external bank account to the State Controller's Office (SCO), signed by the department controller. Send the written request to the agency's field accounting specialist. This request should contain the following information:

1. Type of account requested (i.e. depository, imprest, checking/savings)
2. Justification for the account, which should include:
 - a. Why this money cannot be directly deposited with the treasurer;
 - b. Why state warrants cannot be issued;
 - c. Use of account (i.e., What moneys will be deposited into the account? What kind of disbursements will be made out of the account?);
 - d. Statutory or regulatory requirements;
 - e. Anticipated average daily balance in the account; and
 - f. Any other information available to clarify the review.
3. Bank preference, if known.

The SCO reviews the request and, if approved, completes the Departmental Bank Account Authorization form. The SCO then routes the authorization form to the State Treasurer for review and approval. If the State Treasurer approves the request, the original authorization form is filed in the SCO and copies are sent to the State Treasurer and to the requesting agency. Additional information regarding the bank name, account number and other items need to be provided to the SCO once the external bank account is opened. A form is provided along with the approved authorization to relay this information to the SCO. If either the SCO or the State Treasurer denies the request, the agency is notified by the SCO.

If the agency has questions regarding banking issues relative to opening an external bank account, they should contact the cash manager in the Department of Treasury (303-866-3253) prior to submitting the request for approval. Approvals for a group of accounts will be granted only for agencies that have numerous accounts for the same purpose, e.g., drivers license offices throughout the state. The Department of Treasury will perform a periodic review to re-authorize existing external bank accounts.

1.2 Deposit of Public Funds

Public funds are required by statute to be deposited in eligible public depositories. CRS 11-10-111 states in part,

“Any official custodian may deposit public funds in any bank which has been designated by the banking board as an eligible public depository. It is unlawful for an official custodian to deposit public funds in any bank other than one that has been so designated.”

“Each official custodian shall inform an eligible public depository that the public funds on deposit are subject to the provisions of this article before entering into a depository agreement with the eligible public depository.”

PDPA (Public Deposit Protection Act) numbers are used to identify banking institutions, including savings and loan associations, eligible to accept public funds, and to identify funds on deposit as belonging to public institutions. Department PDPA numbers should not be used on any accounts where the funds are not public funds. Funds recorded on COFRS, fund 900 (agency funds) are considered public funds.

The department should request a copy of the banking institution’s certification as an eligible public depository and maintain it for its records. This certification should include the 5-digit PDPA number assigned to the *banking institution*. The bank’s PDPA number should be reported back to the SCO along with the other applicable banking information.

Each *department* of the state has been assigned a 12-digit PDPA number. The State Treasurer is generally considered the official custodian of state funds. Contact the cash manager at the Department of Treasury (303-866-3253) with questions regarding state funds, and for the PDPA number assigned to your department. **The department’s PDPA number must be furnished to the banking institution at the time the account is opened.** Any questions regarding banking institutions authorized to accept public funds should be directed to the Department of Regulatory Agencies, Division of Banking at 303-894-7573. The Division of Financial Services within the Department of Regulatory Agencies maintains the eligible list of savings and loan institutions. They can be reached at 303-894-2336.

1.3 Turnaround Report

External bank account information will be verified on an annual basis. A turnaround report will be sent by the SCO to each department prior to fiscal year close. Agencies may also find the report useful to prepare bank confirmations. This report will be used to update the information maintained by the SCO on external bank accounts used by the departments. Instructions and due dates will be distributed with the report. The turnaround report is not to be used to request approval for an external bank account. Request for approval should follow the procedure explained above.

The Division of Banking (DOB) compares the external bank account information maintained by the SCO to account information submitted by the banking institutions. Information obtained by the DOB regarding missing accounts or other account information will be sent to the agencies or institutions along with the turnaround report. This information should be reviewed and account information added or adjusted as appropriate.

CHAPTER 8: SECTION 1

CREDIT/ACCOUNTS RECEIVABLE POLICY

CRS 24-30-202.4 states:

“The controller shall advise and assist the various state agencies concerning the collection of debts due the state through such agencies, in accordance with rules and regulations promulgated by the executive director of the department of personnel, to achieve the prompt collection of debts due such agencies.

Upon referral to the controller of debts due the state, the controller shall institute procedures for collection thereof pursuant to the rules and regulations promulgated therefore by the executive director of the department of personnel.”

The executive director for the Department of Personnel & Administration (DPA) has issued the Accounts Receivable Collections Administrative Rule (the Rule) that establishes policies and procedures for the collection of debts due all state agencies and institutions (state agencies). The Rule provides general guidance to state agencies in developing procedures for collection of accounts receivable. The Rule also provides general guidelines on submitting accounts to Central Collection Services (CCS) in DPA. The Rule does not outline a statewide credit policy nor does it have definitions for important terms involved in the collection of debts due the state.

This policy outlines the State of Colorado credit policy and provides state agencies with definitions of selected terms involved with receivables and receivable collections. It also provides procedural guidance on recording, reporting, and collecting debts due the state.

This policy applies to debts due the state from sources other than the federal, state or local governments. The policy applies to all state agencies unless specifically exempted by statute. If a state agency determines that compliance with this policy presents an undue hardship on the operations of the department, the state agency should consult with the State Controller’s Office on the need to deviate from the policy.

1.1 State of Colorado Credit Policy

It is the policy of the State of Colorado that:

- ♦ State agencies implement policies and procedures that ensure prompt payment of amounts due the state. This includes developing and implementing a credit policy for the state agency.
- ♦ State agencies, where possible, collect for goods or services provided at or before the time of delivery. State agencies are encouraged to institute a credit card acceptance procedure as soon as possible.
- ♦ State agencies extend credit only when required by statute or other administrative rule or when collectibility is reasonably assured and appropriate steps are taken to protect the interest of the State.

- ♦ All invoices, which represent an extension of credit under this policy, must include a due date when payment is required to be received by the state agency, unless the due date is otherwise specified by written agreement.
- ♦ State agencies should not voluntarily extend credit to individuals or business known to have non-discharged debts resulting from a bankruptcy order within the past seven years of the most recent request for credit. Under these circumstances, state agencies must receive payment for goods or services in advance or at the time the goods or services are provided.

When credit is voluntarily extended, the state agency must obtain sufficient information from the debtor to allow for collection efforts should the debt not be repaid on a timely basis. State agencies must make every effort to obtain sufficient information from a debtor when the state agency is required to extend credit. The Rule includes relevant information that state agencies should obtain before extending credit.

1.2 State of Colorado Past Due Receivable Policy

The Rule requires:

- ♦ State agencies bill for goods or services rendered as quickly as possible.
- ♦ State agencies establish a definite schedule of payment of the account receivable.
- ♦ State agencies refer all debts to the State Controller for collection when the debt is 30 days past due or in accordance with an approved alternative timeframe. This requirement is met by sending the past due accounts to CCS.

The Rule defines a debt as being “past due” if the debt has not been paid by the close of business on the due date.

Due date is defined as the date when payment for invoiced goods or services must be made to the state.

It is the policy of the State of Colorado that:

- ♦ State agencies implement methods or procedures to identify and follow-up on past due receivables. This includes, but is not limited to, a periodic aging of all accounts receivable.
- ♦ State agencies establish a due date that provides reasonable assurance of prompt payment by the recipient, when it is not feasible to collect payment at the time the goods or services are provided.
- ♦ State agencies reconcile internal records to reports issued by CCS showing past due accounts receivable amounts submitted to CCS for collection on a periodic basis, but not less than quarterly based on the state’s fiscal year.

1.3 Write-Off of Accounts Receivable

Write-off of an amount due the state is an accounting process for removing uncollectible charges from accounts receivable balances. Write-offs are done for financial reporting purposes. Write-offs do not affect the validity of the debt or the continuing collection efforts. The debt is still considered valid and due and collection efforts will continue. State agencies are required to monitor past due accounts and determine whether an account is deemed uncollectible and should be written off for financial statement purposes. The Rule outlines the procedure to be followed to

request a write-off of an amount due the state. The State Controller's Office provides guidance on how to record write-offs on the state's accounting system. In addition, CCS provides the state agency with a Recommendation to Write-off Report on a monthly basis.

1.4 State of Colorado Accounts Receivable Write-off Policy

It is the policy of the State of Colorado that state agencies shall, at least annually, review their accounts receivable prior to the end of the fiscal year and request a write-off of accounts deemed uncollectible. At a minimum, state agencies should request that all past due accounts with no payment activity for at least 27 months that have been through a tax-offset process be written off. Other criteria may exist which support writing-off an amount due the state.

When determining if an account is uncollectible, a state agency should consider the following factors:

- ♦ Age of the receivable
- ♦ Payment activity on the account
- ♦ Results of legal actions taken
- ♦ Financial condition or other relevant information regarding the debtor
- ♦ Results of tax-offset process

Because a write-off does not affect collection efforts, state agencies should maintain detail regarding the original charges and other fees even after the receivable has been written-off. There is no statute of limitations on debts due the state.

The request for write-off should be processed in accordance with the rule procedures. For write-off requests submitted to CCS, CCS will make a recommendation to the State Controller's Office. The SCO will make a decision based on the recommendation made by CCS.

1.5 Cancellation of Accounts Receivable Submitted to CCS

Under certain circumstances, a state agency may determine that an account was inappropriately submitted to CCS or other events have occurred that results in a need to recall the account from CCS. In that event, the state agency may submit a cancellation request to CCS. A cancellation stops all collection efforts and removes the account from CCS's database. Information on how to request a cancellation can be obtained from CCS.

A cancellation request could occur under the following conditions:

- ♦ The state agency determines that the debt should never have been submitted to CCS because it was not a valid receivable or other similar reason. This includes debts submitted to CCS where collection efforts cannot proceed because the required debtor information or evidence supporting the underlying charge is not available. The state agency should remove the receivable from the accounting records.
- ♦ A loan guaranteed by the federal government or some other guarantee organization is in default and the loan is turned over to the guarantee organization for collection. The state agency should remove the loan from the accounting records.
- ♦ A past due account is submitted to CCS, by a state agency authorized to collect on past due accounts receivable using a means or method other than CCS, and the state agency chooses to use other means or methods to collect the debt. The receivable remains on the state agency's accounting records.
- ♦ A state agency receives payment to bring account into current status within five working days of placing the account with CCS. The receivable remains on the state agency's accounting records.

- ♦ An order of bankruptcy discharge that identifies the state's debt as being discharged. The state agency should remove the receivable from the accounting records.
- ♦ Death of the debtor with no estate to make a claim against. The state agency should remove the receivable from the accounting records.

A cancellation request should not be used to recall an account from CCS because of direct payment to the state agency or to stop collection efforts because the state agency wants to forgive, settle, or otherwise compromise the amount that is due the state.

1.6 Administrative Adjustment of Balances for Accounts Submitted to Central Collection Services

A state agency may need to change the principal or interest amount of debt reported to CCS as past due. An adjustment could be necessary due to an error or other principal change since the original amount was placed for collection. Compromises of debt approved by the State Controller and State Treasurer are also treated as administrative adjustments. The state agency may submit an adjustment request to CCS. Except in the case of compromises or settlements, collection efforts will continue on the remaining outstanding balance. CCS can provide information on how to request an adjustment to an account.

An adjustment should not be requested when a payment is received directly by the state agency or as a means to settle, forgive or otherwise compromise an amount due the state that has not been approved by the State Controller and State Treasurer.

State agencies may also need to adjust the internal records because of minor differences between amounts reported by CCS. State agencies may make these miscellaneous adjustments to the internal records without the approval of the State Controller and without submitting an adjustment request to CCS. In general, these types of adjustments should be less than ten dollars.

State agencies should make appropriate entries to the accounting records to reflect administrative adjustments made by CCS.

1.7 State of Colorado Policy on Forgiveness, Settlement, or Other Compromise of Debt Due the State

CRS 24-30-202.4 (c) states:

“The controller, with the consent of the State Treasurer, is authorized to write off, release, or compromise any debt due the state, but only in accordance with the rules and regulations applicable thereto.”

It is the policy of the State of Colorado to forgive, settle, or compromise amounts due the state only when it is in the best financial interest of the state to do so.

A forgiveness, settlement, or other compromise of a debt due the state involves a decision on the part of the state not to collect an amount due the state or collect an amount less than the full outstanding balance, including interest and fees. A state agency may believe it is in the best financial interest of the state to forgive, settle or compromise a debt. The state agency must submit a request to the State Controller to forgive, settle or compromise a debt. All such requests should be submitted to the State Controller through the CCS.

The request for forgiveness, settlement, or compromise should include:

- ♦ Debtor name, social security number, CCS debtor number,
- ♦ Original balance of debt, amount paid, amount to be settled,
- ♦ Collection efforts made, and
- ♦ All relevant financial information used in deciding why the recommended action is in the best financial interest of the state.

If the State Controller concurs with the request, he will forward the request to the State Treasurer. If the State Treasurer concurs with the request, an approval letter will be sent to CCS, which CCS will forward to the state agency that made the request. If the State Controller or State Treasurer does not approve the request, it will be returned to CCS as denied. CCS will forward the denied request to the state agency. If approved by the State Controller and State Treasurer, CCS will apply any final payment, adjust the balance of the account on CCS's inventory system to zero, and change the status on the account to settled in full (SIF). No further collection activity will occur. A settlement or compromise is treated like an administrative adjustment.

CHAPTER 9: SECTION 1

ACCOUNTING FOR CAPITAL ASSETS, INFRASTRUCTURE AND RELATED DEBT

All governmental funds (except permanent trust funds) are required to account for and depreciate capital assets meeting the capitalization threshold, in fund 471 on COFRS. All proprietary funds, including institutions of higher education, are required to account for and depreciate their capital assets in their respective funds.

1.1 Capital Asset Reporting Systems

All state agencies and institutions are required to maintain a detailed record of all capital assets. These records should include the cost, acquisition date, disposal date, estimated useful life, calculated annual depreciation, and accumulated depreciation for each capitalized asset. Acceptable systems for maintaining capital asset records include the COFRS Fixed Asset module, approved stand-alone fixed asset systems, databases and spreadsheets such as Excel or Lotus. Agencies are reminded that the State Controller's approval is required before a stand-alone fixed assets system is purchased.

1.2 Definition of Capital Assets

Capital assets are long-lived assets, owned by the state, that are held primarily for use in an agency's operations and programs. Examples of such assets include land, improvements to land, buildings, leasehold improvements, equipment (including furniture, fixtures, machinery, vehicles, computer software and equipment), library books, works of art, historical treasures, and infrastructure. These assets result from either expenditures made by the agency or donations made to the agency from an external source. Capital assets have a useful life greater than one year and must be capitalized if they meet cost thresholds established in this section. Capital assets include both non-depreciable and depreciable assets.

The state will report non-depreciable capital assets in the following broad classes:

- Land
- Land Improvements (such as grading)
- Construction in Progress
- Collections (works of art and historical treasures whose useful lives are not diminished by display, educational, or research applications)
- Infrastructure (Departments of Transportation only)

State agencies are encouraged, but not required, to capitalize works of art and historical treasures that are:

- Held for public exhibition, education or research,
- Protected, cared for or preserved, and
- Subject to an organizational policy that requires the proceeds from sales to be used to acquire other items.

The state will report depreciable capital assets in the following broad classes:

- Leasehold and Land Improvements
- Buildings
- Vehicles and Equipment
- Library Materials and Collections
- Other Capital Assets
- Infrastructure (Department of Natural Resources only)

1.3 Valuing Capital Assets

Capital assets built or acquired by the state are recorded at historical cost, including ancillary costs necessary to place the assets in their intended location and condition for use. Ancillary costs include freight charges, site preparation, appraisal fees, and legal claims directly attributable to the asset's acquisition. In proprietary funds, agencies should capitalize interest costs accruing during the time when activities necessary to prepare the asset for its intended use are in progress. Generally this is the construction period, but it may also include the plan development period. A salvage value does not need to be estimated when recording and depreciating capital assets. However, if a state agency has historically estimated a salvage value on capital assets or believes not estimating a salvage value would have a material impact on the annual depreciation calculation, it is permissible to include a salvage value when recording and depreciating capital assets.

Donated capital assets are recorded at the estimated fair value of the assets at the time of donation. If historical cost information is unavailable after a search of bond documents, capital appropriations, donor records, etc., an estimate of the original cost using current replacement costs discounted by appropriate price indices is allowed.

1.4 Capitalization Criteria

The dollar amount of the purchase and the estimated useful life of the asset are the primary criteria the state uses to determine what assets are capital assets. Purchases of assets that meet the dollar thresholds in 1.4.1 and have an estimated useful life of more than one year will be capitalized.

1.4.1 Dollar Thresholds

For the purchase or construction of new assets, the following dollar thresholds should be used by agencies to determine if the asset should be capitalized. A state agency may select a lower minimum dollar threshold to capitalize the purchase of an asset, but an agency may not choose a higher dollar threshold.

Type of Asset	Capitalization Threshold
Land	All purchases are capitalized, regardless of cost
Land Improvements	\$50,000
Building	\$50,000
Leasehold Improvements	\$50,000
Infrastructure	\$500,000
Furniture and Equipment	\$5,000 per item
Library Materials and Collections	All purchases are capitalized, regardless of cost
Works of Art and Historical Treasures	\$5,000 per item/collection

For expenditures related to repair, remodeling or expansion of an existing capital asset, the agency must determine if the expenditure increased the capacity, operating efficiency or extended the useful life of the asset. If so, such expenditures are capitalized as part of the costs of the asset. Agencies should use the thresholds identified above to capitalize repair, remodeling or expansion expenditures. Expenditures that only serve to restore a capital asset to a working condition or do not enhance or extend the useful life should be recorded as repair and maintenance expense and should not be capitalized. A state agency must maintain appropriate documentation to support what constitutes an enhancement or useful life extension.

1.5 Estimated Useful Lives

The estimated useful life of a capital asset is a function of each agency's own experience. Supporting documentation for determining the estimated useful life would be engineering studies, actual experience documented in the records of similar assets, etc.. Some agencies may be required to follow the useful lives identified by third party regulators such as those specified by the American Hospital Association Depreciation Guide.

The following useful lives guidelines may be used by state agencies when calculating depreciation expense only if they have no supportable estimates of their own.

CAPITAL ASSET	ESTIMATED USEFUL LIFE
Buildings:	
Type 1 - Fireproof construction	40 years
Type 2 - Non-combustible construction (as classified by the Department of Public Safety in accordance with 780 CMR 402.0 and 403.0)	27.5 years
Type 3 - External masonry wall construction	27.5 years
Type 4 - Frame construction (as classified by the Department of Public Safety in accordance with 780 CMR 404.0 and 405.0)	27.5 years
Building Improvements	20 years
Leasehold Improvements	The greater of 5 years or the term of the lease
Equipment (non-office)	10 years
Computer Equipment	3 years

Other Office Equipment: Items such as copiers, ovens, washers, dryers, office files	6 years
Life Safety Improvements: Building or leasehold improvements or equipment acquisitions made solely to satisfy the requirements of any department regarding life safety or physical environment. Purpose must be documented.	5 years
New Motor Vehicles	5 years
Used Motor Vehicles	3 years
Residential Furnishings	3 years
Office Furnishings	10 years
Land Improvements Subject to Depreciation	20 years
Industrial Steam and Electric Generation and Distribution Systems	22 years
Aircraft	6 years
Watercraft	20 years
Buses	9 years
Roads, Tunnels and Bridges	50 years
Boating Facilities - buildings, piers, ramps	25 years

It is allowable to componentize capital assets such that various components of the asset are depreciated over different useful lives. An example is a building. As the building ages, the shell or foundation may be depreciated over a longer useful life than the HVAC (Heating, Ventilation, Air-Conditioning) system.

1.6 Recording of Capital Assets

Capital assets purchased by proprietary funds, including institutions of higher education, are recorded in the fund in which they operate, or in the case of higher education, in the discrete higher education plant fund, and depreciated there. Capital assets purchased by all governmental funds other than the permanent trust fund, are recorded in fund 471.

Normally non-depreciable land is the only capital assets of the permanent trust funds. Thus they are recorded in the permanent trust funds and there is no depreciation. In the rare instance that a depreciable capital asset is held by a permanent trust fund then the asset would be capitalized in the trust fund but depreciated in fund 471. Contact the State Controller's Office if further clarification is needed.

The recording and reporting of capital assets for financial reporting purposes is different than management's responsibility to safeguard fixed assets. An agency may want to maintain inventory control over purchases of fixed assets that do not meet the capitalization thresholds discussed in this chapter. When an agency makes this choice, it is essential that the object of expenditure recorded is not in the capital purchases series (61XX, 62XX, 63XX, 64XX, 65XX, 66XX, 23XX). Through the diagnostic process Reporting and Analysis will determine if agencies have completed the Fund 471 entries by matching the credit totals in Fund 471 to the debit totals in governmental funds for the capital purchases object series. This includes items normally recorded in the 19XX object codes, such as, Engineering and Architectural Fees. If these expenditures are to be capitalized, agencies should use object code 6510 instead of the 19XX objects.

The COFRS chart of accounts includes numerous balance sheet codes in the 18XX series to record the various types of capital assets within the above broad classes. Definitions are available on the State Controller's Office web page in the chart of account definitions and in the accounting standards for higher education institutions. It is the policy of the State of Colorado that only the Departments of Transportation and Natural Resources will record and report infrastructure capital assets.

Example of the Purchase of a Capital Asset in a Governmental Fund

Under modified accrual used in governmental funds, capital purchases are expenditures, and interest incurred during construction is not capitalized. The normal budgetary and financial entries for a governmental fund are shown below on the first three lines. The entries required in fund 471 are necessary to reverse out the expenditure related to the purchase and capitalize the asset for the government-wide statements.

		FUND 100		FUND 471	
22	Capitalized Property Purchase	5,000			
22	Interest Expense*	50			
01	Cash		5,050		
01	Equipment*			5,000	
22	Capitalized Property Purchase				5,000

*Note that the Interest Expense remains an expenditure and is not included in the capital valuation of the asset.

Example of the Purchase of a Capital Asset in a Proprietary Fund

Under full accrual, used in proprietary funds, capital assets and interest expense incurred during construction of capital assets are both capitalized in the fund. A type 23 account is used to record the budget expense and to record the equipment on the balance sheet at its capital cost of \$5,050, which includes interest. No fund 471 entry is required.

		FUND 505		FUND 471	
23	Capitalized Property Purchase	5,000			
23	Interest Expense	50			
01	Cash		5,050		

The use of a Type 23 in the proprietary fund, instead of a Type 22, results in an entry being made to both the budgetary ledger and the related asset account in the general ledger. This results in the property purchase and interest being shown correctly as an expense on the COFRS budgetary

reports, but not on the financial reports. On the financial report \$5,050 was properly capitalized in an 18XX balance sheet account.

Example of the Donation of a Capital Asset

Under modified accrual, donated capital assets are not accounted for in a governmental fund, but are recorded at their fair market value at the time of donation in fund 471.

		FUND 100		FUND 471	
01	Land			10,000	
31	Donation-CA Land (Revenue Account 6609)				10,000

Governmental Fund Capital Assets Funded 100 Percent by the Capital Construction Fund

In the example below, an agency has made leasehold improvements that benefit a governmental fund and are funded by capital construction money. The money is spent (Type 22) in the Capital Construction Fund and the asset is capitalized in the 471 fund.

		FUND 461		FUND 471	
22	Leasehold Improv-Dir Purchase	55,000			
01	Cash		55,000		
01	1830 Leasehold Improvements			55,000	
22	Leasehold Improv-Dir Purchase				55,000

Proprietary Fund Capital Assets Funded 100 Percent by the Capital Construction Fund

Using the same set of facts as the example immediately above except, that the fund benefiting from the asset is a proprietary fund, then the asset is capitalized in the proprietary fund.

		FUND 461		FUND 5XX	
22	Leasehold Improv-Dir Purchase	55,000			
01	Cash		55,000		
01	1830 Leasehold Improvements			55,000	
31	8800 Capital Contribution				55,000

Proprietary Fund Capital Assets Funded 100 Percent by the Proprietary Fund

For non-higher education funds when there is no capital construction funding of a capital asset then all of the accounting is done in the proprietary fund using a type 23 account to record both the expense for budgetary accounting and an asset for financial accounting.

For higher education funds where the project is a S.B. 202 project then the accounting is done solely in the Plant Fund, exempt or non-exempt. Where the project is not a S.B. 202 project then the accounting is done in either the capital construction fund or the 375 plant fund. If the accounting is in the 461 fund, then the expenses are recorded in the 461 fund and cash is transferred to the 461 fund as augmenting revenue from the higher education plant fund. All higher education capital construction projects are accounted for in the plant funds, but some capital construction projects are accounted for in both the 461 fund and the plant funds. The State Controller's Office will use post-closing adjustments to eliminate the augmenting revenue and associated expenditures in the 461 fund so that the duplicate accounting is eliminated for the state's financial statements.

Proprietary Fund Capital Assets Split Funded by the Capital Construction Fund

If the project is funded both by the capital construction fund and a non-higher education proprietary fund, then it must be accounted for in the capital construction fund. The proprietary fund must record a receivable when it moves cash to the 461 fund. The 461 fund records the cash and revenue. At year end, the proprietary fund must capitalize the asset, reduce the receivable for the cash funded portion that was capitalized, and record a capital contribution for the capital construction fund portion.

		FUND 461		FUND 5XX	
01	1350 IG Receivables- General			27,500	
01	Cash				27,500
01	Cash	27,500			
31	7312 Advance from State Gov.		27,500		
22	Capitalized Property Purchase	55,000			
01	Cash		55,000		
	<i>At Year end</i>				
01	18XX Capital Asset Account			55,000	
01	1350 IG Receivables – General				27,500
31	8800 Capital Contribution				27,500

For split-funded projects in higher education, accounting entries must be duplicated in the plant funds and fund 461. The plant fund expenses the money reimbursed to the capital construction fund instead of treating it as an intergovernmental receivable. When the asset is capitalized in either fund 399 or the plant fund, the expense is eliminated instead of the intergovernmental receivable. At year end the State Controller's Office will eliminate the 461 fund expenditures to the extent of the cash funded augmenting revenues recorded in fund 461 leaving the capital construction funded expenditures in place. The State Controller's Office will also reclassify the unbalanced transfer-in code in the plant fund (revenue source code EBGD) to a capital contribution (revenue source code 8800). This treatment results in the capital construction funded portion showing as an expenditure in 461 and as a capital contribution in the plant fund.

The result is the same when construction payments are made from the plant fund and the 461 fund reimburses the plant fund for the capital construction funded portion. Under this scenario, the institution records an expenditure for the cash reimbursed to the plant fund and an expenditure offset by augmenting revenue (revenue source code 9400 or 9401) in the 461 fund for the cash funded portion. **Transfer codes should never be used for the 461 memo entries when recording augmenting revenue in fund 461. Institutions should either use the revenue source code of the original revenue recording or use revenue source code 9400 or 9401.**

1.7 Recording Depreciation Expense

All exhaustible capital assets are depreciated using the straight-line method, estimated salvage value (agency option), and the estimated useful lives as determined by the agency or obtained from the table above.

Agencies have the option of depreciating each capital asset or depreciating by class of capital asset. Agencies also have the option of using an estimated salvage value when calculating depreciation. Agencies are required to record depreciation expense on capital assets at least by the end of the fiscal year. More frequent entries to record depreciation expense are permitted.

Depreciation expense is recorded in fund 471 for the capital assets of the governmental funds and in each fund for proprietary funds.

The State Controller's Office recommends, but does not require, that agencies use the "half-year" convention when calculating depreciation expense in the year in which an asset is purchased and disposed. The "half-year" convention works as follows: Regardless of what month you place the asset in service, you calculate and record depreciation expense as if the agency placed the asset in service on January 1 of the fiscal year. This results in the agency recording depreciation expense for one-half of the first fiscal year. Likewise, regardless of when an asset is disposed, the agency treats the asset as if it was disposed on January 1 of the fiscal year and records a half year of depreciation expense. An alternative methodology is to calculate depreciation expense based on the actual month the capital asset is placed in service. Taking a full year's depreciation in the year an asset is placed in service is not permitted unless the asset is placed in service on July 1.

1.8 Disposing of Capital Assets in Governmental Funds

Under full accrual accounting required for the state's government-wide financial statements, state agencies must recognize a gain or loss on the sale or disposal of capital assets. An accounting gain or loss on the disposal of a capital asset occurs when the net book value of the asset, that is, original cost minus accumulated depreciation, does not equal the cash or other consideration received when the asset is disposed.

Before recording the disposal entries, depreciation expense must be recorded for the asset in fund 471 for the year in which it is disposed. Then accumulated depreciation is debited equal to the amount of accumulated depreciation recorded for the asset since the asset was placed in service. The capital asset balance sheet code is credited in an amount equal to the original cost of the asset plus any amounts added to the cost of the asset over time. Revenue source code 6502 Sale of Real Property or 6503 Gain/Loss on Sale of Equipment is then debited to balance the entry. This entry is made whether the agency received any cash or not on the disposal of the asset. The cash is recorded in the governmental fund with the corresponding credit to the revenue accounts 6502 or 6503.

The following is an example of the a gain on disposal. An asset with a cost of \$5,000 and a book value of \$3,500 is sold for \$4,000.

		FUND 100		FUND 471	
01	Cash	4,000			
31	Gain/Loss on Sale of Fixed Asset		4,000		
31	Gain/Loss on Sale of Fixed Asset			3,500	
01	Accumulated Depreciation			1,500	
01	Equipment				5,000

The following is an example of the a gain on disposal. An asset with a cost of \$5,000 and a book value of \$3,500 is sold for \$3,000. Note that the entries are exactly the same in fund 471 as the sale of the asset with a gain. The gain or loss is determined only when the funds are merged and the ending balance is either a debit or a credit.

		FUND 100		FUND 471	
01	Cash	3,000			
31	Gain/Loss on Sale of Fixed Asset		3,000		
31	Gain/Loss on Sale of Fixed Asset			3,500	
01	Accumulated Depreciation			1,500	

01	Equipment				5,000
----	-----------	--	--	--	-------

1.9 Recording Depreciation on Capital Assets Near the End of Their Useful Life

If an agency has been using depreciation for expensing capital assets against federal grants and those assets are fully depreciated (whether directly to the grants or through an indirect charge), then those assets should be recorded on books as fully depreciated.

For other capital assets that are approaching the end of their originally estimated useful life, the agency should make an estimate of how much useful life remains and adjust the depreciation accordingly. In other words, it would not be expected that assets that were still serving an economic purpose would be recorded on the books as fully depreciated. For example, if an agency had an asset that it originally was going to depreciate over a three-year useful life but determined in the third year that the asset would last four years then the last one-third of the remaining book value of the asset would be depreciated over those remaining two years. This only applies to material amounts. If the remaining book value is greater than the capitalization criteria for that asset type then it is considered material.

1.10 Transfer of Capital Assets Between Agencies

If a capital asset is transferred between two agencies and there is no exchange of cash, then the asset and related accumulated depreciation should be removed from the sending agencies books and the identical amounts should be added to the receiving agencies books with any needed debit or credit to the revenue code 650X Gain/Loss On Disposal Of Property.

For example a server valued at \$7,500, with a useful life of 3 years and depreciated for one year using the mid-year convention is being transferred from Human Services to Health Care Policy and Financing. Both agencies record the equipment in Fund 471. Note that at the Statewide level the Gain/Loss is zero.

		Agency IHA		Agency UHA	
01	1840 Furniture and Equipment		7,500	7,500	
01	1849 Accumulated Depreciation	1,250			1,250
31	6503 Gain/Loss on Equipment	6,250			6,250

1.11 Dates for Recording Infrastructure Prospectively and Retrospectively

All infrastructure with a value greater than the threshold amount of \$500,000 must be recorded in the appropriate accounts in Fund 471 if that infrastructure is acquired or constructed after July 1, 2001. Infrastructure acquired since the beginning of FY80-81 must be recorded prior to June 30, 2006.

CHAPTER 9: SECTION 2

BASIC FINANCIAL STATEMENTS AND MANAGERIAL DISCUSSION AND ANALYSIS -- FOR STATE AND LOCAL GOVERNMENTS

The state implemented GASB 34/35 beginning July 1, 2001. Changes were made in the state's fund groupings and chart of accounts to accommodate the reporting requirements of the new reporting model. In addition, some funds changed fund types. Funds 471 and 472 are longer reported in the fund financial statements. Agencies now report depreciation on their capital assets and the state's major infrastructure has been added to the financial records. Capital assets are segregated into depreciable and non-depreciable. Grants are segregated into capital and operating. The colleges and universities now report as a single proprietary fund. In the governmental funds, modified accrual accounting is done in the funds with additional entries made in fund 471 to convert the modified accrual basis to full accrual for presentation in the government-wide statements.

2.1 Statements Required Under GASB 34

Government-wide Statements

- Statement of Net Assets
- Statement of Activities

Fund Level Statements

Governmental Funds

- Balance Sheet
- Statement of Revenues, Expenditures, and Changes in Fund Balance

Proprietary Funds

- Statement of Net Assets
- Statement of Revenues, Expenses, and Changes in Net Assets
- Statement of Cash Flow

Fiduciary Funds

- Statement of Fiduciary Net Assets
- Statement of Changes in Fiduciary Net Assets

2.2 Fund Structure Under GASB 34

Governmental Funds

- General Fund
- Special Revenue Fund
- Debt Service Fund
- Capital Projects Fund
- Permanent Funds

Proprietary Funds

- Enterprise Funds
- Internal Service Funds

Fiduciary Funds

- Pension and Other Employee Benefit Trust Funds
- Investment Trust Funds
- Private Purpose Trust Funds
- Agency Funds

Please refer to the FY04-05 chart of accounts in this manual for a detailed list of the fund numbers by fund category and type. Note that due to the reclassification of funds for GASB 34, the fund numbers are no longer “smart-coded.”

2.3 Required Financial Statements for Stand-alone Statements

Proprietary funds that issue stand-alone statements are required to issue the following:

- ♦ Management Discussion and Analysis;
- ♦ Statement of Net Assets;
- ♦ Statement of Revenues, Expenses, and Changes in Fund Net Assets;
- ♦ Statement of Cash Flows; and
- ♦ Notes to the financial statements.

Governmental funds that issue stand-alone statements are required to issue the following:

- ♦ Management Discussion and Analysis;
- ♦ Balance Sheet;
- ♦ Statement of Revenues, Expenditures, and Changes in Fund Balances;
- ♦ Notes to the financial statements; and
- ♦ Budget to Actual Statement as Required Supplementary Information for their participation in the general fund or any major special revenue fund.

2.4 Tasks Required to be Performed by State Agencies

1. See Section 1 of this chapter for a detailed description of the following items:

- ♦ Separately record depreciable and non-depreciable capital assets.
- ♦ Record depreciation on all depreciable assets.
- ♦ Book all infrastructure retrospectively back to FY80-81 by June 30, 2006.
- ♦ Maintain records for infrastructure maintenance using the modified approach.

2. All Governmental Funds

- ♦ Segregate deferred revenue balances in distinct accounts:
 - Deferred revenue related to long-term assets, and
 - Deferral of advances.
- ♦ Permanent Funds Only
 - Code additions to permanent funds to revenue source code 9525.

-- Account for the expendable and nonexpendable portions of the permanent funds in separate funds.

- ♦ Separately code restricted assets (usually cash, investments, or receivables) whose restrictions are:
 - Externally imposed by creditors, grantors, contributors, or laws or regulations of the federal government, or
 - Imposed by the state constitution.
- ♦ Classify investments as short term and long-term, and classify liabilities and current and noncurrent.
- ♦ Separately code capital asset related debt from other debt.

3. All Proprietary Funds

- ♦ Classify proprietary fund type assets and liabilities into current and non-current for the fund's Statement of Net Assets. Current assets are those that will be converted into cash in the next fiscal year. Current liabilities are those that will be liquidated in the next fiscal year.

- ♦ Separately code restricted assets (usually cash, investments, or receivables) whose restrictions are:
 - Externally imposed by creditors, grantors, contributors, or laws or regulations of the federal government, or
 - Imposed by the state constitution.
 - ♦ Separately code capital asset related debt from other debt.
 - ♦ Internal services funds must use revenue source codes to identify which agencies they receive revenue from. Refer to the chart of accounts in this manual for the proper account codes and names to use.
4. **Fiduciary Funds Only**
 - ♦ Clear all agency funds of payables to other state agencies by agency close each fiscal year.
 - ♦ Record group benefits plans as a pension and other employee benefit trust fund.
 - ♦ Separately record deferred compensation (457 plans) receipts as employer pension contributions and member pension contributions.
 5. **Colleges and Universities Only**
 - ♦ Report cash flow information by governing board on Exhibit V to the SCO.
 - ♦ Report internal service fund accounting on COFRS in fund 328.
 - ♦ Report higher education segment financial information to the SCO on Exhibit T.
 6. **All Funds**
 - ♦ Separately code operating and capital grants.
 - ♦ Separately code grants to other state agencies between federal sub-recipient codes and state government codes. Each of the federal and state subrecipient codes must be further segregated into intrafund and interfund.
 - ♦ Complete Exhibit U for special and extraordinary items and other miscellaneous financial statement disclosures at each fiscal year end.
 - ♦ Capitalize material inventory amounts at each fiscal year end.

2.5 Other Uses of Fund 471

2.5.1 Recording Deferred Revenue for Long-term Receivables in Governmental Funds

Under modified accrual the revenue for long-term receivables is deferred in the fund, but under full accrual the revenue is not deferred. The fund financial statements use modified accrual, but the government-wide statements use full accrual. In the following example \$250 of taxes receivable are accrued but \$75 dollars is not expected to be collected until after the following fiscal year. Under modified accrual, as practiced by governmental funds, that amount should be deferred so that it is not available for appropriation in the subsequent fiscal year. In fund 471 the deferral is reversed so that when fund 100 and fund 471 are combined at the government-wide level, the deferral is zero.

		FUND 100		FUND 471	
01	Taxes Receivable	250			
31	Tax Revenue		175		
02	Deferral of Long-Term Receivable		75		
02	Deferral of Long Term Receivable			75	
31	Tax Revenue				75

2.5.2 Inception of a Capital Lease

Under modified accrual a capital lease is recorded as a Capitalized Property Purchase expenditure and an Other Financing Source. Under full accrual a capital lease is recorded as an asset and a liability. In fund 471 the Capitalized Property Purchase expenditure and Other Financing Source balances are reversed and the asset and payable are recorded.

		FUND 100		FUND 471	
24	Capital Lease Purchase Expenditure	5,000			
31	Future Capital Lease Payments		5,000		
01	Equipment			5,000	
02	Leases Payable				5,000
31	Future Capital Lease Payments			5,000	
24	Capital Lease Purchase Expenditure				5,000

2.5.3 Capital Lease Payment

Under modified accrual the total payment is an expenditure of the current period while under full accrual only the interest cost is an expense of the current period. In fund 471, the Capital Lease Principal Expenditure is converted to a reduction of the lease payable.

		FUND 100		FUND 471	
22	Capital Lease Principal Expenditure	1,000			
22	Capital Lease Interest Expenditure	500			
01	Cash		1,500		
02	Leases Payable			1,000	
22	Capital Lease Principal Expenditure				1,000

2.5.4 Bond Issuance and Payments

Bond issuance costs and payments are handled very similar to capital leases described in Sections 2.5.2 and 2.5.3. Issuance costs, premium/discount, and gain/loss on refunding are amortized over the life of the bond in fund 471.

		FUND 100		FUND 471	
01	Cash	5,000			
31	Bond Proceeds (Face Amount)		5,000		
31	Bond Proceeds (Face Amount)			5,000	
02	Bonds Payable				5,000
22	Bond Issuance Expenditure	100			
01	Cash		100		
01	Deferred Bond Issuance Cost			100	
22	Bond Issuance Expense				100
22	Bond Principal Payment	1,000			
22	Bond Interest Expense	250			
01	Cash		1,250		
02	Capital Bonds Payable			1,000	
22	Bond Principal Payment				1,000
22	Bond Interest Expense			20	
01	Deferred Bond Issuance Cost				20

In order to determine the amount of fund balance to be restricted for capital assets, net of related debt, unspent bond proceeds must be reclassified. If bond proceeds are unspent at year end (a material amount still remains in cash) then that amount of Capital Bonds Payable must be reclassified to Non-capital Bonds Payable.

2.5.5 State Grants and Federal Pass-Thru Grants

Due to the need to eliminate interfund State Grants and Federal Pass-Thru Grants for the government-wide statements, but not the fund statements, agencies are required to use different object codes to record these grants. Federal grants passed-thru to another state agency should be recorded either in object code 5770 (intrafund) or 5771 (interfund) depending on whether they are intrafund or interfund. State grants and contracts should be recorded either in object code 5775 (intrafund) or 5776 (interfund) depending on whether they are intrafund or interfund. The matching subrecipient revenue source codes do not carry the intra/interfund designations, and therefore, agencies must be extra careful that the object coding correctly reflects the intra or interfund nature of the transaction. See Chapter 3 Section 3.17 for a table that defines intra and interfund transactions.

2.5.6 Other Items

Other items that are different between modified accrual and full accrual, and thus have to be accounted for in fund 471, are the amortization of bond premium/discount and the amortization of the gain/loss on debt refunding. You should contact your field accounting specialist if you have difficulty in recording these entries.

2.6 Special and Extraordinary Items

Significant transactions or other events within the control of management that are either unusual in nature or infrequent in occurrence are considered special items. Significant transactions or other events that are both unusual in nature and infrequent in occurrence are extraordinary items. Both of these items must be reported on Exhibit U.

2.7 Capital and Non-capital Grants

Agencies must segregate their grant revenues on COFRS between capital and non-capital grants for correct presentation on the government-wide Statement of Activities. If an agency has discretion as to whether the grant revenues may be spent on operating or capital items then the grant is always non-capital. If the grant is restricted by the grantor for capital items then it is a capital grant and the revenue should be recorded as such on COFRS. When the grantor specifies portions of the grant as capital and non-capital, and they are material to the grant, then the agency should pro-rate the revenue between capital and non-capital grant revenue source codes. The chart of accounts has additional revenue source codes for recording the revenue from capital grants (7430, 7530, 7630, 7730, 7770, and 7830).

2.8 Restricted Assets

Cash, investments, and receivables are to be reported as restricted when external creditors, grantors, contributors or the laws and regulations of the federal government place constraints on their use. Normally, federal funds are on a cost reimbursement basis and would not give rise to an asset to be restricted. These assets may also be reported as restricted when they are constrained by the state constitution or the provisions of the enabling legislation if it is contractual in nature. They cannot be restricted solely at the discretion of the legislature or agency management.

In order to determine the restricted net assets, agencies are required to account for the restricted assets, and the liabilities to be paid from these assets, in a fund other than the fund in which the agency accounts for its normal operations. Where this is not practical, agencies should account

for their restricted assets in the balance sheet accounts 1034 Restricted Cash, 1634 Restricted Investments, and 1345 Restricted Receivables. Agencies with restricted assets, not accounted for in a separate fund, should also make a fund balance entry at year end to the appropriate 32XX Restricted Fund Balance account for the amount of the restricted net assets.

When a fund contains both restricted and unrestricted assets, and these assets are fungible, the state must disclose which assets are expended first. Normally this would be the unrestricted assets. For example: The general fund diversion to the Highway User's Trust Fund (HUTF), which is unrestricted, is considered expended first, before the HUTF funds, which are considered restricted, are expended.

2.9 Risk Management Funds

On July 1, 2001 the state implemented GASB Interpretation No. 6 in conjunction with GASB 34/35. Under Interpretation No. 6, claims and judgments are accrued only for those known as of June 30. Incurred but not reported (IBNR) claims will not be accrued as a fund liability in the general fund. The incurred but not reported (IBNR) will be accrued as a long-term liability in fund 471.

2.10 Retirement Payouts

Under GASB Interpretation No. 6, adopted by the state effective July 1, 2001, the fund liability in governmental funds for compensated absences is accrued when paid. Agencies should no longer accrue retirement payouts in a governmental fund if they are payable after the end of the fiscal year.

If an employee, eligible to retire, announces that their retirement date is June 30 or sooner, then the agency must accrue a fund liability for their retirement payout, even if the payment will not be made until the July payroll. However, if the employee announces that they are retiring July 1 or later, then there is no expenditure or fund liability at June 30, as the retirement date is in the following fiscal year.

CHAPTER 10: SECTION 1

STATEWIDE SECURITY POLICY

CRS 24-30-201 requires the State Controller to:

- Manage the finances and financial affairs of the state.
- Coordinate all the procedures for financial administration and financial control so as to integrate them into an adequate and unified system, including the devising, prescribing and installing of accounting forms, records and procedures for all agencies.
- To conduct all central accounting and fiscal reporting for the state as a whole.

Colorado State Fiscal Rule 1-3 states that the State Controller is the official custodian of the financial portion of the database included with the state financial system. The official custodian prescribes the rules and regulations with reference to query, use or inspection of the financial records. The State Controller shall approve access to financial information contained in the database.

Colorado State Fiscal Rule 1-5 states that the State Controller is responsible for the overall security of the state financial system. The State Controller may delegate the security responsibility to state agencies for their portion of the financial database on the state financial system.

In accordance with State Fiscal Rules 1-3 and 1-5, the following statewide security policy shall be followed by employees, including contract employees, of all state agencies and institutions of higher education.

Definitions:

Security administrator - The person responsible for ensuring access to the state financial system is adequately controlled and monitored.

State Controller - The State Controller or his designee.

State employee - Any full-time, part-time, temporary, contract person, or independent contractor employed or hired by a state agency.

State financial system - The Colorado Financial Reporting System (COFRS), INFOPAC, Document Direct, the Financial Data Warehouse, CPPS and KRONOS.

1.1 Delegation

The State Controller is the statewide security administrator. The State Controller may delegate agency security responsibilities to the controller or other appropriate personnel within each state department. These delegates cannot further sub-delegate security responsibilities. Actual data entry ability on COFRS may be assigned to some one that reports to the approved State Controller delegate.

1.2 State of Colorado State Financial System Security Policy

In order to ensure that access to the state financial system is controlled, it is the policy of the State Controller that:

- Each delegated state agency security administrator will sign a security administrator agreement.
- Each delegated state agency security administrator will attend appropriate security training.
- Access to the state financial system is granted only for official state business.
- Each state employee given access to the state financial system will sign a security compliance statement.
- Access by a state employee will be limited to only what the employee needs to accomplish their job responsibilities.
- Each state employee given access to the state financial system will receive an individual user ID for access to the state financial system.
- All user ID's with access to the state financial system will require password protection.
- Access to the state financial systems will be deleted when the state employee no longer works for the state agency.
- Security administrators will perform periodic reviews to ensure the state agency is in compliance with this policy.
- Security administrators will not make changes to their own security.
- The State Controller may approve exemptions or waivers from this policy.

1.3 Policy Guidelines

The following guidelines may be used to assist state agencies with the implementation of this policy.

- When establishing user ID's for a state employee with access to multiple applications within the state financial system, the same user ID should be used, if practical.
- Department personnel delegated as security administrators should establish internal procedures to assist with granting appropriate security access to the state financial system. These procedures should include a process to add, change and delete users and may require lower level reviews of security access requests.
- Departments granted waivers from this policy are required to implement alternate controls to ensure access to the state financial system is adequately controlled. The State Controller must approve the alternate system of controls.

CHAPTER 10: SECTION 2

FINANCIAL DATA WAREHOUSE

The SCO/COFRS Financial Data Warehouse is a web-based reporting tool available to state employees. It is based on financial data collected in the State of Colorado's reporting system, COFRS. A complete set of accounting and budget data is available since FY01, and summary information is available for FY97 through FY00. Currently, over 350 reports may be created in real time according to user-specified parameters.

Ledgers (such as the general ledger and budget ledger) are updated nightly from COFRS data. The AFSC, AFSF, AFSI, AGNT, AGPR, APP2, APPI, BBAL, EXPB, GBLI and PRBL tables are also updated nightly. All other COFRS tables are updated each weekend.

To view a printable Financial Data Warehouse training presentation on the internet, please see: <http://www.colorado.gov/dpa/dfp/sco/FDW/fdw.htm>.

The reports are grouped by agency, organization, and department reports. Within each group, the following reports may be generated:

Daily: These reports include data for a single date or date range within the current and most recent accounting periods.

YTD/Period-End: These reports may be run for a specific month, through a specific period, or year-to-date for the specified fiscal year using radio buttons on the criteria page.

Multiselect: These reports are similar to the YTD/Period-End reports, but users are able to pull reports for multiple agency codes.

Budget: These reports show the expense budget status.

Create a Report: You may display a summary report of your own design in the Create a Report screen. Reports are available under the Agency, Organization, and Department groupings. Data is taken from a summarized trial balance file.

Within these groupings, reports are available as follows:

Balance Sheet: These reports show balance sheet amounts (account types 01, 02, 03 and 23) by fund. Drill-down reports are available for the detail of the amounts. Other balance sheet reports are available sorted by GBL and reporting category.

Expenditure: These reports show expenditure activity (account types 22 and 24) by fund. Drill-down reports are available for the detail of the amounts. Other expenditure reports are available sorted by program, organization and long bill line item.

Revenue: These reports show revenue activity (account type 31) by fund. Drill-down reports are available for the detail of the amounts. Other revenue reports are available sorted by program, organization and sub-revenue.

Encumbrance: These reports show encumbrance amounts (account type 21) by object group and object code. Drill-down reports are available for the detail of the amounts. Other reports are available for pre-encumbrance activity (account type 20).

2.1 Special Reports

Document Search: COFRS transactions meeting specific search criteria may be displayed using the document search forms. You may search for a vendor name, a transaction ID, an object, a revenue source, a balance sheet account or any combination of these. Transaction searches are available for operating transactions, balance transactions, both operating and balance combined, and budget transactions.

Create a Report II: This report is similar to the standardized Create-a-Report, however, you may pull the information for multiple fiscal years. Data is pulled from a summarized trial balance file.

Grant Reports: Grant reports are based on the AGNT and GBLI tables, and are available inception-to-date.

Other Reports: This page allows you to run customized reports for your agency or department. If you have any report requests, please e-mail COFRS.csg@state.co.us with the criteria you would like to see in a report. You will be contacted when the report is completed with information on how to run the report.

Statewide Reports: Reports are available for all agencies/departments on this page.

Table Listings: Reports on specific COFRS tables may be run for an agency or department.

Reports may be viewed in the following formats:

HTML page: A report may be displayed in your web browser as an HTML page. This is the default report format. You will need to use either Microsoft Internet Explorer version 5.0 or later, or Netscape Navigator version 4.7 or later. Cookies must be enabled.

EXCEL 2000 and EXCEL spreadsheet: A report may be exported to a spreadsheet that may be read by Microsoft EXCEL or other spreadsheet software. If you use Microsoft Internet Explorer, the spreadsheet automatically opens in the browser window. If you use Netscape Navigator, you may download the EXCEL spreadsheet and open it in a separate window.

EXCEL 2000 spreadsheet: The EXCEL 2000 spreadsheet format captures the complete report, including titles, headers, footers, subtotals and totals in spreadsheet format.

EXCEL spreadsheet: The EXCEL spreadsheet format includes only the data of the report. The report title, header, footer, subtotals and totals are omitted. This format is useful if you wish to re-arrange or delete certain columns in the report. You may also re-sort the report or display it as a graph or a pivot table by using EXCEL charting functions. If you need to document the date and selection criteria used to prepare the report, you must do so in a separate file or text box within the spreadsheet.

PDF file: In some cases, you may prefer the PDF report format to HTML for viewing and printing a report. Adobe Acrobat is required to read PDF files. When you select to view a report in PDF format, the Adobe Acrobat reader application should open within your browser, and you may view and print the report within it.

2.2 Website Sponsors

This website is jointly sponsored and funded by two divisions in the Colorado Department of Personnel and Administration: The State Controller's Office and the Technology Management Unit (TMU).

Under the TMU the Application Services group provides database administration, and user security and web page design, while Network Services supports hardware, operating system and network security.

The State Controller's Office develops most of the reports and provides training to agencies. There is also a PowerPoint training presentation about the Financial Data Warehouse available on the SCO website.

To obtain access to the Financial Data Warehouse, please fill out the **State of Colorado Financial Data Warehouse Security Access Authorization Form** on the State Controller's Office (SCO) web site. Completed forms should be sent to:

APPENDIX 2

COFRS CENTRALLY DEFINED CHART OF ACCOUNTS

The following are abbreviations for departments that appear in various object of expenditure and revenue source code titles for transfer and interagency transactions. These codes should always indicate the other party involved in the transaction.

DPA – Department of Personnel & Administration
DOAG - Department of Agriculture
DOC - Department of Corrections
DOE - Department of Education
GOV - Governor's Office
CDPHE - Colorado Department of Public Health and Environment
DOHE - Department of Higher Education
CDOT - Colorado Department of Transportation
DHS - Department of Human Services
JUD - Judicial Department
DOLE - Department of Labor and Employment
DOL - Department of Law
GA - General Assembly
DOLA - Department of Local Affairs
DOMA - Department of Military Affairs
DONR - Department of Natural Resources
CDPS - Department of Public Safety
DORA - Department of Regulatory Agencies
DOR - Department of Revenue
DHCPF - Department of Health Care Policy and Financing
DOS - Department of State
DOT - Department of Treasury

The complete COFRS Chart of Accounts is updated on the State Controller's website and on the Financial Data Warehouse, and is therefore available in electronically searchable format.

Questions about the changes to the chart of accounts or requests for changes to these account code tables should be addressed to David McDermott in the Reporting and Analysis section of the State Controller's Office. He may be reached at 303-866-2739.

The following five tables list the additions and/or changes made to the chart of accounts since the previous year's Fiscal Procedures Manual. Highlighted items represent the additions or changes; if the item was added to an existing superior classification, the superior classification has been included but not highlighted.

The following seven tables represent the COFRS chart of accounts as of February 28, 2004. The fund table is presented twice using different sort orders; the first sort is based on the fund number while the second sort is based on fund group, type, and category. In all seven tables, items that have changed since the previous year's Fiscal Procedures Manual are bolded and highlighted. Because of the large number of new transfer codes that are established annually, additions to the alpha transfer codes are not bolded or highlighted except in those limited instances where an alpha code has been used to track the balancing of a clearing type account.
